## Location

The property is situated in the Maer Nature Reserve a short distance from the beach in the seaside town of Exmouth. The Maer Road car park is approximately 5 mins walk away.

## Description

The Maer is a standalone single storey public toilet building with a floor area of approximately 368 sq. ft (34.15 sq. m), with separate entrance points to the facilities which comprise 2 female toilets, 1 male toilet, 1 urinal and a disabled toilet.

## Terms

The property is available to let on a new 25-year FRI lease. The lease will include a requirement for the tenant to provide a publicly accessible toilet facility in part of the premises, for the first 10 years. The configuration of the accessible toilet provision to be agreed as part of agreeing heads of terms (HOTS) and will be fixed for the first ten years of the lease. Thereafter the toilet facility can be removed, and this part of the building can be repurposed as required.

## Rent

Rental offers are invited – as the property could be repurposed for a variety of uses, subject to planning, it is down to a prospective tenant to determine the rent they can afford/offer based on their proposed use(s).

## Services

Mains electricity (single phase)  
Mains water & sewage

## Business rates

Business Rates are not currently payable on public toilets. Future business rate liability will depend upon use. Please make your own enquiries in this respect to the Valuation Office Agency – [www.voa.gov.uk](http://www.voa.gov.uk).

## Condition

The Property is to be let in a serviceable condition with no serious outstanding defects. All outstanding works will be agreed between the parties prior to occupation. If a building component is broken, it will be repaired, but anything that is dated or in poor condition but functioning adequately, will not be replaced, renewed or improved by the EDDC.

## Key considerations

Evaluation of any offer will focus on the proposed use of the building, with significant weight given to the prioritisation of a publicly accessible toilet facility in part and community uses which have a positive impact on the local community, environment, and economy.

## VAT

An option to tax has not been exercised, therefore VAT will not be chargeable on rent.

## Legal costs

Each party is to be responsible for their own legal costs.

## EPC

It is not believed that an EPC is required as energy is not used to condition the interior climate. However, please make your own enquiries in this respect.
