

Examination of East Devon's Community Infrastructure Levy Draft Charging Schedule

Consultation

In response to questions raised by the Inspector the Council has produced further evidence relating to the rates proposed in the Draft Charging Schedule.

The question below has been posed by the Inspector. Representations are not limited to this question but the consultation relates to the proposed changes only. **Representations relating to parts of the Draft Charging Schedule which are not proposed to be changed will not be accepted.**

1. The Council's response to the Inspector's concerns regarding the assumptions in the Viability Study relating to the net developable area and infrastructure/Section 106 costs for the Cranbrook expansion areas is set out in the 'East Devon Community Infrastructure Levy (CIL) additional report in response to Inspector's concerns'. Does this additional evidence justify the retention of the £68 per square metre rate proposed in the Draft Charging Schedule?
