I write to register my strong agreement with the Planning Inspector and the original findings regarding the East Devon Local Plan. It is imperative that Strategy 7 be included in the plan and should not be removed from the policy. Greendale/ FS Carter and tenants at Greendale have all shown their contempt for the planning authorities as witnessed by the number of retrospective applications submitted, and it is certain that if Strategy 7 is omitted they will take advantage of abusing any loophole left open.

The local lanes, all of which have become rat runs for the small vans and routes for the oversize tractors are being destroyed, Ancient banks are being denuded and the road surfaces destroyed on a regular basis. Lanes which have a metalled surface of 7' are not designed to take giant tractors with a wheel span of over 8' which is why the drains and surface edges are being destroyed and the banks eroded. In addition, the constant stream of ejected litter from these vehicles is contaminating and polluting our countryside
