Subject: EDDC Villages Plan

I am writing to support the proposed changes to the Village plan and in particular I would ask that policies VP05 and VP06 be included in full. The final sentence is an important inclusion.

Woodbury Salterton is being irretrievably spoiled by the seemingly uncontrolled expansion of Greendale Business Park. The traffic in the area is getting to a dangerous level, with so many large commercial vehicles going to and from Greendale that the lanes were never built to accomodate. All cyclists, pedestrians and horse riders are in constant peril, let alone the local residents in their cars.

Noise pollution arising from Greendale Business Park is also on the increase, a direct result of the continued expansion of the site. Yes, the Park provides employment opportunities but the site is now full and should not be allowed to further besmirch our reknowned Devon countryside. Enough is enough. The Inspector has already reviewed the state of affairs and submitted her recommendations, which I endorse.

Yours sincerely,

Nick Jones
