Subject: Strategy 7 of the East Devon local Plan

Hi

I am writing as a neighbour to Greendale Business Park and wanted to confirm the following.

I am not against development in general but this has to be at the behest of local needs and common sense.

I would like to support the proposed changes to the village plan and request that the polices VP05 and VP06 be included and are not changed or watered down.

It is imperative that a clear planning proposal is adhere to, so that no loop holes are created to further destroy open countryside.

The development of the business park must be in junction with local needs.

I feel very strongly that Strategy 7 of the East Devon Local plan must remain in its entirety.

Kind regards

Richard & Samantha Greetham
