

EDDC Villages Plan Consultation,
Knowle, Sidmouth,
DEVON, EX10 8HL.

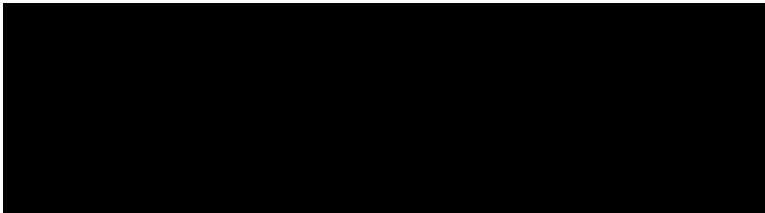

23 January, 2018.

Dear Sir/Madam,

Woodbury Salterton Village Plan

I support the proposed changes to the Village Plan, and specifically request that Policies VP05 and VP06 be included in their entirety. Apart from the threat of industry invading our rural haven, one of my main concerns is the increase in the volume of traffic on our narrow country lanes. I recognize the economies of scale with the large size of today's farm traffic, and realise that they have every right of access to these same lanes as I do, but when the local traffic starts to include massive construction equipment, major sized delivery lorries, etc., primarily servicing Greendale Business Park, my patience is exhausted. Not to forget the increased risk of accidents with pedestrians, cyclists and horse-riders trying to enjoy "our country life". We need to stop this encroachment of town into country, now, full stop. PLEASE!
