As a resident of the village of Farringdon, I fully support the inspectors words and specifically request that Policies VPO4 and VPO5 to remain (I understand that the District Council Strategic Planning committee have written requesting that the final sentence be removed).

Mike Allen commented that "The lack of residential neighbours means no loss of amenity"- this is inconsiderate nonsense- demonstrating lack of understanding and respect. As one of the residential neighbours having moved to a rural village for a rural life style with my growing family, any further expansion to Greendale and/or Hill Barton Business Parks are of concern to me for reasons including noise and traffic but just as importantly, the impact on the local wildlife, and I will always oppose.

Thank You for taking the time to read my comments
