**Subject:** East Devon Villages plan consultation

Dear Sir

As a resident of Farringdon, which is too small to be regarded as a village for your planning purposes ,we have a keen interest in the work which has been undertaken on parts of this plan, and in particular on the support given to the current boundaries of Greendale and Hill Barton business parks.

As someone living just 300 metres from the edge of Hill Barton business park I am most anxious that that this distance is maintained, and I have closely studied the appraisal on this subject prepared by your department earlier last year.

I therefore wish to support the Inspector's current proposals in full, and request that no change is made to what has been proposed by the Inspector for these two sites. The A 3052 is full to bursting point with heavy lorry traffic at peak hours.

Yours faithfully, Michael Pentreath, [REDACTED]
