Subject: Greendale Industrial Park Expansion - Strategy 7

Dear Linda Renshaw,

I am writing as a very worried resident of Woodbury Salterton. My worry concerns future plans for the destruction of valuable and ever diminishing Devon countryside by the omnipotent bulldozer that is Greendale.

There is a clause which acts as some degree of protection for local residents known as 'Strategy 7 of the East Devon Local Plan' contained in policies VP04 & VP05 of said village plan. I am aware of moves to remove this clause thus enabling groups such as Greendale to gain planning consent by stealth. 'Clause 7' MUST NOT be removed.

This is not a case of NIMBY 'ism, it is very much to do with common sense and protecting an ever diminishing asset, which when gone ... is gone forever !! East Devon is fast resembling one large council estate and before it's too late and people in planning realise, and say ... 'oh no, look at what we've done to Devon', action must be taken to limit the damage, especially non residential developments as is the case with Greendale.

I urge you to keep 'Strategy 7' in place and help protect Devon.

Your Sincerely
Mark Hawker
