Dear Sir / Madam

we have recently moved to Woodbury Salterton and I have had a flyer dropped through my door from the Woodbury Salterton Resident's Association.

I was dismayed to read that there is a movement for the hard work of the Village Plan to be undermined and that despite the Inspectors recognition that development in Woodbury salterton has reached its full potential, the removal of one line from this recommendation can undo all the hard work achieved.

It is imperative that Strategy 7 of the East Devon Local Plan must NOT be removed from the policy.

I find it extraordinary that simply by removing this in an underhand way from the policy, our village is no longer protected from over development and staggering disproportionate growth of Greendale. Where is honesty and integrity in this whole procedure?

Do not let us or yourselves down.

Yours faithfully

Ruth Reuben
