Dear Sirs

I wish to support the additions to the Village Plan for Woodbury Salterton, which as I understand it has now been through the stages necessary for adoption.

Planning Policy should protect our beautiful countryside from illegal development, and there seems to be an attempt related to the above application to establish a loophole that could permit the type of situations that have happened at Greendale Business Park.

There seem to be developers who feel they have a perfect right to carry out building without the necessary approvals, and then use a Retrospective Application once the work is completed. These seems to be completely unjust.

The Planning Inspector has made it clear that the additions to the Village Plan will prevent further development, and make the planning rules clear regarding development of Business Parks in the district.

Yours faithfully

V A Price (Mrs)
