The Inspector thanks you for your letter and has asked me to inform you that the Council will be shortly be consulting on the new evidence and proposed changes to the Local Plan. The Inspector will be producing a series of questions to aid that process and there will be a hearing to consider this new material. Your letter will be held and I will ask the Council to add it to the consultation responses. You may, of course, once you have seen the Inspector's questions, make further representations.
