Dear Mr Thickett

East Devon Local Plan – Proposed Plan Changes and Revised Evidence

I write further to the hearing sessions of July 2015 at which you requested that further work be undertaken. This work is now completed and accompanying this letter is an overarching report which includes proposed modifications to the plan. I also include a series of supporting technical reports that are referred to in the over-arching report.

I would advise that the proposed plan changes are primarily in respect of evidence from refreshed Habitat Regulation Assessment. I would also advise that they have not been considered by any Committee of this authority and therefore they constitute officer opinion and recommendation only.

In arriving at these final papers we have had very constructive dialogue with Natural England and I have been advised that they should be in a position to offer a formal comment next week that we will forward on.

I should of course be happy to supply any further information that would be of assistance.

Yours sincerely

Ed Freeman
Service Lead – Planning Strategy and Development Management

East Devon – an outstanding place
