Subject: Honiton Revised Sports Facilities Strategy
Attachments: revised-draft-honiton-sports-pitch-strategy.pdf

Dear Sir/Madam

I wish to register my brief thoughts in respect of the revised strategy for sports facilities to serve the residents of Honiton.

For the most part I agree with and support the proposed plans for the Football club, the Rugby club and the relocation of the Cricket club to its own venue.

However, the one issue I would ask to be reconsidered is the building of a sand-based pitch at the secondary school. The identified cost of £720K is significant, however the additional cost to build a 4G pitch would demonstrate better value in the longer term as it would enable a far greater range of use for all residents and as such would significantly outweigh the initial increase in investment.

Your sincerely

Ray Hennessy
