Dear Sir

Thankyou for your letter of 21/11/16 which as it's predecessor was not received until after the start of the consultation period to which it referred and once again your dedicated professionals are given far more time to produce reports than that allowed to respondents.

However, I cannot see that you have addressed any of the issues mentioned in my letter of 8 July 2016 in this revised report which also does not explain why it is suddenly so necessary to provide extensive and expensive facilities to a very small proportion of the community, all at the council tax payer's expense when there are so many other obligations that EDDC have taken on, most of which are underfunded.

I look forward to your reply.

R. C. N. De Voy
