Subject: Threat to St. Rita's land
Date: 01 January 2017 14:42:23

Dear Council,

St. Rita's Retreat should be applauded and not threatened as a site for football. Secondly, the effects, if the project went ahead, would be detrimental to the many purposes provided by the Holy Family Church. The local Council has provided very well for the rate payers of the town with supermarket developments, improved roads, housing for the aged, a new hotel including increased employment by allowing those plans to go ahead. Well done, the Council. However, the existing football field allows expansion within that area provided including updating parking facilities. Of course who owns the land in question is key to the Council's ability to impose planning permission but that aside the Retreat requires some degree of respect as do the parishoners of the Holy Family Church. One hopes the Council would seek football updating on another site and use the one third of St. Rita's land for its present purpose.
