

Proposed layout for the event to be held on the 21st March 2015 at Feniton School.

The primary aim of the event is to create engagement with the community of Feniton and to deliver pertinent information concerning the Neighbourhood Plan.

On the 21st we will be staging a similar event to the one that we hosted in the Feniton Village Hall. Having undertaken a review of the previous event it has been decided to enhance the various stations that the visitors will be asked to visit.

It will be noted that the visitors will be invited to receive information from each presentation area but beyond this it is hoped that they will gain some degree of information purely through discussions and interactions.
