

Dear councillors. *Tony McCollin*
Ref EEDC local plan appendix 2
Site detail. Settlement Honiton
Site reference GH/ED/39
Site address. Land south of northcote hill

We are Mr and Mrs Rex Harrison and we have here at [REDACTED] The Cedars at Otter Valley Park EX14 4PA in peace and quiet for 18 years we are 82 and 81 years old respectively
We are writing as we are unable to access your commonplace consultation site
We are strongly against the above project

There are two adjacent park home estates immediately beside this proposed area with the great majority inhabited by over 55 retired people with some singly and some disabled A small local bus is available daily for those without transport

We purchased our homes on the firm understand peace and quiet would prevail
The vulnerability of us all would be profoundly affect by the obvious ingress of children invading our open plan sited with trespass and noise,

We have no security on site and possibility of increases in crime if as fear for us at Andreas's in traffic at atime of day or night presents a noise problem and safety concerns and we are concerned alo about the environment and wildlfe

The existing narrow lane although to be modified will not improve access to th A30 and roads into town which are usually heavily congested in the summertime,

An easy access for emergency vehicles must be a priority as these lodges are easily inflamed whilst the local doctors and schools are already overloaded .We respectfully request you make our very positive and sincere position to the planning authorities

Kind regards

Rex Harrison
