Subject: Baxters Farm Development Brief Musbury

Dear Sir/Madam

This email is to strongly object to the above proposal of the site listed above.

I fully understand the council's need to reclaim and sell the land for building development and to make as much revenue as possible, however I am dismayed at the lack of thought or sympathy that you have shown by suggesting that a travellers' site would be in any way of benefit or use to a small peaceful village like Musbury. .

As you are fully aware this village is deemed as being placed in an area of outstanding beauty, and whilst I accept a small sympathetic development of affordable housing and or small units for businesses would be a consideration, the inclusion of a fixed travellers' site would be entirely inappropriate to the community. A quiet, rural, farming village and a travellers' community are in complete contrast to each other given that travellers have made a deliberate decision not to live as part of a community.

I would urge you to reconsider this proposal.

Yours Faithfully
