**Subject:** Musburyvillage, baxters farm development.

[REDACTED]

Dear Sir/Madam,

I have been a Musbury resident all my life and now retired, I am a committee member for our village hall so I will be very interested how Baxters farm development will be sold on to a developer, from your plans (so far) the houses seem quite close to the hall, our hall is used for many events some of them (bands, music & parties) if built too close we as a committee will have complaints.

The houses which you are proposing will hopefully fit in with other village properties, so they are sympathetic with the surrounding housing, especially on the entrance to Musbury village.

Conservation aspects, Swallows have nested here for years, this year there has been Barn owls nesting there, I am sure there are Bats in the old buildings too, so please can you insure the wildlife is looked after.

The prospect of a Community orchard is an idea for us all to think about, that would very much help the wildlife,

It could be a real benefit to the village, the school children could be involved with this too.

Community benefits. .... a travellers site has been proposed within this plan under community benefits, I am not sure they will be beneficial for our village, it will spoil the balance of village life.

Yours sincerely [REDACTED]
