Subject: Baxter's Farm

I am writing concerning the baxter's farm development. I like the look of the plan but would like to see some provision for light industry or craft as first suggested. I came to the meeting and also supported the community orchard although that was not noted- my family are keen and have knowledge and experience. I am also on the village hall committee and as a villager and a committee member am keen to see the hall obtain some extra land for parking and as an outside area for events. As the mother [REDACTED] I am keen to see housing that is within their means.
