

### **Exmouth Neighbourhood Plan – October 2018**

Firstly we would like to express our thanks to the whole Neighbourhood Planning team for all their hard work over the last three years in getting our Neighbourhood Plan t so close to the “finish line”. Having the opportunity to have a neighbourhood plan for Exmouth is a great thing but it is only possible because the NP Team have taken such care in listening to residents and building a plan that reflects these views.

As a group of local residents who live in the in the Brixington area we are very pleased to be able to add our enthusiastic support to whole document which we feel represents a great blueprint for the Town’s future development. In particular we are pleased to see the emphasis being placed on looking after our Natural Environment and hope very much that the voice of local residents is maintained in this and all other respects when the final version goes to referendum.

With grateful thanks,

On behalf of Marley Planning Group
