I wish to object most strongly to the possible development of this site.
 Access via Old Elm Road & Honeysuckle Drive is not suitable - with cars always parked on both roads all day & night.
 When turning out of Cypress Close at this time of year and in the spring when the sun is low in the sky in the morning you are blinded when looking up the road and CANNOT see cars coming until they are on top of you coming down Honeysuckle Drive at some speed!!!!
 These fields help to soak up the water when it rains and extra housing will only increase the amount of water in the runoff down the streets.
 Sewerage & drainage systems which are already overloaded.
 Please Do Not allow building on

this site and reject any applications
to do so.

Jews sincerely

MRS. J. E. MILES
