Dear Sirs,

This email relates to: Planning Honi\_01

I am objecting to the proposed new housing development on the grounds, the local services are already struggling to cope, have you not tried to get a GP's appointment of late!! There are not enough GP's, Dentist's, Teachers/Schools to attend the current local population.

Does EDDC expect the current residents to put up with the possibility of flooding due to development location?

And as for the proposed access route of Honeysuckle Drive this is ludicrous, how can this small road cope with a possible extra 300 + cars?

Would it not be prudent for EDDC to address all the current issues before allowing yet another large development, which cannot be serviced?

Yours faithfully

Mrs Hazell
