

Examination of the New East Devon Local Plan 2006-26

**Hearing 12
09:30 Friday 28 February 2014**

Open Space, Leisure & Community Facilities

1. Are the open space standards set out in Strategy 43 supported by robust and reliable evidence?
 - 1a. Should the policy include a presumption in favour of open space being provided on site?
2. Would Strategy 43 as proposed to be modified empower the Council to require more than the minimum standards?
3. Should different standards be applied to accommodation/housing for the elderly?
4. In securing alternate provision to offset any loss of open space/playing fields, should Policy RC1 also require that the alternative space also addresses any shortfall in provision in the area?
5. Does the Plan make adequate provision for community leisure facilities across the District?
