

Please find attached the comments that Axmouth Parish Council have to make on the East Devon Local Plan.

The comments are as follows :-

quote

The village of Axmouth lies on the main access road into Seaton from the east along the B3172. The regeneration of Seaton has commenced and will continue to progress, causing the deterioration of this historic village as the number and size of HGV's and general traffic passing through the village increases. Members have acknowledged that traffic calming measures and a feasibility study for a relief road, which is supported by 83% of the parishioners (40% response rate), should be identified for potential investigation during the life of the plan.

unquote

We trust that they will be accepted and included in the final Plan document.

I have submitted these by the EDDC website - but it has to be said it was definately not easy and took about 20 minutes just to find my way in and locate the the section and sign in point, and I know the EDDC website quite well. Hopefully I have entered the comments against the right Chapter number using our allocated log in number.

regards

Carol Miltenburg
Clerk to Axmouth Parish Council
