Dear Local Plan Policy Team

As required by the LDF Farringdon Parish Council have recently discussed the future housing and community needs of the village for the forthcoming years up to 2026.

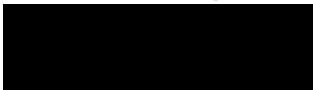

A proposal for a small number of houses has been put forward which is very much in line with our parish plan and includes community areas such as a village green and allotments.

We intend to hold a full consultation with the community. This will include holding public meetings to discuss the proposal, sending out a detailed questionnaire and fully collating the results.

We would be very grateful if you could give us an extension of time in order to undertake the consultation in a professional and thorough manner. We would endeavour to give you our final response on the matter by 24th February 2012 latest. If we are able to forward this earlier we will of course do so.

Many thanks for your help and assistance with the matter. We also appreciate the help Matt Dickens gave us on the telephone today

Yours sincerely

Alana Sayers Clerk to Farringdon Parish Council
