<b>What we do and who we deliver to</b>	<p>The Place, Assets and Commercialisation Service was newly formed in January 2020, bringing together key disciplines to deliver</p> <ul style="list-style-type: none"> <li>a) place-making projects across both the Council's own portfolio, as well as through working with others</li> <li>b) the efficient and effective management of the Council's assets ensuring both financial and non-financial performance is maximised, using assets to generate a commercial return where possible and disposing or repurposing of poorly performing assets</li> </ul> <p>We are committed to delivering prosperity for our communities through development and investment in place-based projects and the best use of our asset base. We invest in and make optimal use of the Council's land and property assets to achieve both transformational change and to optimise the value of our assets to the community, Council's revenues and service delivery. This has never been more important than now following covid, the economic challenges facing the District and the route map / pipeline of projects to support economic recovery.</p> <p>Our focus is on delivering investment and development in priority locations in East Devon to enhance our places and their communities. We prioritise sites, especially those in the Council's ownership, that have development potential and can offer significant economic growth and community benefit.</p> <p>Key functions of Place &amp; Prosperity Team:</p>

- Develop and deliver place-making strategy and associated development projects
- Secure new funding sources to enable development projects and investment opportunities.
- To work with the council's own resources to deliver better places eg Commercial Investment Fund, Enterprise Zone, covid economic recovery funding (business rate pool, discretionary grant scheme allocation, RHSSF and others) along with the corporate asset base itself.
- Identify strategic and practical means of improving and strengthening the defining places of East Devon: its towns and town centres, commercial centres and other key locations.

## Section 2 – Key achievements in 2020-21

	<i>Briefly describe key achievements and what outcomes were created. This will inform Annual Report at year end.</i>	<i>Strategic link to Council Plan priorities</i>
	<b>Estates Team</b>	
	Increased rental income through rent reviews, lease renewals and new lettings by £24,357 from 1st April 2020 during challenging market conditions.	Outstanding council and council services  Outstanding economic growth, productivity and prosperity
	Completion of revaluation of assets with a value of £74m for inclusion in the Council's Statement of Accounts.	Outstanding council and council services
	Delivered rent deferment scheme for tenants struggling to pay rent during lockdown. Supported tenants generally through covid 19, signposting to other services or grants where applicable.	Outstanding economic growth, productivity and prosperity
	Significant enhanced support to Council's HRA in respect of RTB valuations and also buy-backs of both dwellings and flatted HMO's. Consequently less work now outsourced by HRA.	Outstanding council and council services

	<b>Property &amp; FM Team</b>	
	Precautionary measures taken in Blackdown House, Exmouth Town Hall and other similar properties encompassing restrictions of access to desks and other social distancing measures, specialist signage, provision of hand sanitiser equipment, supplies, cleaning and other associated items.	Outstanding council and council services  Outstanding place and environment
	Since the start of the first lockdown, reactive maintenance has needed to continue to our properties and this has required Covid precautionary measures to be undertaken by our in-house Maintenance Technicians, in-house Surveyors and contractors. We have ensured compliance with social distancing requirements – a situation that has been difficult to achieve on occasions especially when repairs to beach huts and public convenience have been involved during the busy summer holiday periods	Outstanding council and council services  Outstanding place and environment
	The Team has also been involved at two properties in Exmouth, Bumble & Bee Café and Exmouth Pavilion both of which had been subject to arson attacks. Associated reinstatement works are being undertaken presently with completion due by February 2021	Outstanding council and council services  Outstanding place and environment
	A project taken forward for repair and renovation works at Honiton Swimming Pool. The previous approved budget for this work was proven to be inadequate following a further investigation into the issues with the floor screeds and water ingress both externally and internally. A new scheme was created with Council agreeing the matter on 9 December. These works will be tendered shortly and potentially commence during Q1 2021. Works will include consideration for energy saving measures such as photo voltaic panels and ground source heat pumps	Outstanding council and council services  Outstanding place and environment
	Reactive maintenance in the period has included work to beach huts, sports and leisure centres, public conveniences, esplanade shelters and other properties. This has included the updating of the toilets in the clubhouse at Warren View to ensure Covid compliance and availability for safe use by those attending football games.	Outstanding council and council services  Outstanding place and environment
	One significant aspect undertaken by the Team and which has been more onerous than past years has been landlord health & safety compliance, with numerous reports and surveys being undertaken at properties for such matters as asbestos, fire risk assessments, legionella, boilers and heating, life safe systems, PAT testing,	Outstanding council and council services  Outstanding place and environment

	lightening protection, fire extinguishers etc. Reports are carefully considered and where applicable remedial actions are being identified with the associated recommended works being organised.	
	Property stock condition data has been reviewed and updated, including the identification of potential high level costings for associated investment and management over the next 30 years. Net present values have been established for all building assets. The information will be reviewed with a priority planned programme of planned maintenance works being drawn up for roll-out from beginning of 2021 / 2022 financial year. Performance data will inform future asset management decision making. This project, now concluded has been a significant piece of work taking 2 years.	Outstanding council and council services  Outstanding place and environment
	Procurement has commenced for maintenance works contracts due to commence from April 2021 following the conclusion of the current agreements at the end of March 2021.	Outstanding council and council services  Outstanding place and environment
<b>Place &amp; Prosperity Team</b>		
	Following the covid outbreak, and as part of the Devon and Torbay One Public Estate (OPE) Partnership Programme Refresh and with a threat towards our existing funding allocation it has been agreed with OPE Regional Team that the existing Thriving Towns funding for Exmouth and Axminster should be amalgamated to form an East Devon Thriving Towns mini-programme. This will provide greater scope and flexibility, greater alignment with OPE project requirements, allow more central government partners to be involved and create more opportunities for sharing the public asset base and service collaboration. In addition to the 2 local authorities, the NHS, Police and central government departments will be actively involved in the programme. The Team successfully retained the funding already allocated and worked with professional advisors and Cabinet Office to scope out this East Devon Thriving Towns mini-programme.	Outstanding council and council services  Outstanding place and environment  Outstanding economic growth, productivity and prosperity  Outstanding Homes and Communities
	Further progress has been made with improvements to operations at East Devon Business Centre this year with the installation of a new door entry system which reduces the need for staff from 2 to 1 person with resulting efficiency savings. The Business Centre has seen a reduction in the number of tenants this year and having reached 100% occupancy in recent years, is now at around 65% due to covid 19 and has affected the rental income for the centre. Consequently additional management has been required, both in	Outstanding council and council services  Outstanding economic growth, productivity and prosperity

	<p>terms of communications with tenants through these difficult times but also in re-letting vacant offices. Following the autumn marketing campaign we now have 2 new tenants that are hoping to move in, early in the new year. This will leave us with 5 out of the 19 units vacant. Marketing will continue in the new year.</p> <p>The Business Centre was able to assist the 3D Crowd, a group of volunteers who were making protective face visors for front line workers in the spring and this is something we are very proud of.</p>	
	<p>The Re-opening High Streets Safely Fund (RHSS) programme. East Devon District Council has been given an allocation of £130,992 (based on population as a proxy for footfall). The monies are from the European Regional Development Fund (ERDF).</p> <p>The team is co-ordinating delivery of this funding programme which aims to deliver a footfall survey; safety measures to High Streets including signage and sanitisers; business support and advice and a Covid Safe High Streets promotional campaign.</p>	<p>Outstanding council and council services</p> <p>Outstanding economic growth, productivity and prosperity</p>
	<p>Seaton Wetlands Link Project. This comprises a number of project interventions to create a link from Seaton Jurassic and Seaton Tramway, up to Seaton Wetlands.</p> <p>For one of these projects, the team has worked with the team at Seaton Jurassic (Devon Wildlife Trust) to bring forward their proposals for phase 2 of Seaton Jurassic which will see an extension of the outdoor space next to the centre, creating both a pay to enter area and a free access space that highlights the themes of Living Seas, Living Landscapes and Living with Nature. The team will work closely with Countryside Services to ensure that the council's climate change agenda is promoted as well as the work at Seaton Wetlands.</p> <p>A separate project is being progressed with the Countryside Services Team to create a pedestrian access route into Sheep's Marsh.</p>	<p>Outstanding council and council services</p> <p>Outstanding place and environment</p>
	<p>The Queen's Drive project continued with a focus on the delivery of Sideshore, the new Watersports Centre by Grenadier Estates within phase 2 of the site. Despite the lockdown period from spring 2020 through to the early summer, Grenadier were able to make up for lost time on construction work so that Edge Watersports could open their part of the centre in September 2020. It is expected that the Michael Caines restaurant, known as Mickey's will be open in March 2021.</p> <p>Phase 3 is now to be reconsidered by the Queen's Drive Delivery Group which has now reconvened.</p>	<p>Outstanding council and council services</p> <p>Outstanding place and environment</p> <p>Outstanding economic growth, productivity and prosperity</p>

	Queen's Drive Space (temporary uses) was affected by the covid outbreak in the early months of the year and remained closed until July. There were no events held this year, but the remainder of the site, comprising the free play and food and beverage facilities offered the opportunity for families and friends of all ages to relax and enjoy the coastal location.	Outstanding council and council services  Outstanding place and environment  Outstanding economic growth, productivity and prosperity  Outstanding homes and communities

**Section 3 a – Looking forward: any Service challenges or pressures for the next three years?  
(Revenue/Capital)**

1. Ensuring there is an understanding and recognition by decision makers, of the complex issues relating to any land transactions, new build development and the delivery of place making projects in our market and coastal towns, all of which by their very nature can be contentious to local residents.
2. Resourcing challenges have had a significant impact on service delivery over past year. Additional resource is now being obtained, but work is also needed to ensure business resilience during staff long term absences. These issues need resolving to move forward and deliver on the objectives.

**Section 3 b– Looking forward: options for doing things differently – this section is vital due to the funding gap we face over the next few years.**

**Please outline any opportunities to do things differently using the following key strategic themes:**

**Commercialisation**

## **Fit for purpose**

### **Careful choices**

1. Commercialisation - Taking a commercial approach to assessing opportunities for new workspace provision that can both support the local economy and new/established businesses and also contribute to the revenue income for the council.
2. Commercialisation - Continuing to progress a commercial approach at East Devon Business Centre to ensure that cost savings and efficiencies are made whilst remaining fit for purpose for the needs of tenants and others using the meeting room facilities.
3. Commercialisation – A conscious but managed departure from risk avoidance to risk management to ensure commercial income generation from existing and new assets can be derived.
4. Fit for Purpose – Ensuring a staffing structure exists to deliver the ambitious objectives.

### **Section 3 c – Looking forward: Changes to measures and performance indicators - what we will measure, how often and for whom**

<b>Measure/indicator</b>	<b>How often – monthly, quarterly, bi- annually, annually</b>	<b>For whom? 1. Failure to attract external funding resources towards the delivery of place making/economic recovery / development projects due to projects not being 'shovel ready'	Significant	Likely	<p>Increasing focus on proactive pipeline of future projects, value engineer projects or deliver in part, to ensure projects can proceed without external funding if necessary.</p> <p>Identify non-government funding sources that may be able to offer support and work with partner organisations.</p>
2. Significant uncertainty in general economic outlook impacting on rental and capital values	Significant	Likely	Ensure the Council does not overly expose itself, and seeks a balanced spread of risk.

## Section 8 - Equalities and safeguarding

New / emerging equalities risks	Impact Level [High, Medium, Low]	How managed/controlled

## Section 9 – Climate change

**There will be a corporate action plan around climate change but please note here any particular climate change initiatives which will be implemented within your service.**

Ensuring that any proposed project outputs/interventions give a strong consideration to environmental sustainability and promote lifestyle choices that take account of the climate change emergency and other environmental criteria.
Ensuring that any new built development is developed using sustainable materials and construction methods. Subsequent operation of buildings will aim to minimise energy use or generate their own energy using renewable resources, taking account of the site and financial constraints.
Promoting the climate change message through partner projects such as the Seaton Jurassic visitor centre operated by Devon Wildlife Trust.
Ensuring energy efficiency of Council owned non-housing buildings along with minimising the carbon footprint on maintenance and improvement works and materials.
All Officers are environmentally aware and keen to play a full role in implementing the Climate Change Action plan.
