3. Please provide full details of your comments in respect of the Modification that you have identified and be as precise and succinct as possible.

HLM and TW have set out extensive representations in relation to Policy CB10 Affordable Housing in relation to they submission policy and throughout the examination – including in particular in relation to the proposed inclusion of an overage clause/review mechanism if affordable housing is provided below the policy requirement.

It is disappointing that these are not picked up in the proposed Main Modifications (specifically MM15) although the concerns remain for the Inspector to consider.

These comments are limited – as is required – to the proposed changes introduced by MM15.

In this regard HLM/TW see no reason or basis for modifying the word will to may. It would appear to be a matter of accuracy or fact that a varied mix from the prescription in the policy will be appropriate if it complies with national policy or guidance.

Secondly HLM/TW so no specific reason, nor recall discussion at the examination, to warrant the the element of the modification that would require the methodology of any viability assessment to be published. If the viability assessment – or sufficient elements – are published then there is no benefit in publishing the methodologies behind them. Moreover such methodologies will generally include confidential and sensitie information which should not be so published.

4. Please set out what modification(s) you consider necessary to make the “Cranbrook Plan Modifications” legally compliant or sound, having regard to the reference you have identified at Q1 above where this relates to soundness. You will need to say why this modification will make the Cranbrook Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

For the reasons set out in section 3 above above the following suggested amendments to the Proposed Modifications are proposed.

Delete “may” and reinstate “will” in para 5

Delete “including methodologies” also in para 5

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification.

Representations by both post and email must be received by 5pm Monday 28 February 2022
