Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.1

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

CHAPTER 5 – DEVELOPMENT IN TOWNS AND VILLAGES

Of the @1,600 house proposed in the Otter Valley under the plan 840 of these will be in Honiton plus @ 30 acres of commercial development and @ 480 in Ottery St Mary where there has been no mention made in the plan or in the IDP of any infrastructure improvement to clean water supply or foul water treatment.

Full name: Alan Williams

Organisation (where relevant): Grass Roots Planning

Other party name (if relevant): South West Strategic Developments Ltd

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.1

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

Full name: Nigel Humphrey

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.1

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. At the Strategic Planning Committee (SPC) meeting on the 1st November 2022 a total of 17 sites had NEW 'a' and 'b' site references added for inclusion in the Reg 18 Consultation process. None of these NEW sites were discussed/approved at this meeting, they were only introduced as part of the report pack for this meeting within the site maps, and no reason was provided for the introduction of these new sites (I have attached details of these sites as evidence below). There was a resolution passed at this meeting on the 1st November 2022 as follows 'Delegated authority be given to the Service Lead – Planning Strategy and Development Management in consultation with the Chair of Strategic Planning Committee, to finalise the plan for consultation. To include making minor changes to correct possible factual or grammatical errors, ensure links to background reports are made and other minor amendments that do not materially change content;'. I have received written confirmation from the current Chair of the SPC stating that 'Neither Mr Freeman nor Mr Dickins nor myself have any authority to unilaterally remove (or, indeed, add) sites from the plan', (see attached evidence for this submission). The inclusion of 34 NEW sites cannot be seen as 'minor'!!! None of these 'a' and 'b' sites are mentioned in the HELAA, Sustainability Appraisal Report or in the 'Sites Additional Information' documents. These reports and documents form the KEY evidence to support the Draft Local Plan for the Reg 18 consultation. The breakdown of the original site references into two parts completely changes the descriptions for each individual part of the site, and should have been discussed in detail and correctly assessed and agreed by the SPC. A change of this magnitude should have been identified somewhere, but there is no evidence in the meeting notes or YouTube videos that this ever took place.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.1

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Policies fail to address Objective 2 of The Vision, that is, tackling the climate emergency, Objective 6, high quality development, and Objective 9, encouraging walking & cycling. For Objective 2, it fails to recognise that Exeter is the major draw for employment and that most journeys will be made between there and the new housing areas. Placing all new development close to Exeter is essential to achieving Objective 2. Objective 6 will not be met by isolated developments on the peripheries of existing settlements. Only large-scale development can provide for high quality developments. The Cornish example of Nansledan shows what can be achieved towards Objectives 2, 6 and 9 through a comprehensive and carefully considered housing provision. East Devon District Council has the opportunity to demonstrate its abilities and commitments to truly delivering a world-beating vision through a major planned expansion through an enlarged proposed second new community, Policy SW01, rather than piecemeal relatively small-scale developments at the edges of existing communities. For Objective 9, permitting 'edge development sites' for new housing at existing communities fails to address the Objective. It is unrealistic to expect people to walk or cycle given the distances and the natural terrain. To give but one example, development on the edges of Ottery St Mary are too far for people to walk to the central shopping area (and other facilities) and the steep valleys further severely mitigate against foot and cycle travel for a number of the locations. Moreover, off-street vehicle parking in the central area is already used to capacity and your proposals fail to address the consequences or provide for any positive resolution.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will

be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Policies should be radically redrafted to address such matters. In particular, it should advance the proposed second new community, WS01, as the solution and increase its size such that development on the edges of existing settlements are unnecessary.

Organisation (where relevant): Blackdown Hills National Landscape

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.1

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: We consider that the overall approach to allocations does not adequately address your duty to seek to further the conservation and enhancement of the National Landscape. As such it is not justified, effective or consistent with national policy. These comments apply to the main plan document and to Topic Paper SAL – 048 Major Development in National Landscapes.

We have identified the following shortcomings:

1. Strategically, what alternatives have been considered? Of the overall housing and employment numbers, the number in or adjacent to the National Landscapes is relatively small, and of those some will be within settlements or otherwise acceptable (some examples are given of large sites where the bulk of development is some distance from the protected landscapes). However, in terms of conserving the integrity of the protected landscapes, the impact is considerable, and might alternatives such as fewer allocations in locations such as Honiton and more allocations at Cranbrook/West End be an appropriate measure?

Whilst noting the local plan strategy/settlement hierarchy, we suggest there is still a need to reflect on that in the context of the NPPF – paragraph 182 (Dec 2023), which is clear that ‘the scale and extent of development within all these designated areas should

be limited’ and also recognises that ‘development within their setting should be sensitively located and designed to avoid or minimise adverse impacts on the designated areas’.

2. The site assessment process was not applied from the outset of plan preparation, i.e. it was applied retrospectively to many sites rather than taking a landscape-led approach to informing site choices.

3. A consistent process, including consideration of natural beauty factors, to identify whether a site could be deemed major in a protected landscape context is a positive approach, but is not the same as actively determining whether that development at that location would serve to seek to further the purpose. For this, a more detailed consideration of the site allocation in relation to special qualities would be required.

Issues and impacts on the conservation and enhancement of natural beauty to consider include;

- The effects of the introduction of built form and associated infrastructure
- Topography – steep slopes likely to require significant earthworks/ retaining structures
- Impact of light spill from street lighting or windows on areas noted for dark skies
- Impact on tranquillity through increased levels of site activity and increased traffic movement on surrounding roads
- Whether major road alterations be needed, or the more insidious erosion of local distinctiveness (e.g. visibility splays, highway infrastructure)
- Loss of trees/ hedgerow/other noteworthy habitats
- Impact on watercourses/ waterbodies
- Construction phase impacts including potential off site impacts, e.g large delivery vehicles or construction plant accessing narrow winding lanes.

4. The site assessment tables (landscape and scenic quality) focus on the site, however the site should be considered in context as part of a wider landscape of special qualities; for example one individual field may not demonstrate outstanding qualities in itself, but it is an element of a field patterned patchwork landscape, all unspoilt and undeveloped, which is a valued quality. It may also be part of a vista viewed from afar, another special quality, which would be adversely impacted by development.

5. The site assessment tables demonstrate a lack of appreciation and sensitivity to natural beauty and special qualities, illustrated by a simple example; for nature of development, each housing site includes 'Housing –predominantly two storey (8.5m to ridge), possibly some 2.5 storey (9m to ridge) and 3 storey (10.8m to ridge) where appropriate'. There is simply no historical precedent for 2.5/3 storey dwellings in the Blackdown Hills, and even the modern 8.5 metres house is taller than many traditional cottages. Such buildings would not conserve and enhance natural beauty and should be avoided.

6. Some of the sites are very late introductions into the local plan (Honi_12 and Honi_18 for example), which has not allowed for full public consideration and scrutiny.

7. Some of the allocated sites, e.g. Honi_07, Honi_12, Honi_13 and Brhe_09, are noted as having heritage and landscape sensitivities. It is questionable therefore as to why these are being pursued, and does allocation of these (and others) in or adjacent to the National Landscape(s) really seek to further the purpose?

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Ultimately, reconsideration/removal of some sites that are in or adjacent to the National Landscapes would address the above concerns.

Greater consideration of impacts and implications of policies and allocations in relation to seeking to further the purpose of the National Landscapes.

At the very least, further guidance/parameters/requirements should be set out for each allocated site, and paragraph 5.2 (and elsewhere) should provide better signposting to key policies elsewhere in the plan, noting where design, etc is particularly key to the acceptability of future proposals.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.1

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Upottery Parish Council Response to Regulation 19 Consultation on East Devon District Council Local Plan 2020-2040

Thank you for the invitation to respond to the Regulation 19 consultation on the draft EDDC Local Plan. We recognise that the consultation response is restricted to specific aspects. We have previously made representations in writing and at Planning Committee meetings regarding the process by which the plan was developed, and in particular the application of the spatial strategy to Upottery.

The Parish Council's position is that we see a need for modest, sustainable growth in housing of up to 20 new homes over the period of the Local Plan. Upottery has, however, been classified as an 'unsustainable' settlement and therefore the Plan makes no provision for such growth. We have previously stated our concerns about the process involved in coming to this conclusion, which attaches significance to outdated facilities such as libraries while ignoring modern amenities such as superfast broadband; as a result we feel our thriving and vibrant community with a busy pub and popular school has been judged unfairly. The binary choice between 'unsustainable' and 'sustainable' seems to equate to a dilemma between being foisted with the possibility of large developments and the denial of the modest growth our community needs. Judging all settlements against a single comparatively simple scale does not reflect the diversity and qualities of communities in this area.

For these reasons, we are raising a question over the soundness of the plan, in that by failing to meet our Parish's housing needs it is not positively prepared, and in that we do not think the process of determining the status of settlements is sound, that it is not fully justified.

Organisation (where relevant): South West Water

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.1

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

The Site Allocations proposed within the chapters Development in Towns and Villages and Development at the West End of the proposed Local Plan have been modelled by SWW and have provided within its previous consultation response an assessment on initially identified reinforcement works necessary to accommodate each site identified. Further assessment will be required in due course as developments progress and details become available for evaluation.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5.5

Full name: Jonathan Milsom

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.5

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed development (Honi_18) to add 136 houses to the rear of King's Road in Honiton does not appear to be sound. The selection of this site does not appear to have had the correct level of positive preparedness (using the taxonomy of the commentary process) due to the introduction of another busy access point to the A35 that will add a traffic choke point and increase the likelihood Road Traffic Collisions (RTCs).

The proposed estate would require access to 136 houses from the very busy A35 main trunk road between Honiton and Axminster. This road already has a very high level of largely through town traffic flow with heavy lorries, vans, commuter and seasonal tourist car traffic that need to pass through Honiton as there is no other alternative to join the A30 from the South Coast.

Access to the estate would either need to be opposite the existing Waterleat Road junction (which already often has long queues to join or exit from) to the existing farm track entrance or at a new access above it between Waterleat Road and 2 houses located approximately 150m away. Due to the route of the A35 any new entrance to the housing estate would be obscured to traffic coming downhill on the A35 until they pass the 2 houses.

The A35 is a 60mph road with tight bend (that does slow the traffic to some extent as it enters Honiton) but the addition of a new junction below the 2 houses above with the addition of more traffic trying to access / leave the A35 at peak commuter time is likely to become a further choke point on the roads around Honiton and increase the likelihood of RTCs.

I understand that there is a need to build more houses in the UK and that Honiton need to contribute to that but of all the sites proposed for development around Honiton, Honi_18 seems to offer the most downsides due to its proximity to the A35. The increased congestion and risk of RTCs will have an impact on all users of that road.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Access to this estate from the A35 comes with considerable additional risk of RTCs and further congestion.

To make this proposal sound then the route of the A35 will need to be changed so that the any proposed entrance to the Honi_18 will be visible to traffic entering Honiton from the Axminster direction. A further option would be to consider a complete re-route of the A35 to avoid the need for through traffic to use the roundabout at the junction of the A35 (Monkton Rd and King's Rd) and A375 (High St).

The other option would be to use Hale Lane as an entrance to the estate. This again would add further traffic volume joining the A35 at another busy junction.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5.6

Full name: William John Pope

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.6

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Because implementation is extremely likely to result in damage by flooding to existing properties I believe that implementation would be effectively criminal damage

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Don't build on GH/ED/27 & Otry-10 because to do so would be likely to put buildings and even life at risk

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:
These areas are unsuitable due to position and slope which would result in a high chance of flood risk

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the

relevant policy or paragraph. Please be as precise as possible.: Exclude GH/ED/27 & Otery-10 from list of proposed development site as they are unsuitable.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5.8

Full name: Sarah Bevan

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.8

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Not sure if it is

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: na

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposal to recommend Sidm-31 is completely unsound. This was correctly rejected in the current adopted plan and nothing has fundamentally changed.

By your own admission it was correctly rejected again this time round but added almost half heartedly because of representations by the current owner/developer. It is in the AONB designated area (now called National Landscape) and outside the current built up area boundary. It should remain so to protect the landscape and countryside from unnecessary development. It is by your own admission within the proposed green wedge (currently within the 'Sidbury-Sidford Non-Coalescence Area' in the 'made' Sid Valley Neighbourhood Plan).

The landscape value is Very High and with High/Medium landscape sensitivity. It is incorrect to say that access is good It is not. Burscombe Lane is a narrow country lane past the site with no ability even for cars and pedestrians to pass on the Lane, and then has a very narrow section with no footpath which is not wide enough for even medium sized commercial vehicles. These have to stop beforehand and unload into smaller farm vehicles to get past the narrowest part.

The Sidmouth site selection report says a possible second access site could be into Windsor Mead. However there is no current access and it would require the loss of gardens from 2 houses. In any event Windsor Mede is itself a reasonably narrow road with very poor access onto the main coast road, having very poor visibility to both right and left which cannot be improved because of the hight of the land on each side of the junction.

In addition there can be no justification to extend the built up area boundary and build further into the National Landscape when there are other infill sites in Sidmouth within the built up area boundary.

For example the main reason for rejection of site Sidm-22 was that part of the site was currently used for Employment purposes. However the north part of the site is not built on and only sparsely used for storage. combined with part of Sidm_20 this area could be developed for housing with good access onto the main road and with far less restriction on the height and type of housing.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: To make it sound it needs all reference to Sidm-31 being removed from the paragraph 5.8. The reasons being set out at 3(b) above

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please

be as precise as possible.: the Site selection report admits the site has not been through the Housing and Economic Land Availability (HELAA) process and therefore does not have proper and adequate comments from DCC Highways or DCC Education. Furthermore I cannot see that it has been adequately and fully consulted with Environmental protection.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure a proper review of the site has been undertaken

Full name: Anthony Bevan

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Paragraph

1(a). Please write down the paragraph, policy or figure number that your representation relates to.:

5.8

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: This area is part of the ED AONB and it cannot be right to destroy this environment by when other unused land that is not part of the AONB is available. It would also be unacceptable to build on this land which is prominent in the local landscape

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Delete all reference to this proposal

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: For the reasons given at 2 (b) above

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Delete all reference to this para. If there is a need for the provision of 15 houses in the plan then find another area which is not part of the AONB such as the field between Bickwell valley and Boughmore Rd.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: because it does not comply with the need for environmental protection

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Because we need to ensure the protection of the AONB

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

Dorset Council feel that there could be greater recognition of the presence of Lyme Regis and the relationship between the town and Uplyme. Recognising those settlements adjacent to East Devon and planning in this context would aid in achieving some of the objectives of the plan. For example, Objective 9 Promoting Sustainable Transport could be realised for development in Uplyme by acknowledging the services and facilities that exist in Lyme Regis and the opportunities for improving access to these facilities by sustainable transport modes. Recognising the existence of Lyme Regis would also demonstrate that the Uplyme / Lyme Regis community that straddles the Dorset / Devon border, is relatively self-contained. In the context of the Spatial Strategy, the combined population of Lyme Regis and Uplyme is around 5,000 and therefore the settlement is larger than many of the Tier 3 Local Centres and closer in size to those in Tier 2. As such, it may be appropriate to consider opportunities for meeting housing need in this location. However, Dorset Council do acknowledge the highly constrained nature of the area that severely limits opportunities for development. Recognition of the role of Uplyme within the settlement hierarchy reflecting the local facilities that exist, is supported. The village could therefore be considered as an appropriate location to meet local needs especially when considered alongside Lyme Regis.

SD01

Full name: Ben Ingham

Organisation (where relevant): EDDC

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The selection process was flawed: Officers insisted Lymp 07 should be a primary option for selection for housing allocation although it is in a green wedge and coastal protection area. When you look at this allocation on a map of Exmouth, it is not directly adjacent to current housing and looks innocuous. But they were adamant. At committee it was the first of the allocations to be selected, with emphasis on hitting housing targets. This was selected but others not in landscape designations were not even considered.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: EDDC should: Consider the four large sites within ED first THEN consider housing allocations adjacent to higher tier communities.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The method deployed by officers failed to allow councillors to identify the big allocations. They were ONLY considered when the final housing number had been achieved and were therefore rejected. That is ethically wrong and drives development in the wrong

locations. At best, this is the lazy way to do things. Any other motivation I do not understand.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reject the eEDLP

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: No. Local opinion was ignored and not taken into account. Lymp 07 was previously dismissed at an appeal public enquiry. The inspector identified the weight of public opinion as being important to his decision.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To be available to the inspector for any clarification

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exeter Civic Society objects to the proposed allocation of land for a new community in East Devon and at Exmouth and Topsham on the grounds that the implications for the road network and infrastructure development have not been properly considered and the plan is therefore unsound in respect of these proposals. We are making this objection because of the levels of the current levels of congestion on roads in Exeter at peak times, and the increasing number of vehicles on the Strategic Road Network around the city. In addition, it is clear from current traffic movements that there is already a significant increase in traffic leaving and returning to the city at peak times to workplaces outside of the city; possibly at Skypark, Hill Barton and Greendale Industrial Parks. We expect this trend to continue. It is unsound because: The assessment of transport impacts was modelled on a previous draft plan. The updated modelling in December 2024 noted that the final plan may be different. It is indeed, with increases of 25% for the new town albeit over a longer timescale and of 30% for Exmouth. These will have a significant impact and should be modelled and considered before the plan is finalised and considered sound. The updated December 2024 modelling notes: 'In 2040 many of the junctions in Exeter show an increased V/C ratio due to higher traffic flows on the network. There are some junctions which were already over-capacity in 2017 and/or 2030 and remain so in the future years, but others which were below capacity and now have at least one turn that is over-capacity. For example, several SRN junctions between the A30 airport junction, M5 J29 and M5 J30 had worst turn V/C ratios below 95% in 2030 that go over 95% in 2040. Junctions that were already over-capacity in 2030 and get worse in 2040 include Clyst St Mary roundabout, Clyst St George roundabout, and the A38 northbound approach to M5 J31.' The further housing development

proposed will exacerbate this but no assessment has been made. Prime access to the North of Topsham site will be along Clyst Road. This is a narrow road with a traffic light controlled junction to the A376 near to J30 of the M5. The plan suggests making a cycle route and/or a bus route along it but the feasibility and cost of doing so needs to be assessed first before the allocation can be made as local knowledge suggests the likelihood of doing so is negligible. Strategic Policy WS10 proposes that EDDC and Exeter City Council will work jointly on infrastructure and traffic mitigation matters, specifically in relation to the M5 J 30 roundabout. It is not clear whether this includes the Clyst Road/A376 junction, but that should specifically be referenced and included in the policy. Also, there is no reference to changes to the junction in the Infrastructure Delivery Plan. They need to be included as Priority 1. The A376 from Exmouth to Exeter is known to be heavily congested at peak times - a point made by Devon County Council in earlier consultations. This has been omitted from the S19 version of the plan but is even more relevant given the extra housing proposed. There is little practical prospect of a bus priority route, given the nature of the A376 from the town to the M5 and Exeter, passing through many villages including the congested roads within Topsham. There are no proposals to improve the railway line other than enhancements to specific stations. Devon County Council's November 2020 Exeter Transport Strategy is now over five years old and is half way through. It cannot be considered reliable evidence at this point without updating and going further to 2035 or beyond. A number of the schemes listed as completed by March 2025 have been significantly reduced in scope because of public objections, so their likely impact is much reduced. Given the track record in significantly modifying and reducing the impact of such schemes in light of public opinion, the proposed future schemes and their mitigating effect need to be reassessed for the plan to be sound. The November 2020 Transport Strategy notes that much of the impact of additional traffic in and on Exeter has been effectively absorbed by Exeter residents changing their travel habits (Para 3.3). There is diminishing scope for this. 80% of commuting journeys from towns outside Exeter are by car, from rural areas it is 90%. It also notes that 'existing (i.e. 2020) transport networks [are] already at capacity in peak periods' (Para 3.20). It notes but makes no specific assessment of the impact of Cranbrook, other than that it will grow to the size of Tiverton, and its highways will become congested. Better quantification of travel habits and impact of Cranbrook residents would better inform the S19 Plan and its soundness. The proposed new town (and to a lesser extent the other housing developments down the Exe Estuary and including Exmouth) might reasonably be expected to have similar impacts to Cranbrook. The empirical data informing the strategy is also over 7 years old and indeed makes use of the 2011 census which has been superseded by the 2021 census. It is therefore unreliable and unsound to base a plan on such out-of-date data. The impact of Cranbrook and of the proposed developments on Exeter to be reassessed using more up-to-date data before the plan is approved. The Infrastructure Delivery Plan includes significant rail developments to make EDDC's S19 plan workable in respect of

sustainable travel and its likely impact on the road network and Exeter. However, there are no costings or commitment from Network Rail. It is unclear where these proposed developments stand and whether they now feature in Network Rail's business plans. This needs to be clarified positively before the plan can be considered sound. The WSP Mitigation Modelling dated 9 December 2024 cites the possibility of four P&R sites, and whilst that at Peamore has planning approval, those at Markham and EDNC North and EDNC South have not been consulted upon. Indeed, the proposal by the highway authority for a P&R site at the A30 Ide interchange has previously been proposed by them but did not succeed because of public objection and an inability to demonstrate that a bus link would be effective on the already congested Alphington Road. As for the two proposed in East Devon, the EDNC South site is unlikely to be effective at peak times because the A3052 and Clyst St Mary roundabout are already congested. Although improvements for the highway at the A3052/A376 roundabout is highlighted in chapter 11 of The Plan, the Infrastructure Delivery Plan does not include any works to improve this route to the M5/Exeter. The Infrastructure Delivery Plan also includes significant development by South West Water (SWW) on a new sewage treatment plant for the new town and development of the one at Countess Wear. Since the IDP was prepared Ofwat has determined a significantly lower price increase to support SWW's business plan than the company sought. The continued inclusion of these items in SWW's business plan needs to be settled before EDDC's own plan and the allocations it provides can be approved.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: The traffic and transport consequences of the proposed development at the West End and Exmouth are significant, have been inadequately considered and deserve further analysis and assessment.

Full name: Sara Davies

Organisation (where relevant): Lympstone Water Quality Group

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The proposed developments in SD-01 - are not sustainable. The Sustainability Appraisal and Habitats Regulations Assessment are not based on accurate, up-to-date information on water quality risks. The assessments are vague and there is no reference to relevant local and national data and reports on water quality in the 'Evidence Library'.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Consider both local evidence and national reports and guidance on water quality. For example, the Lympstone Water Quality Group can provide evidence on the sensitivity of the Wotton Brook catchment and Exe Estuary. We are not trying to stop development but to ensure that decisions and controls are based on accurate information.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: There has been no consideration of water quality/pollution risks associated with the proposed developments in Lympstone (ED10) and at Courtlands Cross (ED01); they are not consistent with national policy and NPPF requirements on pollution prevention; and they do not address local priorities. The sites are in highly sensitive catchments, the water courses flow to the Exe Estuary, a 'European site', SPA, SSSI, and Ramsar site, and

the combined sewer system is already overloaded, causing high numbers of overflows into the Exe Estuary. There is now considerable evidence available that developments of this scale cause water pollution if not controlled - due to an increased volume of surface water runoff contaminated with hydrocarbons, heavy metals, and microplastics.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Lymph_07 (100 dwellings) since the risk of water pollution from developments of this scale is too high given the sensitivity of the catchment and the Exe Estuary. For any developments of this scale, highlight the sensitivity of the catchment, and require surface water treatment (e.g., filtration, bio-retention, and constructed wetlands) in addition to flood attenuation.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The fact that development of this scale is being proposed close to the Exe Estuary indicates that there has been inadequate cooperation with Natural England, the Environment Agency, South West Water, and local community groups on both environmental protection and infrastructure planning.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To provide evidence from our catchment-based water quality project in Lymphstone on the Exe Estuary, and our review of regulatory requirements and best practice standards.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Minerals and Waste Planning Part of the site allocation Exmo_20, as identified in Strategic Policy SD01, is within the Mineral Safeguarding Area for sand and gravel resource with further land within the wider Mineral Consultation Area. The allocation has the potential to sterilise underlying sand and gravel and constrain future working within other parts of the Mineral Safeguarding Area. This is inconsistent with NPPF paragraphs 223(c) and 225, and Policy M2 (Mineral Safeguarding Areas) of the Devon Minerals Plan which highlight the importance of identifying Mineral Safeguarding Areas and Mineral Consultation Areas for the protection of mineral resources from non-mineral development. In the absence of measures to protect the mineral resources as specified in the detailed comments in Appendix 1, Devon County Council objects to the allocation of site Exmo_20. Part of the site allocation Exmo_20, as identified in Strategic Policy SD01, is within the Mineral Safeguarding Area for the sand and gravel resource with further land within the wider Mineral Consultation Area. As such, Devon County Council as mineral planning authority objects to this allocation on the basis that development has the potential to sterilise underlying sand and gravel and constrain future working within other parts of the Mineral Safeguarding Area, which is inconsistent with NPPF paragraphs 223(c) and 225, and Policy M2 (Mineral Safeguarding Areas) of the Devon Minerals Plan which highlight the importance of identifying Mineral Safeguarding Areas and Mineral Consultation Areas for the protection of mineral resources from non-mineral development.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Whilst it may be

considered that this part of the plan is unsound as it is inconsistent with national policy, it would be possible to address concerns in one of the following ways:

1. Amendments to the wording in Policy SD01 to reduce the extent of the allocation to omit land within the Mineral Safeguarding Area and Mineral Consultation Area (if this option is taken a Mineral Resource Assessment is not required); 2. Amendments to the wording in Policy SD01 to constrain the uses within the Mineral Consultation Area to less noise sensitive uses, compatible with being located adjacent to mineral extraction and no built development within the Mineral Safeguarding Area (if this option is taken a Mineral Resource Assessment is not required);

3. Prior extraction of the mineral resource in advance of development, where it is economic to do so as demonstrated by a Mineral Resource Assessment undertaken by the landowner or East Devon District Council prior to allocation of the site, with appropriate wording included in Policy SD01 to ensure that prior extraction of the mineral takes place if achievable;

4. A Mineral Resource Assessment is undertaken by the landowner or East Devon District Council prior to the allocation of the site, which indicates the mineral resource is not of current or potential economic value. Should a Mineral Resource Assessment be undertaken and indicate that the mineral resource does have current or potential economic value then one of the options 1-3 listed above should be pursued. In the absence of measures to protect the mineral resources as specified in the options above, Devon County Council objects to the allocation of site Exmo_20. DCC would be happy to discuss with EDDC appropriate amendments to the policy wording as may be required.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.:

Comments relating to Exmo_23 and Lymp_07: To ensure a coordinated and comprehensive approach, DCC suggests that the Exmo_23 and Lymp_07 allocations could be covered by a single section (similar to the approach for Exmo_08 and Exmo_16), reading as follows or similar wording: “Land at Courtlands Lane (Exmo_23 and Lymp_07 combined) The land south of Courtlands Lane (within the Exmo_23 allocation) will form a small-scale development on the northern side of Exmouth to accommodate around 12 new homes. The site at Courtlands Cross north of Courtlands Lane (within the Lymp_07 allocation) will accommodate around 100 new homes and 0.4 hectares of employment land. The field to the west of the housing allocated land is allocated for delivery of sports pitch uses and associated low key ancillary facilities as part of a viable package of planning obligations. Built development at this site, located on the two south-easterly fields, will need to be particularly sensitively designed to avoid potential for adverse impact on nearby heritage assets and to avoid adverse landscape impacts. These allocations will need to come forward on the basis of an agreed masterplan for the whole site that clearly demonstrates how comprehensive development will be undertaken and implemented. Particular importance is attached to retention of the East Devon Way footpath, in a spacious corridor, across the Lymp_07 site in a north-south direction. There should also be safe off-street pedestrian and cycle access that provides for east-west movement through the area for existing and future users linking into adjacent areas such as Lympstone Manor. The development will need to maximise opportunities for localised improvements/contributions to enhance sustainable travel modes. Through this masterplan, particular account will need to be taken of providing active travel links to the wider network and towards the town centre with alterations to vehicular access along Courtlands Lane.” Comments relating to Lymp_14 and

Exmo_04a: DCC also requests that an additional paragraph be added to the text relating to both the Lympton_14 and Exmo_04a allocations: “The development will need to maximise opportunities for localised improvements/contributions to enhance sustainable travel modes.” Comments relating to Exmo_20: DCC also requests that, to clarify requirements and ensure opportunities for sustainable travel are maximised, the text on page 78 relating to site allocation Exmo_20 be amended to read: “This site allocation will need to come forward on the basis of an agreed masterplan and access strategy for the whole site that clearly demonstrates how phased comprehensive development will be undertaken and implemented, including with appropriate mechanisms for apportionment of development costs and contributions across separately owned land parcels. Full agreement will be required before any specific parcels of land can come forward for development. Built development will need to be concentrated in the southern parts of the site and the scheme will need to place considerable emphasis on protection of the setting and tranquillity of nearby heritage assets, specifically St John in the Wilderness church. Support will be given for expansion of the churchyard, to provide more burial/interment of ashes space at St John in the Wilderness. Parts of the site and adjoining areas, especially woodlands are of biodiversity importance and sensitivity and great care will be needed in developing proposals to ensure their protection and enhancement. New homes and other development that would result in unacceptable impacts will not be permitted within 400 meters of the Pebblebed Heaths. The development will need to be supported by a new developer provided SANGs, brought forward and implemented as part of the overall scheme on the allocated or on nearby land. Vehicular access, to accommodate modest levels of development, will be allowed for southern site parts from the road ‘Southern Wood’, subject to detailed assessment of highway access acceptability and objective review of local road and junction capacity. Primary vehicle access to the site, serving the large majority/large bulk of development, will be from the B3179 to the north. Mitigation measures may be required to address potentially unacceptable adverse highways impacts, including at locations on the wider highway network. High quality, safe and attractive to use pedestrian, cycle and public transport access, particularly providing southerly site links into Exmouth and to nearby services, facilities and job opportunities, will need to be an essential part of the overall development scheme. As part of this, consideration should be given to alterations to vehicular access on St John’s Road, in order to help create quiet routes for walking and cycling.” Comments relating to Exmo_17: DCC also requests that, to clarify requirements and ensure opportunities for sustainable travel are maximised, the final paragraph of text on page 79 relating to site allocation Exmo_17 be amended to read: “Vehicular access will be from Salterton Road and will need to take a harmonised approach with the industrial estate to the north of the road, potentially with a shared intersection. The development will need to maximise opportunities for localised improvements/contributions to enhance sustainable travel modes. As part of this, consideration should be given to exploring alterations to

vehicular access on Castle Lane, in order to help create quiet routes for walking and cycling.”

MR B PENNY REPRESENTATIONS ON THE EAST DEVON LOCAL PLAN (2020 – 2042) REGULATION 19 CONSULTATION DRAFT (MARCH 2025) BY BELL CORNWELL LLP 1 INTRODUCTION Bell Cornwell LLP acts as planning consultant for Mr. Bruce Penny, the long standing owner of land to the south of Courtlands Lane. Land registry details (DN548773) show that Mr. Penny is the freehold owner of the site. His land currently benefits from a draft allocation for 12 dwellings under reference Exmo_23. The land is currently in agricultural use. Our client, therefore, has significant interest in the future local plan for the district. Against this background, the following comments are made on the draft policies within the East Devon Local Plan Regulation 19. Consultation. CHAPTER 5. DEVELOPMENT IN THE TOWNS AND VILLAGES Strategic Policy SD01: Exmouth and its development allocations Mr Penny supports the allocation of Land to the South of Courtlands Lane (Exmo_23) for allocation which is land in Mr. Penny's control. The allocation as drafted states: "This land, south of Courtlands Lane, will form a small-scale development on the northern side of Exmouth to accommodate around 12 new homes. The scheme will need to demonstrate how safe pedestrian access, avoiding on-road walking, will be achieved to surrounding and neighbouring areas." The objectives of this policy can be delivered, and the site is currently the subject of a planning application. The land is immediately available for development. The wider technical work that underpins the promotion of the site – which has previously been submitted at regulation 18 stage demonstrates the following:

- A landscape led approach to design and layout - perimeter hedgerows retained with ecology buffers retained as required. Additional planting proposed to provide structural planting in the landscape as mitigation for development – see landscaping plan produced by landscape architect submitted at Reg.18 stage.
- Suitable and safe access is available to serve 12 dwellings - see accompanying transport report. Submitted at Reg.18 stage. MR B PENNY REPRESENTATIONS ON THE

EAST DEVON LOCAL PLAN (2020 – 2042) REGULATION 19 CONSULTATION DRAFT
(MARCH 2025) BY BELL CORNWELL LLP 2

- Housing can be delivered without harm to landscape character and the setting of nearby heritage assets.
- The client owns wider land holding (see location plan) and connectivity could be delivered to the Estuary Trail if required.
- The site is excellently located to benefit from public transport (bus services) at the end of Courtlands Lane which run frequently (every 15 minutes) between Exmouth and Exeter. The proposed allocation is supported and justified, and we would ask officers to note that the current settlement boundary as drawn could comfortably provide for 12 dwellings. We would also ask officers to note that Mr. Penny has further land within its control that could be used for the other potential benefits, including additional housing.

We write on behalf of Eagle Investments (SW) Ltd to make representations on the Local Plan Regulation 19 Publication Draft consultation with reference to land which it owns to the west of Hulham Road, Exmouth. We support the proposed allocation of site Exmo_47 within Strategic Policy SD01: Exmouth and its development allocations for around 15 dwellings. We agree with the policy wording which requires that built development should be accommodated in the southerly parts of the site only and will need to be sensitively designed to avoid adverse impacts on the setting of the Point-in-view Registered Park or Garden to the north and west of the site boundaries. The southern and central part of the site is eminently suitable for a small housing development with the northern part providing an opportunity for landscaping to create a visual buffer to the Historic Park and Garden. This is fully explained within the heritage report prepared by Pegasus which is enclosed with this letter. A mix and range of sites sizes and types in different areas and suitable for a range of different types of housebuilders, and developers, will be required to help achieve a rolling supply of housing, as is encouraged within the NPPF. The NPPF states that small and medium sized sites can make an important contribution to meeting the housing requirement of an area and are often built out relatively quickly. The site is within a sustainable location adjacent to the existing settlement boundary of Exmouth and of a size that would mean it could be developed quickly and would be capable of forming part of the Council's five-year housing supply. This site will assist the council in making appropriate provision for small sites. We also support the inclusion of the site within the proposed Settlement Boundary and its exclusion from the Green Wedge on the proposed policies map, which reflects its identification as a proposed allocation. Eagle Investments (SW) Ltd have been working with a local SME housebuilder and have undertaken technical and

planning preparatory work which has confirmed the deliverability of the site for housing. A plan illustrating how the site could be accessed is enclosed with this letter.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

Eagle Investments (SW) Ltd supports the proposed allocation of land which it owns at Exmo_20- land at St John's, Exmouth for mixed use development. The entire site identified on the Policy maps is available for development, is within a sustainable location adjacent to the existing settlement boundary of Exmouth and not covered by any environmental designations. There is a significant need for housing, including affordable housing, within the Exmouth area and the Exmo_20 site is suitable for development to meet those needs over the emerging plan period, along with a mixture of uses and community facilities, as part of a highly sustainable urban extension, as the Council's own site assessment has found. The draft policy proposes a comprehensive development scheme to accommodate social and community facilities, around 700 new homes and at least 2 hectares of employment land. Eagle Investments (SW) Ltd have previously submitted to the Council a Vision Statement and a subsequent Addendum (dated October 2024). These are both enclosed again with this letter so that they can be included in the package of information that is forwarded to the Local Plan Inspector. The Vision Statement and Addendum begin to demonstrate how the site allocation will be able to come forward on the basis of masterplan for the whole site. It is intended that discussions will commence with the Council as soon as possible regarding the draft policy requirement to agree a comprehensive masterplan for the site including how phased development will be undertaken. The Vision Statement and Addendum provide confidence that built development can be concentrated in the southern parts of the site while protecting the setting and tranquillity of nearby heritage assets, specifically St John in the Wilderness church. It also explains how the woodlands within and adjoining the site will be able to form a major asset and help in the achievement of high quality placemaking. Furthermore, it illustrates that

development will not need to protrude within 400 metres of the nearby Pebblebed Heaths. A Landscape and Visual Appraisal of the site is enclosed and demonstrates that there are no landscape or visual impact barriers to the development of the site as envisaged. The Addendum to the Vision Statement provides an overview of the access and transport strategy which the development of the site could adopt. It explains how vehicular access to accommodate development in the southern parts of the site can be provided from 'Southern Wood'. A plan illustrating how this can be achieved is enclosed. It also explains that the master planning of the site will maximise pedestrian and cycle links between the existing, adjacent residential and employment areas and the proposed new neighbourhood, through the provision of connected streets designed to be suitable for cycling and walking and, where appropriate, additional measures to ensure that cycling and walking are a safe and attractive means of transport to access existing bus services on Dinan Way and allowance for future provision of new local bus services within the development. This will ensure that walking, wheeling, cycling and public transport will be the natural first choice for short local journeys, in accordance with the requirements of draft Strategic Policy TR01: Prioritising walking, wheeling, cycling, and public transport. A Transport Technical Note is also enclosed and explains that initial modelling has concluded that traffic Impacts on the nearby road network will be insignificant due to the planned road improvements to Dinan Way, which will enhance capacity and ensure efficient traffic flow. We consider that the inclusion for a requirement to provide at least 2 hectares of employment land requires some explanation and clarification within the draft policy. We note from Strategic Policy SP04 that the proposed uses to be included with the Exmo_20 site are to be limited to light industrial uses falling within Use Class E(g) (iii), being those which can be carried out in any residential area without causing detriment to the amenity of the area. As a minimum, confirmation of this within the draft policy is required to avoid any confusion as the site would not be suitable for B2 (General Industrial) or B8 (Storage and Distribution) uses for a variety of reasons. The Vision Statement and Addendum indicate that the Masterplan will include Workshops and Studios as part of a mixed-use development along with a local centre, Primary school (if required by DCC), community hub and working hub. Rather than specify 2 ha of land take for light industrial uses, it would be more appropriate for the policy to include a requirement for the inclusion of employment generating uses, as proposed by the Vision Statement, including uses falling within Use Class E a, b, c, d, e, f and g (iii). Exmo_20 site is not within the nationally important National Landscape (formerly AONB) and neither is it within any current local plan Green Wedge or Coastal Preservation Area designations. The proposed allocation of the site over sites which are within the National Landscape and other designations is entirely Justified and Consistent with national policy which requires that plans distinguish between the hierarchy of international, national and locally designated sites and allocate land with the least environmental or amenity value. Eagle Investments (SW) Ltd are working with a local SME housebuilder and

commencement of development of a first phase could be commenced within the next two years so that it can make a meaningful and valuable contribution to housing delivery within the next 5 years and beyond.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

We write on behalf of Eagle Investments (SW) Ltd to make representations on the Local Plan Regulation 19 Publication Draft consultation with reference to land which it owns to the south of Hulham Road, Exmouth. Eagle Investments (SW) Ltd supports the proposed allocation of the land it owns as site Lymp_14 within Strategic Policy SD01: Exmouth and its development allocations. The site adjoins the north eastern boundary of the current Local Plan W147 housing allocation, which is currently under construction and known as Goodmores. Access to the site could be achieved from its western boundary through the adjacent Goodmores development. The site could therefore be developed as natural extension of the Goodmores site. There is a significant need for housing, including affordable housing, within the Exmouth area and the site is suitable for development to meet those needs over the emerging plan period as the Council's own site assessment has found. The site is available for development. The site is within a sustainable location adjacent to the existing settlement boundary of Exmouth and of a size that would mean it could be developed quickly and would be capable of forming part of the Council's five-year housing supply. Indeed, an outline planning application (LPA Ref. 25/0007/MOUT) proposing residential development on the site has been submitted and is currently under consideration by the Council, demonstrating that development on the site is achievable now. Eagle Investments (SW) Ltd have been working with a local SME housebuilder and development of the site can be delivered within the next three years.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: As we have set out above, we still consider the proposed housing provision at Exmouth is too low and the opportunity to bring sites forward that maximise the opportunity to deliver housing earlier in the Plan period should be further considered. As the Regulation 18 and 19 site selection processes has identified there is significant capacity at Exmouth for a range of smaller sites to come forward that can benefit from existing infrastructure and accessibility.

In terms of the proposed allocations for Exmouth we offer the following comments:

COURTLANDS CROSS (LYMP_07)

We fully support the allocation of Courtlands Cross and a Framework Plan has previously been provided to the Council that highlights the opportunity the site provides, including: a design and landscape led development on the northern edge of Exmouth, the delivery of energy efficient homes to meet local needs, including affordable housing; the provision of recreational benefits through new sports pitches and a new club house; significant areas of landscaping and public space; provision of ecological habitat and enhanced pedestrian routes and connections to the wider network.

The Framework plan demonstrates how the proposed development responds sensitively to landscape and heritage considerations and the opportunity the site provides for connectivity to the wider footpath network.

LAND AT ST JOHN'S (EXMO_20)

Our clients are concerned that the allocation of the St John's site was based on a inconsistent approach to site selection which resulted in the site being allocated at a very late stage in proceedings, having been previously rejected for allocation at the Regulation 18 stage. Its inclusion has directly led to a number of other sites which were previously identified being removed from the Plan altogether.

This is despite officers during the site selection process raising concerns regarding a number of uncertainties relating to the deliverability of the site and the need for further work to be undertaken. It is not clear that any further work has taken place to underpin the now proposed allocation of the site.

This is important to understand because there are clear delivery issues. From an access and sustainability perspective the site is distant from existing services and facilities. This separation would be increased by a proposed northern access onto the B3179 and result in rat running on unsuitable roads as well as creating capacity issues on junctions and roads in the locality.

The site is sensitive in respect of ecology issues, particularly given its proximity to European sites. The site also includes extensive woodland areas most of which are wildlife sites. There are also important heritage matters that would need to be addressed with large parts of the site forming part of the setting of the Grade II* St John's Church which contributes significantly to its special interest and is a designated asset of the "highest significance". Residential development on the field parcels nearest the church would result in a detrimental harm to the special interest of the church, alongside other associated heritage assets. This is likely to significantly reduce the developable area of the site and its overall capacity to that assumed in the allocation.

The site appears to have been supported for allocation on the basis of quantum rather than a proper consideration of delivery factors. Instead, assumptions that a larger site

will deliver additional infrastructure and services and facilities to serve its needs are unlikely to be realised because of the constraints highlighted above. In any case for a truly sustainable community to be created in this location, distant and separated from existing services and facilities, a greater scale of development would be required to make the delivery of necessary infrastructure viable.

It is clearly a more sustainable strategy to deliver a range of sites which provide good access and connectivity options to existing services and facilities whilst offering opportunities for enhancement of existing infrastructure to support the growth of the town. This will also be more beneficial in ensuring the Plan is resilient in meeting housing needs at an early stage of the Plan period.

LAND AT HULHAM ROAD (LYMP_09 AND LYMP_10A)

One such site that could come forward early in the Plan period that does not have the delivery concerns identified with the St John's site is our clients site land at Hulham Road (Lymp_09 and Lymp_10a), which was previously a preferred site allocation in the Regulation 18 Plan and was identified as officers for allocation in the Regulation 19 Plan. However, it was subsequently omitted through the site selection process.

This was disappointing as an indicative Framework Plan had been shared with the Council. This identified the clear positives of comprehensive development of the site through a landscape and design led scheme and demonstrated the site's opportunity to deliver an attractive residential development in close proximity to local facilities and with good connections into Exmouth, existing planned growth at Goodmores Farm and the wider area. A copy of the Framework Plan is attached at Appendix 1.

However, despite clarifications Members ruled the site out on the basis of concerns in relation to connectivity of the site to wider services and facilities. This failed to take into account the significant improvements the scheme proposed (agreed in principle by Devon County Council) along Hulham Road that would significantly improve highway safety and the walking environment for pedestrians, as well as providing safe crossing points to the south to match desire lines that link to the existing footpath network.

Other concerns raised in respect of loss of trees were unfounded and the site was incorrectly referred to as being in the adopted Coastal Preservation Area (CPA). Evidence was also provided at the Further Regulation 18 stage to show that the site did not demonstrate visual openness or have views to and from the sea or to have any visual connection that would warrant its inclusion in a revised CPA boundary. The Review undertaken by Pegasus was included in the Further Regulation 18 representations made by PCL Planning on behalf of Waddeton Park Ltd. This evidence is again appended to these Regulation 19 representations as Appendix 2.

There are no good reasons for the Plan not to allocate the Hulham Road site. It represents a logical extension to the town and will support a high-quality residential development alongside important highway improvements. Furthermore, it is a site that is relatively unconstrained nor overburdened by infrastructure requirements. The site can come forward quickly to support delivery in the earlier stages of the Plan period and provide much needed resilience to the Plan's strategy. Without having a range of sites within Exmouth the Plan will over rely on site's like St John's which are more constrained and difficult to bring forward, particularly given the significant uncertainties around the deliverability of that site.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: MODIFICATIONS REQUIRED

We believe further growth at Exmouth should be provided for through the allocation of further sites. This will underpin the Plan's strategy to ensure sufficient housing growth in the town throughout the Plan period, including at an early stage. The site at Hulham Road is unconstrained and has been identified as a preferred choice site based on its suitability. There are no impediments to its delivery and as such it can make an important contribution to the Plan.

Policy SD01 should therefore be modified to include land at Hulham Road (Lymp_09 and Lymp_10a) as an allocation.

Further work should also be undertaken to underpin the allocation at St John's to address some of the clear delivery issues set out in these representations and raised as matters to be addressed within the relevant policy wording of the allocation. If these cannot be overcome, then this does bring significant doubt as to whether the site should continue to be allocated.

Organisation (where relevant): Planning Potential

Other party name (if relevant): Bloor Homes

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

5.1. These representations have been prepared on behalf of Bloor Homes, who are in the process of submitting a hybrid planning application in respect of Land to the South of Littleham, Exmouth, which is allocated for a residential led, mixed-use development of 410 homes and 1.6 hectares of employment in the East Devon Local Plan 2020 to 2042. The site is the subject of signed Planning Performance Agreement with East Devon District Council and has also been presented to the public.

5.2. It is Bloor Homes' view that the site represents a sustainable, deliverable and suitable site for residential development that will help meet the overall housing needs in East Devon and, crucially, will provide housing and new employment space for growth in the principal centre of Exmouth. The site will assist in meeting pressing affordable housing requirements in the town and the wider East Devon area. Moreover, the fact that it is the subject of a planning application now means that it will come forward early in the plan period thereby helping to meet five-year housing land supply provision as well as provide a consistent and sustainable trajectory of sites coming forward.

5.3. Given this, Bloor Homes fully support the site's allocation for a residential development of 410 homes with employment space to be provided of 1.6 ha of employment space and new community facilities.

5.4. Bloor Homes therefore generally support the Council's approach to the spatial strategy and residential land allocations and consider that it is sound, justified and positively planned. However, Bloor Homes consider that the drafting of some of the policies could be clarified through the provision of further detail whilst some policies will benefit from the inclusion of more flexibility. It is felt that Exmouth should be at the

top of settlement hierarchy together with developments in the West End, whilst more flexibility should be applied to employment designations, affordable housing provision and open space requirements.

5.5. Bloor Homes' key comments on the Regulation 19 Publication Draft can be summarised as follows:

- Exmouth should be considered similarly to proposed developments in the West End in the settlement hierarchy.
- The allocation of Land to the South of Littleham in Policy SDO1 is supported.
- Bloor Homes do not object to the overall direction of strategic employment policy but consider that there is a need to include more recognition that employment and job creation come from a variety of different sources and uses.
- The viability of the current approach to the provision of affordable housing is questioned and should be reviewed.
- It is considered that the policy on older persons housing is too specific in its requirements and that it also raises viability concerns.
- Clarification is required on the need to provide for a masterplan or a design code on strategic allocations; and
- The drafting of policy on ecology, landscape and heritage matters should be reviewed to ensure consistency with national guidance.

5.6. In summary, Bloor Homes supports the allocation of Land to the South of Littleham, Exmouth for residential led development. It is considered that the site represents a suitable and sustainable location for development comprising approximately 410 homes. The site is also under the control of one party and is available and deliverable in the short term, as seen by the ongoing work to prepare an application for the site during 2025.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

4.38. Strategic Policy SD01 identifies the sites allocated for development in Exmouth.

4.39. The Council's settlement hierarchy confirms Exmouth's sustainability credentials by being the only Tier 1 settlement in East Devon. Given our comments in respect of Strategic Policy SP01, it is Bloor Homes' view that Exmouth should be held in the same regard in terms of growth as the proposed new town and Cranbrook and comprise a 'focus' for new development. Notwithstanding this, Bloor Homes supports this policy in that it is actively bringing forward the Land to the South of Littleham, which is identified within this policy as an allocated site for development.

4.40. The benefits of the site are set out in Section 3 – The Vision. The proposed development at Land to the South of Littleham will provide for high-quality new homes in a mix of sizes and tenures that will provide for an attractive place for people to live, work and play.

4.41. Bloor Homes are in the process of preparing a hybrid application for the site at Littleham. This is in advance of the Local Plan, and its adoption, but indicates how the site is a viable, deliverable and appropriate location for residential development that is free of constraints.

4.42. Strategic Policy SDO1 notes that site, which is on the north eastern side of Exmouth is allocated for a mixed-use development to provide:

- Around 410 new homes.
- 1.6 hectares of employment; and
- Supporting community uses.

4.43. Bloor Homes' scheme, which is currently being prepared, is based on this quantum and disposition of uses and will provide for each element. The residential development will be for approximately 410 homes and, in this regard, we note that supporting Paragraph 5.2 states that higher or lower levels may be possible depending on site-specific constraints or opportunities. This flexibility is supported given that that overall capacity of sites will often depend on site-specific matters.

4.44. Turning to the employment area, the application for this area will likely be in outline given that technical evidence is in the process of being prepared. Accordingly, the application will secure the use of this part of the site for employment. However, as our comments to Strategic Policy SP4 note, if evidence can be provided to demonstrate a non-traditional employment use or an area less than that allocated is more appropriate then the Local Planning Authority should considered any later, detailed applications in this light.

4.45. The policy notes that the allocation at Littleham will need to come forward on the basis of an agreed masterplan for the whole site, which clearly demonstrates how comprehensive development will be undertaken and implemented. Bloor Homes supports this approach and are in the process of preparing a site masterplan that will incorporate the different elements. This includes the supporting community uses, which are currently focussed around a proposed intersection with the cycle path.

4.46. The masterplan will be cognisant of the site's sensitive location within the NL. The proposed development will be landscape-led and will benefit from significant areas of open space on site that will be utilised for SANGs, drainage attenuation, biodiversity and amenity open space. The development will therefore sit in a strong landscape framework that will maintain the site's connection within the wider landscape.

4.47. The current masterplan reflects the listed church to the south through maintaining its setting by locating SANGs in the south. This aspect will link with the potential additional cemetery provision that is being considered as part of the proposed development. The SANGs is to be provide on-site and is to be located between the new development and the existing settlement of Littleham thereby benefitting both existing and new residents with accessible, open space that will be consistently and appropriately managed for the next thirty years.

4.48. The site is highly accessible as it is within walking distance of facilities within Littleham whilst it will supplement these through the development of new community facilities in the form of a possible community space, new commercial facilities and or local workspace. The proposed development will be serve by a new roundabout at Salterton Road that would also accommodate a new arm from Liverton Business Park, thus, creating a shared intersection (which is a requirement of the policy).

4.49. Opportunities to prioritise travel by sustainable modes will also be taken through the cycleway and the introduction of new footway provision along Salterton Road and new footpaths and cycleways through the site. The site will create an environment where green space and green corridors create a sense of living in the landscape. A number of key amenity spaces will be created that will be linked by green corridors around the perimeter of the site and permeating through it. The eastern edge of the site will be enhanced to create a natural edge to the site and Littleham.

4.50. The proposed development of the site will be sensitive to flooding matters and will introduce Sustainable Drainage Systems (SuDS) through natural attenuation ponds that will help reduce the volume and rate of surface water. It will also meet biodiversity net gain requirements, comply with the Future Homes Standard, and include EV charging points and solar panels. Recommendation

4.51. Bloor Homes support this policy and the allocation of Land to the South of Littleham to accommodate a residential-led mixed use development of approximately 410 homes, employment land and community uses. Bloor Homes are in the process of preparing a detailed application for the residential element that will be submitted with an outline application for the employment land. The application has been driven by an

emerging masterplan will seeks to address each of the points noted in the policy, which is:

- Landscape-led, sensitive design to reflect the site's location in the NL.
- Appropriate and viable employment space.
- New access arrangements and suitable interchange with the existing cycle path.
- New community hub based on the cycle path.
- Understanding of the setting to the listed Church.
- New SANGS provision together with amenity open space and play facilities.
- Sustainable drainage features that will help enhance biodiversity; and
- Low carbon, fabric first design of the buildings to meet the latest regulatory standards.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

1.1. These representations have been prepared on behalf of Bloor Homes Exeter Limited (herein known as Bloor Homes), who have an interest in Land to the South of Littleham, Exmouth.

1.2. The Land to the South of Littleham, Exmouth is allocated for a mixed-used development, which seeks to develop around 410 new homes, 1.6 hectares of employment, and supporting community uses under Strategic Policy SD01: Exmouth and its development allocations in the East Devon Local Plan 2020 to 2040 (Regulation 19 Publication Draft).

1.3. Bloor Homes are wholly supportive of this allocation and have, for the past six months, been working in partnership with Clinton Devon Estate, who is the owner of the site, to promote this site for residential development. Bloor Homes are in the process of preparing a robust evidence base and completing survey work with a view to submitting a hybrid planning application in Autumn 2025. The site is the subject of signed Planning Performance Agreement with East Devon District Council and has been subject to public consultation.

1.4. Bloor Homes are well versed in promoting and developing strategically important sites such as the Land to the South of Littleham. They are the largest family owned and run housebuilder in the country and are active in Devon with schemes being developed at Pinhoe, Exeter, and Dawlish.

1.5. These representations have been submitted in response to the East Devon Local Plan 2020 to 2040 (Regulation 19 Publication Draft). Bloor Homes have only recently become involved in the site. As such, these representations build upon the submission

made by Clinton Devon Estates to the Regulation 18 Consultation Draft. Accordingly, the representations are submitted on behalf of Bloor Homes and Clinton Devon Estates in respect of this site, although, for ease of reference, only Bloor Homes is referred to when discussing the representations. It is understood that Clinton Devon Estates will be submitting separate representations in respect of their other interests whilst Bloor Homes will also be submitting additional representations regarding their other sites in East Devon.

1.6. The preparation of the Local Plan commenced in 2021 and has moved through the initial stages of evidence gathering and options assessment. It is now at the Publication Draft Stage following the Draft Local Plan Consultation (Regulation 18) stage that occurred between November 2022 and January 2023 (and latterly the Further Draft Local Plan Consultation between May and June 2024).

1.7. The Land to the South of Littleham, Exmouth was allocated in the Regulation 18 Consultation Draft for a mixed used development of 410 homes and 1.6 hectares of employment land. These representations will therefore demonstrate how the site is an appropriate, deliverable and suitable proposition for residential development and that the Local Planning Authority has been correct in its approach to allocate this site as a means of providing new homes to support the growth of the principal centre in East Devon.

1.8. The residential development of the site fully aligns with the vision and strategic objectives of the Local Plan. These representations will illustrate how it can help meet the Council's overall housing requirement whilst enabling sustainable growth at Exmouth. It will introduce new facilities and provide support for the existing services in Littleham. The site can be delivered in the short term thereby helping to meet five-year housing land supply requirements. It is not reliant on significant infrastructure whilst it is considered site-specific matters relating to landscape impact, open space provision and relationship with existing infrastructure can be successfully overcome.

1.9. Accordingly, the site has numerous benefits:

- It is under the control of parties, who can bring forward development at pace.
- The development of the site will significantly contribute to the overall housing delivery in the early part of the Local Plan period.

- It has the ability to achieve a comprehensive, high quality residential development.
 - The development of the site will be landscape-led given its sensitive location in the National Landscape (NL).
 - It will provide for much needed new market and affordable housing within the principal centre of Exmouth.
 - It will create new employment opportunities through new job creating development that will enable sustainable growth.
 - The proposed development will incorporate Suitable Alternative Natural Greenspace (SANG) that will serve both existing and new residents of Littleham; and
 - New community facilities will be provided together with support for existing services in Littleham.
- 2.1. The site is located to the east of Exmouth, adjacent to the village of Littleham. It lies immediately south of the Liverton Park Retail Estates. The northern boundary is formed by the B3178 Salterton Road. To the west of the site is the settlement boundary of Littleham, which consists of a relatively recent small residential development and older properties along Chapel Lane, which are larger in size.
- 2.2. Further to the south is the cemetery and grounds attached to the St Margaret's and St Andrews Church, which is a Grade II* Listed Building. The site's southern boundary is formed by the church and a series of small, detached properties. To the east, there are open fields and countryside. The site forms part of the East Devon NL.
- 2.3. The site is approximately 30 hectares in size. It consists of a series of large, flat arable fields that slope from the north to the south. There are a series of hedgerows that traverse the site together with some mature trees, which can be found more towards the

south. There is also the Exmouth to Budleigh Salterton Cycle Track that runs through the lower central part of the site.

2.4. The majority of the site is located in Flood Zone 1 apart from an area in the southern part that follows the path of the Littleham Brook, which is Flood Zone 3. The site is located in a SSSI Impact Risk Zone whilst, in addition to the main St Margaret's and St Andrew Church, its Lychgate at the entrance is also listed.

2.5. Exmouth is the largest town in East Devon with a population of around 35,700 residents. It grew rapidly in Victorian times as a popular seaside resort and tourism still forms an important part of the town's economy, although there is a substantial flow of out commuters to Exeter.

2.6. The town has a wide range of services and facilities with a large secondary school and primary schools, a variety of shops, sports facilities, a library, GPs, hospital, railway station and regular bus services. The town centre, where most facilities are located, is positioned in the south westerly part of Exmouth. Previous Site Promotion

2.7. The Land to the South of Littleham, Exmouth was the subject of representations submitted by Bell Cornwell LLP on behalf of Clinton Devon Estates to the Regulation 18 Consultation Draft. In relation to Policy 20, which considered Exmouth, Clinton Devon Estates strongly supported the Plan's proposal to locate a substantial amount of new development at Exmouth given the town's size and sustainability attributes.

2.8. The Estate also strongly supported the proposed allocation of the specific sites within Policy 20. They stated that all of the sites were deliverable and suitable for development. They were also well related to Exmouth's existing built-up area. The representations noted that the Estate had been involved in promoting these sites for development and had made submissions to the Housing and Employment Land Availability Assessment (HELAA).

2.9. In terms of Land to the South of Littleham, the representations stated that the land is able to deliver a substantial amount of growth to Exmouth and in a manner which would provide a number of benefits.

2.10. In addition to being able to provide a sizeable amount of housing, development of this land would be well sited close to the existing employment areas at Liverton Business Park and at Dinan Way and would therefore be sustainability sited. The allocation of the northern part of the land for employment use would be sensible in that it would relate well to the existing Liverton Business Park and can help to provide balanced growth in the town. The Estate supported the proposed allocation of this land. Site Delivery

2.11. The delivery of the Land to the South of Littleham benefits from Bloor Homes, together with Clinton Devon Estates, controlling all of the land. In these terms, Bloor Homes has experience of delivering strategic residential-led, mixed use sites that will deliver the proposals from start to finish.

2.12. The land is free from any major physical constraints that would prevent the site from coming forward early in the Plan period. In this regard, Bloor Homes have entered into negotiations with Officers from East Devon District Council regarding the preparation and submission of a hybrid planning application for the site. The intention is to submit the planning application in Autumn 2025 to coincide with the Examination into the Local Plan.

2.13. Accordingly, these representations demonstrate the site's capacity to deliver 410 new homes, 1.6 ha of employment and community benefits in the short term thereby providing much needed new housing for Exmouth.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: A supporting Statement has been submitted on behalf of Bloor Homes in respect of Land to the South of Littleham, Exmouth. It has been submitted in respect of Policy SP01 but considers Policy SD01 and others

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Please see Supporting Statement

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:
Please see Supporting Statement

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Please see Supporting Statement

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: Please see Supporting Statement

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: The matters raised in our representations affect matters of strategic importance that run to the heart of the East Devon Local Plan 2020 to 2042. In our capacity as a major housebuilder, we would welcome the opportunity to partake in the hearing session(s).

Organisation (where relevant): Rubix Strategic Ltd

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

1. On behalf of Rubix Strategic Ltd (“Rubix”), we wish to comment on Strategic Policy SD01, and specifically on proposed allocation - Land at Marley Drive (Site ref: Exmo_04a).

2. Whilst Rubix supports this allocation in principle, it is considered that the proposed quantum of c.50 dwellings is insufficient as the site can accommodate significantly more than this, taking into account the site characteristics and constraints.

3. Rubix has recently submitted an outline planning application seeking approval for residential development comprising of up to 130 dwellings, public open space, landscaping, sustainable urban drainage system and engineering works, with vehicular access off Higher Marley Road (Application ref: 25/0078/MOUT).

4. The Concept Masterplan submitted with the application (Ref No: RS402/120 Rev.H – attached), illustrates how the site can be developed for this higher quantum, whilst retaining significant areas of parkland and incorporating additional tree planting to mitigate for the small loss of existing trees required to accommodate the development. The Plan also allows for pedestrian/cycle links, both to the adjoining proposed allocation (Lymp_14) and the existing development at Goodmores Farm.

5. The Concept Masterplan has had significant regard to various surveys undertaken regarding ecology/biodiversity, landscaping and arboriculture, and has been designed to ensure that the development maintains the overall landscape/parkland character of the site.

6. It is considered that an allocation of c.50 dwellings fails to make efficient use of the site in terms of achievable residential densities, considering in particular its very sustainable location on the edge of the Tier 1 settlement of Exmouth. This is inconsistent with national policy, as contained within the NPPF, and the emerging Plan is therefore unsound in this regard.

7. Paragraph 129 of the NPPF states: Planning policies and decisions should support development that makes efficient use of land, taking into account: a. the identified need for different types of housing and other forms of development, and the availability of land suitable for accommodating it; b. local market conditions and viability; c. the availability and capacity of infrastructure and services – both existing and proposed – as well as their potential for further improvement and the scope to promote sustainable travel modes that limit future car use; d. the desirability of maintaining an area's prevailing character and setting (including residential gardens), or of promoting regeneration and change; and e. the importance of securing well-designed, attractive and healthy places.

8. Paragraph 130 goes on to state that: "Where there is an existing or anticipated shortage of land for meeting identified housing needs, it is especially important that planning policies and decisions avoid homes being built at low densities, and ensure that developments make optimal use of the potential of each site."

9. East Devon DC cannot currently demonstrate a five-year supply of housing land, falling well below this target at just 2.97 years (December 2024). In such circumstances, and considering NPPF paragraph 129, the Council should be seeking to maximise development densities at proposed allocations, taking into account prevailing environmental and other constraints. 10. As advised, Rubix considers that the development proposed under the current outline application ref: 25/0078/OUT provides a suitable density of development across the entire site, whilst ensuring environmental constraints have been taken into account and appropriate design and/or mitigation measures incorporated within the scheme.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Therefore, in order for Policy SD01 to be considered sound, proposed allocation Exmo_04a should be modified to increase the quantum of development to "around 130 new homes".

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To assist the Inspector with regard to quantum, deliverability and availability of a specific housing allocation (i.e. Exmo_04a - Land at Marley Drive).

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure that our views are heard and taken into serious consideration.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

PROPOSED NEW HOUSING SCHEME AT ST JOHNS ROAD ExMO 20a/20b ST JOHNS I had written to you on 6 October 2024 detailing my objections to the above plan but you explained that my letter was too early to be considered. I have tried to lodge my objections using the "commonplace" online method only to be repeatedly refused on the basis that my confirmation code submitted was incorrect. Why I need a confirmation code is beyond me and I can only guess you are trying to make the process of lodging an objection as difficult as possible. Therefore I am updating my original letter setting out our worries about your plans and I hope that you will be able to pass this onto the appropriate officer dealing with the objections to your proposed scheme. I am writing to object to the above proposal which includes the changing of the lane from our home, Bystock Stables, leading up to St Johns Road, into a Cycle Path. We purchased our home in 1998, the property having been empty and unused since 1986 was derelict at the time. We had the property largely rebuilt and extended to provide suitable accommodation for myself and my wife as we are permanently disabled as a result of spinal injuries and both of us are full-time wheelchair users. The narrow lane that leads up from our home onto St Johns Road is well in excess of 100 metres and is owned by Eagle Investments but has only one passing point, which was installed by us at the insistence of EDDC and is at the top of the lane opposite Owls Cottage. The lane itself was tarmacked by the owner some years ago and we paid half of the costs to him which amounted to £5,000 at the time. The lane is used daily by me and my wife as we each own and drive adapted vehicles, we also use the lane to get to the road when using our electric wheelchairs which is quite often. The access to our home is used on a regular basis by Royal Mail and sundry other delivery vans/cars, also by our home help and care visitors on a weekly basis. The chemist and community nurses on a regular basis as and when required, tankers from Southern Fuels to deliver oil and Spirebourn to empty and maintain our septic tank, because of access both have to ensure that they do not send their large tankers and we also have other sundry visitors plus friends and family throughout the year. We are surrounded by fields and woods but due to our circumstances we are unable to reach the road across the fields or through the woods

and our only option to leave our home is via the lane. Therefore, in view of the above, we hope that the change of our lane to a Cycle Path will not be granted and we can continue to enjoy full use of the lane.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan. An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. Exmo_20 would cause harm to the heritage assets, most significantly St John in the Wilderness Grade II* listed church and churchyard, drastically altering the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02. Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the "tranquility, wildness and dark skies" of the countryside, which is contrary to POLICY OL01. Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel and

increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: *

The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA).

Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. * Exmo_20 would destroy the "tranquillity, wildness and dark skies" of the countryside, which is contrary to POLICY OL01. * Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to

PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

* The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. " Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to

POLICY HEO. " Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY

ARO1B. * Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. * The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach

etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size of Exmo_20 Do not access the site via the B3179 Do not access the site via Southern Wood Revert to Exmo_20b as previously proposed.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Although I support the need to build AFFORDABLE housing in Devon, I object to the proposed sites Exmo_17 and Exmo_20.

The primary reason is because infrastructure and safety for current residents has not been addressed and must be before ANY new building plans are approved in and around Exmouth. These include (but are not limited to) clean water supply, flood risk, road use and social services. Significantly, these sites will directly impact the traffic and therefore safety of already overused adjacent roads which both are limited to single lanes at points.

Furthermore, both sites will impact local protected land and I feel there are more appropriate sites available. The beauty of the area must be maintained (and a precedent of destructive and ill thought land use throughout Devon must be prevented) because this is our unique selling point and what many local businesses and livelihoods rely on.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents including myself said no, but despite this, EDDC voted to remove that protection. Why? Who do you represent if not the people who voted you into office? As you well know National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Is this what you really want? I don't nor do most residents in Exmouth. > Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. They never do. Indeed I don't believe that there really is such a thing as an affordable home. It is a concept only that is never attainable. In addition the proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. Incidentally that very landowner states on its website that they are strongly in favour of preserving the countryside and yet they have sold large areas of beautiful countryside in and around Exmouth to house builders. Money is obviously a higher priority I suggest than preserving the countryside despite what their website says. > A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a cycle path used regularly by myself and my grandchildren as well as a many others. Have any Councillors taken the time to see how well used it is? > I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future

generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17. > The only saving grace for the residents of Exmouth is the sea. We are blessed with having water on 2 sides of the town. Were the water not there EDDC and the developers would no doubt be covering that area in concrete as well. > EDDC have got to start looking at the infrastructure. There is no extra provision water/sewage, healthcare, roads etc. The list is endless. Where is your planning? Frankly it is non existent. Rolle Medical Practice in Exmouth is the largest GP practice in the town. Approximately 23 doctors. If all goes well you can get an appointment to see a doctor in 3 weeks. This is going to increase with all of the McCarthy and Stone residents that have recently arrived in Exmouth and what will 400-500 new houses at Exmo_17 and their residents do for the waiting lists at GPs and dental practices? > EDDC you need to start planning for these issues and not just give the green light to any landowner and developer that wants to make money. It is not too late.

Please see sheet attached as this box will not allow me to scroll down. Exmo_20 is in total conflict with the following local plan policies under Chapter 5 SD01 - SP01, TR01, TR03 & paras 11.2, 11.6, 3.34 and 2.6. for the following reasons: As a young car driver I drive the B3179 daily - it is the most dangerous road in the area with sharp bends and if a bus / lorry comes in one direction there is not enough room for a lorry and a car. You absolutely take your life into your own hands turning out of any minor existing road (none of which are maintained by Highways) onto the B3179 (St Johns Road, Hulham Road, Dalditch Lane, Inner Ting Tong) and to put thousands more cars out onto that would severely endanger young lives. Quite often when passing the archery club there

have been large queues out onto the road and near crashes. Another entrance there would cause absolute chaos.

It is absolutely ridiculous to suggest that anyone would walk to that site. I live on Dalditch Lane near the site and it is impossible to walk anywhere due to distance, danger, lack of footpaths or cycleways and lighting. That is before you even consider the steepness of the site and its distance from any shops or useful services. Bus services are appalling- it regularly takes me over 3 hours to get back from Exeter to Budleigh Salterton due to cancelled or overcrowded buses and to put more buses on the B3179 will add to the dangerous road. The site is neither connected to Budleigh or Exmouth and is a totally isolated site without any of its own services and not large enough to warrant own shops, surgeries etc. This would mean all the car drivers in that development (and it would be impossible to live there without a car) will be driving many extra miles to get to shops and services as opposed to other sites which are situated on the edge of existing towns.

]] Exmou_20 is in total conflict with the following local plan policies under Chapter 5 SD01 - SP01, TR01, TR03 & paras 11.2, 11.6, 3.34 and 2.6. for the following reasons: As a young car driver I drive the B3179 daily - it is the most dangerous road in the area with sharp bends and if a bus / lorry comes in one direction there is not enough room for a lorry and a car. I live on Dalditch Lane near the site and it is impossible to walk anywhere due to distance, danger, lack of footpaths or cycleways and lighting. That is before you even consider the steepness of the site and its distance from any shops or useful services. Bus services are appalling- it regularly takes me over 3 hours to get back from Exeter to Budleigh Salterton due to cancelled or overcrowded buses and to put more buses on the B3179 will add to the dangerous road. The site is neither connected to Budleigh or Exmouth and is a totally isolated site without any of its own services and not large enough to warrant own shops, surgeries etc. This would mean all the car drivers in that development (and it would be impossible to live there without a car) will be driving many

extra miles to get to shops and services as opposed to other sites which are situated on the edge of existing towns.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Take out Exmou 20 from the local plan

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: Exmou 20 site has not gone through the correct process of a 'duty to co-operate'. It does not comply with PCPA 2004 section 33A. It was not deemed suitable or achievable at the HELAA stage 2. It was not preferred or a second choice site and has not gone through the correct consultation processes.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Oliver Batson

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The site Exmou_20 was not deemed suitable for development but then quickly became allocated while maps still showed online that it was not deemed suitable or achievable. it was not then considered when Reg 18 discussions took place. It has not therefore been in accordance with NPPF chapter 3 and is not legally compliant

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmou_20 from local plans

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Exmou_20 allocation is in conflict with policy TR03 (SDS01) and paragraph 11.2 . Being a new car user access onto the B3179 from existing routes is lethally dangerous - including Hulham road,, St Johns Road, Dalditch Lane and Inner Ting Tong. The development of this site will put thousands more cars onto the B3179 which is busy and dangerous and cannot sustain any more traffic. existing small lanes onto the B3179 are not maintained. The site would cause longer journeys into Exmouth and Budleigh from this site. More buses on the main B3179 will make this narrow road even more dangerous. Existing transport services are totally inadequate - today it has taken me 3.5 hours to get from Exeter into Budleigh with buses full or cancelled. Living close to this site in a rural area I have never been able to walk or cycle to shops or town due to distance - steepness of the roads and also because the roads are really dangerous.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Take out Exmou_20 from consideration in the local plan

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: I live less than half a mile from the proposed development Exmou_20 - I am on all social media and did not hear about this mass development proposal. When I tried to look into it nothing was showing online that this was being proposed for development. I feel this therefore has not complied with the duty to cooperate under PCPA 2004 section 33A

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Liz Beard

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The Services and infrastructure of Budleigh(high Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to of the local plan coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan An alternative site of Exmo_20 for housing allocation should be selected, one which was deemed available, achievable and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the site selection Methodology & POLICY PB01 of the local plan and not in accordance with the mitigation Hierarchy to select avoidance over mitigation. Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade 11* listed church, eroding the attractive rural setting for worship & burials which currently exist. This is contrary to POLICY HE02 Exmo_20 would have a detrimental effect on this open countryside and the adjacent internationally designated wildlife sites, eliminating the "tranquility, wildness, and dark skies", which is contrary to POLICY OL01 Exmo_20 development would be in conflict with the strategic Nature Area 368, fragmenting and isolating habitats and destroying wildlife corridors contrary to paragraph 13.23 of the local plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site contrary to Paragraph 13.9 Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the habitats Regulations Assessment (30.01.25) states that there is currently not sufficient certainty to rule out adverse effects in integrity in relation to air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access is proposed opposite the SAP/SPA. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways would exacerbate the already identified downstream flood risk along Withycombe

Brook through Exmouth., which is already under additional pressure from climate change. This is in conflict with POLICY ARB01B. Exmo-20 would increase the need for car travel, contrary to Figure 7-the energy hierarchy, and increase traffic congestion, in conflict with Paragraph 11.2 The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to paragraph 11.6 It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Ashley Beare

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: Yes

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

Additional housing especially affordable housing, ideally for rent as affordable to buy isn't in reality for many is urgently required. Any additional commercial premises used for employment is also a bonus

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Possibly a little large at projected 700 homes but do nothing isn't an option. I understand that many are objecting on environmental grounds but within reason desperately needed homes must come first

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Becky

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable and suitable in the HELAA. Exmo_20 would cause harm to the adjacent pebblebed heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the site selection methodology and policy PB01 of the local plan and not in accordance with the mitigation hierarchy to select avoidance over mitigation.

Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the “tranquility, wildness and dark skies”, which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to the irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and Policy PB04 as the Habitats Regulations Assessments (30.01.25) states that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to air quality (East Devon Pebblebed Heaths SAC/SPA) such that the plan fails the integrity test. The main site access proposed is opposite th SAC/SPA.

Development of EXMO_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.:

Remove or significantly reduce the size of EXMO_20 from the local plan. Do not access the site via Southern Wood. Access via Sourthen Wood onto Meadow View Road would be absolutely inappropriate. Meadow View Road is already fairly congested with cars parked on the road and an increase in traffic from the proposed development would cause mayhem along this road, specifically at commuting times and especially when trying to access dinan way. It would be an accident waiting to happen. As this area is predominately a family area, lots of children play on their bikes and run around freely.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I am a young teacher who is actually looking to buy their first property in Exmouth. However, I do not agree with this current plan.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Land to the South of Littleham (Exmo_17) - I object to this as traffic already bad at liverton roads bad we have sewage problems not enough doctors dentist and secondary school this is insane I live in littleham we don't want more cannot get out if Capel lane now without more cars added to it it's a disgrace

Full name: Elise Belsher

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Full name: Gerri Bennett

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at EXmo 20 should be located at an alternative site where Pebblebed Heaths would not be harmed. Developing EXmo 20 is contrary to policy PB01 of the local plan and thus is not in accordance with the mitigation strategy. EXmo 20 would entirely destroy the tranquility, wildness and dark skies of the countryside contrary to Policy OL01, Developing this area would isolate and fragment habitats destroying wildlife corridors (paragraph 13.23 of the local plan). Veteran trees and species rich hedgerows would be destroyed across the site. It would increase traffic and the need for car travel and is unsustainable development. It is isolated and people would need to travel more than 800m to access services. It is closer to Budleigh Salterton services than Exmouth making it a first choice rather than Exmouth putting pressure on all the local services there. This would also be contrary to policy OL05 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce size of EXMO 20 and revert to EXMO 20b as previously proposed. Do not access site via B3179

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Lynda Benson

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed development will add at least one car per property creating further build up of traffic on the B3179 travelling to Exeter, Exmouth and Budleigh Salterton. It will lead to coalescence of Budleigh Salterton and Exmouth neither of which has the infrastructure to absorb such an influx of permanent residents and of course is contrary to POLICY OL05

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Unless the schools, hospital, roads, parking, roads and services are significantly improved I cannot support such a large development which will cause general havoc to existing residents. Our sewers already cannot support the influx of visitors in the holiday season causing sewage to be closing our beaches (surely the reason to be here) and I would expect these important services to be made ready before any further developments can be considered. Furthermore the wildlife would suffer, and the pebble beds are supposed to be protected. How can this even be on the table?

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: I believe Exmo_20 is in conflict with policy SP01. Although Exmouth is a tier 1 town, Exmo_20 is about 4 miles by car from Exmouth town centre and therefore detached from it; so it cannot be considered to be a development in Exmouth. Exmouth is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360degree development impossible as there is not land all around it, and with the large amount of existing development already sprawled a long distance from the town centre, any new development is closer to neighbouring towns & villages and therefore not development at the principal centre of Exmouth. Any development here will be a long distance from the town such that it is an unsustainable. Further more I beleive the plan making process has not been in accordance with the PCPA 2004. Exmo_20 was deemed "not suitable or achievable" at site sifting stage (HELAA stage 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations. On 3/9/24 the site went from 'ongoing assessment' to 'allocated' and no further consideration or representation was permitted to the public or the Strategic Planning Committee despite the assessment not being complete.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan and possibly consider a smaller developement with access via Salterton Road.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

I believe Exmo_20 is in conflict with policy SP01. Although Exmouth is a tier 1 town, Exmo_20 is about 4 miles by car from Exmouth town centre and therefore detached from it; so it cannot be considered to be a development in Exmouth. Exmouth is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360degree development impossible as there is not land all around it, and with the large amount of existing development already sprawled a long distance from the town centre, any new development is closer to neighbouring towns & villages and therefore not development at the principal centre of Exmouth. Any development here will be a long distance from the town such that it is an unsustainable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan and possibly consider a smaller development with access via Salterton Road.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: I believe the plan has not been in accordance with the PCPA 2004 Section 33A. Exmo_20 was deemed not suitable or achievable at site sifting stage (HELAA stage 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations with Devon County Council.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Julie Bladon

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would increase the need for car travel and increase congestion in conflict with Paragraph 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to Paragraph 11.6. It is too far and too steep from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: To remove Exmo20_from the local plan

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: to make our views heard

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I cannot understand why EDDC should be contemplating this site when it is situated next to the internationally designated Pebblebeds Heath Commons, bearing in mind the following strategy is part of the current EDDC 2013-2031 Local Plan

The Exe Estuary and Pebblebed Heaths 18.47 The Council has formed the view, after receiving advice from Natural England (the government agency responsible for the promotion of wildlife), that there is a risk that residential development (and occupants/their pet) could impact on East Devon Heaths SPA or the Exe Estuary SPA boundary. This advice is reinforced by follow-on work on Habitat Regulations assessment. A particular concern raised by Natural England is that new housing development may have an adverse effect on the SPAs; for example an increase in recreational activity and dog walking may disturb the ground-nesting birds on the Heaths or roosting or feeding birds on the Exe Estuary. Predation of birds by domestic cats is already identified as a particular concern on the East Devon Pebblebed Heaths and any increase in the number of homes could be expected to increase in cat numbers and further exacerbate adverse impacts/predation. To help preserve the integrity of the East Devon Pebblebeds Heath, specifically on account of the impacts of domestic cats through bird predation, new dwellings will not be allowed on or within 400 metres of the Pebblebed Heaths Special Protection Area.

In addition:

1. The main access point is closer to Budleigh Salterton than Exmouth - making Budleigh its most convenient and accessible town. Unfortunately, Budleigh does not have the infrastructure (for sewage, doctors, schooling, or roads) to support such a massive influx of residents. This is contrary to POLICY OL05 of the local plan.

2. Exmo_20 would cause harm to the heritage assets of this Saxon / Norman . Medieval settlement - most significantly St John in the Wilderness Grade II listed church - contrary to POLICY HE02

3. The sewage infrastructure of Budleigh Salterton is woefully inadequate for the existing housing needs. Adding to this will cause significant additional issues.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I am writing to voice serious concern about any building in and around the proposed Exm-20 site. I have lived in Exmouth since 1966 and spent my professional life as a medical doctor. I now live in Budleigh (Simcoe House, 8, Fore St hill EX9 6PE) .

This plan Exm-20 is damaging for any who now call this place home. The major asset of outstanding natural / traditional farming landscape overlooking the bay and river is a really vital and treasured resource. It lies closer to Budleigh than Exmouth but affects each of these closely related towns which are both already struggling to preserve their individuality and residents' welfare.

Our rural identities here are made up of these habitats across generations. These include the wildlife and any other rural multi sensory experiences they provide - no offset, however tailored, will make up for these if lost to us.

Additionally, St John's in the wilderness is a vital spiritual resource needing its unique green environment in which to continue its particular valued and deeply historic culture. Once lost it will never be regained for future generations here. A gem will effectively be smashed .

Locals deserve to live in a place which is invested with the distinct patterned rural east Devon landscape they have already chosen or grown up with, often across many generations. Many of these people are poor in multiple social or psychological ways and many only rarely leave the area, but they derive a great nourishment from their immersion in old green walkways, views, and the distinct local nature.

The government imperative to build should therefore not entail picking on the most glorious of green farmland compartments between our 2 towns.

Thank you for considering my views, which I know thousands around here share. I also realise you are under enormous pressure to provide human housing. But, please, as I implore, not at a gross rural cost to our identities and well being.

I am copying in my MP and my local town council.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

1) It seems that there is only little integration of the development plans for Budleigh Salterton, Exmouth and Woodbury and the increase in traffic that will occur. As I understand the main exit from the Exmo-20 development will probably be opposite the Exmouth Archery Club on the B3179. This road is already busy and one of the main routes through Woodbury to Exeter and the M5. it is lined with mature trees and would therefore be impossible to widen without removing them and also destroying the wildlife that resides in them. The junctions with Inner Ting Tong, Dalditch Lane and St Johns Road are hidden and dangerous when entering onto the B3179. It is recommended that a simulation of the resulting traffic flow be done before proceeding with the development.

2) The proposed development would destroy valuable agricultural land, hedgerows and woodland.

3) Climate scientists predict that we can expect much rainier conditions therefore covering large areas with roads and buildings will result in more flooding and will exacerbate the problems with overloaded sewers in Exmouth.

4) The area is flanked by protected pebble heath, home to rare wildlife and rare ground nesting birds. Increasing the population nearby will not help the protection of this area.

5) The proposal assumes that cycling and walking will be encouraged and so reduce the need for car journeys. Outer Ting Tong is some 400 ft above sea this might promote recreational walking and cycling but certainly not journeys to work, school runs and shopping.

Full name: Ann Maureen Briggs

Proposal:

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed development Exmou2 is not properly integrated with the infra structure required in terms of the transport requirements. The proposal to make the exit onto the B3189 is not sensible. This is already a busy B road with dangerous intersections with western Ting Tong, Dalditch Lane and St Johns Road. The B3179 is already used by traffic from Budleigh Salterton, from Exmouth via the Salterton Road, St Johns Road on route via Woodbury, Clyst St George to the M5 and Exeter. There are also plans for large amounts of house building in Woodbury which will add further amounts of traffic and create congestion. The proposal to discourage car journeys by cycling and walking are not viable, The proposed exit opposite Dalditch lane is over 400 ft above sea level and also 3 miles to Exmouth center. There are many other reasons why the plan is not sound.] Close proximity to pebble heath Overloading the sewage and polluting the Exmouth beach. Budleigh Salterton is closer than Exmouth this will stretch its facilities for example the Doctors Surgery, the Shops and parking.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmou_20 from the local plan or at least reduce its size. Do not access the site via the B3179

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: hear our concerns

Full name: Mrs Patricia Brooks

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly close to Budleigh Salterton than to Exmouth, making BUdleigh its most convenient and accessible town. The services of Budleigh Salterton would be unable to cope with such an increase in use, particularly the Primary School which already has problems with its use of unsatisfactory temporary buildings, and the Doctors' surgery. Extra traffic in the High Street would also be a problem and also the sewage problem is ongoing. 1500 - 2000 extra people would only make this worse. The sewage problem urgently needs to be sorted out before any more new homes can be considered in this area. Exmo_20 would also have a detrimental effect on this open countryside, eliminating "tranquility, wildness and dark skies" contrary to Policy O101. Exmo_20 would increase the need for car travel, in conflict with Paragraph 11.2

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Greatly reduce the size of Exmo_20 Do not access the site via the B3179

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: MR JOHN G BROOKS

Proposal:

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: I am not qualified to judge if it's legally compliant or not and have therefore put not.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Unable to comment.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:
Appears way out of scale with up to 700 new houses with unsuitable road links and lack of ability of local services to cope.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Vastly reduce the proposed number of houses.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: I am not qualified to answer this as I don't know with whom there is a duty to cooperate, so have said no.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: David Brunwin

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo 20 is upstream of Exmouth on the main rainwater catchment area of Withycombe brook. it is on an unsuitable subsoil which makes soakaways ineffective. it would exacerbate the already identified float risk. This is in conflict with policy ARO1B.

The main access point to XO 20 is close to budleigh Salterton. This would put a very significant increase pressure on the services and infrastructure of Budleigh. it would lead to the coalescence of Budleigh and Exmouth, contrary to policy OL05 of the local plan.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would increase the need for car travel and increase traffic congestion, and is therefore in conflict with PARAGRAPH 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: David Buller

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Policy 23 - Infrastructure Delivery: This policy outlines the requirement for necessary infrastructure, including wastewater management systems, to be in place to support new developments. It ensures that housing growth is aligned with the capacity of existing or planned infrastructure to prevent overloading of systems. It currently is NOT in my opinion. Policy OL09: Control of pollution Permission will not be granted for development which would result in pollution that cannot be adequately mitigated. This will include: A. Pollution of the environment by gas or particulates, including: smell, fumes, dust, grit, smoke and soot; B. Pollution of surface or underground waters, for example by untreated sewage, including discharges to:

1. Rivers, other watercourses, water bodies and wetlands;
2. Water gathering grounds including water catchment areas, aquifers and groundwater protection areas;
3. Harbours, estuaries or the sea. If planned development proceeds it will contravene this policy clause.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove SDO1 development within Exmouth / Maer Lane STW catchment from the Local Plan. Even if it is addressed by SWW, Ofwat protocols mean that such improvements will not be completed within 8 years. To allow development of objected to locations prior to infrastructure expansion by SWW will knowingly enable, create & add to sewage pollution of Exmouth water courses & beaches.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmouth is currently a town seriously lacking in adequate sewerage infrastructure, evidenced over the last few years by serial instances of ruptures of its sewage network in various locations, and with a demonstrably under capacity local sewage treatment facility, as evidenced by numerous sewage spills occurring from the network in even the slightest of rainfall. The allocations would be contrary to POLICY SP07 & SP08 (and associated paragraphs) of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.:

Remove site Exmo_20 from the Local Plan. The existing sewerage infrastructure in & around Exmouth is creaking. It is critical that it is not placed under additional stress by building a significant number of new homes until it has been upgraded by SWW to sufficient capacity to enable it to operate in an environmentally-compliant manner with confidence. The policy omits any reference whatsoever to the recent well-publicised issues in & around Exmouth concerning sewage treatment. EDDC have issued notice of civil emergency and a vote of no confidence in SWW because of the nationally publicised sewage infrastructure failures that have taken place across Exmouth from 2019 to 2025. To not even acknowledge this issue in the local plan, a matter of serious concern to numerous residents, despite EDDC's clear knowledge of the problems, is an abandonment of good governance & public service by the district council.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

4(a). If yes, and you wish to support this part of the Development in the Towns and Villages chapter's compliance with the duty to co-operate, please use this box to set out your comments.: No comment

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is much closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services of Budleigh (GPs, school, shops, beach etc) would be the natural choice for residents of Exmo_20. This would certainly lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan.

An alternative site to Exmo_20 for housing allocation should be selected - one which was deemed available and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmouth-20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance the the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade 11* listed church, eroding the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the “tranquility, wilderness and dark skies”, which is contrary to POLICY OL01

Exmo_02 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroying wildlife corridors, contrary to PARAGRAPH 13.24 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to air quality (East Devon Pebblebed Heaths SAC/Spa) such that their Plan fails the integrity test. The main site access proposed is opposite SAC/SPA.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaway, would exacerbate the already identified downstream flood risk along the Withycombe Brook through Exmouth, which is also under additional pressure from climate change. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to exiting key services and facilities, contrary to PARAGRAPH 11.6. It is too far and too steep from any town centre to use walking and cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo-20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Development of Exmo_20 on the heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR0B.

Exmo_20 would increase the need for car travel, contrary to Fig 7, the energy hierarchy, and INCREASE TRAFFIC CONGESTION, in conflict with paragraph 11.2. This would be a isolated location providing unsustainable development, as residents would need to travel much further than 800m to existing key facilities, contrary to paragraph 11.6. It is too far from any town centre to use walking (which would also entail walking along a busy roads with no footpaths) or cycling as their choice of transport. This is contrary to POLICY TR01. Exmo_20 would also have a detrimental effect on this open countryside site and the adjacent internally designated wildlife site, eliminating the tranquillity, wildness and dark skies, which is contrary to POLICY OL01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Bruce Burniston

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area.

EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC defied the people's wishes, and voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

This project, if successful would be yet another step in joining the urban areas of Exmouth and Budleigh Salterton. This would be detrimental to the residents and taxpayers of both.

From an environmental point of view, this project would involve the destruction of a large area of oxygen producing, carbon absorbing greenery - FOR EVER and its replacement PERMANENTLY WITH CONCRETE/TARMAC.

There are plenty of houses in Exmouth. The problem with housing supply is the profusion of holiday homes owned by richer people from elsewhere, and occupy for just a few weeks of the year. This is the result of government policies which have made investment in property the only way to preserve capital. And of course, Ministers and MPs, and many senior central and local government officials, make a lot of money out of second and third homes. Also, the larger our town becomes, the larger will be the salaries and allowances the Chief officers of the local authority will feel they should be entitled to. This brings democracy into disrepute and encourages contempt for it. Is this what East Devon Councillors want?

Furthermore:-

Do they want a single conurbation between Exmouth and Budleigh? Do they want the principle of maintaining Green Belts, National Parks and areas of outstanding Natural Beauty to be cast aside for the current government's anti-Countryside political ideology? Do they want to create a precedent for building over whatever stretches of "protected" Countryside are of interest to money making developers? Do they want local services and utilities to be overwhelmed further than they are already? Do they want more faeces in our sea? Do they want more rich outsiders outbidding our young people who want to work and live here? Do they want ordinary citizens to believe that democracy has been taken away from the people and put into the hands of politicians and officials with vested interests, including furthering their own Party ideology regardless? Do they want to cause the ordinary, law abiding, taxpaying local citizens to become disenchanted with local democracy and drive them into the hands of extremists? Do they want to harm the local tourist industry by destroying the very landscape which attracts so many visitors?

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17. It can never, ever be reversed.

Full name: Tim & Gillian Burrows

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo-20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo-20 is contrary to Policy PB01 of the local plan and not in accordance with the mitigation strategy. Exmo-20 would fragment and isolate habitats and destroy wildlife corridors, contrary to Para 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to Para 13.9.

The Habitat Regulations assessment (30.1.25) confirms that there is 'currently not sufficient certainty to rule out adverse effects in integrity in relation to local air quality' (East Devon Pebblebed Heaths SAC/SPA). Exmo-20 is in conflict with POLICY L09 and POLICY PB04.

Exmo-20 would destroy the 'tranquillity, wildness and dark skies' of the countryside which is contrary to Policy OL01. Exmo-20 would have significant adverse effects on St John in the Wilderness Grade2 listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

Exmo-20 is upstream of Exmouth on the main catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY AR01B.

Exmo-20 would increase the need for car travel and increase traffic congestion particularly as the only exit from the site for, possibly, around 1000 cars is onto a narrow B road (madness and makes no sense whatsoever). This is in conflict with Para 11.2 and is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to Para 11.6. It is much too far (and too steep) from any town centre for people to use walking or cycling (there are no footpaths/cycleways along the B3179) as their choice of transport. This is contrary to POLICY TR01.

The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town - in spite of the well known, and growing, traffic problems in Budleigh High Street. The services and infrastructure of Budleigh (High St, Medical Centre, primary school - these 2 latter services already oversubscribed - and beach) would be the obvious choice for residents from Exmo_20. Quite apart from the obvious traffic and services chaos which could ensue, this would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size of Exmo_20 and do not access the site via the B1379 - this would help mitigate the impact as outlined in our objections above. Ideally we would like the whole plan abandoned but, in the absence of such a sensible decision, the main mitigations above would help.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the local plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the "tranquility, wildness and dark skies", which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmented and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to air quality" (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The entire area is short on infrastructure as it is;

1. South West Water cannot and does not provide adequate sewage systems at the present - they are all overloaded and antiquated.

2. The access road onto the B3179 opposite the archery club - no reasonable or intelligent traffic survey has been carried out. One only has to look at a Bank Holiday Monday with a car boot sale at the Archery Club to observe considerable traffic jams in both directions. Considering 700 houses would probably generate at least 1000 cars the road could not take it. Too narrow, poor quality surface - the road is also used for heavy goods vehicles heading into Budleigh as well as the local recycling centre. Local facilities are inadequate to accommodate an increase in usage. Because of the access people would gravitate towards Budleigh - the current local primary school, which is already over subscribed, will be inundated. The Doctor's surgery, also over subscribed, will not be able to cope. The local chemist, recently reduced to one, is already very busy at any time. Public conveniences are very limited in Budleigh as are car parking spaces. There is no indication of how much of the housing might be for affordable or social occupation.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: As Exmouth council were congratulating themselves on receiving monies for this planning and Budleigh would get nothing except for the hassle then perhaps Exmouth council ought to take on the problems exiting into Exmouth itself.

Full name: Michael Burton

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The entire area is short on infrastructure as it is;

1. South West Water cannot and does not provide adequate sewage systems at the present - they are all overloaded and antiquated.

2. The access road onto the B3179 opposite the archery club - no reasonable or intelligent traffic survey has been carried out. One only has to look at a Bank Holiday Monday with a car boot sale at the Archery Club to observe considerable traffic jams in both directions. Considering 700 houses would probably generate at least 1000 cars the road could not take it. Too narrow, poor quality surface - the road is also used for heavy goods vehicles heading into Budleigh as well as the local recycling centre. Local facilities are inadequate to accommodate an increase in usage. Because of the access people would gravitate towards Budleigh - the current local primary school, which is already over subscribed, will be inundated. The Doctor's surgery, also over subscribed, will not be able to cope. The local chemist, recently reduced to one, is already very busy at any time. Public conveniences are very limited in Budleigh as are car parking spaces. There is no indication of how much of the housing might be for affordable or social occupation.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Land at St John's Exmo – 20 Proposing – A Social and community facilities B Around 700 new homes; and C At least 2 Hectares of employment land. Not sound – as not justified – ‘Our chosen strategies and policies should be based on solid evidence and should be the most appropriate when compared to other options we could have chosen.’ This site was considered at the meeting of the Strategic Planning Committee on 3 September 2024 with an officer recommendation not to allocate the site for development with the main issues being infrastructure problems due to securing suitable access, impact on the landscape, impact on the historic environment; particularly centred on the area surrounding the Church of St John in the Wilderness and ecology reasons due to the substantial areas of woodland within the site. Members chose not to accept Officer advice and decided to allocate this site in favour of other sites which were deemed to be suitable for development as recommended by officers in the same report. It was evident from the meeting that Members had not visited the site to assess its suitability for development even though this is one of the largest, if not the largest site allocation in the plan apart from the new town allocations. It was clear from the meeting that the reason for choosing this site was purely political and not substantiated by sound planning reasons to justify development. Access to the site would be a major problem due to the existing road network both within and surrounding the site. The only feasible means of access to the site would be from the B3179 to the northeast of the site, however, this could not be considered to be sustainable given the location and its relationship with the town centre of Exmouth. The site adjoins the East Devon National Landscape and the East Devon Pebble Bed Heaths SSSI to the northeast and a substantial part of the site falls within the 400m exclusion zone for development adjacent to the SSSI. The site is on rising land to the northeast of Exmouth and its development would have a significant detrimental impact on the landscape of the area. The woodlands within the site, some of which are protected by Tree Preservation Orders provide habitat for considerable wildlife and the development of the site would result in

having a significant detrimental impact on the ecology of the area. The Historical core of area surrounding the Church of St John in the Wilderness would be severely impacted resulting in substantial harm to the designated heritage assets of the area. The development is likely to cause problems of flooding due to increased surface water run-off into the nearby Withy Brook. The allocation of employment land within the site appears to be completely ad hoc in terms of its relationship to existing employment sites and would seem to have been included as an afterthought to assist with meeting target allocations. Land for employment uses should be directed to the expansion of existing employment sites in Exmouth; for example, there is available land in the vicinity of the existing business park at Liverton. The Foreword to the Plan states that ‘East Devon is an Outstanding Place’, however, there is a total disregard to that statement in considering this site for development, as it would result in destroying a beautiful part of the East Devon countryside. Proposing this site for development is not sound, as it is not the most appropriate site for development when compared to other options which could have been chosen. The site is not appropriate for development at all and to include the allocation of this site as one of the largest sites for development in East Devon has to be seen as a total disregard for the significant qualities of the area which contributes to making East Devon an outstanding place.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: There are other sites which were considered to be suitable for development and were rejected. This site was not considered to be suitable and is not suitable for development. The alternative sites which were deemed to be suitable for development should be considered and included as development sites in favour of this site, which clearly is not.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: to ensure our views are heard

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmouth is identified in the local plan as the only Tier 1 settlement designated for significant growth and development.

Among the development sites allocated under SD01, Exmo_20 is the largest, with a proposal for approximately 700 homes, followed by Exmo_17, which plans for 410 homes. Consequently, Exmo_20 represents 48% of the total housing allocation in SD01 for Exmouth, comprising 700 homes compared to 755 homes across all other designated sites.

Given the substantial share of new housing attributed to Exmo_20 and Exmouth's key role in the broader local plan, the allocation of this site represents a major procedural failure. This is particularly concerning as Exmo_20 was previously deemed unsuitable during the HELAA site sifting process. Normally, a failure at an early selection stage would prevent further consideration in later assessments.

Since Exmo_20 was ruled unsuitable at HELAA stage 2, it was not subject to further review:

At HELAA stage 2, Exmo_20 was categorized as "not suitable or achievable."

Due to this designation, it was excluded from Regulation 18 consultations.

However, on 3/9/24, its status changed from "ongoing assessment" to "allocated."

Despite this shift, there was no opportunity for public consultation or review by the Strategic Planning Committee, leaving the evaluation of Exmo_20 incomplete.

It is highly concerning that the largest proposed development within the only Tier 1 settlement has not undergone full scrutiny. This omission undermines the credibility of the plan. Given the scale of the project, its critical role in Exmouth's development, and Exmouth's overall importance in the region, it is essential that the full planning process is properly followed and its conclusions upheld.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: The assessment process for Exmo_20 must be fully completed, with its findings upheld. It should not be acceptable to overlook or bypass earlier evaluation stages, particularly when the site has already been deemed unsuitable.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmouth is identified in the local plan as the only Tier 1 settlement suitable for higher levels of growth and development.

Of the development allocations listed for Exmouth under SD01, Exmo_20 is by far the largest (at around 700 homes), the next largest being Exmo_17, with 410 homes listed.

Exmo_20 therefore represents 48% of the homes in SD01 for Exmouth (700 proposed homes in Exmo_20, and 755 in total being under other development allocations).

Given the share of new homes that this development will provide, and the obvious importance of Exmouth to the local plan as a whole, it seems an obvious failure of process for this site to have been allocated despite the Exmo_20 site previously being ruled out as an unsuitable site in the HELAA site sifting stage.

In no other situation would failure at an early stage of a selection process allow subsequent assessment stages to be sidestepped.

As a consequence of Exmo_20 being ruled out as unsuitable at HELAA stage 2, it was not scrutinised further:

- Exmo_20 was deemed "not suitable or achievable" at site sifting stage (HELAA stage 2).
- As a direct consequence of the HELAA stage 2 result, the site was omitted from regulation 18 consultations.
- However, on 3/9/24 the site status changed from 'ongoing assessment' to 'allocated'
- No further consideration or representation was permitted to the public or the Strategic Planning Committee, despite the assessment of Exmo_20 being incomplete.

It is seriously concerning that the largest development in the only Tier 1 site in the Local Plan has not been through the full process of scrutiny and consideration, and this aspect of the plan is clearly not sound in this respect.

Given the size of the proposed development itself, its importance in terms of its intended contribution to the development allocation in Exmouth, and the importance of Exmouth to the area as a whole, it seems obvious that in order for the plan to be sound, the correct process should be followed - in its entirety - and the results of that process respected.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: The full process should be completed for Exmo_20, and the result of that process respected. It should not be possible to sidestep or discount earlier assessment stages, including stages which have (already) identified the site as unsuitable.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with policy OL05. The main access point to Exmo_20 is 4 miles from the center of Exmouth and only 2.2 miles from the center of Budleigh Salterton, making Budleigh much more accessible for the development. The access route to the site naturally leads toward Budleigh Salterton High Street, while reaching Exmouth requires traveling twice the distance and going around the edge of the town. The High Street, doctor's surgery, primary school, beach, and other services in Budleigh would be the most accessible and obvious choices for Exmo_20 residents. Although Exmouth and Budleigh are currently distinct in terms of functionality, this development would merge the two, with residents living in one town but relying on the services and infrastructure of the other.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with policy HE02. A development of this size surrounding St. John in the Wilderness Church (Grade II* listed) would have significant negative impacts on the church and churchyard's remote and tranquil surroundings, greatly altering the peaceful setting for worship that currently exists for the congregation.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with policy OL01. The site is notable for its dark skies, tranquillity, and sense of wildness. In addition to light pollution from the housing development itself, the main access point at the B3179, directly opposite the SPA/SAC/SSSI, would lead to a significant flow of car headlights, disrupting the darkness across the entire site and shining directly onto the Heaths as vehicles leave the site. The area surrounding St John in the Wilderness church is known for its dark skies and strong sense of remoteness and tranquillity, creating a 'wilderness' atmosphere that is integral to the Grade II* listed church. This setting would be negatively impacted by the encircling housing development, regardless of any buffer zone.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines ‘irreplaceable habitat’ as habitats that are technically very difficult or take a significant amount of time to restore, recreate, or replace once destroyed. Exmo_20 will result in the loss of irreplaceable habitats, including a large number of mature trees, many of which exhibit signs of veteranisation. These trees provide unique microhabitats, and their loss cannot be simply mitigated by planting new trees. Additionally, Exmo_20 contains many long-established hedgerows, which are of considerable length. These trees and hedgerows have high intrinsic biodiversity value, offering vital habitats and wildlife corridors. Although efforts can be made to leave space around them, the degradation and fragmentation of these habitats is unavoidable. Nightjars, a qualifying species of the East Devon Heaths SPA, are known to fly up to 7km from nesting sites to feed at night. The loss of foraging habitat or disruption of their feeding routes could undermine the conservation objectives of the SPA. Exmo_20 also lies within an identified ‘Strategic Nature Area’ (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at linking existing wildlife sites and extending habitats. This area provides essential connecting habitats and wildlife corridors between the Pebblebed Heaths to the north and the woodland to the south and beyond, all of which would be negatively impacted by the development of Exmo_20.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with paragraph 13.23. It is located within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, which is part of the Local Nature Recovery Strategy designed to connect existing wildlife sites and extend habitats. This area provides important connecting habitats and wildlife corridors between the Pebblebed Heaths to the north of the site and the woodland to the south and beyond, all of which would be negatively affected by the development of Exmo_20. Nightjars, a qualifying species of the East Devon Heaths SPA, are known to fly up to 7km from their nesting sites to feed at night. The loss of foraging habitat or disruption of their feeding routes could undermine the conservation objectives of the SPA.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with policy OL09. The Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects on integrity regarding air quality (East Devon Pebblebed Heaths SAC/SPA)." This is because the primary access to Exmo_20 is via the B3179, which would direct a large amount of additional traffic along the boundary of the Pebblebed Heath. At peak times this could result in additional stationary or slow moving traffic along this boundary, exacerbating the problem further.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 2.6; Exmo_20 is currently open countryside, and this is not 'modest' development, or one that allow the area to retain its existing charm or character. It is a 'comprehensive development scheme' within a rural part of East Devon adjacent to areas of outstanding natural beauty.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with policy TR03 and Figure 7 in the Local Plan. Due to the site's limited access, the development would result in a high number of vehicle movements just to reach services in Exmouth and neighboring settlements via the B3179. Given the steep topography and remote location of the site, walking or cycling routes would offer only limited alternatives to driving. The Local Plan highlights that congestion is a major issue in Western East Devon, and since this site has no direct access to Dinan Way or the A376, the resulting vehicle traffic will be forced onto rural B roads, which are already known to be congested and substandard.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

Proposal:

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with paragraph 3.34. Despite being a tier 1 settlement, Exmouth lacks sufficient infrastructure and services to support its current population. Even if the proposed development contributes financially to infrastructure improvements, it will not provide an additional doctor's surgery or dentist, both of which are already inadequate for the existing population. Similarly, it will not offer another secondary school—over the past 3 years, many children have had to attend secondary school in Cranbrook due to a lack of capacity at Exmouth Community College. Additionally, the existing sewerage system in Exmouth is so inadequate that sewage is regularly discharged into the sea, often leading to beach closures for swimming. The town's sewerage issues have been reported on national news multiple times, highlighting the scale of the problem.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with paragraph 11.2. It will increase travel demands and require cars to take longer routes. Housing is proposed at the southern end of the site, while the main vehicular access point is located at the far northern edge, next to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone around the SAC/SPA/SSSI, no housing is allowed within the top 400m, meaning there will be a minimum 0.5km drive just to reach the housing from the site entrance. This would result in at least 1km of driving within the site every time residents leave or return home. Furthermore, from the B3179 site entrance, drivers will need to travel a 4.0-4.3 mile route to reach Exmouth town center. Exmo_20 would thus increase travel needs, leading to more car journeys and longer distances traveled.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 contradicts policy TR01. Walking or cycling will not be the preferred transport option for residents to access shopping, work, school, etc., due to the significant distance. Research cited in the Local Plan indicates that most people prefer to walk if their destination is within 0.5 miles, that cars become the dominant mode of transport beyond 1 mile, and that walking trips beyond 2 miles are rare. Exmo_20 is much farther than 0.5 miles, or even 1 mile, from essential infrastructure and services, making walking or cycling an impractical first choice. Even with the addition of walking routes, cycle paths, or public transport, the steep local terrain, frequent wet / windy weather and the distance to essential services will not reduce the number of car journeys this development will generate. Additionally, it will be challenging for those without access to a car, leading to social exclusion.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with paragraph 11.6. It is a 'larger' development, and the majority of the site is located more than 800 meters (about a 10-minute walk) from any existing key services and facilities. With no plans to provide substantial key services on-site, residents will likely need to drive over two miles (via the B3179) to reach these services in Exmouth or nearby settlements.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Matthew Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 contradicts policy SP01. While Exmouth is a tier 1 town, Exmo_20 is located 4 miles by car from the town center and is physically separate, meaning it cannot be considered part of Exmouth's development area. Exmouth is entirely unsuitable for significant further growth. Situated on a peninsula between the River Exe and the coast, the town center lies at the southern tip, limiting development in key directions. Given the extensive existing development already spread far from the town center, any new development would be closer to neighboring towns and villages, rather than being within Exmouth's core. Therefore, any development in this area would be too distant from the town, making it an unsustainable location.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. Exmo_20 was deemed not suitable or achievable at site sifting stage (HELAA stage 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations with Devon County Council.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The plan making process has not been in accordance with NPPF Chapter 3. Exmo_20 was deemed "not suitable or achievable" at site sifting stage (HELAA stager 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations. On 3/9/24 the site went from 'ongoing assessment' to 'allocated 'and no further consideration or representation was permitted to the public or the strategic planning committee despite the assessment not being complete.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with policy AR01(B). The site sits upstream of Exmouth on the main rainwater catchment area of Withycombe Brook. The subsoil is heavy clay, the impermeable nature of which makes soakaways ineffective and the land is often waterlogged. Building on this steep site would significantly exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remover Exmo_20 from the local plan

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths, therefore defining this land as acceptable for development. Although housing cannot be built on the buffer zone, by including it within the settlement boundary it is available for other kinds of development. This is contradictory to the precautionary approach as the plan fails to robustly protect against adverse effects of recreational use etc on the Pebblebed Heaths.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo-20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with policy OL05. The main access point to Exmo_20 is 4 miles from the centre of Exmouth and only 2.2 miles from the centre of Budleigh Salterton, making Budleigh significantly more accessible to the development. The access arrangement for the site leads naturally down the road into Budleigh Salterton High Street whereas to get into Exmouth means travelling twice the distance and having to go around the edge of Exmouth to get back down into it. The High Street, Doctor's surgery, primary school, beach etc in Budleigh would be the most accessible and obvious choices for residents of Exmo_20. Currently Exmouth and Budleigh are separated in terms of functionality but this development would merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL01. The site is distinctive for its dark skies, tranquillity and wildness. In addition to significant light from the housing development itself, the main site access point being at the B3179, directly opposite the SPA/SAC/SSSI would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Heaths as vehicles exit the site. The area around St John in the Wilderness church is characterised by dark skies and a strong sense of remoteness and tranquillity, a 'wilderness' setting integral to the grade II* listed church which would be harmed by having a housing development encircling it, regardless of a buffer zone being left.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 13.9. Exmo_20 will cause loss of irreplaceable habitats. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". The site has a great number of mature trees, many of which show signs of veteranisation. These provide unique micro habitats and their loss cannot simply be mitigated by planting new trees. Exmo_20 also contains many long- established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and although space can be left around them, degradation and fragmentation of habitat is unavoidable. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. Exmo_20 lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. Due to Exmo_20's restricted access arrangements, the development would generate significant amounts of vehicle movements just to access services within Exmouth and the neighbouring settlements using the B3179. Due to the site's steep topography and remote location from services, any walking or cycling routes will provide limited viable alternative options to using a car. The local plan notes that congestion is a particular issue in Western East Devon, and with this site having no access to Dinan Way and the A376, the significant amounts of vehicle movements from this site will be on rural B roads, locally notorious for being congested and substandard.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 3.34: despite being a tier 1 settlement, Exmouth does not have sufficient infrastructure and services for the existing population. Doctors, Dentists, Schools and the sewage waste system would all be incapable of servicing the increased population size. Even should the proposed development brings financial contributions towards infrastructure etc it will not add another Doctors surgery or dentist - both of which are already insufficient for the current population of Exmouth. Neither does the proposal provide another secondary school - within the last 3 years numerous children have had to travel to Cranbrook for secondary school provision. Exmouth Community College is already at capacity with the current population and even with cranbrook secondary school, would be insufficient to support the population's educational needs. The existing sewerage system in Exmouth is currently so inadequate that sewage is discharged into the sea on a very regular basis and the beach is regularly closed for swimming. Exmouth's problem with sewage has been featured on national news several times, highlighting the scale of the problem it has. It does not need to increase the scale of this problem with no plans to reduce the problem.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan, or reduce the size of Exmo_20

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.2. It will inevitably increase travel needs, and necessitate cars to take longer routes. Housing is proposed at the southern end of the site whereas the main access point for cars is at the very northern edge of the site, right next to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted at all within the top 400m of the site, resulting in a very minimum of 0.5km drive just to get from the site entrance to the housing. This would mean you were driving a minimum of 1km 'on site' for every journey off site and back. In addition to this, from the B3179 site entrance you need to drive 'around and back down' (4.0-4.3 miles) to get into Exmouth centre. Exmo_20 would increase travel needs resulting in an increased number of car journeys and requiring cars to travel more miles.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR01. People will not choose walking or cycling as their first choice of transport, as it is too far for most people to access school, work, shop quickly and conveniently. Studies cited in the Local Plan show that most people prefer to walk if their destination is within 0.5 miles, that beyond the distance of 1 mile cars are the dominant mode of travel and that beyond 2 miles trips on foot are few. Exmo_20 is significantly further than 0.5 miles or even 1 mile from essential infrastructure and services therefore the idea that people will walk or cycle as first choice of transport is unrealistic. Providing walking routes, cycle paths or public transport will do little to reduce the amount of car journeys this development would generate because the steep local topography in addition to the distance to access essential infrastructure and services is too far. It will also be a difficult location for those without car access and cause social exclusion.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Beth Cairns

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.6. Most of the site is not within 800m (approx 10 mins walk) of any existing key services and facilities, and it is classified a 'larger' development . There are no plans to provide significant key services on site so residents will likely need to drive over two miles (via the B3179) to access them within Exmouth or neighbouring settlements, such as Budleigh Salterton.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy SP01. Although Exmouth is a tier 1 town, Exmo_20 is 4 miles by car from Exmouth town centre and detached from it; it cannot be considered to be a development in Exmouth. Exmouth is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360 degree development impossible and with the large amount of existing development already sprawled a long distance from the town centre, any new development is closer to neighbouring towns & villages and therefore not development at the principal centre of Exmouth. Any development here will be a long distance from the town such that it is an unsustainable location.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from local plan.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High St. Doctor's school, beach etc) would be the preferred choice of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan. An alternative site to Exmp_20 for housing allocation should be selected, one which was deemed available and suitable in HELAA. Exmo_20 would cause harm to the adjacent Pebbled Heaths (SSSI/SAC/SPA/NNR) due to Exno_20 being a supporting foraging habitat. Developing Exmp_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. Exmo_20 would cause harm to heritage assets, most signifvantly St John in the Wilderness Grade II* listed church and churchyard, drastically altering the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02. Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the "tranquility, wildness and dark skies" of the countryside, which is contrary to POLICT OL01. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity, This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel and increase in traffic congestion, in conflict with Paragraph 11.2. The isolated location is unsuitable for development as people would need to travel much further than 800m to existing key services and facilities, contrary to Paragraph 11.6. It is too far and too steep from any town centre to use walking or cycling. as their choice of transport and too dangerous considering the inevitable increase in traffic on narrow roads. This is contrary to POLICT TR01

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any

matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Gavin Callow

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The present infrastructure and facilities are insufficient to support the proposed developments which are out of proportion to the present population. The impact on Budleigh Salterton would be particularly severe through increased traffic, pollution, flood risk, noise and pressure on already overstretched medical facilities, amenities and schools. This large scale development would almost certainly damage the local ecology and environment irreversibly.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Patrick Camp

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: ?

The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan. ? An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. ? Exmo_20 would cause harm to the heritage assets, most significantly St John in the Wilderness Grade II* listed church and churchyard, drastically altering the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02.

? Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the "tranquility, wildness and dark skies" of the countryside, which is contrary to POLICY OL01. ? Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. ? Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. ? Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would

exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B. ? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. # Closures and additional delays on the B3179 during construction phases and thereafter will have a crippling effect on the commercial survival of Budleigh Salterton high street shops, that depend heavily on visitors during the summer months. There are already too many vacant shops since the covid crisis and we need to encourage, not deter, holiday visitors to the town. Therefore the B3179 must not be closed or restricted as a consequence of Exmo_20.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: ? Remove Exmo_20 from the Local Plan ? Reduce the size of Exmo_20 ? Do not access the site via the B3179 ? Do not access the site via Southern Wood ? Revert to Exmo_20b as previously proposed.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the Local Plan.

- An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

- Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/ Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HEO2.

- ?Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the "tranquility, wildness and dark skies", which is contrary to POLICY OL01. Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation

to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

- Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan Reduce the size of Exmo_20

- Do not access the site via the B3179
- Do not access the site via Southern Wood " Revert to Exmo_20b as previously proposed.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christopher Cant

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh than Exmouth. This undermines the settlement hierarchy a joining of Budleigh and Exmouth contrary to policy OL05 of the local plan.

There needs to be direct road links from Exmo_20 to Brixington and Exmouth.

An alternative site for Exmo_20 should be selected because the present plan would cause harm to the adjacent Pebblebed Heaths. Allocating Exmo_20 is contrary to the HELAA.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Church eroding the attractive rural setting for worship and burials.

Exmo

-20 development would be in conflict with POLICY OL01 by destroying the dark sky in the area, and with the Strategic Nature Area 368 fragmenting and isolating habitats contrary to Paragraph 13.23 of the Local Plan.

Exmo_20 is also in conflict with Policy OL09 and PB04. The main access point is opposite the SAC/SPA.

Exmo_20 would increase the need for car travel along the B3179 unless access is provided by a bus route directly from Exmouth.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size of Exmo_20 and only have access from the bottom of the site.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". Exmo_20 will cause loss of these irreplaceable habitats. It has a great number of mature trees, many of which show signs of veteranisation. These provide unique micro habitats and their loss cannot simply be mitigated by planting new trees. Exmo_20 also contains many long- established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and although space can be left around them, degradation and fragmentation of habitat is unavoidable. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. Exmo_20 lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy SP01. Although Exmouth is a tier 1 town, Exmo_20 is 4 miles by car from Exmouth town centre and detached from it; it cannot be considered to be a development in Exmouth. Exmouth is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360degree development impossible and with the large amount of existing development already sprawled a long distance from the town centre, any new development is closer to neighbouring towns & villages and therefore not development at the principal centre of Exmouth. Any development here will be a long distance from the town such that it is an unsustainable location.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.:

Policy 23 - Infrastructure Delivery: This policy outlines the requirement for necessary infrastructure, including wastewater management systems, to be in place to support new developments. It ensures that housing growth is aligned with the capacity of existing or planned infrastructure to prevent overloading of systems.

Policy OL09: Control of pollution Permission will not be granted for development which would result in pollution that cannot be adequately mitigated. This will include: A. Pollution of the environment by gas or particulates, including: smell, fumes, dust, grit, smoke and soot; B. Pollution of surface or underground waters, for example by untreated sewage, including discharges to:

1. Rivers, other watercourses, water bodies and wetlands;
2. Water gathering grounds including water catchment areas, aquifers and groundwater protection areas;
3. Harbours, estuaries or the sea;

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.:

Remove SDO1 development within Exmouth, Maer Lane STW catchment from the Local Plan. Even if to be addressed by SWW, Ofwat processes meant that such improvements cannot be completed within 8 years. To allow development of these locations prior to infrastructure expansion is to knowingly enable, create, add to sewage pollution of Exmouth river, sea and streams.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed housing allocations in Exmouth ... A town currently with insufficient sewerage infrastructure, demonstrably broken sewage network and demonstrably under capacity of the sewage treatment facility so without economically unviable investment for a site, the allocations would be contrary to POLICY SP07 & SP08 (and associated paragraphs) of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: remove site Exmo_20 from the Local Plan The policy does not take into account the already acknowledge failure of the sewage network infrastructure and overwhelmed treatment capacity of the Maer Lane sewage treatment works. The policy does not even refer to the many issues that all acknowledge. EDDC have issued notice of a "civil emergency" and a "vote of no confidence in SWW" because of the nationally publicised sewage infrastructure failures across Exmouth from 2019 to 2025. To not even acknowledge this issue, despite EDDCs clear knowledge of the problems is highly irresponsible.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Peter Chadwick

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Stop

Exmo_20

- The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.
- Exmo_20 would destroy the "tranquillity, wildness and dark skies" of the countryside, which is contrary to POLICY OL01.
- Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.
- The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to... air quality (East Devon Pebblebed Heaths?SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

- Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.
- Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY ARO1B.
- Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TRO1.
- The main access point

of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

- Reduce the size of Exmo_20
- Do not access the site via the B3179
- Do not access the site via Southern Wood
-

Revert to Exmo_20b as previously proposed.

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: On page 13, point 13, the Connectivity and Transport section aims to reduce reliance on car use, increase walking and cycling, and minimize impacts on the local road network to reduce congestion. However, the development of site Exmo_20 will not achieve these goals. The site is on a steep slope from North to South, effectively splitting it into two due to access restrictions. The main access point for this large development is onto the already congested B3179, which has known congestion issues¹.

Residents will not walk for their main shops, doctors, dentists, etc., as the main access point is over 4.2 miles from the town center². Additionally, due to the site's size, the majority of residents will have to travel nearly 0.5 miles just to reach the main access point². This makes the site unsustainable and it should be removed from the Draft Local Plan.

The main access to the site is significantly closer to Budleigh, making this the more accessible and convenient town. The services and infrastructure of Budleigh are unsatisfactory to meet the needs of a growing population. This would lead to a coalescence of Budeigh and Exmouth. Similarly the increase in traffic flow would bombard Woodbury, an already dangerous and congested road.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.:

Remove Exmo_20 from the plan.

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Incorrect Map: The map on page 326 incorrectly includes your homes, the Grade II* listed church, and the caravan park within the shaded area for the Exmo_20 development. This issue has been raised multiple times with EDDC, including with the Chair of the Strategic Planning Committee and planning officers. The correct map, shown in blue within the Reg 19 evidence, should be used instead¹.

HELAA Report Discrepancies: The HELAA report from November 2022 lists several sites, including Exmo_20, as "not suitable or achievable," which contradicts the February 2025 Sustainability Appraisal Report's assessment of these sites as suitable, available, and achievable³².

Conflict with Policies: The development of Exmo_20 conflicts with various policies, including:

POLICY OL01: Adverse effects on tranquility, wildness, and dark skies¹. POLICY PB04: Impact on air quality affecting East Devon Pebblebed Heaths SAC/SPA⁴. POLICY HE02: Significant adverse effects on St. John in the Wilderness Grade II listed church and churchyard. Sustainability Concerns: The development does not minimize the need to travel, as it is located in an unsustainable area with the main access point over 4.2 miles from Exmouth town center.

Site Selection Methodology: The inclusion of Exmo_20a and Exmo_20b in the Reg 18 consultation is questionable, as these sites were not mentioned in any key evidence reports or discussed at relevant meetings¹.

Climate Change and Transport: The development does not align with goals to reduce reliance on car use, increase walking/cycling, and reduce congestion.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Copilot The Exmo_20 development would have significant adverse effects on St. John in the Wilderness Grade II listed church and churchyard, drastically altering the peaceful setting for worship that currently exists for the congregation. This is contrary to POLICY HE02.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christian Chalker

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Habitats Regulations Assessment (dated 30/01/2025) confirms that there is "currently not enough sufficient certainty to rule out adverse effects on integrity in relation to air quality" for the East Devon Pebblebed Heath SAC/SPA1. This indicates that the Exmo_20 development conflicts with Policy OL09 and Policy PB0423.

Currently, without the increase of 700 - 1400 additional cars there is significant ques of traffic approaching and leaving the B3179, in particular through Woodbury. The addition of these additional vehicles will bring the risk of significant environmental damage.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christian Chalker

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development of Exmo_20 would fragment and isolate habitats, destroying wildlife corridors, which violates paragraph 13.23 of the local plan. It would also harm irreplaceable habitats, veteran trees, and species-rich hedgerows across the site, contrary to paragraph 13.9.

As a resident of the site proposed for development we frequently witness deer, foxes, adders, bats and many wild birds. Recently just a few hundred metres from the development there is significant evidence of Beaver inhabitation.

There are multiple tree preservation orders surrounding our property to protect.

Increased footfall and housing on the boundary of the Common is concerning.

I am worried that relevant stakeholders have not been engaged with thoroughly, a FOI with Natural England showed no consultation end of 2024. Similarly contact with Devon Wildlife Trust is suggestive of limited communication or engagement. The maps and outlines for the proposal, including access have changed which means that it's not clear if any discussion with stakeholders has been on accurate maps and proposals, and therefore allowed full consideration of the implications.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will

be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Exmo_20 development would cause significant and irreversible damage to tranquility, wildness, and dark skies, which is contrary to POLICY OL011. The Pebblebed Heaths, designated as a specialist conservation area, should be protected. However, this development would force wildlife into smaller, restricted areas, placing them at risk due to human encroachment on areas of outstanding natural beauty.

Transparent and detailed engagement with stakeholders such as the Devon Wildlife Trust and Natural England has been poor.

The access to the site is proposed right off the main B road. The increased volume of traffic through the immediate area as well as the additional footfall, dog fouling etc is a real risk to the environment.

There is confirmation of beavers at Bystock ponds along with other rare wildlife which will be grossly disturbed by the creation of this development.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo-20 from the plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development of Exmo_20 will undoubtedly fragment and isolate habitats, destroying wildlife corridors. This contravenes paragraph 13.23 of the local plan. The impact would be devastating, causing irreparable harm to habitats and affecting vegan trees and species, which is against paragraph 13.9.

As a local resident, I have firsthand experience with the area's wildlife, including deer, birds, and dragonflies that frequent our garden. We are surrounded by tree preservation orders to mitigate damage and destruction. It is impossible to build such a large development, which has the potential for further expansion in the future, without harming the habitat and its resident wildlife. There has been poor engagement with organisations such as Natural England and Devon Wildlife Trust. Maps have been inaccurate, the perimeter of the site boundaries and main access changed. This has led to really unclear and poor communications which have been misleading both the general public and important stakeholders.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove from the Plan based on the close proximity and devastating damage to the Bystock Ponds and Common.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christian Chalker

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development of Exmo_20 would with certainty fragment and isolate habitats and destroy wildlife corridors. This goes against paragraph 13.23 of the local plan. This would have devastating effects, detrimental to irreplaceable habitats and vegan trees and species. This is contrary to paragraph 13.9. As a resident of the local area I have first hand experience of the wildlife, with deer, birds and dragonfly frequenting our garden. We are surrounded by tree preservation orders to mitigate damage and destruction. There is no way to build such a huge development, which has been cited as having even further potential for scope of development in future years to come, in a way that protects and sustains the habitat and it's resident wildlife.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christian Chalker

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

Exmo_20 development would destroy and cause immense terminal destruction to tranquility, wildness and dark skies”, this is contrary to POLICY OL01’.

The Pebblebed heaths should be protected as a specialist conservation area, yet this wildlife will be driven into smaller and restricted area, placed at risk by human development on areas of outstanding natural beauty.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christian Chalker

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed Exmo_20 site should not be allocated due to the immense risk of harm to the local environment and Pebblebed healths (SAC/SPA). This is in breach and contrary to Policy PB01 of the local plan and not in accordance with the mitigation strategy. Protection legislation is there to ensure these areas of outstanding natural beauty and associated wildlife are kept safe. Sprawling and extensive developments such as this on the boundary of these areas will destroy and cause harm with pollution, light pollution, footfall, dog fouling. There have to be alternative sites in and around the local area which are better suited and will cause less irreparable environmental impact.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan and reallocate housing allocation.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Joanna Chalker

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. Exmo_20 was deemed not suitable or achievable at site sifting stage (HELAA stage 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations with Devon County Council.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Joanna Chalker

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The plan making process has not been in accordance with the PCPA 2004. Exmo_20 was deemed "not suitable or achievable" at site sifting stage (HELAA stage 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations. On 3/9/24 the site went from 'ongoing assessment' to 'allocated' and no further consideration or representation was permitted to the public or the Strategic Planning Committee despite the assessment not being complete.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 or reduce to Exmo_20B.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

INCREASED FLOOD RISK Allocation of Exmo_20 is in conflict with policy AR01(B). The site sits upstream of Exmouth on the main rainwater catchment area of Withycombe Brook. The subsoil is heavy clay, the impermeable nature of which makes soakaways ineffective and the land is often waterlogged. Building on this steep site would significantly exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. (POLICY AR01(B) states that development should be safe for its lifetime without increasing or exacerbating flood risk elsewhere). As a resident close to the proposed Exmo_20 site I am more than aware of the clay soil which waterloggs the gardens and spaces around my own property and neighbours. During the winter months we are unable to access our gardens due to excessive water collection and poor drainage, this will be exacerbated and place not only the properties onsite but also those downstream.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. EXTENDING THE SETTLEMENT BOUNDARY OF EXMOUTH Allocation Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths, therefore defining this land as acceptable for development. Although housing cannot be built on the buffer zone, by including it within the settlement boundary it is available for other kinds of development. This is contradictory to the precautionary approach as the plan fails to robustly protect against adverse effects of recreational use etc on the Pebblebed Heaths. The potential environmental harm from the development will likely be devastating for the wildlife of the Pebblebed heaths and local area. Moving the boundary of the town right to the top of the Pebblebed heaths will no doubt impact from a footfall, light pollution and vehicular pollution at the least. There are minimal/unsatisfactory facilities within the site which means that travel to Budleigh, Woodbury, Exmouth or Exeter is a requirement.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. COALESCENCE BETWEEN BUDLEIGH AND EXMOUTH Allocation of Exmo_20 is in conflict with policy OL05. The main access point to Exmo_20 is 4 miles from the centre of Exmouth and only 2.2 miles from the centre of Budleigh Salterton, making Budleigh significantly more accessible to the development. The access arrangement for the site leads naturally down the road into Budleigh Salterton High Street whereas to get into Exmouth means travelling twice the distance and having to go around the edge of Exmouth to get back down into it. The High Street, Doctor's surgery, primary school, beach etc in Budleigh would be the most accessible and obvious choices for residents of Exmo_20. Currently Exmouth and Budleigh are separated in terms of functionality but this development would merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other. (POLICY OL05: This policy stated that development will not be permitted if it could lead to or encourage settlement coalescence). As a parent of a primary school age child resident in the area of the proposed Exmo_20 we attend Budleigh for school and nearly all facilities due to the proximity. This would no doubt be true if the development proceeds putting excessive pressure on the infrastructure and road networks.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan, reduce to Exmo_20B or reallocate housing allocation.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

POLICY OL01 states that development will only be permitted where it would not harm the aesthetic and perceptual factors such as “tranquillity, wildness and dark skies”. HERITAGE / ST JOHN IN THE WILDERNESS CHURCH. ALLOCATION OF Exmo_20 is in conflict with policy HE02 - a development the size of Exmo_20 surrounding St. John in the Wilderness Church (grade II* listed) will have significant adverse effects on the remote and tranquil surroundings of the church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. (POLICY HE02 states that proposals for development will be expected to be sympathetic to listed buildings and their settings). Similarly the devastating impact on environmental tranquility in view of an enormous development with main access straight onto the B379 and onto the Common.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL01. The site is distinctive for its dark skies, tranquillity and wildness. In addition to light from the housing development itself, the main site access point being at the B3179, directly opposite the SPA/SAC/SSSI would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Heaths as vehicles exit the site. The area around St John in the Wilderness church is characterised by dark skies and a strong sense of remoteness and tranquillity, a 'wilderness' setting integral to the grade II* listed church which would be harmed by having a housing development encircling it, regardless of a buffer zone being left.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 2.10, objective 8. It will adversely affect the natural environment and result in the loss of much biodiversity, both on site and on the adjacent SAC/SPA/SSSI. (PARAGRAPH 2.10. Objective 8. This states the objective “To protect and enhance our outstanding natural environment and support an increase in biodiversity”).

There is extensive wildlife inhabiting the Pebblebed Heaths and bystock ponds, ranging from ground nesting birds, owls, beavers, cuckoo, woodpeckers, deer, dragonflies and a multitude of other species. The introduction of a large development so close to the protected sites will adversely effect the wildlife and cause destruction of the local habitats due to light pollution, vehicle emissions, increased footfall, dog fouling etc. The inclusion of "nature spaces" proposed within the plan following the disruption and development of 700+ houses will not be enough to mitigate the huge negative impact.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan, reduce to Exmo_20B or reallocate to another site.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy PB04. The Habitats Regulations Assessment (30.01. 25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA).” (POLICYPB04 states that proposed plans must not affect the integrity of sites protected under the Conservation of Habitats and Species Regulations 2017 (including SAC/SPA)). The increase in vehicles accessing the site will undoubtedly impact the air quality and have adverse effects on the local environment. As a local resident who drives the road for a school run the road is already treacherous with the volume of traffic currently, blind spots and challenging junctions.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL09. The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA)”. This is due to the primary access to Exmo_20 being into B3179 which would send traffic along the boundary of the Pebblebed Heath. (Policy OL09 states that “permission will not be granted for development which would result in pollution that cannot be adequately mitigated”). The initial proposal is for 700 houses. Council have already indicated that there is opportunity for a much larger number within the plot. The location of the plot and steep topography mean that the site will predominantly be accessed by road, the average household own 2 vehicles which means in excess of 1400 additional vehicles travelling on an already busy and at times fast and dangerous road with multiple junctions and poor signage. This site borders the Pebblebed Heaths. The significant emissions have potential to cause serious and irreparable harm.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy PB01 and not in accordance with the mitigation strategy. This development could be located on alternative site(s) which would cause less or no harm to the Pebblebed Heaths (SAC/SPA). (Policy PB01 states that development proposals that would cause a direct or indirect adverse effect upon internationally and nationally designated sites will not be permitted unless they cannot be located on alternative sites that would cause less or no harm). The allocation of this plot will no doubt cause immense harm to the local wildlife by a combination of but not limited to : damage/impact of light pollution, emissions pollution, dog fouling, increased footfall and human impact. There are ground nesting birds, rare species and of late significant evidence of beavers in recent months, all of which will be compromised by this development so close to the site. Even with a 400m buffer there is no certainty that this buffer cannot be utilised for commercial or communal areas, all of which will have significant detrimental impact. In addition there are no pavements or safe pedestrian crossing areas.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan, reduce the size of Exmo_20 to the proposed 20B or reallocate. Remove the main access from the B379.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 2.6; Exmo_20 is currently open countryside, and this is not 'modest' development. It is a 'comprehensive development scheme' within a rural part of East Devon. (PARAGRAPH 2.6 states that "Rural East Devon will retain its outstanding charm and character with modest and sensitively planned development). NATURAL ENVIRONMENT

Allocation of Exmo_20 is in conflict with policies PB01, PB04, OL09, OL01 and paragraphs 2.10, 13.23 and 13.9 of the Local Plan.

The building of 700+ houses and commercial buildings on the edge of an area of outstanding natural beauty which is inhabited by extensive wildlife will degrade and destroy the charm and character. It is enormously concerning that decisions have been made to allocate this site against planning inspectorate advice and in the absence of formal consultation with important advising and regulating bodies due to misleading communications ie. Map outlined site Exmo_20 as rejected. This would lead stakeholder and members of the public to assume that the site was non-viable and therefore not progressing which is incorrect (FOI confirmed that Natural England had not as of December 2024 been consulted - I have this in correspondence dated 17th December). "In response to your request Natural England can confirm that we have not been consulted by or hold any correspondence with EDDC over this proposed development.

The screenshot included in your email corresponds to the Exmo_20 site. The initial Draft Local Plan consultation (November 2022) showed Exmo_20 to have been rejected

as a housing allocation site. The further consultation in May 2024 with additional sites did not include Exmo_20."

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan, reduce in size to Exmo_20B or reallocate.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. Due to Exmo_20's restricted access arrangements, the development would generate significant amounts of vehicle movements just to access services within Exmouth and the neighbouring settlements using the B3179. Due to the site's steep topography and remote location from services, any walking or cycling routes will provide limited viable alternative options to using a car. The local plan notes that congestion is a particular issue in Western East Devon, and with this site having no access to Dinan Way and the A376, the significant amounts of vehicle movements from this site will be on rural B roads, locally notorious for being congested and substandard. (POLICY TR03 states that where development is likely to generate significant amounts of vehicle movements planning permission will not be granted unless they can identify measures to secure new sustainable travel arrangements, taking into account (amongst other things) the scale of development and the availability of public transport, and walking and cycling opportunities). As an individual who frequently commutes to work the challenges of driving through Woodbury or returning up onto the Common which often at this time can result in significant travel delay and queuing vehicles backed right down onto the Woodbury road. The addition of the volume of cars associated with the 700 proposed houses will exacerbate exponentially. There are multiple entrances onto the B3179

which at this time can be treacherous to navigate. There is not the infrastructure to safely support this development.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the plan, reduce the size of the allocation to 20B only or reallocate housing elsewhere.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.2. It will increase travel needs and necessitate cars to take longer routes. Housing is proposed at the southern end of the site whereas the main vehicular access point is at the very northern edge of the site, adjacent to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted within the top 400m, resulting in a very minimum of 0.5km drive just to get from the site entrance to the housing. This would result in at least 1km of 'on site' driving every time you went out anywhere and returned home. In addition to this, from the B3179 site entrance you need to drive 'around and back down' (4.0-4.3 miles) to get into Exmouth centre. Exmo_20 would increase travel needs resulting in an increased number of car journeys and requiring cars to travel more miles. (Paragraph 11.2 promotes focussing significant development at locations which are, or can be made sustainable, through limiting the need to travel and reduce traffic congestion). As an individual who is required to travel frequently to work the road infrastructure of the B3179 is often even without the additional housing congested, accidents and with multiple unsafe junctions opening onto the road. The cross roads at Bystock are a dangerous crossing point for walkers, cyclists and horse riders. Additional vehicular pressure on this already challenging road adds enormous risk and is dangerous. The additional traffic and associated environmental damage that this will cause poses great risk to the local wildlife and habitat.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20,

reduce size of site or reallocate housing elsewhere in Exmouth. Do not access the site via the B3179.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR01. Walking or cycling will not be the first choice of transport from this site for people to do their shopping/ work/ school run etc because the distance is too great. Studies cited in the Local Plan show that most people prefer to walk if their destination is within 0.5 miles, that beyond the distance of 1 mile cars are the dominant mode of travel and that beyond 2 miles trips on foot are few. Exmo_20 is significantly further than 0.5 miles or even 1 mile from essential infrastructure and services therefore walking or cycling as first choice of transport is unviable. Providing walking routes, cycle paths or public transport will do little to reduce the amount of car journeys this development would generate because the steep local topography and distance to access essential infrastructure and services is too far. It will also be a difficult location for those without car access and cause social exclusion. (POLICY TR01 proposes that walking, wheeling, cycling and public transport should be the natural first choice and that walking and cycling routes must be prioritised in new development). As a resident local to this area I am aware of the impracticality of proposed transport methods. There are no public transport links and the added pressure on the B3179 is an immense concern - specifically on the already congested road networks of Woodbury and at the crossing points to the Common frequented by dog walkers.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure a thorough hearing and consideration of all points raised/concerned.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.6.

It is a 'larger' development and most of the site is not within 800m (approx 10 mins walk) of any existing key services and facilities. There are no plans to provide significant key services on site so residents will likely need to drive over two miles (via the B3179) to access them within Exmouth or neighbouring settlements. As a resident within this proposed catchment area I am very aware of the requirements to drive to access services such as basic local shops, GP, dentist and primary school. There are no significant infrastructure plans to mitigate this requirement. Additional travel impacts significantly and in a harmful way on the environment, it is particularly concerning so close to the Pebblebed heaths. The B3179 in it's current state is a fast road with no calming, which poses significant risk with the introduction of large volumes of additional traffic. (PARAGRAPH 11.6 proposes that it is feasible for larger developments to be within 800m of key services and facilities. (Studies cited in the Local Plan show that people prefer to walk if their journey is not further than 800m/10 minutes walking each way)). Such properties will encourage road use and be unsustainable for those residents who do not have this mode of travel to access basic facilities.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan, reduce to previous proposal of Exmo_20B or reallocate elsewhere in area.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To have the opportunity to share in full concerns and ensure appropriate action/mitigation.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy SP01. Although Exmouth is a tier 1 town, Exmo_20 is 4 miles by car from Exmouth town centre and detached from it; it cannot be considered to be a development in Exmouth. Exmouth is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360degree development impossible and with the large amount of existing development already sprawled a long distance from the town centre, any new development is closer to neighbouring towns & villages and therefore not development at the principal centre of Exmouth. Any development here will be a long distance from the town such that it is an unsustainable location. (POLICY SP01 proposes to promote the most significant levels of development at the principal centre of Exmouth).

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan, reduce in size to previous Exmo_20B and allocate elsewhere.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I wish to be present to ensure that all complaints and concerns raised are considered, addressed and clear outcomes.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

EXMO_20 access point is close to the town of Budleigh Salterton. This would mean that residents would most likely use the facilities in Budleigh rather than Exmouth. Budleigh Salterton has one high street, one primary school, one doctors and limited parking. This would undermine the settlement hierarchy and the Local Plan. It would go against the Strategic Nature Area 368 dividing a natural area. Policy OL01 - goes against this as it will damage the countryside.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Ian Christie

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I do not believe that the development at Exmo_20 and Exmo_17 is sound, for the reasons below.

Exmo_20 is adjacent to East Devon National Landscape. Strategic Policy OL02: National Landscapes (Areas of Outstanding Natural Beauty) includes the following: "Development in a NL, or outside but affecting its setting or appearance, will only be permitted where it avoids harm and contributes to the protection, conservation and enhancement of the special qualities, character and natural beauty of the NL (including the coastline, where relevant)". The site is adjacent to an NL. Due to the site's very elevated and sloping position, the site will be highly visible from a wide area including parts of Exmouth, the Exe estuary, and the other side of the Exe estuary. What at present is a charming rural view from these areas, topped by the Pebbledbed heaths, will become a very large housing development. This will negatively impact a very wide area from which this development will be visible. I believe therefore that it fails Strategic Policy OL02.

Exmo_20 will also negatively impact on traffic congestion, contrary to transport policy TR01. It is not a suitable location for anything other than car transport. It is too steep and too far from key services and facilities for cycling or walking, there is no nearby train station and bus routes are limited. Already the congestion into Exeter in the mornings is bad, with considerable queues at the junction of the B3179 and the A376 (as well as beyond there to the M5 motorway roundabout), and this will add to that congestion.

Exmo_17 is within a National Landscape ("NL"). Strategic Policy OL02: National Landscapes (Areas of Outstanding Natural Beauty) includes "Development in a NL...will only be permitted where it avoids harm and contributes to the protection, conservation and enhancement of the special qualities, character and natural beauty of the NL (including the coastline, where relevant)... Major development in a NL will only be permitted in exceptional circumstances". I believe that a housing development of this scale is a major development and I don't think its development is exceptional circumstances. Furthermore, I don't think it will contribute to the natural beauty of the NL. For example, the very popular cycle/walking path between Exmouth and Budleigh Salterton along the old railway line provides pleasant rural scenery and passes through the middle of this development so will be spoiled by this development - or will force people in Exmouth to have to walk further to get to a rural setting. It therefore fails the NL policy requirement on two counts. It also sets a dangerous precedent, expanding Exmouth eastwards into the NL. Where will such expansion stop? Having expanded once eastwards, what will stop Exmouth expanding further eastwards into the NL? Really this area should be a green wedge, but this should be unnecessary given the NL.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan or limit it to a much smaller scale development adjacent to the existing development in the Meadowhall Road / Woodfield Close area. This will (i) ensure that it doesn't impair the view of the NL from a wide area, (ii) reduce the distance needed to be travelled to access services and facilities making it feasible to walk or cycle, and (iii) avoid excessive congestion on the B3179.

Remove Exmo_17 from the local plan. This will avoid unacceptable encroachment into the East Devon National Landscape and retain access to green spaces from the east side of Exmouth - eg along the shared walking/cycle path.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: ?

The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA).

Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan,

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo 20 would increase the necessity for car journeys and thus increase traffic congestion, in conflict with PARAGRAPH 11.2. It is an unsustainable development in terms of existing key facilities available in the area, particularly Exmouth. It is a very isolated site and would require people to travel far further than 800metres to the above existing facilities contrary to PARAGRAPH 11.6. As for suggesting inhabitants might walk or cycle to either town centre is laughable as it is too far and not an easy walk contrary to POLICY TR01. The access to Exmo 20 is significantly closer to Budleigh (which has even fewer facilities than Exmouth) thus practically merging the two towns of Exmouth and Budleigh contrary to POLICY OL05.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size of Exmo 20 Do not access the site via the B3179 - too dangerous

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

EXMO-20 development would be in conflict with the strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the local plan. It would cause harm to irreplaceable habitats ,veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Do not access the site via the B3179

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: We strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

We believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo 20 is much closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of the town would therefore be the preferred choice of the residents of Exmo 20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo 20 for housing allocation should be selected, one which would be deemed available, achievable and suitable in the Housing and economic land availability assessment. Exmo 20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo 20 being a supporting foraging habitat. Allocating Exmo 20 is contrary to the HELAA, the Site Selection Methodology and POLICY PB01 of the Local Plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo 20 would harm to the heritage assets at the Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting that currently exists, contrary to POLICY HE02.

Exmo 20 would have a detrimental effect on this open countryside site and adjacent internationally designated wildlife sites, eliminating "tranquility, wildness and dark skies", contrary to POLICY OL01.

Exmo 20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo 20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulation Assessment of 30/01/25 states that there is "currently not sufficient certainty to rule out adverse effects in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test.

Development of Exmo 20 on heavy clay subsoil with ineffective soakaways would worsen the already identified flood risk along Withycombe Brook through Exmouth. This conflicts with POLICY AR01B.

Exmo 20 would increase car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. the isolated location provides unsustainable development as residents would need to travel much more than 800m to access key services and facilities, contrary to PARAGRAPH 11.6.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

The main access point of Exmo_20 is significantly closer to BudleighSalterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan. An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. Exmo_20 would cause harm to the heritage assets, most significantly St John in the Wilderness Grade II* listed church and churchyard, drastically altering the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02. Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the "tranquility, wildness and dark skies" of the countryside, which is contrary to POLICY OL01. Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel and increase traffic congestion, in

conflict with PARAGRAPH 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Because I do not believe the local population is genuinely being listened to and the people making the decisions have no understanding of the negative impact of the proposed plan

Full name: Sophie Cook

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Policy 23 and Policy OL09

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove SD01 dev within Exmouth Maer lane STW catchment from the local plan. Even if it is addressed by SWW OFWAT processes meant that such improvements cannot be completed in the next 8 yrs To allow development of these locations prior to infrastructure expansion is to knowingly enable create and add to the sewage pollution of Exmouth river, sea and streams.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed allocation in Exmouth are within a town that is already unable to cope with the amount of sewage in its out dated and broken sewage treatment network. Which means you will be contravention of Policy SP07 & SP08 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove site Exmouth 20 from the local plan. The policy doesn't take into account the already

acknowledged failure of the sewage network infrastructure and overwhelmed treatment capacity of the Maer Lane sewage treatment works. EDDC have issued notice of a civil emergency and a vote of no confidence in SWW because of the well publicised sewage infrastructure failures across Exmouth 2019 to 2025 To not acknowledge this issue despite EDDCs clear knowledge of these problems is highly irresponsible.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Heidi cooper

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the 'tranquility, wildness and dark skies' which is contrary to POLICY OL01. Exmo_20 would cause harm to the heritage assets most notably St John in the Wilderness Grade 2 listed church, eroding the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02. Development of Exmo_20 on heavy clay subsoil would exacerbate the already identified downstream risk along Withycombe Brook, which is already under additional pressure from climate change and development. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated position provides unsustainable development as residents would need to travel further than 800m to existing services, contrary to PARAGRAPH 11.6. It is too far and too steep from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. An alternative site to Exmo_20 for housing allocation should be selected which is closer to the existing cycle path and existing shops and further away from the Pebblebed Heaths.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

Full name: Paul R Corder

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. * Exmo_20 would destroy the "tranquillity, wildness and dark skies" of the countryside, which is contrary to POLICY OL01. * Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. " Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY ARO1B. * Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. * The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan. * This area, which is largely undeveloped does not have any of the required infrastructure for housing (water, sewers, power etc etc) nor does it have good transport links. Roads in the area are overloaded and not only a poor state of repair but insufficient to cope with the additional commuter traffic (presumably to Exeter & beyond). * Reduce the size of Exmo_20 * Do not access the site via the B3179

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: * Reduce the size of Exmo_20 * Do not access the site via the B3179 * Do not access the site via Southern Wood

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building - National Heritage and Coastal Preservation area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area (tourism that the town depends on), along with causing devastation to the local wildlife living there. It would also create a precedent that could destroy further areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be within the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. There is also The ongoing sewage issue and general lack of infrastructure required to expand The town. The proposal to build industrial units next to the main road, the entrance way into the town from the East, is incogruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road only had one exit (into the main road) and would go straight across the the old railway line which is a popular and well used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of wellbeing and enjoyment. It would not be in the best interest of Exmouth to allow building on Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The consultation may not be based on sound evidence in relation to the waste water infrastructure in the area. A previous Water Cycle Study (circa 2010) commissioned by East Devon District Council (EDDC) was predicated on the building of a new waste water treatment works (WWTW) to serve the new Cranbrook community. This plan was subsequently dropped by South West Water and the sewage diverted to Countess Wear. This study specifically assessed the projected capacity for waste water treatment over the coming years and (with the inclusion of the new works) concluded that several locations would be over capacity by 2025 including Maer Lane STW. Since the time of the study the new WWTW was not built, the population in East Devon has increased by more than twice the national average (Census data 2011 -21) and the published performance data in Exmouth shows a large increase in the use of storm overflows discharging untreated sewage into the sensitive estuary and designated bathing waters. This clear evidence, of an already inadequate sewerage infrastructure, is entirely missing from the draft Local Plan. The council wrote to Government last year citing the situation as an 'civil emergency' yet this is not reflected in the Local Plan. It would also appear that EEDC has failed to comply with section 33A of the PCPA which requires the LPA to engage constructively, actively and on an ongoing basis with neighbouring authorities and certain other bodies over strategic matters during the preparation of the plan. We know that a follow up Water Cycle Report has been Commissioned by EDDC and was due to be completed last year but this does not appear in the draft Plan and has not been shared with the community. This new Water Cycle Study is a key part of the evidence required for the Local Plan going forward to reflect how this will ensure adequate capacity for waste water treatment in East Devon. We urge the Planning Inspector to consider these omissions and request urgent action by EDDC in conjunction with South West Water to address and assess sewage infrastructure future capacity. We can submit further evidence to support this if required.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: EDDC have to acknowledge that the sewage infrastructure is already beyond capacity and therefore cannot support the proposed housing development. EDDC need to demonstrate the necessary infrastructure is in place to cope and provide the relevant reports and evidence of this.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: As above. Inadequate sewage infrastructure exists.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: As above. Provide evidence that sewage infrastructure can cope before more development takes place.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: As above, A full review of the sewage infrastructure capacity has to take place. EDDC cannot rely on future promises of South West Water.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Allocation Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths, therefore defining this land as acceptable for development. Although housing cannot be built on the buffer zone, by including it within the settlement boundary it is available for other kinds of development. This is contradictory to the precautionary approach as the plan fails to robustly protect against adverse effects of recreational use etc on the Pebblebed Heaths.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". Exmo_20 will cause loss of irreplaceable habitats. It has a great number of mature trees, many of which show signs of veteranisation. These provide unique micro habitats and their loss cannot

simply be mitigated by planting new trees. Exmo_20 also contains many long-established hedgerows across the site, the lengths of which are considerable.

The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and although space can be left around them, degradation and fragmentation of habitat is unavoidable. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. Exmo_20 lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL09. The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA)”. This is due to the primary access to Exmo_20 being into B3179 which would send traffic along the boundary of the Pebblebed Heath. If the new development goes ahead and inevitably links the site from Southern Wood to the B3179, the quickest route to Exeter will be through there from many areas of Exmouth which will increase traffic at an earlier point along the B3179, currently most traffic travels up higher marley road or past Kings garden centre.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy PB01 and not in accordance with the mitigation strategy. This development could be located on alternative sites which would cause less or no harm to the Pebblebed Heaths. Of all the sites put forward this site will cause the most harm to the prbblebed heath with its close proximity to the protected site, dog walkers regularly leave dog faeces on the common which over nutrifies the soil which is harmful to the flora and fauna which needs a nutrient deficient environment, increased dog walking is inevitable if you develop across the road from the protected site. (SAC/SPA).

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: revert to exmo20-b as previously proposed

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with paragraph 3.34. Although Exmouth is classified as a Tier 1 settlement, it lacks the necessary infrastructure and services to support its current population. While the proposed development may contribute financially towards infrastructure, it will not provide an additional doctor's surgery or dental practice—both of which are already insufficient for Exmouth's residents. Furthermore, no new secondary school will be established; in recent years, many children have been forced to travel to Cranbrook due to the lack of capacity at Exmouth Community College.

Additionally, Exmouth's sewerage system is severely inadequate, leading to frequent discharges into the sea, resulting in regular beach closures. This issue has been highlighted in national news multiple times, underscoring the severity of the problem and we are taking legal action against SWW. Paragraph 3.34 states that directing growth to Tier 1-4 settlements ensures development occurs in areas with existing infrastructure and services. However, Exmouth's current deficiencies contradict this principle.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: remove exmo-20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with paragraph 11.6, as it qualifies as a "larger" development. The majority of the site is situated beyond 800 meters (approximately a 10-minute walk) from any existing key services and facilities. Additionally, there are no proposed plans to introduce significant key services within the site, meaning residents will likely need to drive over two miles via the B3179 to access essential amenities in Exmouth or nearby settlements.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove exmo-20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 conflicts with policy SP01. Although Exmouth is classified as a Tier 1 town, Exmo_20 is located four miles by car from Exmouth town centre, from where I live in Southern Wood it is quicker for me to drive to Budleigh to the shops than to Exmouth Town centre.

Exmouth is unsuitable for further significant growth due to its geographical constraints. Positioned on a peninsula between the River Exe and the coast, the town centre lies at the southern end, preventing 360-degree expansion. Existing development has already spread a considerable distance from the town centre, making any new development closer to neighboring towns and villages rather than reinforcing Exmouth as the principal centre. Consequently, development at Exmo_20 would be too far removed from the town to be sustainable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: remove EXMO-20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: On page 78 of the draft local plan, the paragraph states "Vehicular access, to accommodate modest levels of development, will be allowed for southern site parts from the road 'Southern Wood', subject to detailed assessment of highway access acceptability and objective review of local road and junction capacity and with mitigation provided to address unacceptable adverse impacts. Primary vehicle access to the site, serving the large majority/large bulk of development, will be from the B3179 to the north. High quality, safe and attractive to use pedestrian, cycle and public transport access, particularly providing southerly site links into Exmouth and to nearby services, facilities and job opportunities, will need to be an essential part of the overall development scheme". I have concerns about what mechanisms will be put in place to prevent private cars from the upper site accessing roads where public transport buses will use to travel through southern wood and into meadow view road, therefore the whole site will be accessible by car through these two already congested roads, the on street parking in these roads with private vehicles is heavy, with cars parked on pavements through many areas, pedestrian access with prams and mobility scooters are forced into the road to pass. Buses through meadow view and southern wood will be difficult to progress with cars parked on both sides making it very narrow.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Access through Southern Wood will have a cumulative impact on other developments in the area; and proximity to the SSSI environmental designation on the B3179 side of the site is within 400m of the protected site.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan. As a resident of Southern Wood, I find it quicker to drive to Budleigh for the beach and facilities than to drive to Exmouth beach.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: kirsty anne cross

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: A Crowhurst

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed development at Exmo_20 is fundamentally flawed and poses a significant threat to the local environment, community, and infrastructure. It stands in direct conflict with multiple policies in the Local Plan and would cause irreversible harm. Here's why Exmo_20 must be rejected:

Destructive to Protected Habitats The development could and should be relocated to an alternative site where it would cause minimal or no harm to the Pebblebed Heaths (SAC/SPA). Developing Exmo_20 directly contradicts POLICY PB01 of the Local Plan and fails to align with the agreed mitigation strategy. Protecting these sensitive and legally protected habitats is not optional—it is essential.

Loss of Tranquillity, Wildness, and Dark Skies Exmo_20 would permanently destroy the peaceful, unspoiled character of the countryside, undermining the “tranquillity, wildness and dark skies” that define this rural landscape. This is a direct violation of POLICY OL01.

Destruction of Biodiversity and Wildlife Corridors The development would fragment and isolate crucial wildlife corridors, endangering irreplaceable habitats, veteran trees, and species-rich hedgerows across the site. This is in direct conflict with PARAGRAPH 13.23 and PARAGRAPH 13.9 of the Local Plan, which mandate the protection of these vital ecological features.

Failure to Meet Habitat Protection Requirements The Habitats Regulations Assessment (dated 30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects on integrity” in relation to air quality within the East Devon Pebblebed Heaths SAC/SPA. Proceeding with the development would violate POLICY OL09 and POLICY PB04.

Harm to a Historic Church and Its Setting Exmo_20 would severely damage the historic setting of St John in the Wilderness, a Grade II* listed church. The proposed development would irreversibly alter the peaceful atmosphere of this sacred site, undermining the congregation’s ability to worship in tranquillity. This is contrary to POLICY HE02.

Increased Flood Risk Situated upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, Exmo_20’s subsoil of heavy clay would render soakaways ineffective, exacerbating flood risks downstream in Withycombe. This directly contradicts POLICY AR01B and exposes the community to increased flooding hazards.

Unsustainable and Isolated Development Exmo_20 would significantly increase car dependency and traffic congestion. It is too far (and too steep) from the nearest town centre for walking or cycling to be a viable option, forcing reliance on cars. This directly violates PARAGRAPH 11.2 and PARAGRAPH 11.6 of the Local Plan and conflicts with the goals of sustainable development outlined in POLICY TR01.

Encourages Unwanted Coalescence Between Budleigh and Exmouth The primary access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh’s infrastructure and services (including schools, doctors, and shops) the obvious choice for residents. This would create unwanted urban sprawl and the gradual merging of Budleigh and Exmouth, which is in clear violation of POLICY OL05.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan, Revert to Exmo _20b as previously proposed.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Local resident of both Budleigh (in the past) and now Exmouth.

Full name: Lisa Curtis

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. ANOTHER FACTOR TO CONSIDER IS THAT THERE IS ONLY ONE MAIN ROUTE INTO THE TOWN VIA THE A376 WHICH FREQUENTLY SUFFERS LONG TAILBACKS NOW WITHOUT THOUSANDS MORE CARS BEING ADDED TO THE TOWN.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Expo_20 is significantly closer to BUDLEIGH SALTERTON than EXMOUTH, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High St, Pharmacy, Doctors, School, Beach etc) would be the preferred choice for residents of Expo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the Local Plan. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy and increase traffic congestion, in conflict with PARA 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARA 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. this is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I am objecting to developers Eagle Investments (as proposed on the Site Selection Report, Site reference 20b, at the Strategic Planning Meeting on the 3rd September last) planning to build a bridge and road across a very wide section of Withycombe Brook which runs along the bottom of Southern Wood, Exmouth, in order to gain access to their proposed new site of 700 or maybe more new houses. Planning Officers need to come and to look at the width of Withycombe Brook at the bottom of Southern Wood to realise what a substantial structure would need to be erected to support a bridge for any traffic. This is unnecessary as there is already a road to the proposed site accessed from the B3178 (Budleigh Salterton road). The road running through Liverton Business Park presently ends in a roundabout, there is also a footpath offering a short walk past a children's play area to Dinan Way where there are bus stops to Exmouth town centre. I can see no advantage in causing chaos and structural upheaval to Southern Wood and continued destruction of established woodland with homes for wildlife, when it is totally unnecessary. If homeowners on the new development had access through Southern Wood, they would be no nearer present schools, shops or any infrastructure because of the disadvantage of having to navigate these minor roads with parked vehicles when easier access is already available. The established road accessed from B3178 the gives: LESS COMPLICATED ACCESS TO THE NEW SITE THROUGH THE LIVERTON BUSINESS PARK from the the Salterton Road, the B3178. This route would give potential new homeowners far easier and more direct access to Budleigh Salterton and beyond or to Exmouth town centre and sea front, rather than having to navigate through Southern Wood, then Meadow View Road, then Dinan Way to reach the Salterton Road (B3178). There are many parked cars in the vicinity of Meadow View Road, making this an unsuitable through road for any heavy traffic. The parking issues have arisen because

some landlords, who own properties in the close proximity, have let their garages out separately, leaving tenants with no off road parking. An unresolvable problem. If I were to live on the new proposed development, I would choose to use the road through Liverton Business Park, not only to have the advantage of all the commercial and retail units on my doorstep, but also because it is the most straight forward and less complicated route for Budleigh Salterton or Exmouth town centre and seafront. There would be no parked cars to have to navigate around or to block this road as all the commercial and retail units have their own free parking areas. In the 1980's, 'stop on demand buses' were tried along Meadow View Road, (I used to catch them) but this was abandoned. There is a lot more parking now than there was back then. It is so important for Planning officers to visit the area and see for themselves, not to rely on photographs as the Google photograph of Southern Wood used at the Strategic Planning Meeting on the 3rd September last by Eagle Investments. They need to see for themselves the width of Withycombe Brook at the bottom of Southern Wood and realise what a huge structure would need to be erected to span the brook and support a bridge for any traffic flow, also to look at the parking issues in Meadow View Road and see how access will be frustrating if more traffic goes back and forth from the proposed new estate through Southern Wood. TRAFFIC LIGHTS TO EXIT OR ENTER LIVERTON BUSINESS PARK are much needed now. It is presently a dangerous junction without traffic lights as some drivers take chances when trying to exit the park. Traffic lights would enable the emergency services at Liverton to act more swiftly and safely to reach any accidents or any major disasters faster, by giving them control of the traffic lights creating what I believe is called a red zone area, making us all safer. I understand this was requested at an earlier stage but has been held back. Clinton Devon Estates who own the land and rent out the units, also being one of the developers for the proposed sites, could help achieve this. I did email Clinton Devon Estates 1st July last year (2024) about the problem of queuing to leave Liverton Business Park, and the likelihood of traffic lights, before I knew of any intentions of a road being created through Southern Wood, but they did not reply. Traffic lights were eventually placed at the top of Dinan Way and at Tesco Stores on the Salterton Road to alleviate traffic problems, making the junctions safer for us all. It is inevitable that traffic lights will be necessary at some time at the junction leading in and out of Liverton Business Park. Homeowners on the new development will use this established road leading onto the B3178, rather than using minor roads like Southern Wood. The developers should provide traffic lights as part of their planning applications.

EAGLE INVESTMENTS. New housing is needed, especially social housing, and I understand the pressure councils are under to supply more housing. But the building of new homes should not be to the detriment of existing homes and families in Southern Wood, Meadow View Road and St Johns Road, who will all suffer from noise, pollution

and disruption if a road comes through Southern Wood. We are part of Exmouth too and I worry that my concerns, and those of others in this area, will not be considered as it appears Eagle Investments are so confident of their access through Southern Wood being agreed, they have already felled many trees in the woods across from Withycombe Brook at the bottom of Southern Wood. You can now see through the woods; the denseness has been depleted. Trees are important, not only in helping flood management. Eagle Investments started felling trees at the bottom of Southern Wood in 2023 and when asked by neighbours the reason, they were told it was due to Ash dieback. I understand Eagle Investments obtained a licence from the Forestry Commission, application Ref: 018/2753/2022, a licence with permission "to fell trees for silvicultural thinning to improve the quality and vigour of the remaining trees and that any planning permission sought after would not override any conditions of the licence". Eagle Investments workers have felled many trees conveniently located in the path of their new proposed road at the bottom of Southern Wood, this was before any planning permission had been sought or granted. If they are given permission for road access through Southern Wood, they will have to remove any remaining trees to enable the erection a very substantial structure to support a bridge and road over Withycombe Brook, therefore disregarding any conditions of their licence from the Forestry Commission "to fell trees for silvicultural thinning to improve the quality and vigour of the remaining trees and that any planning permission sought after would not override any conditions of the licence". SOUTHERN WOOD is presently a quiet cul de sac with 12 houses, all situated close to the road so a higher flow of traffic will cause air pollution issues. The road is approximately 6.2 m at its widest point, with raised curbs and paths both sides. The road slopes downwards towards the woodland and Withycombe Brook so is on a hill. Every house from the top of Southern Wood falls lower than its neighbour. As an example, our house, 8 Southern Wood (second from the bottom) is approximately 1 metre lower than our neighbour, 7 Southern Wood. The houses at the bottom of Southern Wood, 5 and 6, both nearest Withycombe Brook, I understand are level 3 flood zone. The brook does gush after heavy rainfall and can be heard. I now have slight flooding down the side of my house and puddling in my garden after heavy rainfall which is a new occurrence and will be made worse with 700 or more new houses set higher than Southern Wood causing a risk of flooding. At present in Southern Wood, we enjoy a wide variety of birds, such as cuckoos, magpies, black birds, robins, sparrows, sparrow hawks, pigeons, buzzards, crows, red wings, long tailed tits, the list goes on. I have seen badgers and foxes in my garden. There are wildflowers in the woods in spring including bluebells and primroses which also appear in my garden. I have the last remaining field hedge at the bottom of my garden from when it was Veiges Farm. Crows used to nest in the trees at the bottom of Southern Wood and fly around in circles above before roosting, but they have mysteriously moved on. Some crows still visit the road but no longer roost there. It will be a shame if an unnecessary road will change the environment we presently enjoy. I would refer to the red line drawn on Exmouth 20b,

where Eagle Investments have shown access not from Southern Wood, but from behind Southern Wood, from Woodfield Close, an area with garages and parking for the residents there. This is confusing and should be corrected.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would cause major detriment to heritage assets such as St John in the Wilderness church- contrary to policy HE02 It conflicts with the Strategic Nature Area 368, causing the loss of irreplaceable habitats, ancient hedgerows and trees (contrary to Local Plan para 13.9), and fragmenting habitats and eliminating wildlife corridors (contrary to para 13.23). It is also in conflict with Policy OL10 and Policy PB04. Extensive construction on this site with heavy clay soil and ineffective soakaways would exacerbate the flood risk of Withycombe Brook downstream through Exmouth which is exceeding its design capacity - in conflict with Policy AR01B The distance of this development from Exmouth makes Budleigh Salterton the nearest town with medical facilities, shops, and schools. This would undermine the settlement hierarchy and lead to the coalescence of Exmouth and Budleigh contrary to Policy OL05. Inevitably, with so many houses with limited (if any) public transport access, there would be a very substantial increase in private vehicles on the road towards Budleigh. The roads would be too steep and the distance too far from a town centre to use other forms of travel eg cycle or foot. This is contrary to policy TR01. Another site should be found for any additionally required houses, which was appropriate and available. Exmo 20 is contrary to policy PB01 and not in accordance with the mitigation strategy.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Please remove Exmo_20 from the local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: ?

The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA).

Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

Please be as precise as possible.: I am objecting the Exmo_20 because of the lack of infrastructure and the impact it will have on the Local community, ie schools, doctor's surgurys (both of which are at capacity) and the sewage system which already cannot cope. This goes against POLICY OL05.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

Full name: Brian Devine

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Two on the allocation sites for Exmouth are in Lympstone Parish . While Lymp14 is an extension of the Goodmores Farm development and will look towards Exmouth , the other Lymp07 will clearly look towards Lympstone . Residents on both sides of Courtlands Lane identify with Lympstone not Exmouth. The former Courtlands House (which is in Exmouth Parish) chose to rename itself Lympstone Manor. Following a public inquiry a planning inspector concluded that this site was not a suitable one for housing . With the completion of the Dinan Way extension the development of this site seems inevitable but it should be recognised that it will add to the pressure on Lympstone . The site should therefore be included as an allocation for Lympstone as part of the 323 houses that are deemed to be necessary according to policy SD03

While a previous planning inspector following a public inquiry concluded that this site is .

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Transfer Site Lymp 07 to an allocation for Lympstone rather than Exmouth

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I want to make sure I have done all I can to ensure that Lympstone has an appropriate level of development

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The plan making process has not been in accordance with the PCPA 2004. Exmo_20 was deemed "not suitable or achievable" at site sifting stage (HELAA stage 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations. On 3/9/24 the site went from 'ongoing assessment' to 'allocated' and no further consideration or representation was permitted to the public or the Strategic Planning Committee despite the assessment not being complete.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: ALLOCATION OF Exmo_20 is in conflict with policy HE02 - a development the size of Exmo_20 surrounding St. John in the Wilderness Church (grade II* listed) will have significant adverse effects on the remote and tranquil surroundings of the church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. (POLICY HE02 states that proposals for development will be expected to be sympathetic to listed buildings and their settings).

Allocation of Exmo_20 is in conflict with policy OL05. The main access point to Exmo_20 is 4 miles from the centre of Exmouth and only 2.2 miles from the centre of Budleigh Salterton, making Budleigh significantly more accessible to the development. The access arrangement for the site leads naturally down the road into Budleigh Salterton High Street whereas to get into Exmouth means travelling twice the distance and having to go around the edge of Exmouth to get back down into it. The High Street, Doctor's surgery, primary school, beach etc in Budleigh would be the most accessible and obvious choices for residents of Exmo_20. Currently Exmouth and Budleigh are

separated in terms of functionality but this development would merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other. (POLICY OL05: This policy stated that development will not be permitted if it could lead to or encourage settlement coalescence).

Allocation Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths, therefore defining this land as acceptable for development. Although housing cannot be built on the buffer zone, by including it within the settlement boundary it is available for other kinds of development. This is contradictory to the precautionary approach as the plan fails to robustly protect against adverse effects of recreational use etc on the Pebblebed Heaths.

Allocation of Exmo_20 is in conflict with policy AR01(B). The site sits upstream of Exmouth on the main rainwater catchment area of Withycombe Brook. The subsoil is heavy clay, the impermeable nature of which makes soakaways ineffective and the land is often waterlogged. Building on this steep site would significantly exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. (POLICY AR01(B) states that development should be safe for its lifetime without increasing or exacerbating flood risk elsewhere).

The plan making process has not been in accordance with NPPF Chapter 3. Exmo_20 was deemed "not suitable or achievable" at site sifting stage (HELAA stager 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations. On 3/9/24 the site went from 'ongoing assessment' to 'allocated' and no further consideration or representation was permitted to the public or the strategic planning committee despite the assessment not being complete

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. Exmo_20 was deemed not suitable or achievable at site sifting stage (HELAA stage 2). It has never been either preferred or 2nd choice therefore the site was omitted from regulation 18 consultations with Devon County Council.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with policies PB01, PB04, OL09, OL01 and paragraphs 2.10, 13.23 and 13.9 of the Local Plan. ALLOCATION OF Exmo_20 is in conflict with policy PB01 and not in accordance with the mitigation strategy. This development could be located on alternative site(s) which would cause less or no harm to the Pebblebed Heaths (SAC/SPA). (Policy PB01 states that development proposals that would cause a direct or indirect adverse effect upon internationally and nationally designated sites will not be permitted unless they cannot be located on alternative sites that would cause less or no harm). ALLOCATION OF Exmo_20 is in conflict with policy OL09. The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA)”. This is due to the primary access to Exmo_20 being into B3179 which would send traffic along the boundary of the Pebblebed Heath. (Policy OL09 states that “permission will not be granted for development which would result in pollution that cannot be adequately mitigated”). ALLOCATION OF Exmo_20 is in conflict with policy PB04. The Habitats Regulations Assessment (30.01. 25) confirms that there is “currently not sufficient certainty to rule out advert effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA).” (POLICYPB04 states that proposed plans must not affect the integrity of sites protected under the Conservation of Habitats and Species Regulations 2017 (including SAC/SPA)). ALLOCATION OF Exmo_20 is in conflict with paragraph 2.10, objective 8. It will adversely affect the natural environment and result in the loss of much biodiversity, both on site and on the adjacent SAC/SPA/SSSI. (PARAGRAPH 2.10. Objective 8. This states the objective “To protect and enhance our outstanding natural environment and support an increase in biodiversity”).

ALLOCATION OF Exmo_20 is in conflict with paragraph 13.23. It lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. (PARAGRAPH 13.23. The Local plan states that East Devon has diverse but fragmented habitats and aims to enhance biodiversity increasing habitat areas and connecting isolated habitats). ALLOCATION OF Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". Exmo_20 will cause loss of irreplaceable habitats. It has a great number of mature trees, many of which show signs of veteranisation. These provide unique micro habitats and their loss cannot simply be mitigated by planting new trees. Exmo_20 also contains many long-established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and although space can be left around them, degradation and fragmentation of habitat is unavoidable. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. Exmo_20 lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20. (PARAGRAPH 13.9 aims to protect irreplaceable habitats and important features such as ancient woodlands, veteran trees, and species rich hedgerows from destruction and degradation).

ALLOCATION OF Exmo_20 is in conflict with policy OL01. The site is distinctive for its dark skies, tranquillity and wildness. In addition to light from the housing development itself, the main site access point being at the B3179, directly opposite the SPA/SAC/SSSI would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Heaths as vehicles exit the site. The area around St John in the Wilderness church is characterised by dark skies and a strong sense of remoteness and tranquillity, a 'wilderness' setting integral to the grade

It* listed church which would be harmed by having a housing development encircling it, regardless of a buffer zone being left. (POLICY OL01 states that development will only be permitted where it would not harm the aesthetic and perceptual factors such as “tranquillity, wildness and dark skies”).

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy SP01. Although Exmouth is a tier 1 town, Exmo_20 is 4 miles by car from Exmouth town centre and detached from it; it cannot be considered to be a development in Exmouth. Exmouth is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360degree development impossible and with the large amount of existing development already sprawled a long distance from the town centre, any new development is closer to neighbouring towns & villages and therefore not development at the principal centre of Exmouth. Any development here will be a long distance from the town such that it is an unsustainable location. (POLICY SP01 proposes to promote the most significant levels of development at the principal centre of Exmouth). ALLOCATION OF Exmo_20 is in conflict with paragraph 11.6. It is a 'larger' development and most of the site is not within 800m (approx 10 mins walk) of any existing key services and facilities. There are no plans to provide significant key services on site so residents will likely need to drive over two miles (via the B3179) to access them within Exmouth or neighbouring settlements. (PARAGRAPH 11.6 proposes that it is feasible for larger developments to be within 800m of key services and facilities. (Studies cited in the Local Plan show that people prefer to walk if their journey is not further than 800m/10 minutes walking each way)). ALLOCATION OF Exmo_20 is in conflict with policy TR01. Walking or cycling will not be the first choice of transport from this site for people to do their shopping/ work/ school run etc because the distance is too great. Studies cited in the Local Plan show that most people prefer to walk if their destination is within 0.5 miles, that beyond the distance of 1 mile cars are the dominant mode of travel and that beyond 2 miles trips on foot are few. Exmo_20 is significantly further than 0.5 miles or even 1 mile from essential infrastructure and services therefore walking or cycling as first choice of transport is unviable. Providing walking routes, cycle paths or public transport will do little to reduce the amount of car journeys this development would generate because the steep local

topography and distance to access essential infrastructure and services is too far. It will also be a difficult location for those without car access and cause social exclusion. (POLICY TR01 proposes that walking, wheeling, cycling and public transport should be the natural first choice and that walking and cycling routes must be prioritised in new development).

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.2. It will increase travel needs and necessitate cars to take longer routes. Housing is proposed at the southern end of the site whereas the main vehicular access point is at the very northern edge of the site, adjacent to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted within the top 400m, resulting in a very minimum of

0.5km drive just to get from the site entrance to the housing. This would result in at least 1km of 'on site' driving every time you went out anywhere and returned home. In addition to this, from the B3179 site entrance you need to drive 'around and back down' (4.0-4.3 miles) to get into Exmouth centre. Exmo_20 would increase travel needs resulting in an increased number of car journeys and requiring cars to travel more miles. (Paragraph 11.2 promotes focussing significant development at locations which are, or can be made sustainable, through limiting the need to travel and reduce traffic congestion). ALLOCATION OF Exmo_20 is in conflict with paragraph 3.34: despite being a tier 1 settlement Exmouth does not have sufficient infrastructure and services for the existing population. Even if the proposed development brings financial contributions towards infrastructure etc it will not add another Doctors surgery or dentist - both of which are already insufficient for the current population of Exmouth. Neither will it provide another secondary school - within the last 3 years numerous children have had to travel to Cranbrook for secondary school provision due to there being no capacity at Exmouth Community College. The existing sewerage system in Exmouth is so inadequate that sewage is discharged into the sea on a very regular basis and the beach is often closed for swimming. Exmouth's problem with sewerage has been featured on national news several times, highlighting the scale of the problem it has. (PARAGRAPH 3.34 states that by directing growth to the tier 1-4 settlements their approach ensures development is concentrated in areas with existing infrastructure and services). ALLOCATION OF Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. Due to Exmo_20's restricted access arrangements, the development would generate significant amounts of vehicle movements just to access services within Exmouth and the neighbouring settlements using the B3179. Due to the site's steep topography and remote location from services, any walking or cycling routes will provide limited viable alternative options to using a car. The local plan notes that congestion is a particular issue in Western East Devon, and with this site having no access to Dinan Way and the

A376, the significant amounts of vehicle movements from this site will be on rural B roads, locally notorious for being congested and substandard. (POLICY TR03 states that where development is likely to generate significant amounts of vehicle movements planning permission will not be granted unless they can identify measures to secure new sustainable travel arrangements, taking into account (amongst other things) the scale of development and the availability of public transport, and walking and cycling opportunities).

ALLOCATION OF Exmo_20 is in conflict with paragraph 2.6; Exmo_20 is currently open countryside, and this is not 'modest' development. It is a 'comprehensive development scheme' within a rural part of East Devon. (PARAGRAPH 2.6 states that "Rural East Devon will retain its outstanding charm and character with modest and sensitively planned development).

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 should be located where it would not harm Pebblebed Heaths (SAC/SPA) It is contrary to POLICY PB01. Exmo_20 would destroy tranquillity wilderness and dark skies of the countryside contrary to POLICY 0L1 Exmo_20 would fragment and isolate local habitats and destroy wildlife corridors Contrary to PARAGRAPH 13.23. It would also be detrimental to irreplaceable habitats. veteran trees and species rich hedgerows contrary to PARAGRAPH 13.9 Evidence relating to air quality for contrary to EXMO_20 are absent. POLICY 0L09 & PB04 Due to soil type and position it will exacerbate flood risk and lead to more frequent sewerage discharges. Conflict with POLICY AR01B and others.

EXMO_20 will increase car travel in conflict with PARAGRAPH 11.2. It is siloed and people would need to travel much further than 800m to existing services contrary to PARAGRAPH 11.6. Too far and too steep for walking or Cycling to any town center. The main access is closer to Budleigh Salterton than Exmouth which will result in many people more using services and infrastructure of Budleigh High street, schools, doctors, beach. This would lead to the coalescence of Budleigh and Exmouth contrary to POLICY 0L05 of the local plan and be highly detrimental to the unique character of Budleigh Salterton.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Do not access

EXMO_20 from the B1379 and reduce the size significantly making it nearer to Exmouth with an area of wild water absorption for run-off.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would destroy the “tranquility, wildness and dark skies” of the countryside, which is contrary to POLICY OL01. ? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. ? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. ? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02. ? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY AR01B. ? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. ? The main access point of Exmo 20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo 20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: There is no way that the plan to join the land proposed to access the road opposite the Archery Club could cope with the significant amount of traffic which would be generated. The existing infrastructure already struggles with sewerage, water supply, flooding etc. The impact on Woodbury Common would be significant. The buyers of these houses would need transport and if each house has at least one car this is contrary to all environmental objectives. Remove Exmo_20 from Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, therefore making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, School, beach etc;) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

Exmo_20 would cause harm to the heritage assets, most significantly St John in the Wilderness Grade 11* listed church and churchyard, and drastically altering the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the “tranquility, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality’ (East Devon Pebblebed Heaths SAC/SPA) such that the plan fails the integrity test.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk areas along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Please remove Exmo_20 from the Local Plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jeremy & Sarah Eaki

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/ Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02. ? ?Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the "tranquility, wildness and dark skies", which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to

PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B.

?Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TRO1.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Revert to Exmo_20B as previously proposed

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with policy AR01(B). POLICY AR01(B) states that 'development should be safe for its lifetime without increasing or exacerbating flood risk elsewhere'. The site sits upstream of Exmouth, on the main rainwater catchment area of Withycombe Brook. The subsoil is heavy clay, the impermeable nature of which makes soakaways ineffective and the land is often waterlogged. Building on this steep site would significantly exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation Exmo_20 is in conflict with paragraph 3.30. PARAGRAPH 3.30 states that settlement boundaries define where development is acceptable. The settlement boundary of Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths. This then defines this land as acceptable for development. Although housing cannot be built on the buffer zone, by including it within the settlement boundary it is available for other kinds of development. This is contradictory to the precautionary approach, the plan fails to robustly protect against adverse effects of recreational use etc on the Pebblebed Heaths.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with policy OL05. POLICY OL05 states that development will not be permitted if it could lead to or encourage settlement coalescence. The main access point to Exmo_20 is 4 miles from the center of Exmouth and only 2.2 miles from the centre of Budleigh Salterton. This is likely to make Budleigh significantly more accessible to the development. The access arrangement for the site leads naturally down the road into Budleigh Salterton High Street whereas to get into Exmouth means travelling twice the distance and having to go around the edge of Exmouth to get back down into it. The High Street, Doctor's surgery, primary school, beach etc in Budleigh would be the most accessible and obvious choices for residents of Exmo_20. Currently Exmouth and Budleigh are separated in terms of functionality but this development would merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy HE02. POLICY HE02 states that proposals for development will be expected to be sympathetic to listed buildings and their settings. A development the size of Exmo_20 and its proposed 700 houses, the size of a substantial village, surrounding St. John in the Wilderness Church (grade II* listed) will have significant adverse effects on the remote and tranquil surroundings of the church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL01. POLICY OL01 states that development will only be permitted where it would not harm the aesthetic and perceptual factors such as “tranquillity, wildness and dark skies” The site is distinctive for its dark skies, tranquillity and wildness. In addition to light from the housing development itself, the main site access point being at the B3179, directly opposite the SPA/SAC/SSSI would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Heaths as vehicles exit the site. The area around St John in the Wilderness church is characterised by dark skies and a strong sense of remoteness and tranquillity, a ‘wilderness’ setting integral to the grade II* listed church which would be harmed by having a housing development encircling it. A buffer zone is unlikely to mitigate the reach of artificial light from a development this size.

ALLOCATION OF Exmo_20 is in conflict with paragraph 13.9. PARAGRAPH 13.9 states the objective is to protect irreplaceable habitats and important features such as ancient woodlands, veteran trees, and species rich hedgerows from destruction and degradation. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". Development of Exmo_20 will cause loss of irreplaceable habitats. It has a great number of mature trees, many of which show signs of veteranisation. These provide unique micro habitats and their loss cannot simply be mitigated by planting new trees. Exmo_20 also contains many long established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and although space can be left around them, degradation and fragmentation of habitat is unavoidable. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. Exmo_20 lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20.

ALLOCATION OF Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. TR03 states that where development is likely to generate significant amounts of vehicle movements, planning permission will not be granted unless they can identify measures to secure new sustainable travel arrangements, taking into account (amongst other things) the scale of development and the availability of public transport, and walking and cycling opportunities. Due to Exmo_20's restricted access arrangements, the development would generate significant amounts of vehicle movements just to access services within Exmouth and the neighbouring settlements using the B3179. Due to the site's steep topography and remote location from services, any walking or cycling routes will provide limited viable alternative options to using a car. The local plan notes that congestion is a particular issue in Western East Devon. This site has no access to Dinan Way and the A376, therefore the significant amounts of vehicle movements from this site will be on to the rural B roads, locally notorious for being congested, substandard and not fit for such levels of heavy traffic.

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.2. (Paragraph 11.2 promotes focusing significant development at locations which are, or can be made sustainable, through limiting the need to travel and reduce traffic congestion). Development at this site will increase travel needs and necessitate cars to take longer routes. Housing is proposed at the southern end of the site whereas the main vehicular access point is at the very northern edge of the site, adjacent to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted within the top 400m, resulting in a very minimum of

0.5km drive just to get from the site entrance to the housing. This would result in at least 1km of 'on site' driving every time you went out anywhere and returned home. In addition to this, from the B3179 site entrance you need to drive 'around and back down' (4.0-4.3 miles) to get into Exmouth centre, Making a round trip to the town center at least 8miles. Exmo_20 would increase travel needs resulting in an increased number of car journeys and requiring cars to travel more miles.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR01. POLICY TR01 proposes that walking, wheeling, cycling and public transport should be the natural first choice and that walking and cycling routes must be prioritised in new development. Walking or cycling will not be the first choice of transport from this site for people to do their shopping/ work/ school run etc because the distance is too great. Studies cited in the Local Plan show that most people will only choose to walk if their destination is within 0.5 miles and that beyond the distance of 1 mile cars are the dominant mode of travel and that beyond 2 miles trips on foot are few. Exmo_20 is significantly further than 0.5 miles or even 1 mile from essential infrastructure and services therefore walking or cycling as first choice of transport is unviable. Providing walking routes, cycle paths or public transport will do little to reduce the amount of car journeys this development would generate because the steep local topography and distance to access essential infrastructure and services is too far. It will also be a difficult location for those without car access and cause social exclusion.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.6 (within 800m of key services and facilities) It is a 'larger' development and most of the site is not within 800m (approx 10 mins walk) of any existing key services and facilities. Studies cited in the Local Plan show that people will only choose to walk if their journey is not further than 800m/10 minutes walking each way. There are no plans to provide significant key services on site so residents will likely need to drive over two miles (via the B3179) to access them within Exmouth or neighbouring settlements

ALLOCATION OF Exmo_20 is in conflict with policy SP01. Exmouth is a tier 1 town, Exmo_20 is 4 miles by car from Exmouth town centre and detached from it; it cannot be considered to be a development in Exmouth. Exmouth is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360degree development impossible and with the large amount of existing development already sprawled a long distance from the town centre, any new development is closer to neighbouring towns & villages and therefore not development at the principal centre of Exmouth. Any development here will be a long distance from the town such that it is an unsustainable location

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the Local Plan.

Furthermore, Exmo_20 would cause harm to the heritage assets at this Medieval settlement, most significantly St John in the Wilderness Grade II listed church, eroding the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02.

EXMO_20 would also have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the tranquillity, wildness and dark skies, which is contrary to POLICY OL01.

As well as all this, Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any

matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan. Do not access the site via the B3179. Do not access the site via Southern Wood.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Tom Evans

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at EXMO_20 could and should be located on an alternative site where it would cause less and or no harm to the pebble bed Heath (SAC/SPA) developing EXMO_20 is contrary to policy PB0 one of the local plan and not to in accordance with the mitigation strategy

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than it is to Exmouth, making Budleigh clearly its most convenient and accessible town. The services and infrastructure of Budleigh (viz., the High Street, Budleigh Medical Centre, schools, the branch Library, the beach and Otter Estuary etc.) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was available, achievable and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology and POLICY PB01 of the local plan, and is not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Mediaeval settlement, most significantly the Grade II* listed church St John in the Wilderness, eroding the attractive rural setting of worship and burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally-designated wildlife sites, eliminating the ‘tranquility, wildness, and dark skies’ - contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species-rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04, since the Habitats Regulations Assessment (30-01-25) states that there is ‘currently not sufficient certainty to rule out adverse effects in integrity in relation to ... air quality (“East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways would exacerbate the already-identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel, contrary to Figure 7 the energy hierarchy, and would increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development because residents would need to travel much further than 800 metres to reach existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as a preferred choice of transport. This is contrary to POLICY TR01.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I wish to hear for myself the reasoning and arguments for and against the position that is adopted.

Full name: Dr Christopher Everall

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.: *

??The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Full name: Roger Fetherston

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than it is to Exmouth by a considerable distance. This fact alone makes Budleigh the obvious and most convenient local town. The services and infrastructure of Budleigh would logically be the preferred choice for residents of Exmo_20. In effect Exmouth and Budleigh would merge separated by little more than Knowle recycling centre. This completely undermines the settlement hierarchy contrary to POLICY OL05 of the local plan.

An alternative site to Exmo_20 should be selected one which was available, achievable, and suitable in the HELAA. Exmo_20 would cause harm to the adjacent, precious Pebblebed Heath/s (SSSI/SAC/SPA?NNR) due to Exmo_20 being a supportive foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

Exmo_20 would cause harm to the heritage assets, most significantly the grade II* listed St John in the Wilderness (Saxon, Norman, Medieval site), dramatically and irrevocably altering the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on the adjacent internationally designated wildlife sites and destroy the 'tranquility, wildness and dark skies ' of the countryside, which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors contrary to PARAGRAPH 13.23 of the Local Plan. it would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulation Assessment (30.01.25) states that there is ' currently not sufficient certainty to rule out adverse effects in integrity in relation to ...air quality (East Devon Pebblebed Heaths SAC?SPA) such that the Plan fails the integrity test.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways would significantly exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. Further impervious surfaces inevitable in the construction would rapidly speed up surface run off further adding to flood risk below this proposed sloping site directing all water towards Exmouth. This proposed development is in conflict with POLICY AR01B

Exmo_20 would increase the need for car travel, contrary to Figure 7 the energy hierarchy, and would increase traffic congestion, in conflict with PARAGRAPH 11.2. The peripheral and isolated location represents unsustainable development because residents would need to travel much further than 800 metres to reach existing key services and facilities contrary to PARAGRAPH 11.6. It is too far, with relatively steep slopes , from any town centre to use walking or even cycling for all but the very fittest, as their choice of transport and certainly not for those with disabilities and walking aids. This is contrary to POLICY TR01

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.:

Greatly reduce the size of Exmo _20. The proposals are unsound and will for ever damage the environment that renders East Devon attractive.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Because I believe my voice and opinions are of value and written responses do not fully inform the debate which is needed on such profound proposals which will, if passed, see the permanent destruction of rich open land threaten so much more. There are other solutions to housing needs.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Its time that EDDC pushed back against the Government with the truly valid reasons for not building on this site as well as the poor infrastructure and in particular the ongoing situation with South West Water.

I agree that housing is needed for the town's residents, but this aspect does not seem to have been discussed or agreed anywhere. Bloor was not able to answer who the houses would be aimed at and the last thing the town needs is purchasers who only want second homes. This only kicks the ball down the road. There has been no assurances by the developer of the number of affordable housing (what actually is affordable?), no clear commitment on the size of houses to be built – the town needs more starter homes for young families and smaller homes for elderly residents to downsize into thereby releasing larger family homes.

There needs to be a better process in place to decide what the need is in the town for housing rather than the Government dictating what it wants to 'tick an election commitment'. That approach is lunacy and not democratic or reflective of what the town needs and can accommodate.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. (The roads are fast and dangerous with blind bends and there are frequent accidents). This is contrary to POLICY TR01.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jill Fowler

Proposal:

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to, and disagree with, the stated proposal to build on the site Exmo_17 in the Draft Local Plan, due to the following reasons.

1 One has to take as the worst case scenario, that every resident of Exmo_17 is going to pave over the green space their property might contain, which would cause substantial runoff and trickle-down in southerly and easterly directions from the site. Lower Littleham, where any runoff will end up, already has ongoing flooding issues extra to the flood defence trough. Castle Lane floods every single time we get heavy rain, which is only set to increase according to the Met Office. Littleham Brook overtops regularly flooding both Castle Lane and Littleham Road at the junction by the Bridge. This is a major traffic route taking hundreds of thousands of car journeys a year and any runoff tending towards it, must be avoided. There are simply not enough mitigations that could be made to offset the runoff from a site of 410 homes at the top of a hill, in the heavy rainstorms we experience now.

2 The anti social behaviour in Littleham, at the Midway Estate and in Lower Littleham, has been a problem for at least 20 years and successive Police initiatives have never shifted it. It comes from a lack of youth facilities (which will affect new residents), and the housing of multiple sex offenders, problem families, ex offenders, and drug and prostitution concerns as well as the more ordinary theft, burglary and ASB offences which happen where there is a large council estate and insufficient police patrols due to over-extended and under-resourced local Police. Any new residents will be immediate burglary targets and the area is known for crime (this is confirmed by local crime figures; Littleham is consistently highest in the area). Patrols are very limited and Police are rarely seen here, as this Police Team is overstretched, particularly during school holidays.

3 There is already a town of 2,000 caravans meaning 50,000 families (an estimate) and their associated hundreds of thousands of car journeys, within a mile of the proposed development. The access to this town of Haven Devon Cliffs, is severely restricted to just one approach road, and the access, Littleham Road, has been kept crossing-free due to the high priority DCC and EDDC place upon this route. It brings millions of pounds to the local economy and is the largest Haven site in the country. This town exists between March and November every year and during winter, heavy plant uses the road constantly. This has barely been mentioned in the proposal and pre-pre-approval planning documents for Exmo_17 but the existence of this town, which I'll call Devon Cliffs, means the area is overpopulated already, with millions more car and lorry journeys than residents make.

It is desperately wrong to place yet another development (after Plumb Park, a very highly concentrated Estate at the top of the access road to Devon Cliffs) on the other side of the top of this access road. Effectively Salterton Road will become gridlocked in the summer as everyone tries to access or service Plumb Park, Devon Cliffs, the Midway Estate, Littleham village AND this proposed new site Exmo_17. It is a disastrous proposal.

4 There is serious underinvestment in the infrastructure of this area regarding waste water, resulting in the constant flooding of Lyme Bay with untreated sewage, especially in the winter, the rainy season. EDDC cannot hand this off to South West Water as it has been doing, as EDDC has full knowledge that SWW has no plans to build another treatment works, instead having placed a large outfall to the south, in the sea off Devon Cliffs. Effectively South West Water's solution, which its CEO and shareholders have supported instead of a new treatment works, is to send Exmouth's sewage to sea. This would be merely serious were it not for the reliance of local businesses, not least Devon Cliffs, on the visitor offer which requires clean beaches and a sea that can be safely bathed in by visitors.

EDDC is aware that over 1,000 people are involved in a class action lawsuit by Leigh Day for deprivation of recreation and business receipts due to the dumping of sewage at sea by South West Water and this action is ongoing. It is not a suitable place to add 410 homes which will inevitably load the sewage infrastructure to the point of further critical bursts, such as happened since Plumb Park was built. We can expect multiple bursts at various points along the ageing sewage infrastructure in Exmouth, each of the bursts in the last 2 years has resulted in closing of the beach and large pollution incidents where

the sea has been declared unfit for bathing. Adding 410 homes adjacent to Devon Cliffs and Plumb Park would be a further trigger, in respect to this.

5 The profit made by the landowner is the only reason this site has been put forward. The fields are successfully farmed by the same family, have been for decades and the farm is a going concern providing meat, dairy and arable. The landscape is under useful food production currently, fertile with high yield. Short-term profit is being set against priceless assets in a way which would be unthinkable until recently. The landowner does not care about anything but their own profit, they are certainly not considering residents, Devon Cliffs visitors, or the natural landscape they are supposed to be protecting for future generations. I believe their term is “stewarding” but this is evidently no longer the case.

6 Another factor is the protected status of the National Landscape (previously area of outstanding natural beauty) which relies on the its openness, undeveloped nature, varied and copious wildlife (including an active badger sett in the middle of the site, underneath the cycle path) and bird life, protected hedges, mature trees, and this beautiful prospect has so far been protected against all development by the protections a national landscape /AONB bestows. Those protections still exist or one might as well remove the NL designation from all such areas here. I note that Budleigh Salterton has retained its NL protections and coincidentally this is where the Business Manager of the landowner currently lives. I imagine that if he lived in Littleham, these fields would not be put forward as a site for development. Littleham has as much right to be protected as Budleigh or Sidmouth, it is all part of the National Landscape.

The Council has a statutory duty to “enhance” the “natural beauty” of the landscape. 410 houses cannot and will never do this, just the opposite.

If the site went ahead there would be two small “National Landscape” signs in the middle of a large housing estate, no different from the housing estates our visitors leave at home. They come here for the unspoilt rural nature of this place, if they find housing estates, they will not return. It removes at least 50% of the visitor offer to take away the green fields which give us rurality. It will change the character of this place from rural to suburban and there is no way, unless the houses were underground, that landscaping could “sensitively” mitigate the destruction of the openness, beauty and rurality of this site. Just because the landowner wants to sell his fields, does not mean they should be sold. The landowner is merely trying to make money while house prices are high. The

landowner has repeatedly stated they are a steward of East Devon's beautiful landscape and one wonders how this can be the case when their fields are being sold off for housing at a high rate.

7 EDDC has not made any attempt to negotiate-down the number of houses required by the Government given this area is covered in large part by National Landscape and sensitive areas. There is no attempt made to offer a lesser number of houses in order to have less effect on the landscape. 410 houses is a very large Estate, larger than Plumb Park, which is seen by many as overcrowded and badly planned in its aspects, The developer, Bloor in this case, has no motivation to keep prices low and there is no legal enforcement of the affordable homes target. Bloor could renege on all its pre-development promises and it would be a case of "too late, it's done" with no consequence to Bloor.

8 Bloor admits in its EIA report (25/0002/EIA) there are no dentists and not enough GPs to serve Exmouth as it currently stands, let alone if more residents are added. The one community college has class sizes more than the recommended size and outcomes are not the highest, with bullying and poor results, an ongoing concern for parents. To be honest the number of children may not be very high as the number of working families able to afford these houses will be very low. Plumb Park lowest prices were well over what local families could afford on the poor wages here. Most of the houses were bought as buy to let, second homes, or by retirees/incomers from the southeast. Bloor admits in its report (25/0002/EIA) that incomers will comprise most of the buyers of the proposed housing on Exmo_17.

9 I see that Exmo_17, has gone from being NOT allocated and NOT approved, merely a 2nd choice site for all the reasons I give, to a mysteriously pre-approved status, despite our local plan only being in draft form. I'm aware EDDC has arranged to buy out the Covenant with St Andrews Church which reserved the graveyard field within Exmo_17 for Diocese use, as a graveyard spill-over. Apparently this decision is already made! - Avoiding all democratic accountability and process. I am aware that other developments have taken a back seat and this site Exmo_17 has been virtually pre-approved by EDDC to the point where the role of the Strategic Planning committee may need scrutiny, as the proper democratic process appears to have been undermined, allowing proposals and applications for this site to proceed before the Local Plan has been finalised and with other sites still a possibility.

10 I wondered what was so special about this site Exmo-017 until I realised that having built upon it, the margin of built area will have been extended, paving the way for further development eastwards towards Quentance farm which is the landowner's stated, desired outcome. What we are looking at is the destruction, forever, of a large part of East Devon's National Landscape, a large reduction in the visitor offer, unacceptable infrastructure burden and a reduction in the quality of life for all residents, and particularly a reduction in the quality of the visitor offer for Haven Devon Cliffs customers who would prefer a holiday at a seaside location that isn't covered in dumped raw sewage.

11 The developer's request for EDDC to consider these multiple developments (Exmo_17 and Exmo_20) as stand-alone sites, sidesteps the disastrous effect that multiple large developments will have on Exmouth. The reports Bloor makes, only further Bloor's agenda. It makes no sense to treat Exmo_17 and Exmo_20 as stand-alone sites when the Govt targets are not separated but combined. If the Govt targets are, as stated, over 1,000 homes, the sites have to be considered as cumulative, as they are likely to be built close together in time, to satisfy those targets. In this respect and many others EDDC should view Bloor's representations with an appropriate filter, as Planning Potential (the agent) and Bloor are only acting for themselves/the landowner, and really don't care what happens to Exmouth as a whole, or its residents and visitors. Their reports and letters are a means to an end, ie profit, and should be viewed very carefully.

In summary: This site Exmo_17 should either remain undeveloped or be subject to a rigorous downward reappraisal where a few – a very few – select homes might be built which could be said to reflect the sensitivity of the area and which could blend with the landscape. 410 houses is hundreds too many, and right next to not just the Midway Estate, but to Devon Cliffs, a town of 2,000 multi-occupation caravans, inhabited by around 50,000 people, every year, using GPs, roads, buses, and filling the local supermarkets to capacity, and to which Bloor makes no reference, nor does EDDC make reference. The money made by Devon Cliffs and ploughed back into East Devon's economy, is well in excess of the money CDE would gain from this development.

My response to the proposal to build at Exmo_17 is that we already have Devon Cliffs here with thousands of people, which causes hundreds of thousands of journeys and millions of litres of sewage every year, we rely on our landscape to attract visitors and populate that very busy town, and to serve those customers, so it would be a disaster to negatively affect these visitors and the local residents by the infliction of an overlarge

development in an area known for its beauty, which won't even house local people. EDDC needs to look at other potential sites that are not so close to existing areas of stress on the infrastructure, character, visitor centres and rurality of this area. The visitor offer will be negatively affected by Exmo_17 and I'd like to ask Councillors to remember that they should, and are democratically required to, reflect the views of constituents in this matter. Due to the delicate nature of building on a National Landscape and the impossibility of returning the area to rurality, caution should be exercised, as 410 houses is an enormous burden to place on any landscape, and there are no mitigation measures which could successfully "enhance the natural beauty" of this area once 410 houses are placed upon it.

The development at Haven Devon Cliffs is tucked into a dip/bowl of land so the site is not seen from the main road, the village, or anywhere but the sea. This development, on the other hand, would be highly visible to all people and road travellers in the vicinity and cannot be mitigated due to its oversize. This is not a sensible or practical proposal especially considering its proximity to the Devon Cliffs site, which has first claim on the area's infrastructure and resources, and which requires a clean beach and rural location to maintain its customer base and visitor offer.

I reject the proposal to build at Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of land at Exmo_20 is far from sound. We are very concerned that this allocation will have a seriously detrimental impact on the community of Budleigh Salterton and yet no Budleigh Salterton councillors were present at the strategic planning meeting where this allocation was approved. The councillors went against the recommendation of officers and failed to appreciate the devastating impact this huge urbanisation would have on the rural fringe of Budleigh Salterton. Ex_20 would threaten the tranquility, wildness and dark skies of the countryside which is contrary to Policy OL01. The proximity to the Pebblebed Heaths (SAC/SPA) is very worrying and is contrary to Policy PB01 of the local plan and not in accordance with the mitigation strategy. EX_20 would endanger wildlife habitats and corridors, veteran trees and hedgerows. Issues of rainwater run off on this sloping site into the catchment area of Withycombe Brook on heavy clay are a great concern, especially to those with properties further down the water course and is in conflict with Policy AR01B. A particular concern is the inevitable increased traffic on the B3179 which is a busy road and far from safe. Access to the site from this location is an alarming prospect to the regular users of this route. Traffic congestion and parking is already a major problem in Exmouth and this sprawling urban expansion would exacerbate this. The elevation of this site above Exmouth town centre would make cycling or walking unlikely for many residents, making this site unsustainable. The impact of this allocation of land on the distinctly unique character of Budleigh Salterton, which is very different to that of Exmouth, would be disastrous and would lead to the coalescence of Budleigh and Exmouth contrary to Policy OL05 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will

make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan, in accordance with the recommendations of planning officers. Revert to Exmo_20b as previously proposed.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Objection to proposed development land Exmo_08 Objection to Proposed Development land Exmo_08 Littleham Fields between Elm Lane and Green Farm. My objection is because the Landscape and Ecology needs to be protected Highways, Access and movement are inadequate Flood Risk and Drainage is High and inadequate. I strongly object to the proposed development on Littleham fields as it will irreversable destroy the environment and have negative impact on local infrastructure and the wildlife in Littleham Village. The following points show why the building proposal on these fields at Littleham needs to be rejected.

- It would over develop a small Village recognised by Tourists as a holiday attraction
- The over development will have a negative impact on local amenities and soul and character of Littleham as well as negative impact on tourism jobs as people will opt to holiday elsewhere.
- Flooding o Additional houses, Road and Parking infrastructure will contribute to additional Surface Water. This will cause further complications to our current flood problems in Littleham. o Littleham River severely floods regularly every year closing Maer Lane by Green Farm and Prathayes Farm causing severe disruption to village life. This prevents traffic movement and emergency services reaching residents and access to Sandy Bay Holiday Park and Country Life Wildlife Park.
- Wildlife o Maer Valley is recognised as an area of outstanding beauty and these Littleham fields and river are part of it. There are rare butterflies, dragon flies that colonette. Countless Bird breeds, Water wading and hedge row birds. Local birds of prey - Owls, Buzzards, and Sparrow Hawks live and hunt here. Colonies of bats roost and fly over the Fields. There are Foxes, Deer and Badgers that frequent the valley fields. Development will disrupt the local eco system. Light Pollution o The additional homes and street lights will turn a dark Valley into a Xmas Tree disturbing the wildlife listed above and will cause to them to leave the area.

- **Traffic/Transport** o Additional homes will equate to additional cars, that will increase the risk of Safety and produce exhaust pollution and road congestion. The introduction of Plumb Park has increased traffic at Littleham Cross, and compounded the traffic flow and rate on Littleham Road, which is already passed breaking point in the Spring/Summer and Autumn seasons due to the 1000, s of cars travelling to and from Sandy Bay.
- **Infrastructure** o Water SWW Authority have had problems historically maintaining a regular high pressure to ensure no disruption to residential homes. During the Tourists season this drops severely and 2022 saw a near drought situation due to the record lack of rainfall causing our Exmouth feeding reservoirs to drop and nearly dry up. More Homes will cause standpipes to be issued. o Sewage SWWA have struggled to keep up with demand of Sewage capacity that builds up in the Summer due to increased residents in the Summer, particularly Littleham sewage works. Over the summer period sewage was expelled into our beaches during peak season. Additional Homes will add to this problem and this should be addressed prior. o Local Primary School COE Littleham, is already over capacity due to Plumb Park new 500+ Homes, and the planning for further 100's Homes cannot occur until this is addressed. o At the Littleham delicate Bridge by Clinton Arms – Littleham Road/West Down Road will not survive increased traffic and already had to be strengthened last year due to slumping. o Emergency Services – Additional pressure on a stretched Police and Fire Services having to service Sandy Bay and the additional new Plumb Park Residents. Adding further Homes just exacerbates the situation o Health Care/Hospitals – already over subscribed
- **Tourism** o Tourists come to Littleham and Exmouth to enjoy the Open Green space. Filling all the available green patches of land with housing and roads will turn Littleham into a large Housing Estate and lose the countryside element.
- **Communities Farming** o Devon needs its farmland for growing and harvesting crops and feeding cattle and sheep on its land. This was demonstrated and been encouraged for farmers to grow crops again to get Britain to be more self-efficient highlighted by the recent Ukraine War and covid pandemic. We must not build on our Farm land that these fields have been used for generations of farmers and used by the local Littleham Farm 'Green Farm'
- **Green land** o all built on and communities, parishes being joined together and losing their identity no gaps in housing and no strips or designated green areas deemed for not developing on. Our Homes are built on Brown reused land formerly a Primary school carpark. The proposal identified utilises Green Land not brown or Grey land.
- **Disruption – Noise/Dirt/Congestion/Pollution** o Major disruption has occurred by the large-scale development of Plumb Park and Pankhurst building developments. There has been damage to the road infrastructure – potholes and surface road subsidence

due to increased traffic and heavy building vehicle. o Due to the steep sloping gradient of the field between Elm Lane and Green Farm, it will require artificial banking this will cause the houses to be elevated blocking the natural sun light enjoyed by the residents creating shadows. All will create more flooding which needs to be addressed as a priority. I object to all developments on these fields .

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Objection to proposed development land Exmo_08

Objection to Proposed Development land Exmo_08 Littleham Fields between Elm Lane and Green Farm.

My objective is because the Landscape and Ecology needs to be protected

Highways, Access and movement are inadequate

Flood Risk and Drainage is High and inadequate.

I strongly object to the proposed development on Littleham fields as it will irreversable destroy the environment and have negative impact on local infrastructure and the wildlife in Littleham Village.

The following points show why the building proposal on these fields at Littleham needs to be rejected.

- It would over develop a small Village recognised by Tourists as a holiday attraction

- The over development will have a negative impact on local amenities and soul and character of Littleham as well as negative impact on tourism jobs as people will opt to holiday elsewhere.

- Flooding

- o Additional houses, Road and Parking infrastructure will contribute to additional Surface Water. This will cause further complications to our current flood problems in Littleham.

- o Littleham River severely floods regularly every year closing Maer Lane by Green Farm and Prathayes Farm causing severe disruption to village life. This prevents traffic movement and emergency services reaching residents and access to Sandy Bay Holiday Park and Country Life Wildlife Park.

- Wildlife

- o Maer Valley is recognised as an area of outstanding beauty and these Littleham fields and river are part of it. There are rare butterflies, dragon flies that colonette. Countless Bird breeds, Water wading and hedge row birds. Local birds of prey -Owls, Buzzards, and Sparrow Hawks live and hunt here.

Colonies of bats roost and fly over the Fields. There are Foxes, Deer and Badgers that frequent the valley fields. Development will disrupt the local eco system.

Light Pollution

- o The additional homes and street lights will turn a dark Valley into a Xmas Tree disturbing the wildlife listed above and will cause to them to leave the area.

- Traffic/Transport

- o Additional homes will equate to additional cars, that will increase the risk of Safety and produce exhaust pollution and road congestion. The introduction of Plumb Park has increased traffic at Littleham Cross, and compounded the traffic flow and rate on Littleham Road, which is already passed breaking point in the Spring/Summer and Autumn seasons due to the 1000, s of cars travelling to and from Sandy Bay.

- Infrastructure

- o Water SWW Authority have had problems historically maintaining a regular high pressure to ensure no disruption to residential homes. During the Tourists season this drops severely and 2022 saw a near drought situation due to the record lack of rainfall causing our Exmouth feeding reservoirsto reservoirs drop and nearly dry up. More Homes will cause standpipes to be issued.

- o Sewage SWWA have struggled to keep up with demand of Sewage capacity that builds up in the Summer due to increased residents in the Summer, particularly Littleham sewage works. Over the summer period sewage was expelled into our beaches during peak season. Additional Homes will add to this problem and this should be addresses prior.

- o Local Primary School COE Littleham, is already over capacity due to Plumb Park new 500+ Homes, and the planning for further 100's Homes cannot occur until this is addressed.

- o At the Littleham delicate Bridge by Clinton Arms – LittlehamRoad/West Down Road will not survive increased traffic and already had to be strengthened last year due to slumping.

- o Emergency Services – Additional pressure on a stretched Police and Fire Services having to service Sandy Bay and the additional new Plumb Park Residents. Adding further Homes just exacerbates the situation

- o Health Care/Hospitals – already over subscribed

- Tourism

- o Tourists come to Littleham and Exmouth to enjoy the Open Green space. Filling all the available green patches of land with housing and roads will turn Littleham into a large Housing Estate and lose the countryside element.

- Communities Farming

- o Devon needs its farmland for growing and harvesting crops and feeding cattle and sheep on its land. This has been demonstrated and encouraged for farmers to grow crops again to get Britain to be more self-efficient highlighted by the recent Ukraine War and covid pandemic. We must not build on our Farm land that these fields have been used for generations of farmers and used by the local Littleham Farm 'Green Farm'

- Green land

- o all built on and communities, parishes being joined together and losing their identity with no gaps in housing and no strips or designated green areas deemed for not developing on. Our Homes are built on Brown reused land formerly a Primary school carpark. The proposal identified utilises Green Land not brown or Grey land.

- Disruption – Noise/Dirt/Congestion/Pylon's

- o Major disruption has occurred by the large-scale development of Plumb Park and Pankhurst building developments. There has been damage to the road infrastructure – potholes and surface road subsidence due to increased traffic and heavy building vehicle.

- o Due to the steep sloping gradient of the field between Elm Lane and Green Farm, it will require artificial banking this will cause the houses to be elevated blocking the natural sun light enjoyed by the residents creating shadows.

All will create more flooding which needs to be addressed as a priority.

I object to all developments on these fields .

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than to Exmouth, making Budleigh its most convenient town. The services and infrastructure of Budleigh (High Street, doctors, school, beach, etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan. Current local residents find it impossible at times even in winter to park for services and shopping and in the summer the roads are already highly congested. Exmo_20 would greatly increase the numbers of cars needed for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. The narrow country roads would not support such a large concentrated volume of extra traffic. Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY AR01b. The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths (SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. The Pebblebed Lowland Heaths are internationally recognised as being of importance. Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. The Habitats Regulations Assessment (30.01.25) confirms that there is currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is

in conflict with POLICY OL09 and POLICY PB04. Exmo_20 would destroy the tranquillity, wildness and dark skies of the countryside, which is contrary to POLICY OL01. Exmo_20 would have significant adverse effects on St John in the Wilderness Grade 2* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo 20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The mail access point of Exmo_20 is significantly closer to Budleigh than Exmouth, making Budleigh it's most significant town. The services and infrastructure of Budleigh would be the preferred choice for new Exmo_20 residents. This would lead to a coalescence of Budleigh and Exmouth undermining the settlement hierarchy, contrary to POLICY05. Before any further developments are undertaken in the East Devon area, there must be in place, sufficient Doctor Surgeries, Primary and Secondary Schools, improved roads, a complete overhaul and upgrade of the sewerage and water systems and services. Electrical and internet supply. Any development that's then undertaken, there must be written into the plans that ALL houses are build with solar panels in place and each property has a water catchment to be used for toilets, washing etc.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan or Reduce the size of Exmo_20

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Final week to 'Have your say' about proposed housing schemes in Exmouth. Do you want to stop building on a protected 'area of outstanding natural beauty' (now renamed National Landscape) on the eastern edge of Exmouth? This is an area the size of 4 football fields that stretches from opposite McDonalds right down to Castle Lane with industrial units next to Salterton Road plus 410-450 houses. There would be one access road with one exit onto Salterton Road. The access road would go straight across the old railway line which is now a well-used wide cycle and I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: National planning policy framework. Para 190 p55. ,When considering applications for development within National Parks, the Broads and National Landscapes, permission should be refused for major development⁶⁷ other than in exceptional circumstances, and where it can be demonstrated that the development is in the public interest. Consideration of such applications should include an assessment of: a) the need for the development, including in terms of any national considerations, and the impact of permitting it, or refusing it, upon the local economy; b) the cost of, and scope for, developing outside the designated area, or meeting the need for it in some other way; and (Clinton Devon own plenty of other land outside of the National Landscape which could be considered) c) any detrimental effect on the environment, the landscape and recreational opportunities, and the extent to which that could be moderated. (Proposed plan to put a road across the cycle path - therefore changing the nature of the path and safe access to all users, increasing risk of injury, reduction in value of an actual designated no vehicle space and therefore the enjoyment of all users)

Government Policy paper 30by30 on land in England: confirmed criteria and next steps
Oct 24

“Protected landscapes will be able to make a contribution to meeting our international commitment to protect 30% of land for biodiversity by 2030, as well as our Environmental Act targets to halt and then reverse the decline in nature.”

“Areas contributing towards 30by30 (30by30 areas) will include land within and beyond Protected Areas. These areas should be well-connected with each other and with the

wider landscape, and should represent the range of wildlife-rich habitats and important species found in England. They will form the core of the Nature Recovery Network, our growing national network of wildlife-rich places, stretching from our cities to countryside, mountains to coast. This should include significant areas of our Protected Landscapes (National Parks, National Landscapes and the Broads), which contain around half of England's priority habitats. We can, and must, go further within Protected Landscapes than other areas to meet our national environmental targets, including 30by30."

OL01: Landscape features "Development would only be permitted where it would not harm the environmental qualities ... including, C) Adverse disruption of a view from a public place... D) aesthetic and perceptual factors such as tranquillity, wildness and dark skies" The current cycle path through the Littleham area provides both tranquillity and wildness which would be lost by the introduction of the proposed EXMO17 development, in particular by putting a road across it and the introduction of hundreds of houses and therefore noise and destruction that comes with that number of subsequent people. In addition the development site can be clearly seen from the SW coastpath at the trigpoint adjacent to East Devon Golf Course as well as the cycle path which passes through the proposed development area.

Emerging plan policy OL02: "The highest level of protection will be given to the landscape and scenic beauty of the National Landscapes (NL's) in East Devon: A. Development in a NL, or outside but affecting its setting or appearance, will only be permitted where it avoids harm and contributes to the protection, conservation and enhancement of the special qualities, character and natural beauty of the NL (including the coastline, where relevant);; B. Major development in a NL will only be permitted in exceptional circumstances and where it can be demonstrated to be in the public interest; and East Devon Local Plan 2020 to 2042 –Regulation 19 Plan – February 2025 200 C. Any relevant National Landscape Management Plans will be a material consideration in decision making. This policy will also apply to the Heritage Coast. This policy applies across the whole plan area including the Cranbrook Plan area" How is it possible for a development of over 400 houses to meet criteria A? The term exceptional circumstances is vague and I don't believe that the current housing 'need' is exceptional enough particularly when there are other potential development areas e.g to the north of Salterton Road (this land falls within the same tenancy as the land at Exmo17.

Developing at EXMO17 would give a precedent and would open up the NL to further significant development in the future.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: I believe that the proposed development of site EXMO_17, which by its very nature will mean an extension of Exmouth eastward on the currently undeveloped East Devon National Landscape (formerly AONB) towards Budleigh Salterton. Inclusion of EXMO_17 in the East Devon District Council Local Plan fundamentally fails the "Consistent with national policy" soundness test due to severe conflicts with statutory protections, national planning policy, and local policy obligations.

1. Direct Conflict with National Planning Policy Framework (NPPF) The National Planning Policy Framework (NPPF) provides unequivocal legal protection for National Landscapes: Paragraph 176: The highest level of protection must be given to conserving and enhancing landscape and scenic beauty in National Landscapes. Development should be strictly limited in these areas. The proposed extension fundamentally contradicts this principle, as it represents large-scale urban encroachment into a protected landscape. Paragraph 177: Major development in a National Landscape should be refused unless it passes exceptional circumstances tests and is in the public interest. This proposal fails every test: No overriding need: Housing or economic growth objectives do not constitute exceptional circumstances, particularly when alternative sites exist outside protected areas. Alternative locations exist: Other areas within East Devon can accommodate growth without violating protected land status. Severe environmental and landscape harm: The development irreversibly damages the area's ecological integrity, scenic character, and ecosystem services. Legal Precedent: High Court rulings have consistently upheld AONB/National Landscape protections, ruling that "economic development" or "housing targets" do not override statutory protection. The approval of this proposal would invite an immediate legal challenge.

2. Breach of Statutory Duty Under the Countryside and Rights of Way Act 2000 (CROW Act, Section 85) Section 85 of the CROW Act places a mandatory legal duty on public authorities to conserve and enhance the natural beauty of National Landscapes. Any decision that fails to give "great weight" to protection is unlawful. By approving this

proposal, East Devon District Council would be in breach of this duty, making the plan legally indefensible and subject to judicial review.

3. Direct Contradiction of the East Devon Local Plan and Policy Framework The proposed extension also fails to comply with East Devon's own planning policies, making it internally inconsistent and thus unsound: Strategy 46: Landscape Conservation and Enhancement and AONBs Requires that development must enhance, not harm, the special qualities of National Landscapes. The proposal would cause irreversible harm, violating this policy outright. Policy D1: Design and Local Distinctiveness Development must respect and protect local landscape character. The urban expansion into protected countryside undermines the distinctive rural and coastal identity of Budleigh Salterton and its surroundings. Urban Sprawl Prevention & Settlement Separation The merging of Exmouth and Budleigh Salterton is a serious planning concern. National and local policy explicitly protect the distinctiveness of settlements, ensuring they are not lost to uncontrolled expansion.

4. Environmental Destruction and Irreversible Harm The East Devon National Landscape is one of the most ecologically valuable and visually iconic landscapes in the UK. Development would result in: Biodiversity loss: This area hosts legally protected species and priority habitats under the Wildlife and Countryside Act 1981 and the UK Biodiversity Action Plan. Destruction of irreplaceable ecosystems: The undeveloped land acts as a natural carbon sink, floodplain, and wildlife corridor. Increased climate risk: Removing these natural defences increases flood risk, reduces climate resilience, and worsens ecological degradation.

5. Legal Risk of Judicial Review and Government Intervention This proposal is legally indefensible. If included in the Local Plan: It is highly likely to be legally challenged under the CROW Act and NPPF non-compliance. Past judicial reviews have struck down developments in National Landscapes where local authorities failed to provide a lawful justification. Conclusion: The Local Plan is Unsound and Legally Indefensible This proposal directly contradicts national policy, breaches statutory duties, violates East Devon's own Local Plan, and would likely be overturned in court.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: To remain legally compliant, policy-

consistent, and defensible, East Devon District Council must exclude this proposal from the Local Plan.

Stated that EDDC should not pursue development in EXMO_17 because they would breach planning law and ultimately would end up in years of litigation and that only Government had the power to change planning law, not EDDC. Or words to

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: &&
There's serious risk of flooding down to the lower-lying town of Exmouth. Exmo_20 site has clay under soil meaning it's poor at absorbing water, so encouraging run off during storms. If you ignore your own Policy AR01B and cover this with roads, paths, roofs and hard standing aprons, you will further increase run-off. No doubt you will say that this can be accommodated by installing drains.... but where will these drains go? Probably into the sea, along with sewage. Don't tell me this can't happen - it already happened last year, spoiling people's health, their enjoyment of the beach and the holiday trade. SWWA will never have the funds to cope with the extra 700+ houses in your development. Nature is powerful - cast your mind back to 1960 and Withycombe Brook.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: # Exmo-20 entrance on B3179 is nearer to Budleigh than Exmouth. Contrary to Policy OL05, this would effectively merge these two towns.

Policy TR01 is contravened because it's too steep and too far to cycle or walk from Budleigh or Exmouth. It's also isolated from services by being over 800m away, contrary to Para 11.6. Car use would be essential, contrary to Para 11.2 with fumes and congestion. It's unsustainable development!

Exmo_20 is on poorly draining clay soil, uphill from Exmouth, so heavy rain water will not soak away but cascade down causing flooding. Remember 1960? How about the sewage discharges of 2024? So the drains can't cope at present, let alone in the future, even with the minuscule improvements which SWWA have promised. This makes a mockery of Policy AR01B.

St John is presently in the Wilderness. Not for much longer if you go ahead with this awful Exmo_20 bricks and concrete scheme. It's a listed site, deserving tranquility as per your Policy HE02

There's a whole raft of reasons why Exmo_20 should not be so near to the ecologically fragile Pebblebed Heaths. Policies PB01, OL01, OL09, PB04 are contravened, along with Paragraphs 13.9 and 13.23.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: # Local Plan Policy OL05 is contravened by effectively merging Exmouth and Budleigh. Exmo_20 residents would be nearer to Budleigh than Exmouth re services such as doctors, shops, schools

Exmo_20 is more than half mile away from facilities and services, so Para 11.6 is contravened.

More traffic congestion would occur with Exmo_20 because car travel would be essential - this contravenes Para 11.2.

This site, Exmo_20, is a long way UPHILL from Exmouth (or Budleigh), so bike or walking is unlikely and makes nonsense of Policy TR01.

Have you forgotten 1960 when Withycombe Brook flooded? Have you forgotten the tremendous sewage & drainage problems of last year? EXMO-20 is at high altitude, with impervious subsoil, so there's flood risk lower down in Exmouth, contravening Police AR01B. This is exacerbated by concrete roads and driveways and waterproof roof tiles - where is the water going to drain?

St John in the WILDERNESS would be that in name only. Exmo_20 would surround this tranquil area with incongruous development, totally wrecking the environs of this listed churchyard and disregards Policy HE02.

Policy OL01 would encourage the countryside to have TRANQUILITY, WILDNESS and DARK SKIES. Exmo_20 does the exact opposite.

Wildlife corridors and habitats, ancient trees , hedgerows -some irreplaceable - would be wrecked by Exmo_20 due to fragmentation, noise, pollution and disturbance. This goes against Paras 13.9 and 13.23 of Local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Covering this large clay soil area with roofs, concrete drives, paths and roads will cause big sewage and drainage problems. Remember that Exmouth has frequent sewage spills into the sea causing mayhem for beach users, loss of holiday trade etc. Exmouth can't cope at the moment and It will cost a FORTUNE to bring it up to acceptable present standards, let alone standards to cope with so much extra development. Do you recall the Withycombe Brook flood in 1960?

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Abandon EXMO-20

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

- The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

- Exmo_20 would destroy the "tranquillity, wildness and dark skies" of the countryside, which is contrary to POLICY OL01.

- Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

- The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to... air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

- Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY AR01B.

- Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is an unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre

for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

- The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

****Allocating Exmo_20 is in conflict with policy OL09; it would result in pollution that cannot be adequately mitigated against (Habitats Regulations Assessment 30.01.25 highlights this concern).**

Allocating Exmo_20 is contrary to policy PB01 of the Local Plan. It does not adhere to the mitigation strategy of avoidance over mitigation. Developing Exmo_20 would cause adverse effects on internationally and nationally designated site, and could be located upon alternative site that would cause less harm.

****Paragraph 11.6(local plan) says that larger developments should be within 800m of key services and facilities. Exmo_20 is an enormous development but most of the site is much further than 800m from any services and facilities. Only very Southern parts fall within 800m. It is several miles away from actual town and too steep for people to want to walk. **Exmo_20 is in conflict with Policy TR03. it is too remote for sustainable travel; too far from the train station to commute to Exeter by train, and cycle paths in Exmo_20 won't create sustainable travel because there are not cycle paths from Dinan way into Town.**

****Exmo_20 is contrary to Paragraph 11.2 of the local plan(significant developments should be at locations which can be made sustainable through reducing the need to travel). The majority of residents would drive everywhere, having to go up to the B3179 then back down to Exmouth, taking more and longer journeys, doing many more miles.**

****Exmo_20** is contrary to Paragraph 11.2 of the local plan(significant developments should be at locations which can be made sustainable through reducing the need to travel). The majority of residents would drive everywhere, having to go up to the B3179 then back down to Exmouth, taking more and longer journeys, doing many more miles.

Policy TR01 says that walking and cycling should be the natural first choice from developments. Walking and cycling would never be a choice from **Exmo_20** because it is too far away from; town centre/train station/cinema, sports centre etc. Even if they make cycle routes within the development there are not cycle routes leading from **Exmo_20** into the town and it is not a good area to cycle.

****Allocation of Exmo_20** conflicts with paragraph 13.23 of the Local Plan. It would fragment many wildlife corridors, reduce biodiversity and isolate and destroy habitats. It sits within SNA 368 on the proposed Nature Recovery Network. It connects existing habitats and provides a wildlife corridor between the SAC/SPA/SSSI and the coast.

****Exmo_20** is in conflict with Policy PB 04;it would affect the integrity of a site protected under the Conservation of Habitats and Species Regulations 2017 including SAC/SPA).

****Allocation of Exmo_20** would adversely affect the natural environment and result in great biodiversity loss on the actual site and on the adjacent SAC/SPA/SSSI, in conflict with Paragraph 2.10 objective 8 of the Local Plan. ****Exmo_20** is in conflict with HE02. It will destroy the distinctive remote setting of grade 2* listed St Johns church. ****Exmo_20** is in conflict with OL01. Massive volumes of traffic running up through the entire length of the site will unavoidably destroy the dark skies, tranquility and wildness of this massive area of open countryside.

****Exmo_20** would encourage settlement coalescence between Exmouth and Budleigh, contrary to Policy OL05. It is 2.2 miles from Budleigh yet 4 miles from Exmouth and functionally connects the two towns. ****Exmo_20** is in conflict with paragraph 3.30(local plan). It is unacceptable to move the settlement boundary right up adjacent to the SAC/SPA/SSSI, leaving it dependant on specific individual policies for its protection.

Exmo_20 is in conflict with local plan paragraph 3.34. Neither Exmouth(despite being a tier 1 town)nor Budleigh (whose infrastructure and services would be relied upon by **Exmo_20**) have sufficient existing infrastructure and services to support such a significant increase in development.

Exmo_20 is not a development within Exmouth. It is twice as far to Exmouth as to Budleigh Salterton from the point of accessing the site, and is one of the most significant levels of development but is NOT at the principal centre of Exmouth in any way other than name, thus creating conflict within the local plan(policy SP01)

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: remove Exmo_20 from the local Plan/select another site as an alternative to Exmo_20

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure Exmo_20 is reconsidered

Full name: Emily Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 lies within the rainwater catchment area for Withycombe Brook, already an identified flood risk. It is on heavy clay subsoil and is a steep site running down towards Withycombe and Exmouth. Exmo-20 would increase vulnerability to flood risk through the lower lying part of Exmouth. To allocate Exmo is contrary to NPPF 162 which states that plans should take into account the long term implications for flood risk. The Local Plan should plan for climate change and “avoid increased vulnerability to the range of impacts arising from climate change.” (NPPF 164). A flood risk Assessment should have been carried out. Allocation of Exmo_20 is not sound nor justified; it is in conflict with NPPF 178 and the Local Plan policy AR01B; it does not provide wider sustainability and it does increase the flood risk elsewhere.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To have my voice heard.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Local Plan, Policy OL03 states that development proposals will only be permitted where they “preserve the visual integrity, identity and scenic quality of the district” and identifies as particularly important “night time views of dark skies, particularly where lighting is to be introduced in areas of low existing light pollution”. Exmo_20 is in total conflict with this policy. It is a vast area of night time dark skies with currently very low/non-existent light pollution. The expanse of dark skies is an inherent part of the integrity, identity and scenic quality of the area. The light pollution which would accompany Exmo_20 would unavoidably destroy this; in addition to the light from the housing development itself, the vehicular access point to the site being onto the B3179 would result in a regular, nightly stream of headlights destroying the darkness across the entire length of the site, approximately 0.8km. Allocation of Exmo_20 conflicts with Policy OL03 of the Local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Local Plan states that “permission will not be granted for development which would result in pollution that cannot be adequately mitigated. This will include: A. Pollution of the environment by gas or particulates including smell, fumes, dust, grit, smoke and soot...F. Pollution of sites of wildlife value”. The allocation of Exmo_20 is in conflict with this: the Habitats Regulations Assessments (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity to...air quality (East Devon Pebblebed Heaths SAC/SPA). This is due to the primary access for Exmo_20 being onto the B3179 which would send an enormous amount of traffic along the SAC/SPA boundary.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Do not place the access point for Exmo_20 onto the B3@79, sending significant amounts of traffic along the boundary to the SAC/SPA.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure integrity of the SAC/SPA is not compromised.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is contrary to the Local Plan paragraph 2.10, objective 8. It would adversely affect the natural environment and result in the loss of much biodiversity. It lies within a strategic Nature Area on the proposed Nature Recovery Network, identified as key in preserving and enhancing biodiversity. It contains many veteran and mature trees and allocation of Exmo_20 would cause loss of irreplaceable habitats (defined in the NPPF as “habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed “). NPPF 193 states that development resulting in the loss or deterioration of irreplaceable habitats (such as ancient woodland and ancient o veteran trees should be refused unless there are wholly exceptional circumstances”. Allocation of Exmo_20 is therefore unsound.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure that irreplaceable habitats are not destroyed.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Paragraph 2.6 of the Local Plan states that “Rural East Devon will retain its outstanding charm and character with modest and sensitively planned development”. Allocation of Exmo_20 conflicts with this. Although on the edge of Exmouth, this agricultural site is entirely rural in character and typical of rural East Devon. Exmo_20 is not ‘modest’ development; it is a very significant, “comprehensive development scheme” and as such is not in accordance with The Local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan or revert to Exmo_20b as per the original allocation.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Emily Glanfield

Proposal:

5. Development in the Towns and Villages

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: To allocate Exmo_20 is contrary to policy HE02 of The Local Plan. This states that “proposals for development...will be expected to: Be sympathetic to the listed building and its setting”. Exmo_20 is totally at odds with the setting of St John in the wilderness Church. The area around St John in the Wilderness Church is characterised by a strong sense of remoteness and tranquility, providing a timeless, remote ‘wilderness’ setting for those who worship here. This setting is integral to the character of the grade II* listed church and nearby listed buildings and would be destroyed by having a housing estate encircling it, even with a token ‘buffer zone’ left around it. To allocate Exmo_20 is not sound according to policy HE02.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To have my voice heard.

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The Site Selection Methodology document which appears in the reg 19 Draft Local Plan evidence library is not the version which was used for the reg 18 stage; an amended version has been submitted to the evidence library - this was amended AFTER the SPC approved the Draft Local Plan on 21.12.24. Methodology was altered retrospectively to remove conflict within the Local Plan. Exmo_20 failed the HELAA assessment; it was deemed “available but not suitable or achievable”, therefore according to the methodology in use at the time Exmo_20 was unable to be selected, and was accordingly omitted from Stage 3 Site Assessments. AFTER the Draft Local Plan had been approved (with Exmo_20 having reappeared and been selected), wording of the site selection methodology was altered to enable sites which had failed site sifting at stage 2 to be carried forward to stage 3 “in exceptional circumstances”, and to state that “such cases will be clearly justified”. There is no agreed definition of what constitutes ‘exceptional circumstances’, nor is any ‘clear justification’ given. Furthermore, despite Exmo_20 having failed the HELAA assesment, sustainability Appraisal Report (Feb 2025) states that it was “assessed as suitable, available and achievable”. Neither the decision-making process nor the evidence base have been sufficiently transparent, robust or well documented to be considered sound, and to have amended the evidence base retrospectively to fit the plan makes it hard to consider the process legally compliant.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with Policy PB01. This policy deals with the “Protection of internationally and nationally important wildlife sites” and states that development that would cause a direct or indirect adverse effect upon internationally and nationally designated sites will not be permitted unless they cannot be located on alternative sites that would cause less or no harm. Exmo_20 is adjacent to East Devon Pebblebed Heaths(SPA/SAC/SSSI); the only double designated wildlife site in the South West. Nightjar (listed as Annexe 1 species in the Habitats Directive) are one of the qualifying features for the SPA., and Exmo_20 is a supporting habitat for Nightjar. Studies show that loss of foraging habitat or disruption to routes to feeding areas for Nightjar could undermine the conservation objectives of the SPA. Other sites shown as preferred within the agenda for the strategic planning Committee 03.09.24 should have been allocated as an alternative to Exmo_20. The mitigation hierarchy of prioritising avoidance over mitigation (embedded in The Environment Act 2021, The Environment Impact Assessment Regulations(EIA) 2017, the National Planning policy Framework, The Conservation of Habitats and Species Regulations (2017) and other legislation) has not been followed. The allocation of Exmo_20 is not in accordance with the Local plan nor any of the aforementioned legislation, therefore cannot be sound.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo-20 from the Local Plan. Allocate on an alternative site that would cause less or no harm.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To see that legislation is followed.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Site Selection methodology used for the Regulation 18 stage states that “It is assumed that sites within 400m of the Pebblebed Heaths SAC will be ruled out as being unsuitable in the HELAA but if not, such sites should be sifted out at stage 2”.(Site Selection methodology May 22, Subtext point 6). Exmo_20 was ruled out as being unsuitable in the HELAA, yet despite being within 400m of the Pebblebed Heaths appeared again at stage 4 and was allocated. AFTER the Draft Local Plan had been approved the Site Selection methodology was amended and the above clause removed. The version of Site Selection Methodology presented in the evidence library of the Draft Local Plan is not the version used for reg 18. Having selected Exmo_20 the Built Up Area Boundary was then extended up to the Pebblebed Heath boundary to include the 400m buffer zone and, specifically, to include this site.

This is totally inconsistent with the approach towards Exmo_04, also within 400m of Pebblebed Heath. In this case the top section of the site was rejected “due to major adverse biodiversity effect arising from its location within 400m Pebblebed Heaths exclusion zone” and the bottom part of the site was allocated.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove the 400m Pebblebed Heath buffer zone from allocation Exmo_20, in accordance with the methodology used in allocation, and in the interests of consistency across sites.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Selection methodology used for the Regulation 18 stage states that “It is assumed that sites within 400m of the Pebblebed Heaths SAC will be ruled out as being unsuitable in the HELAA but if not, such sites should be sifted out at stage 2”.(Site Selection methodology May 22, Subtext point 6). Exmo_20 was ruled out as being unsuitable in the HELAA, yet despite being within 400m of the Pebblebed Heaths appeared again at stage 4 and was allocated. AFTER the Draft Local Plan had been approved the Site Selection methodology was amended and the above clause removed. The version of Site Selection Methodology presented in the evidence library of the Draft Local Plan is not the version used for reg 18. Having selected Exmo_20 the Built Up Area Boundary was then extended up to the Pebblebed Heath boundary to include the 400m buffer zone and, specifically, to include this site.

This is totally inconsistent with the approach towards Exmo_04, also within 400m of Pebblebed Heath. In this case the top section of the site was rejected “due to major adverse biodiversity effect arising from its location within 400m Pebblebed Heaths exclusion zone” and the bottom part of the site was allocated.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove the 400m buffer zone from Exmo_20 in accordance with the methodology used in allocation, and in the interests of consistency across sites.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure that the process is being carried out transparently and with consistency.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The Site Selection Methodology document which appears in the reg 19 Draft Local Plan evidence library is not the version which was used for the reg 18 stage; an amended version has been submitted to the evidence library - this was amended AFTER the SPC approved the Draft Local Plan on 21.12.24. Methodology was altered retrospectively to remove conflict within the Local Plan. Exmo_20 failed the HELAA assessment; it was deemed “available but not suitable or achievable”, therefore according to the methodology in use at the time Exmo_20 was unable to be selected, and was accordingly omitted from Stage 3 Site Assessments. AFTER the Draft Local Plan had been approved (with Exmo_20 having reappeared and been selected), wording of the site selection methodology was altered to enable sites which had failed site sifting at stage 2 to be carried forward to stage 3 “in exceptional circumstances”, and to state that “such cases will be clearly justified”. There is no agreed definition of what constitutes ‘exceptional circumstances’, nor is any ‘clear justification’ given. Furthermore, despite Exmo_20 having failed the HELAA assesment, sustainability Appraisal Report (Feb 2025) states that it was “assessed as suitable, available and achievable”. Neither the decision-making process nor the evidence base have been sufficiently transparent, robust or well documented to be considered sound, and to have amended the evidence base retrospectively to fit the plan makes it hard to consider the process legally compliant.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo 20 is not consistent with National Policy. NPPF States that Plans should “be shaped by early, proportionate and effective engagement between plan makers and communities....and statutory consultees”. Natural England, a statutory consultee, was not consulted on this site despite it adjoining a SAC/SPA/SSSI.

Neither was there any engagement with Budleigh Salterton Town Council despite the fact that the development will rely primarily on the infrastructure and services of Budleigh (from vehicular access point of Exmo_20 it is almost twice the distance to Exmouth town centre as to that of Budleigh). The Town Council is a ‘prescribed body’ which will be directly and significantly affected by the development of Exmo_20.

There was no effective engagement with communities about Exmo 20. It was a site which had failed HELAA as “available but not suitable or achievable”, a ‘rejected’ site throughout the period of community engagement and was clearly marked in red as such on all the maps available and shown to the public. From the time it was allocated on 03.09.24 there was no opportunity for communities to engage nor has there been any opportunity for engagement since, despite repeated attempts by members of the community.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Exmo_20 is in direct conflict with the Local Plan, Policy PB02, and not in accordance with the Environment Act 2021. Policy PB02 states that development proposals that would cause adverse effects upon important wildlife sites will not be permitted unless they cannot be located on alternative sites which would cause less or no harm. The development proposed at Exmo_20 will cause adverse effects upon important wildlife sites (Pebblebed Heaths) and could be located on alternative sites which would cause less or no harm. It also states that it must be ensured that there is no degradation to the wider ecological networks and priority habitats. Exmo_20 sits within a 'Strategic Nature Area' (SNA 368) on the proposed Nature Recovery Network connecting the coast to the SAC/SPA/SSSI as part of the Local Nature Recovery Strategy. According to the Environment Act 2021 EDDC has a legal responsibility as a supporting authority to ensure that the planning system dovetails with the Local nature Recovery Strategy to avoid conflicting steers for the same piece of land. Exmo_20 is in direct conflict with this.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Neither the Local plan nor national policy were followed in the allocation of Exmo_20. Chapter 13, paragraph 13.5 of the Local Plan states that "All proposals should follow the mitigation hierarchy: first avoid biodiversity impacts; if unavoidable mitigate them". Sites were not selected with regard to the mitigation strategy; the initial Habitats Regulations Assessments was done after the plan was agreed for publication and many sites near to Exmo_20 were rejected for reasons which fall lower down the Mitigation Hierarchy and should have been allocated in preference to Exmo_20.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will

make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo-20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure allocation of Exmo_20 is reconsidered

Full name: Emily Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Local Plan (paragraph 3.7, appendix 6, Stage 3. 1.33) states that “The site assessment ensures a consistent level of information is available for each site, to inform site selection”. The allocation of Exmo_20 was not in accordance with this and is not sound. Having failed the HELAA, Exmo_20 did not go through the assessment stage of the Site Selection process and there was minimal information available to councillors regarding Exmo_20 compared with the details given about other sites. No attempt was made to gather or provide the relevant information which would have enabled consistency in site selection. The site boundary of Exmo_20 shown to councillors when selecting sites was wildly inaccurate compared with other sites and included the grade II* listed St John’s church, several listed buildings and numerous privately owned homes (approximately one third of the site voted on by councillors is unavailable). This had been brought to the attention of the SPC several times since August 2022 but no attempt was made to correct it and it was not amended until 22.11.24. by which time site allocations we’re no longer being assessed or revisited. This is inconsistent with the detail with which other sites were scrutinised.

The site is of heavy clay subsoil and sits on the main rainwater catchment area of Withycombe Brook, already an identified flood risk - information not given to councillors when allocating Exmo_20, yet the clay subsoil and the far lesser flood risks other sites would potentially cause were discussed extensively and consequently given as the reason for them not being allocated). The level of information available for Exmo_20 was totally inconsistent with the level of information available for other sites.

The greatest and most concerning level of inconsistency has been shown in the way information was considered regarding the 400m Pebblebed Heath Impact Risk Zone. In

the case of Exmo_04 which, like Exmo_20, has part of the site falling within 400m of Pebblebed Heath it was judged for this reason appropriate only to select part of the site (the bottom part - not within 400m), and to reject part (the top part - within 400m). This is totally at odds with the way Exmo_20 was allocated in its entirety including the land within the 400m buffer zone. There was no consistency shown. The fact that the Exmo_20 adjoins the SAC/SPA/SSSI was not even mentioned in the SPC meetings despite proximity to the SAC/SPA/SSSI being thoughtfully discussed in the case of other sites at greater distances from the Pebblebed Heaths. Site assessment has not ensured a consistent level of information was available for each site; there was minimal information gained from site assessment of Exmo_20, because minimal assessment was undertaken of Exmo_20 compared with other sites. Had Exmo_20 passed HELAA and gone through stages 1,2, and 3 of the site selection process it would have undergone site assessment and the levels of information available for it would have no doubt been more consistent. As the process happened, allocation of Exmo_20 was not been carried out in accordance with The Local Plan, (paragraph 3.7, appendix 6, Stage 3. 1.33).

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Exclude the top 400 buffer zone from site Exmo_20 and from the Built Up Area Boundary.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ask that Exmo_20 is treated consistently with other sites, and the 400m buffer zone consistently given the same protection across sites.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: In allocating Exmo_20 EDDC have failed in their duty to co-operate with Budleigh Town Council. The Planning and Compulsory Purchase Act 2004 states that The Local Authority must co-operate with every body that is “prescribed or of a prescribed description” in the preparation of development plan documents and other development documents. Budleigh Salterton Town Council are a prescribed body, yet EDDC failed to even make it aware of this development. Allocation of Exmo_20 is critical to Budleigh Town Council; with vehicular access to the site being only 2.3 miles away from Budleigh Salterton but 4.0 from Exmouth Town centre the development would be primarily reliant on the services and infrastructure of Budleigh Salterton which, as a tier 3 town, would be totally unable to cope.

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure that my voice and opinions are heard.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 was not in accordance with the NPPF (chapter 3, paragraph 16c) which states “The right information is crucial to good decision-making, particularly where formal assessments are required (such as Habitats Regulations Assessments...)”. Councillors were simply not in possession of the right information when they voted on allocation of Exmo_20. They did not have the results of the Habitats Regulations Assessments.

A member of the Strategic Planning Committee directly expressed her discomfort at the committee not having seen the Habitat Regulation Assessments (and other evidence). (SPC meeting 04.02.25, 1:15). She suggested that by not having access to these documents before regulation 19 consultation and without the information having gone through committee and been discussed, it raised the question of whether the Draft Local Plan could be considered Sound and Legally robust. The Habitats Regulations Assessments and other missing evidence was referred to by The Assistant Director – Planning Strategy and Development Management, as “bits and bobs”, and it was considered satisfactory to go to regulation 19 consultation without them. THIS RENDERS THE ALLOCATION OF EXMO _20 IN DIRECT CONFLICT WITH NPPF. The initial HRA was published AFTER the plan was agreed for regulation 19 publication, therefore did not inform the plan making process, and sites were not selected with regards to avoidance over mitigation as is dictated in the Conservation of Habitats and Species Regulations 2017.

In addition to this, also not in accordance with NPPF, (Chapter 3, paragraph 16c), members of the SPC did not have the right information in terms of site boundaries. The map shown to the SPC when they voted on sites was massively inaccurate and the

boundary of Exmo_20 depicted approximately 1/3 more land than was available, including a substantial listed heritage site (St Johns in the Wilderness church and churchyard), a large area of SAC/SASI impact risk zone, and a considerable number of privately owned properties. Numerous attempts were made by members of the community to get the map amended to inform councillors of the actual land available but to no avail, until it appeared corrected in the reg. 19 Draft Local Plan. To make decisions based on misleading, incomplete and inaccurate information is inconsistent with national policy and demonstrates total disregard for the Nolan principles.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: With regards to Exmo_20 EDDC have failed in their duty to co-operate. The Local Plan (Paragraph 12.31) states that “The Council will consult statutory pollution control authorities at an early stage for proposals that may raise pollution concerns. This ensures that developments are assessed for their potential impacts on health, the natural environment and amenity.” Councillors allocated Exmo_20, a site adjoining a SAC/SPA/SSSI without consulting either statutory pollution control authorities or Natural England to consider pollution concerns.

Natural England’s ‘standing advice’, as a statutory consultee, given to LPAs is that

“You must consult Natural England if a development proposal: * might affect a site of special scientific interest (SSSI) * needs an environmental impact assessment * needs an appropriate assessment under the Habitats Regulations”

Natural England were not consulted on this site. The only engagement had with Natural England was when they were invited to comment on the whole of the draft Local Plan, at the point when Exmo_20 was a rejected site.

Exmo_20 was allocated before the initial Habitats Regulations Assessment was published on 30.01.25, which concluded that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA)”. There is currently no suitable mitigation for this. As a result of failing in their duty to do-operate EDDC have allocated Exmo 20 against the principles of the

mitigation hierarchy of Natural England; to prioritise avoidance over mitigation. The mitigation hierarchy is a fundamental principle in achieving Biodiversity Net Gain in England. By prioritising avoidance, minimising losses, and resorting to compensation only when necessary, developers can help protect and enhance biodiversity. (6 Feb 2025)

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: With regards to Exmo_20 EDDC have failed in their duty to co-operate. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Policy SP01 of the Local Plan proposes that the most significant levels of development will be at the principal centre of Exmouth. Allocation of Exmo_20 is contrary to this as the site is completely detached from Exmouth town and is actually closer to Budleigh Salterton. Although the housing might be situated at the lower end of the site, the vast majority of the access into and out of the site would be from the very top of the site onto the B3179, resulting in Exmo_20 being a detached and isolated housing estate. From the southern end of the site to access to the train station on foot, to commute to Exeter for example, takes 50 minutes at a brisk pace. From the northern end of the site it takes 1 hour 15 minutes. Exmouth town centre is a 4 mile drive from the vehicular access point of Exmo_20, and the steep topography of the site makes walking and cycling unviable options. Budleigh Salterton is much closer and more accessible from the site access point, being only 2 miles from this point. It is an Exmouth development in name only and in functional terms is not development at the principal centre of Exmouth. Existing housing development already stretches several miles out from the town centre which has not managed to grow with the increased population. With the access to Exmo_20 all being at the northern edge of the site this development cannot be considered to be at the Principal Centre of Exmouth.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths, therefore defining this land as acceptable for development. Housing cannot be built on the buffer zone, however, by including it within the settlement boundary it is available for other kinds of development. Therefore the plan is failing to robustly protect the Pebblebed heaths.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan or reduce the size of the development.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Joe Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Allocation of Exmo_20 is in conflict with policy OL05. The main access point to Exmo_20 is 4 miles from the centre of Exmouth and only 2.2 miles from the centre of Budleigh Salterton, making Budleigh significantly more accessible to the development. Getting from the site entry point on the B3179 it is significantly shorter and quicker to get into Budleigh town then Exmouth town, therefore naturally this will be where people go for key services including doctors, dentists and primary schools. This development clearly merges the two towns and creates coalescence.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan. Reduce the size of the site and ensure there is better access directly into Exmouth.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I would like to hear with a primary access point on the B3179 this doesn't lead to coalescence between Budleigh and Exmouth and why Exmouth would be the primary town to rely on for services when they are closer to Budleigh.

Full name: Joe Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy HE02 - a development the size of Exmo_20 surrounding St. John in the Wilderness Church (grade II* listed) will have significant adverse effects on the tranquil surroundings of the church and churchyard, drastically altering the rural, peaceful setting for worship which currently exists for the congregation. The outlook from the church will completely change and feel a distinctly different to how it currently feels in the churchyard.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Removal of EXMO_20 from the local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL01. The area around the site - St John in the Wilderness church is characterised by dark skies and a strong sense of remoteness and tranquillity, a 'wilderness' setting integral to the grade II* listed church which would be harmed by having a housing development encircling it, regardless of a buffer zone being left. The name of the church and the hamlet itself would almost become ironic as it would not be in the wilderness at all. Likewise having an entrance on the B3179 next to the pebble bed heath will cause a constant stream of traffic headlights shining across this protected area which would completely change the feel of it and would have a devastating impact on the bird life wanting to nest there.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan. Substantially reduce the size of it and take away access onto the B3179.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". Exmo_20 will cause loss of irreplaceable habitats. It has a great number of mature trees, many of which show signs of veteranisation, as well as miles of hedgerows that provide habitats and wildlife corridors. Disrupting and in most instances destroying them will cause a huge loss of wildlife and cannot be replaced by planting new trees and leaving the odd green space.replacement These provide unique micro habitats and their loss cannot simply be mitigated by planting new trees. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. EXMO_20 isn't on the pebblebed heath but it is countryside that is essential to the wildlife that live on it. Exmo_20 lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the

relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan or reduce it and only build on land closer to Exmouth and further from the pebblebed heath.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I want to understand how conflict to paragraph 13.9 of the National planning policy framework will be avoided.

Full name: Joe Glanfield

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 2.10, objective 8. It will adversely affect the natural environment and result in the loss of much biodiversity, both on site and on the adjacent SAC/SPA/SSSI. The proposal of site EXMO_20 is across important wildlife corridors and also its proximity to the pebblebed heath means it will reduce biodiversity, especially within the bird population as there important nesting sites on the Common.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I worry that members of the planning committee don't realise what a unique site Woodbury common is.

Full name: Joe Glanfield

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL09. The Habitats Regulations assessment (30.01.25) states that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA)”. This is due to the primary access to Exmo_20 being into B3179 which would send the significant increase in traffic caused by the large site along the boundary of the Pebblebed Heath.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan. No access to the B3179 and a reduction of the site size.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Joe Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. Due to Exmo_20's restricted access arrangements, the site will vastly increase car and other vehicle movements. This significant additional traffic will be focussed on the B3179 which will be used to access Budleigh Salterton (the nearest town and beach) and Exeter which is the likely place of work for most people living in EXMO_20. The B3179 is not designed for the amount of traffic it already has let alone more, likewise it is especially not suitable for a high volume of large vehicles like lorries and buses. The only way a bus service could serve the needs of residents of EXMO_20 is if it accessed the B3179 and had routed to Budleigh and Exeter but the road is not suitable for these vehicles.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan or reduce it and take away access onto the B3179.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I want to understand and input into how EXMO_20 can have new sustainable travel arrangements to the places they are most likely to go.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 3.34: despite being a tier 1 settlement Exmouth is already severely struggling to provide sufficient infrastructure to its existing population. It is already nearly impossible to get a doctors appointment within a useful time frame and additional surgeries are not a part of this proposal. Neither will it provide another secondary school - within the last 3 years numerous children have had to travel to Cranbrook for secondary school provision due to there being no capacity at Exmouth Community College. The existing sewerage system in Exmouth is at breaking point that sewage is regularly discharged into the sea resulting in the beach closing for swimming. Beyond the devastating impact on marine life this also damages Exmouth's reputation as a holiday destination and therefore its leisure economy. This was well documented and reported last summer and needs a solution to not create further problems with large scale development.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Joe Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.2. It will increase travel needs and necessitate cars to take longer routes. The main vehicular access point is at the very northern edge of the site, adjacent to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted within the top 400m, resulting in a very minimum of 0.5km drive just to get from the site entrance to the housing. This would result in at least 1km of 'on site' driving every time you went out anywhere and returned home. This also means from the B3179 site entrance you need to drive a very round about route to get into Exmouth centre, in total over 4 miles. Exmo_20 would undoubtedly significantly increase car miles.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan. Alternatively remove access to the B3179 and reduce the site size keeping it as close to Dinan way and Exmouth town centre as possible.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Because I want to understand how EXMO_20 could fulfil Paragraph 11.2.

Full name: Joe Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR01. TR01 states that Walking, wheeling, cycling or public transport should be the natural first choice. It would not be the first choice of transport from EXMO_20 for people to do their shopping/ work/ school run etc because the distance is too great. Studies cited in the Local Plan show that most people prefer to walk if their destination is within 0.5 miles, that beyond the distance of 1 mile cars are the dominant mode of travel and that beyond 2 miles trips on foot are few. Exmo_20 is significantly further than 0.5 miles or even 1 mile from essential infrastructure and services therefore walking or cycling as first choice of transport is unviable. This would not be solved through a public transport service as the only likely one is buses which people would not choose if they have a car. I would argue the distance EXMO_20 is from any services and infrastructure means people will only be able to live there if they have access to a car and are prepared to do the majority of their journeys in it.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Either withdraw EXMO_20 from the local plan or withdraw the access to the B3179 and reduce the site size where people can travel more directly into Exmouth.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To understand how the planning committee possibly think this site will achieve policy TR01 when it is so far from any key services.

Full name: Joe Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy SP01. Although Exmouth is a tier 1 town, is totally unsuitable for further significant growth. It is on a peninsula, wedged between the river Exe and the coast. The town centre is at the south end of the peninsula making 360 degree development impossible. Exmo_20 is 4 miles by car from Exmouth town centre and detached from it; it cannot be considered to be a development in Exmouth. Access from the B3179 will make it closer to Budleigh Salterton then to Exmouth. Any development here will be a long distance from the town such that it is an unsustainable location.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_20 from the local plan or significantly reduce the size of Exmo_20 so it is not accessed from the B3179

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure the correct information is outlined when it is considered and I have a concern that the people discussing the allocation don't know the specific details of the area.

Full name: Samuel Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo 20 conflicts with policy. It is not 'modest development', it is 'comprehensive development scheme'.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove allocation of Exmo 20.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Samuel Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The enormous increase in dog walkers that such a massive development would necessarily incur would add so much dog mess that the nutrient levels in the soil would be affected. This conflicts with NPPF 187e.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size massively and keep site access away from B3179 and Pebblebed Heath boundary.

Full name: Samuel Glanfield

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: It conflicts with NPPF 187e. Building 700 homes here will cause an unacceptable increase in levels of air and noise pollution to the Pebblebed Heaths, a SSSI, SAC AND SPA.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Do not allocate this site.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. ? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01. ? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9 ? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. ? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02. ? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B. ? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. ? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor’s, school, beach

etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: REMOVE Exmo_20 from the local

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access from the development Exo_20 would be onto the B3179, putting extra pressure on an already busy and winding road. Vehicles from 700 houses would add an extra 840 cars (average vehicle per household =1.2) to the local road network, including feeder lanes to Woodbury (Castle Lane) and Exmouth (Higher Marley Road) that would undoubtedly have a negative impact on local residents, wildlife and biodiversity. Residents of Exmo_20 would put enormous pressure on the infrastructure and service provision of Budleigh, as this is the nearest town centre (at 2.3 miles). This undermines the hierarchy settlement leading to the merging of Budleigh and Exmouth, contrary to Policy OL05 of the local plan.

An alternative site, such as a new town, would seem a much more sustainable option, enabling planners to provide employment opportunities with local services and infrastructure that are fit for purpose. It is plain to see that South West Water are TOTALLY incapable of managing current levels of sewage, blaming almost constant overflows and spills on rainfall levels. Looking at Met Office rainfall maps (https://www.metoffice.gov.uk/binaries/content/assets/metofficegovuk/pdf/research/library-and-archive/library/publications/factsheets/factsheet_7-climate-of-south-west-england_2023.pdf) it is clear to see that East Devon has some of the lowest rainfall in the South West Region - so it is impossible to believe that they would be able to manage any extra capacity set out in the local plan, including that created by Exmo_20

Exmo_20 would also create unprecedented damage to the Pebblebed Heaths, which is a designated NNR /SSSI / SAC / SPA, because this area is a habitat that supports bats such as Daubenton's and Pipistrelles, which are considered European protected species. Allocating Exmo_20 is contrary to the HELAA, the site selection Methodology

and Policy PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would also cause harm to the nationally important sites of Woodbury Castle and St Johns in the Wilderness Grade 11 listed church, contrary to POLICY HE02

Exmo_20 would have a detrimental effect on the open countryside and designated NNR / SSSI / SAC / SPA - destroying the tranquility, wildness and dark skies offered by these important green spaces - contrary to POLICY OL01. It would also have a detrimental impact on the biodiversity of important species such as the Nightjar and Dartford Warbler, currently found on Woodbury Common. East Devon is a significant stronghold for Dartford warblers, holding a substantial portion of the UK and Devon breeding population.

Exmo_20 would be in conflict with the Strategic Nature Area 368, fragmenting and isolating already fragile habitats and destroying wildlife corridors, contrary to paragraph 13.23 of the Local Plan. It would cause irreparable harm to the biodiversity of these protected habitats, veteran trees, hedgerows, and verges, along with the biodiversity of wildflowers and wildlife inhabiting our local hedgerows, woodlands and verges.

Exmo_20 would be built on heavy clay subsoil which could exacerbate the flood risk to properties and land along Withycombe Brook. This is contrary to Policy AR01B.

Exmo_20 would increase the need for car travel, contrary to Fig. 7 - the energy hierarchy, and increase traffic pollution and congestion, contrary to Paragraph 11.2

The isolated location of the suggested development is further away than 800m to existing services and facilities, contrary to Paragraph 11.6. If you have ever been on B3179 you would understand that it would be incredibly dangerous to walk or cycle along this route, especially with children or pets. This is contrary to Policy TR01

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the

relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan and replace it with an alternative site, such as a new town, which would seem a much more sustainable option, enabling planners to provide employment opportunities with local services, facilities and infrastructure that are fit for purpose.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Attending a hearing session is my democratic right, allowing me to participate in the decision-making process, present my views, and potentially influence the outcome of a planning application or local plan, ensuring my concerns are heard and considered.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo20 would cause harm to the adjoining pebble bed heaths SSSI, SAC, SPA & NNR where scarce nightjars nest as well as many other birds and wildlife. Any light pollution would negatively affect nightjars and their food sources. This is due to Exmo20 being a supporting foraging habitat. Allocating Exmo20 is contrary to the HELAA, the site selection methodology and policy PB01 of the local plan. Exmo20 would have a detrimental affect on the internationally designated wildlife sites, eliminating the tranquility, wildness and dark skies which is contrary to policy OL01. Exmo20 would be in conflict with the strategic nature area 368, fragmenting habitats and destroying wildlife corridors contrary to paragraph 13.23 of the local plan. It would cause harm or remove irreplaceable habitats, old trees and species rich hedgerows across the site contrary to paragraph 13.9.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Avoid developing the area near the pebble bed heath, any development further back should have sufficient wildlife corridors and green spaces

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Access point of Exmo_20 is nearer to Budleigh Salterton than Exmouth. Therefore Budleigh services and infrastructure would more likely be used by Exmo_20 residents. It would lead to conurbation of Budleigh and Exmouth, contrary to POLICY OL05 of Local Plan.

Exmo_20 would cause harm to Heritage assets at St Johns Road - it would destroy the rural setting for St John in the Wilderness Grade 11 listed church. Contrary to Policy HE02. It would cause harm to the Pebblebed Heaths. Its allocation is contrary to the HELAA and Site Selection Methodology and Policy PB01 of the Local Plan. It is so close to the Strategic Nature Area 368 light pollution, noise and traffic will have a detrimental to wildlife and the sites. This is contrary to Paragraphs 13.23 and 13.9 of the Local Plan. Its location would increase the need for car travel, and thus increase volume of traffic on B3179, only a small country lane with no lighting or footpath. Also there is a lot of wildlife crossing this road. Residents of Budleigh use this road to travel to Exeter. One vehicular entrance/exit onto B3179 from a housing estate of 700 will become completely congested at certain times of the day when built, not to mention construction traffic whilst it is being built. This is in conflict with Paragraph 11.2 The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to Paragraph 11.6. It is too far and too steep to walk or cycle to either Budleigh or Exmouth town centre/seafront. This is contrary to Policy Policy TR01. At present there is no public transport in that area. People move to Exmouth/ Budleigh because of the accessibility of the sea and beaches.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will

make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: My

comments herein refer to the Exmo_20 development site, having regard to various consultation documents, committee meetings and earlier consultations :- 1)
Concerning vehicular access, I understand that Devon County Council have commented that they believe St. Johns Road to be unsuitable and that it is unclear whether access via the housing estate to the south would be able to accommodate additional traffic. They conclude that vehicular access can only be via the B3179. In view of DCC comments in a 2016 report on the Dinan way extension it is understood that around a third of working commuters travel to Exeter and that 80 percent of these are by car. The B3179 road is narrow in many places, without any existing footways or lighting. In the absence of any traffic or highway engineering assessment reports included in the consultation documents it is my contention as one who has been involved professionally in highway schemes that widening of the B3179 should have been evaluated before Committee Members apparently decided to over-rule officers rejection of Exmo_20 as a viable option. Any proposed development site must be deliverable in terms of infrastructure, yet in the working party meetings last summer concern was expressed that there may be a risk to EDDC in the absence of active land owner promotion. Meanwhile existing bus services are few and far between connecting Exmouth, Budleigh Salterton and Exeter. In the documentation it is recorded that an indicative Master Plan has been prepared for Exmo_20, that a 400 metre exclusion zone will separate the development from the Pebble Bed Heaths and that most of the development will concentrated in the southern part of the site. I and others are not only prevented from a full appreciation of the impact of this large, long site by the absence of the alleged site layout and by the absence of traffic / highway data, but also by the lack of a detailed infrastructure Delivery Plan. I am thus concerned that Members have decided to include Exmo_20 without proper consideration of the risks of congestion on the B3179, any apparent discussions regarding public transport provision, whether the road can be widened without requiring compulsory purchase

orders, whether provision is feasible for cyclists, and pedestrians, and for animals to safely cross the road. There is also the matter of the northern part of the site adjoining the B3179 being substantially within the Minerals Safeguarding area. Without properly considering and evaluating the viable delivery of homes on this proposed site and the risks of non-delivery due to technical or financial risks the proposal is contrary to Policy TR03. 2) Failing discuss the impact of the proposed development on Squabmoor reservoir and Bystock Ponds and the associated ground water regime is contrary to Policy PB01. For any competent developer to be able to confirm interest they will need to fully appraise and cost the site development risks. EDDC have prove proposed Exmo_20 with undue haste, seemingly because it is a large area of land. 3) I would also add that this site if fully occupied with housing will lead to a great loss of the pleasant rural vistas at the edge of edge of Exmouth as well as substantially jeopardising the as yet the natural environment. 4) Exmo_20 should have been referenced as partly a Budleigh site owing to its risk of developing a future connurbation. Not doing so may have led Budleigh residents into not responding to the consultation. Budleigh may well be heavily impacted in terms of traffic. 5) the large number of proposed houses - 700, will impact o on community facilities. Apparently schools and healthcare facilities in the area are already reportedly stretched and and this amount of houses at the edge of Exmouth / Budleigh / Woodbury needs a proper infrastructure plan to cost appropriate provision.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

1. The main access point to the proposed site Exmo_20 is significantly closer to BUDLEIGH SALTERTON than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh, its High Street, doctor's, School and Beach etc, would be the preferred choice for residents of Expo_20. This would undermine the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan.

2. Exmo_20 would cause harm to the adjacent Pebbled Heaths (SSSI/SAC/SPA/NNR) due to the Exmo_20 location being a supporting foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

3. Exmo_20 would cause harm to the local heritage assets, most significantly St John in the Wilderness Grade II* listed church and churchyard, drastically altering the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02.

4. Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the "tranquility, wilderness and dark skies" of the countryside, which is contrary to POLICY OL01.

5. Exmo_20 4. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways , would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B.

6. Exmo_20 would be in contravention of PARAGRAPH 11.2 as the need for car travel would increase traffic congestion. The isolated location is unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far and too steep from any town centre to use walking or cycling as a mode of transport. This is contrary to POLICY TR01.

7. Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolation habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

8. Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is 'currently not sufficient certainty to rule out adverse effects in integrity in relation to.... air quality' (East Devon Pebblebed Heath SAC/SPA) such that the Plan fails the integrity test.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan - The current local infrastructure of Budleigh cannot support any

new residential homes. Of particular concern are the sewage works, education facilities and medical facilities.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Amanda Gulbranson

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmouth is a growing town, and with the sea and river Exe as boundaries in 2 directions- this will inevitably impact on other areas where growth is considered- however it is absolutely essential that this is done with careful consideration that is sympathetic to the existing inhabitants of Exmouth and the environment which plays an important part regarding the quality of life of the town's population.

With other large scale developments still in progress, the full impact of these have still not yet been experienced- but already there is insufficient infrastructure within the town to support the needs of residents. For example; timely access to healthcare (GP appointments, dentists....noted that a recent statement from a GP in Woodbury changed their catchment area for new patients which will impact on new homes currently being built too). Whilst primary school placements I believe as still sufficient, schools within the current catchment area may not be able to cope, and the town's only secondary school is already full- with local families already being offered places in e.g. Cranbrook despite putting Exmouth as their first choice. There are already local amenities, a struggling sewage system that cant cope with existing demand which is resulting in increased pollution, and despite SWW's plans to improve this- this work will be completed over years..... Neither is the growing population served with sufficient grocery stores/ supermarkets...and despite recent announcement of another supermarket being planned- this will help to address current need, and not increased need that further development will have. Roads in and out of Exmouth are already busy and becoming busier- and whilst additional roads are being built in Exmouth- the rate limiting factor still remains with only 2 main routes from Exmouth to Exeter (which are busy and also increasingly blocked if weather causes flooding). Further development, and the time and scale of this MUST consider and protect Exmouth for current and future generations.

With some development likely to be essential, I do not consider the site proposed for Exmo-20 to be a suitable development site at this time due to a myriad of different reasons which all, in my opinion and understanding, all contravene existing local policy. The location of Exmo_20 also means that the proposed development will have a significant impact on the nearby town of Budleigh, which will be closer/ easier to access than Exmouth- and therefore have a significant impact on their local resources (healthcare, shops/ resources) too.

Further reasons I am concerned and feel that this site (Exmo_20) is currently inappropriate: Conflicts with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors (contrary to PARAGRAPH 13.23 of the Local Plan). This would cause irreplaceable harm to existing habitats, trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. I have observed and heard over 20 different species of birds in the last few months alone. These include goldfinches, bull finches, green finches, gold crest, fire crest, song thrush, mistle thrush and tawny owls, as well as buzzards, sparrow hawks and occasionally a nightjar. Mammals include deer, badgers, dormice and bats (including long-eared brown bats + other species). In addition to this, the area supports a biodiversity in insects and plants. We all live in houses that were once fields.....but it is vital that further development is carefully planned and has to support balance. This is something my son and his generation are also concerned about. At the very least, IF a development (of any scale) is considered- tree preservation orders should be blanketly applied to the existing woodland areas- this would ensure consistency in line with TPOs that have been blanketly applied regarding other planning proposals (private) that have been processed in the area- and therefore should apply equally to development whatever the scale.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) which states that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebble bed Heaths SAC/SPA) such that the Plan fails the integrity test. One of the main site of access proposed for this development is opposite the SAC/SPA. As discussed above, the site of the development/ extension of the Exmouth plan for housing will adversely affect the natural environment and result in loss of diversity- within the area as well as surrounding areas. (See objective 8 paragraph 2.10). EXMO_20 is also in conflict with paragraph 13.23 as it lies within an identified strategic nature area (SNA368) and is part

of the local Nature Recovery Strategy; connecting habitats and wildlife corridors between the Pebble bed Heaths through to woodland which lies south of this.

The development site would have a significant impact/ cause potential harm to a local place of worship: St John in the Wilderness (Grade II* listed church- a heritage asset) by eroding the rural setting- which provides a tranquil, calm and peaceful setting for worship and reflection- including the surrounding churchyard. This is contrary to POLICY HE02. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B. Previous developments in St Johns Road (near St Johns in the Wilderness church) did indeed increase run off into the brook which had a detrimental impact on the bank and requiring some residents of Meadowview road to have to take action to strengthen the remaining bank to prevent further erosion. The run off of water that comes down st johns road after heavy rain is significant- and can cause temporary flooding in the low point of the road before going up to Dinan way. The size of the development proposed for this land- currently fields and woodland which help to delay soak away- would be significant.

Exmo_20 would increase the need for car travel, contrary to Figure 7, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The location on the outskirts of town provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. Whilst walking and cycling are potential options- this is unlikely to be a suitable option for most (and with the lack of a robust cycle path infrastructure to support this and planned development of road so that Dinan way will be busier with larger vehicles- also likely to be undesirable to cycle on and unsafe). The reality is that families often have at least one car, often 2 now, to support work and lifestyle choices.....and even if they don't drive to the shops themselves- there is increased use of on-line ordering and delivery- which will increase traffic to the development site (via unsuitable access routes which have been proposed e.g. via Meadow View and Southern Wood- which, when I have on occasion driven down these roads- which parking on both sides- essentially makes the road a single wide road for passing- so increased volume of traffic caused by new development will be detrimental and is also contrary to POLICY TR01. Also- even if people walk- foot paths (ie that cross the Dinan way near the bus stop and further up) are potentially dangerous with current level of traffic (and I am really concerned re. school children that use this walkway too – which is a proper walk way through from St Johns road down to Dinan way – crossing over to Meadow View Road- which would be a route if new development supported) . With new road link from

Exeter road to Dinan way- the increased volume of traffic (and larger vehicles) will add to this risk- and despite the speed limit being 30mph, this is not always adhered). The access to the development is limited and doesn't support a development of the size and scale proposed. There are only 2 access roads identified for this proposed site; via Southern Wood and also the B3179 near the archery club. Both access points will mean a significant increase in the traffic on residential road and the 'common' road (B3179 through Woodbury). Also- as seen recently when the Exmouth to Budleigh road was closed due to an accident (I believe) traffic was redirected (sat nav?) via St Johns road- this resulted in a lengthy queue waiting to exit the road on to Dinan way- essentially blocking the road and taking a long time to clear- therefore this is an example of what a small change could cause..... My understanding is that the site has no other points of access and is 'land locked due to other land ownership. It would seem sensible to therefore consider alternative sites (especially because of the scale proposed) at this time- and perhaps revisit this site in the future when access rights and options have changed and hopefully improved when considering the development and impact of a larger scale development.

Personally (and I know that many feel the same way) I feel strongly that an alternative site to Exmo_20 should be selected for housing as part of the revised local plan- one that is available, achievable & suitable within the HELAA. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation. Exmo_20 would also cause harm to the adjacent Pebble bed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being an adjacent and supporting foraging habitat.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Given the points raised above , I feel strongly that at the current time, EXMO_20 should be removed from the current plan, and that access for the scale of the proposed development is NOT

appropriate from the limited access points (B3179 and Southern Wood) proposed. In the future, where landownership may change and access to proposed site may change it may be appropriate to reconsider- BUT - equally , because of the other points raised which contravene local policy, the scale of the proposed site needss to be smaller.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christine Hadley

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The EXMO 20 development is adjacent to the National Landscape and the Pebblebed Heaths (SAC/SPA) and will or is more than likely to have a detrimental effect on these valuable national assets. The proposed development is contrary to policy PB01. It would increase light pollution dramatically and the additional noise will affect the peace and tranquility of area. This will have a detrimental affect on wildlife, trees and hedgerows. There would be an increased to the risk of flooding to the lower lying land in conflict with Policy ARO1B The increased car use will result in congestion getting to the town centre, on the nearby minor roads and the B3176. The infrastructure for sewage disposal is already overwhelmed and is not coping. This problem needs to be redressed before any plan for 700 new homes can be considered in any part of Exmouth.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The EXMO 20 development is adjacent to the National Landscape and the Peblebed Heaths (SAC/SPA) and will or is likely to have a detrimental effect on these valuable national assets. The proposed development is contrary to policy PB01. It would create a dramatic increase in light pollution and noise affecting the peace and tranquility of the nearby wildlife and be detrimental to trees and hedgerows. There would be an increased flood risk on the lower lying land in conflict with Policy ARO1B There would be increased car use and resulting congestion getting to the town centre. The infrastructure for sewage disposal is already overwhelmed and not coping. This needs to be redressed before a plan for 700 new homes can be considered in any part of Exmouth.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: paul haestier

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: the access point is closer to budleigh than exmouth. this will cause extra strain on the budleigh services, which are struggling to cope now. additionally, the extra strain on the overloaded sewage system, that cannot cope with then infrastructure as it is. Yet more polluted beaches. the additional traffic this will bring to the B3179, will cause more pollution, and cause chaos on that road. not to mention the environmental devastation to the pebblebed heath.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: THIS IS A RIDICULOUS PLAN THAT SHOULD NEVER HAVE BEEN CONSIDERED

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Sarah Hales

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 in Exmouth (and other developments) will be in conflict with Paragraph 11.2 as it will definitely increase the need for car travel and cause increased traffic congestion both around Exmouth and Budleigh and through the villages along the insufficient road network to and from Exeter. Most of the people in these 700+ new homes will work outside Exmouth, as it will not provide sufficient job opportunities, and Exeter will be their main destination. Exmouth train station will be nearly 4 miles away from Exmo_20 so not at all accessible and the cycle track similar distance away after cycling up and down a steep hillside. Thus is contrary to POLICY TR01.

A recent email to our MP David Reed regarding the poor road network between Exmouth and Exeter and beyond got this reply Thank you for your email about the likelihood on increased traffic movements through Woodbury and surrounding villages.

I asked Cllr Richard Scott (Devon County Council with portfolio responsibility for Highways) for his views and he responded as follows:

There are no plans for any major infrastructure improvements after the Dinan Link. The current local plan does not provide for any nor does the proposed new local plan for housing. EDDC took the decision to separate its new proposed local plan, first dealing with housing and infrastructure after, our view is this is a huge error.

It will be a 'huge error' to continue to develop Exmouth without considering the road access. Exmouth is on a peninsular with very limited roads, where as many other East

Devon towns have dual carriageways nearby and a much more developed transport system.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Councils cannot consider increasing housing without assessing the wider infrastructure especially around road access and congestion concerns to and from each development.

Remove Exmo_20 from the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: LesleyAnne Hall

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available , achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths. (SSS1/SAC/SPA/NNR) due to to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the site Selection Methodology & POLICY PB01 of the local plan & not in accordance with the Mitigation Hierarchy to select avoidance over mitigation. The proposed development is in conflict with POLICY OL09 & POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to “air quality “ (ED Pebblebed Heaths SAC/SPA) such that the plan fails the integrity test. The main site access proposed is opposite the SAC/SPA. Development of Exmo_20 on heavy clay subsoil with ineffective soak ways would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel, contrary to figure7 - the energy hierarchy & increase traffic congestion , in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services & facilities , contrary to PARAGRAPH 11.6 . It is too far & too steep from any town centre to use walking or cycling as their choice of transport . This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Access via Southern Wood on to Meadow View Road would be absolutely inappropriate. Meadow Biew Toad

is already fairly congested with cars parked on the road & an increase in traffic from the proposed development would cause mayhem along this road , specifically at commuting times & especially when trying to access Dinan Way. It would be an “accident waiting to happen”

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Susan Hall

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Exmo_20 proposed development will cause harm to the Pebblebed Heaths (SAC/SPA). It will be contrary to Policy PB01 of the local plan and not in accordance with the mitigation strategy.

Developing Exmo_20 would isolate habitats and destroy wildlife corridors, contrary to Paragraph 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to Paragraph 13.9 of the Local Plan.

The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to....air quality (East Devon Pebblebed Heaths SCA/SPA). Exmo_20 is in conflict with Policy OL09 and Policy PB04.

Exmo_20 would destroy the tranquillity, wildness and dark skies of the countryside, which is contrary to Policy OL01.

Exmo_20 would adversely affect St John in the Wilderness Grade 11* listed church and churchyard, drastically altering its current peaceful setting. This is contrary to Policy HE02.

Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would increase the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with Policy AR01B.

Exmo_20 would vastly increase the need for car travel and would therefore increase traffic congestion, in conflict with Paragraph 11.2. It is therefore unsustainable development. Its isolation would necessitate people travelling much further than 800m to access existing key services and facilities, contrary to Paragraph 11.6. It is too far from any town centre for people to use walking or cycling as their choice of transport, especially in view of the steep gradients and lack of pedestrian footpaths which would make this difficult and hazardous. This is contrary to Policy TR01.

The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (shops, doctors, school, beach etc) would be the obvious choice for residents of Exmo_20. This would result in coalescence of Budleigh and Exmouth, contrary to Policy OL05 of the Local Plan.

The views from the SW Coastpath and the approach to Exmouth and Budleigh via the B3179 would be seriously impacted, both for residents and a large number of visitors, and would further erode claims that this area is an AONB.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan. There is no way this can be described as a 'development' of either Exmouth or Budleigh Salterton, as it is too far removed from both.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Kerin Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ExMO_ 20 would have a dire effect on nearby wildlife sites and destroy the wildness, dark skies and tranquility of the countryside contrary to POLICY OL01. The proposed development is in conflict with the Strategic Nature area 368. It will fragment and isolate wildlife corridors contrary to Paragraph 13.23 of the local plan. This development will cause harm to irreplaceable habitats, veteran trees with TPO's and species rich hedgerows. This proposed development would be built on a very heavy subsoil and the rainwater run off would meet the Withycombe Brook through Exmouth which would cause excessive flooding. Removal of the trees at the bottom would prevent water being absorbed. This is in conflict with POLICY AR01B.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To have a voice of reason.

Full name: Kerin Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed site is extraordinarily beautiful. It is countryside that should not be lost forever and turned into urban sprawl. This will increase the need for more traffic on the B3179, which is quite a busy route. Getting out from Dalditch Lane is dangerous, but add thousands more cars and it would be impossible. The fumes from extra cars (which the government wishes to reduce) will be considerably worse and will have an unhealthy affect on residents, wildlife and the Pebblebed Heaths. This can never be mitigated! This is in conflict with Paragraph 11.6. It is too far and too steep from any town centre to use walking or cycling as a choice of transport. Nor is it safe to do either on the B3179. this is contrary to POLICY TR01.

Full name: Kerin Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: An alternative site to Exmo_20 should be found, one which was deemed available , achievable and suitable in the HELAA. EXMO_20 will cause damage to the nearby Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to EXMO 20 currently being a supporting foraging habitat. Developing EXMO 20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. The plan would cause damage to a Grade 11 heritage asset being St John in the WILDERNESS. There is a beautiful, peaceful setting for this church and burial ground which would be drastically altered with hundreds of houses around it. This is contrary to POLICY HE02.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Because EDDC has not listened to all the points raised

Full name: Kerin Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: the main entrance and exit is closer to Budleigh than Exmouth and this will bring more people into Budleigh which already has its own building projects proposed. The town will lose its character and the small infrastructure which exists will be over run. It is already extremely difficult to get a doctor's appointment and this problem will be exacerbated by the addition of another 4000 people. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth contrary to POLICY OL05 of the Local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: remove EXMO _ 20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Because EDDC has not listened to the many objections, nor have they consulted from the outset, therefore, speaking to the Inspector is crucial.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The major development site proposed has been identified by EDDC Committees on which Budleigh Salterton has no representation. This has resulted in a lack of awareness in Budleigh of the potential impacts on the town which EDDC should have made the Parish Council aware as part of its duty according to Local Plan procedures. Moreover, the main site EXMO_20, which was originally rejected under HELAA, appears to have been resurrected following lobbying by Councillors who might be open to a potential breach of the Nolan Principles, as might the Officers. The proposal that the main access to the site should be directly onto the B3180 would inevitably funnel more traffic into Budleigh, Just under 2 miles away, rather than Exmouth, approx 4miles away. Budleigh simply does not have sufficient capacity in its local services (e.g. No secondary school and a limited primary school). The B3180 is in essence a minor country road, devoid of footpath, with very dangerous bends at Inner Ting Tong and bordering the highly sensitive Pebble Bed Heath. Cycle at your peril, if you can manage the gradients. The proposal would result in a community the size of Woodbury which is the antithesis of what the Foreward describes :- "...From the rugged beauty of our Jurassic Coast to the peace and tranquility of our National Landscapes, we are surrounded by a glorious, thriving natural environment; between the quiet vitality of our towns and the gentle warmth of our historic villages, we share a proud and welcoming community..." This proposal is little short of environmental vandalism. The proposed new town East of Exeter should provide the bulk of development, supplemented by more modest and limited expansion of sites that simply feed masses of additional traffic onto already inadequate roads such as the B3180 and the South exit from EXMO_20.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Abandon EXMO_20 and land to the South the Fire Station and MacDonalds

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: John Richard Vincent Harding and Pamela Ann Harding

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: This site was excluded from Devon County Council's original listing of available and suitable sites in Exmouth so its inclusion and the lack of notification to the neighbouring Budleigh Salterton Town Council constitute breaches of EDDC's statutory obligations. Additionally, the proposal breaches a raft of existing policies such as HE02, OL01, OL09, PB04 etc.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: EXMO 20 falls foul of Policy OLO5 as it is located much nearer to the middle of Budleigh Salterton than it is to the middle of Exmouth so that the principal road from it will direct traffic into the narrow confines of Budleigh's High Street. This will increase the coalescence between the two towns which is already apparent along the Exmouth Road and its Southern margins. Budleigh's essential services will not be capable of coping with the increased population's reliance on everyday services such as schooling, medical care and the leisure outlet of Budleigh's beach. Exmouth 20's main infrastructure will, on the other hand, be linked into that of Exmouth's, partly through topography. This will overload some systems such as sewage and power which will themselves require significant upgrades.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Exmouth 20 should be excluded from the Local Plan.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 should be located at an alternative site where it would cause less, or no harm to the Pebblebed Heaths (SAC?SPA). Development of Exmo_20 is contrary to Policy PB01 of the local plan and not in accordance with the mitigation strategy.

Exmo_20 would destroy wild-life of the countryside and have a negative effect on the dark skies, which are so important for certain creatures, this being contrary to Policy OL01.

Developing Exmo_20 would isolate habitats and destroy wildlife corridors, contrary to Paragraph 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, established and veteran trees and species rich hedgerows across the site, contrary to Paragraph 13.9.

The Habitats Regulations assessment (30.01.2023) confirms that "there is currently not sufficient certainty to rule out adverse effects in integrity in relation to air quality (East Devon Pebblebed Heaths SAC?SPA). Exmo_20 is in conflict with Policy OL09 and Policy PB04.

Exmo_20 would certainly have adverse effects on St John's in the Wilderness Grade II listed church and churchyard, drastically altering the current peaceful setting for worship. This is contrary to Policy HE02.

Exmo-20 would undoubtedly exacerbate the risk of flooding to through lower lying land at the bottom of the site and through Withycombe. It is upstream of Exmouth on the main rainwater catchment area of Withycombe. It would be on a subsoil of clay making soakaways ineffective. In conflict with Policy AR01B.

Exmo_20 would significantly increase traffic congestion in conflict with Paragraph 11.2. People would need to travel to existing services and facilities, contrary to Paragraph 11.6. It is too far for most people to walk, leaving travel by car as the only choice of transport. This is contrary to Policy TR01.

Budleigh Salterton is the nearest accessible town but the services and infrastructure would struggle. Exmouth and Budleigh Salterton would then coalesce, contrary to Policy OL05 of the Local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Karen Harter

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

I am living with the appalling development know as Goodmores, it's a disgrace that all these developments are going ahead when the infrastructure isn't in place. Roads are appalling, the access to Exmouth will not be resolved with 2 new roundabouts, the pollution and damage to our green spaces and no investment in the actual town centre which is starting to represent a depressing, grey empty area.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise.

If this development has to go ahead then we will also need to have a plan in place that gives Exmouth residents preferable treatment to buy the houses, especially the affordable ones so that our youngsters have first choice.

The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

The main Budleigh road is already very busy and of course, if this new estate goes ahead a lot of extra traffic will be added.

Exmouth already has a Sewage problem and the question is , will extra housing and residents make the problem worse? If so, tourists will be put off coming to our seaside town in future.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Please keep our beautiful countryside on the outskirts of the town and make full use of vacant buildings in the town area, such as the police station and magistrates court.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Budleigh is a small town with limited access to infrastructure including doctors, parking, schools and beach access. If EXMO_20 is introduced its nearness to Budleigh would encourage much higher use of Budleigh as it is nearer than Exmouth. This undermines the settlement hierarchy and would be contrary to POLICY OLO5 of the local plan. Exmo_20 is in conflict with POLICY OLO9 and if instigated would have a detrimental effect on our present community in Budleigh where many elderly and frail people live at present. The substantial increase in traffic would be detrimental to the town which is already jammed in the summer months and parking would become a nightmare. There are many reasons for refusing this development to go ahead, both legal and social. The council has a responsibility to protect the residents of its area and this development would be detrimental and life changing for both the beautiful area of Budleigh and its many residents.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan and find an alternative site.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Margaret Hiley-Payne

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

Full name: Gazelle Hill

Other party name (if relevant): Mark Glanville

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: ?

The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA).

Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. ? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01. ? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9 ? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. ? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02. ? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B. ? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. ? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible

town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: ? Remove Exmo_20 from the Local Plan, ? Reduce the size of Exmo_20, ? Do not access the site via the B3179, ? Do not access the site via Southern Wood, ? Revert to Exmo _20b as previously proposed,

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths (SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and is not on accordance with the mitigation strategy. Exmo_20 would destroy the "tranquility, wildness and dark skies" of the countryside, with is contrary to POLICY OL01. Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to .. air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02. Exmo-20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11 2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice if transport. This is contrary to POLICY TR01. The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The servant infrastructure if Budleigh (High Street, Doctors, school, beach etc) would be the obvious choice for residents if Exmo_2. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local plan - or reduce the size if Exmo_20

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Annette Hooper

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development of Exmo-20 is contrary to policy PB01 of the local plan. Harm to the Pebblebed Heaths is likely because of the scale of the proposed development, and not in accordance with the mitigation strategy. It is contrary to policy OL01 as Exmo-20 would destroy the "tranquility, wildness and dark skies" of the protected countryside area.

Contrary to paragraphs 13.23 and 13.9 EXmo-20 would destroy wildlife corridors, irreplaceable veteran trees and hedgerows across the site.

EXmo-20 will increase car travel, traffic congestion-conflicting with Paragraph 11.2. Terrain and distance will deter walking and cycling in preference for the car contrary to policy TR01.

Road access to Budleigh Salterton from EXMO-20 will be easier than to Exmouth. Coalescence of Exmouth and Budleigh Salterton is contrary to Policy OL05 of the local plan

Conflict with POLICY AR01B is of great concern increasing flood risks through the lower land at the bottom of the site and down through Withycombe.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size of EXMO-20 No access to B3179 or Southern Wood

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: In policy OL01 it is stated that development 'will only be permitted where it would not harm the aesthetic and perceptual factors such as tranquility, wilderness and dark skies' - why then is a 700 home development right on top of a hill and not in either Exmouth or Budleigh - ie in a totally separate, isolated site -adjacent on one side to one of the most treasured and important conservation heathland sites not only in England but in Europe - and on the other side to an ancient 'St Johns in the WILDRENESS' church and surrounds - - even considered?. Surely at the most basic level anyone can see the potential aesthetic, light , sound and traffic pollution that this would cause. It makes one wonder whether the proposers of the site actually have visited it or know where it is let alone considered it in relation to actual policies in the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmou_20 is in total contravention of paragraph 2.10 - to protect and enhance our outstanding natural environment and support and increase in biodiversity. On this policy paragraph alone it is unbelievable that this site has been considered for such vast development. Right on the edge of Woodbury Common's pebbled heaths which are internationally designated Sac site - home to many rare species - specifically the Dartford warbler and nightjar and an important SSSI. The light, sound and air pollution from such a development would completely destroy the Heaths and all they stand for. Many local extensions and small building projects have been rejected by planners due to their proximity to the heaths and the detrimental effect they would have (& the presence of cats) and yet this site is closer to the Heaths than any of those sites that have been refused due to proximity to the Heaths. This site is vast and the pollution it would produce is immense. I believe that Exmou20 could be located on alternative sites which would not cause harm to the pebbled heaths and so is in contravention of policy PB01. The Habitat Rgs assessment (policy OLO09 states that permission will not be granted for development which would result in pollution that cannot adequately be mitigated - the sound, light and traffic air pollution of 700 houses with thousands of cars being churned out meters away from the pebbled heaths cannot be mitigated so close to such a sensitive site which relies on quiet, dark and clean air. The habitats regulations assessment PB04 state there is currently not sufficient certainty to run out adverse effects in integrity in relation to & air quality. This site will affect the integrity of a site protected under the Conservation of Habitats and Species regulations 2017 which includes SAC sites. It will also result in the loss of biodiversity and certainly won't encourage biodiversity - para 2.10 in the policy. The area also lies within a Strategic nature Area (SNA 368). Rather than 'enhancing biodiversity and increasing habitat areas

and connecting isolated habitats' as stated in the policy - this development will only serve to further fragment a currently very fragile habitat and reduce existing habitat (and productive agricultural land).

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Take out Exmou 20 from local plan

Full name: Chrissy Howick

Proposal:

5. Development in the Towns and Villages

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: take out Exmouth 20

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Conflict with policy HE02 - the site includes a Grade II listed Church - St Johns in the wilderness - surrounding this site with mass development will not be sympathetic to this listed building and its surroundings. Conflict with policy OL05 - this proposal potentially leads to settlement coalescence - site is nearer Budleigh than Exmouth - residents of this site would use Budleigh facilities such as doctor surgeries which would not cope with the amount of people In conflict with paragraph 3.3 - Boundary extended to include land housing will be built on but also 400 m buffer zone by including it in settlement boundary - councillors have suggested that this area can be used for commercial sue - - this would cause severe detriment to the pebblebed heaths and surrounds

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will

be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Take out Exmou 20 - it is not viable

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: Residents not consulted

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: previously stated in other submissions

Full name: Chrissy Howick

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmou 20 is totally in conflict with policy AR01 (B). Area sits on top of a hill on clay soil - draining towards Withycombe Brook area which is already highly populated and in great danger of flood risk. It would be madness to build on a site which would drain so quickly and dangerously into this area and potentially cause mass flooding.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: take out Exmou 20

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: no local or residents opinion sought at any of the stages - policy SD01 PCPA 2004 - section 33A

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: to ensure correct regulations are followed

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: not in line with the PCPA 2004 - initial stages deemed it not suitable or achievable and HELAA stage 2. Site was totally omitted from reg 18 consultations due to not being a preferred or 2nd choice site. Site very quickly went to allocated without public opinion or representation being allowed (from anywhere in the local vicinity) - Term Exmou is very misleading as site is nearer Budleigh and should be allowed to be considered for where it is situated,.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Take Exmou20 out of Local plan

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: For reasons stated in 2 B - No public consultation. Maps online appeared to allocate it in red as not a site for consideration - after decisions had been made the map did not change so public were unaware that it was a site for consideration. Once public realised it was being considered many of the avenues for objection were already closed. This process was not in accordance with NPPF chapter 3. It was not preferred or 2nd choice and was not considered in regulation 18 consultations. The speed at which the site was 'allocated' and the lack of time consideration or consultation with relevant bodies such as natural England, the county council on road infrastructure etc was appalling. Local residents, the local community in general were not consulted. Local councillors did not

seem aware of the site. As such local consideration and representation has not been able to be presented at the correct stage of the process

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmou20 is in conflict with policies SP01, TR01, TR03 and paragraph 11.2, 11.6, 3.34 & 2.6 of the Local plan. Exmou20 is in conflict with policy SD01 - the area considered for development is completely detached from all the town centre services of Exmouth and therefore cannot be considered as a development in Exmouth. Existing development is already developed a long distance from the town centre and any new development will be a long distance from the town and is therefore unsustainable. If people are housed in this area they will be drawn to other villages or more travel by car to get to the facilities they need. Allocation of Exmou20 is in conflict with paragraph 11.6 - most of the site is not within 10 minutes walk of any key services or facilities. To provide those services for this area alone wouldn't be economically viable and will of necessity force people to drive over 2-3 miles over unsuitable roads to access the services they need. Allocation of exmou20 is in conflict with policy TR01. It is fatuous to suggest that people going shopping or to work or the school run will walk or cycle. Unless a complete re-education of the human race is planned they will not walk more than half a mile without resorting to the use of cars. The provision of walking routes,

cycle paths and public transport will be totally uneconomic and unviable and it should be noted that none of the roads including the B3179 has a single foot path on any side of the road on any part of its length and there are no cycleways. Similarly the road from Budleigh Salterton to Littleham has not a single footpath or cycleway on any side of the road from the outskirts of Budleigh Salterton to Littleham. None of the rural roads - St Johns road, Dalditch Lane, Inner Ting Tong and castle lane have any footways at all and are highly dangerous already without any increased traffic flow. Exmouth and Budleigh Salterton schools are already oversubscribed and overcrowded for many of the academic years. without massive investment to provide more schools and recreational facilities it would be irresponsible to condemn future populations of the area to such poor facilities. Will this type of development support the investment needed to provide the educational, recreational , widening and providing footpaths on all essential roads, provision of doctors surgeries, adequate pharmacies, provision of adequate sewerage treatment facilities and sewerage system upgrades to take the flows which are already in excess of their capacity. Development without this investment would be irresponsible in the extreme

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Emou20 is in conflict with PB01 and appears to have been given little or no time in consideration. It is not in accordance with the mitigation strategy and other sites should be reconsidered which will cause less or no harm to the pebbled heaths SAC/SPA. Allocation of Exmou20 is in conflict with policy no SAC/SPA - development involving increased use of the B3179 will create greater air pollution without any mitigation.

Allocation of EXmou20 is in conflict with paragraph 210 objective 8 - it will adversely affect the natural environment and impair biodiversity. It is also in conflict with para 13.23 as it lies within the strategic nature area (SNA368) as part of the local recovery strategy to combine wildlife sites. Allocation of Exmou20 is in conflict with para 13.9 as it would be difficult to restore irreplaceable habitat affected . Irreplaceable mature trees will disappear (and developers have already embarked on felling trees in this area which should be noted by planners) Ancient hedgerows will also be affected and are irreplaceable. The site lies within a Strategic Nature area (SNA368).

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Ref Exmou 20 - These proposals have not been made in accordance with PCPA 2004. Exmou20 was never preferred or considered as a second choice under the HELLA stage two considerations. None of us knew that the site had changed status as it had been dismissed previously. However on 3rd September 2024 the site suddenly became 'allocated' and no further opportunity was given to members of the public or the strategic planning committee to raise any comment or objection. This was despite the assessment not being complete.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: In view of the fact that it has not been correctly assessed or presented to the public Exmou20 should be removed from the local plan.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmou20 is in conflict with policy AR01(B)- stating that development should be safe for its lifetime without increasing or exacerbating flood risk elsewhere. The allocation of Exmou20 is in conflict with policy AR01(B)- stating that development should be safe for its lifetime without increasing or exacerbating flood risk elsewhere.

The development of 85 hectares of land draining directly to the existing Withycombe Brook will create the potential for very severe flooding of the Withycombe area and the lower areas of Exmouth including the Colonies and Exeter Road. With a steep catchment such as Exmou20 it will be virtually impossible to design retention systems economically on impervious red marl substrata. There were severe floods in 1960 where over 700 houses were damaged with two thirds of Exmouth under water. This was caused by rainfall within the same catchment and the vast area of development which had taken place in Exmouth prior to that date. Consulting engineers to the Council in 1939 recommended that the Withycombe Brook needed serious improvement to avoid serious flooding to the lower parts of Exmouth. However very little was carried out and in 1960 catastrophic flooding occurred. The Consulting Engineers at that time and the Hydraulics Research Station carried out a study and produced a paper showing that the storm that caused the flooding was not of a particularly high return period - only that estimated for once in approximately 2.5 years. Planning advisors should now be well aware that rainfall intensities experienced now over 60 years later are far greater and design recommendations are to allow for rainfall intensities of a once in 100 year storm with upgrades on this for global warming and urban spread. The 1960 population of Exmouth was around 18,500 and development since that time has increased that population to more than double with most of the development draining from the newly developed areas into the Withycombe Brook catchment. Until recently these developments were built without the benefit of mitigation systems (SUDS) and only recently have these started to be employed. Development within this catchment therefore starts with vast areas of development already draining to the Withycombe Brook without any mitigation or restraint in times of heavy rainfall. The improvement works to the Withycombe Brook which were carried out in 1961 - 62 dealt with the situation as it was at that time but it did not allow for a doubling of development draining to it , as has happened and if this development is allowed is most likely to completely inundate the system. In consequence it would be an act of total irresponsibility to add further areas of development to this vulnerable catchment area.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Take out Exmou 20 completely from the local plan - it is not viable and it is totally irresponsible to subject the populations of Exmouth living in low lying areas to the potential of serious flooding. Such a scheme will potentially render them homeless and with property impossible to insure

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: We have not been given the opportunity to examine this plan prior to its sudden and mysterious acceptance. My family home and property lies within 400m of the proposed site. I have never been contacted or consulted by proposers of the scheme, any Councillor or the local Authority about it. I find this totally unacceptable.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: It is important to make authorities understand the potential disastrous consequences of adopting the Exmou20 scheme

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with Paragraph 11.6. Paragraph 11.6 states 'Studies suggest that most people prefer to walk if their destination is within 1.6 km (1 mile), typically 800m (0.5 miles). Factors such as topography, surveillance, directness, and attractiveness also influence walking choices. While it is unrealistic to require all new developments in rural East Devon to be within 800m of key services and facilities, this is feasible in larger settlements and developments.'

This is ambiguous, not justified and not consistent with National Policy.

The paragraph should omit 'prefer', as 1.6km, is stated as a limiting value and for total 'there & back distance' in referenced documents.

The policy should reflect the wording of the referenced documents and give consideration to the Sustran - Walkable Neighbourhoods publication (attached).

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reword Paragraph

11.6 to ensure housing allocations are assessed using the 800m distance to services and facilities.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure that the 800m (1.6km 'there & back') figure is used to determine site allocations.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with Paragraph 11.6 which states ‘Studies suggest that most people prefer to walk if their destination is within 1.6 km (1 mile), typically 800m (0.5 miles). Factors such as topography, surveillance, directness, and attractiveness also influence walking choices. While it is unrealistic to require all new developments in rural East Devon to be within 800m of key services and facilities, this is feasible in larger settlements and developments.’ The referenced documents do not state people ‘prefer’ to walk if their destination is within 1.6 km, the documents refer predominantly to 800m being deemed walkable and that the trip (there and back) distance is 1.6km. The referenced CIHT planning for walking states ‘Walking neighbourhoods are typically characterised as having a range of facilities within 10 minutes’ walking distance (around 800 metres).’ This is further supported by the ‘Sustran, Walkable Neighbourhoods’ publication (attached). Much of the Exmo_20 site is beyond 800m from existing services and facilities. Attached is a map demonstrating this by showing 800m radiuses from existing primary schools, taking no account for actual non ‘as the crow flies’ distances and the significant local topography. Therefore, unless significant services and facilities are part of the Exmo_20 masterplan and delivered, much of Exmo_20 is in an unsustainable location therefore unjustified and not consistent with National Policy, so not sound. This is even more significant for Exmo_20, as if the future residents rely on car use for accessing services and facilities, the main access point is via the country road, requiring driving over 2 miles to get back the outskirts of Exmouth, further compounding its unsustainability. It is appropriate that this site was deemed ‘not suitable and not achievable’ in HELAA.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any

matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Other sites, which did pass HELAA and were shown as preferred within the Agenda for the 3rd September 2024 Strategic Planning Committee meeting, should be selected for allocation as an alternative to Exmo_20.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure that the 800m (1.6km 'there & back') figure is used to determine site allocations for larger settlements and developments.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The site maps for Exmo_20 are conflicting with NPPF chapter 3 'Plan Making' where it states that plans should be 'up to date'. The EDDC have been contacted on numerous times to update the map for Exmo_20 and to stop promoting the site with land that is not available (i.e. existing homes, listed buildings and the grade II * church and its lands). This was confirmed and the settlement boundaries identified at the end of 2024. However, page 326 of the 'Sustainability Appraisal Report' shows the 'Tier One - Principal Centre Settlement Exmouth' map with the 2022 map outline for Exmo_20, as is the map on page 96 of the 'Site Allocations (SAL) for Exmouth' (SAL-022). The 2022 maps should not be used in the up to date documentation, it only causes confusion.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Ensure that all February 2025 documentation and maps are up to date and reflect the outline for Exmo_20 as per the 'East Devon Local Plan 2020-2042 (Reg 19 Consultation) inset to Policies map' highlighted in blue on this map, as is the map on page 97 of the 'Site Allocations (SAL) for Exmouth'. Remove the map on page 96 of the 'Site Allocations (SAL) for Exmouth'. Use the correct map on page 326 of the 'Sustainability Appraisal Report'. Please note these are the only ones I have found, there may be other discrepancies.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. Site reference Exmo_20 as a 'complete' site has NEVER been consulted on as a whole site, and sites Exmo_20a and Exmo_20b should NEVER have been created (see main evidence attached). In addition to the attached evidence the following is to be noted.

The document 'TR1-023 East Devon Local Plan Initial Site Assessments - Transport', (which is available within the evidence library, but I have attached for ease) details information for sites Exmo_20a and Exmo_20b, NOT Exmo_20. The site Exmo_20 as a 'whole' is a totally different consideration, and this again proves that it has NOT been consulted on as a 'whole site'. There is also one thing to note, the vehicular access restrictions (modest development, and majority development phrases) highlighted in the draft Local Plan for Exmo_20, means that the site will 'at best', be SPLIT due to Southern Wood access issues, or 'worst', ALL access for the site will be via the B3179.

Regardless of the above, the details given for the Exmo_20a and Exmo_20b sites are also incorrect and need to be corrected as follows.

Exmo_20a 'Local centre proximity', the main access is via the B3179, so the town centre is over 6km away via this route and from the middle of the site there are no facilities within 800m (so should be RED). The 'bus provision', why would a bus provider come into the site and back out via the same access route just for this site? Highly unlikely (so should be RED). The 'rail provision', via the B3179 the train station is over 6km away (so should be RED). The 'active travel (notes existing)', it states that the 'Main road has

pavements currently but lack of crossing points and is very busy.', this is a copy of what they have for Exmo_20b, however, the 'main road' for Exmo_20a is the B3179 which has NO pavements, and NO crossing points, and is VERY busy (so should be RED). The 'active travel (notes potential)', states that 'Active Travel links included within this proposal. Externall this site will benefit from the Dinan Way improvements', the main access point for this site is the B3179, this site will NOT benefit from the Dinan Way Improvement (so should be RED). based on the above Exmo_20a should be RED overall. It is alarming that this evidence has been allowed to be submitted. A member of the public should not be identifying these basic errors.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To understand why Exmo_20 is still seen as viable and or sustainable, taking into account all of the issues with this site. Not to mention the fact that it should never have been considered even at Reg 18 stage.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. There has been quite a large amount of sites put forward in the Reg 18 consultation phase that should not have been included due to the fact that they failed Stage 2 'site sifting'. These sites are all classed as 'rejected' and even state within their 'very brief' descriptions that they have indeed failed 'site sifting'. I have been informed by the EDDC Planning Policy Team that any site that passed Stage 2 site sifting would go through to the Reg 18 consultation phase. However, these sites DID NOT pass Stage 2 site sifting, so should NOT have gone through to the Reg 18 consultation phase. This raises concerns around the utilisation/adherence by EDDC to their own processes and procedures. Specifically in relation to the 'Site Selection Methodology' (dated May 2022) and the HELAA Report (dated November 2022). Please see the attached evidence to support the above. In addition to the above, It is also worrying that EDDC have agreed to the inclusion of 'rejected' sites within the Reg 18 submissions, seemingly with the view that if the site receives a comment, then they can class it as consulted on, and can therefore bring it forward for allocation at a later stage (as they have done with site Exmo_20a). If EDDC thought that documents or reports were 'not fit for purpose' then they should have amended them then and there, and not put them forward as evidence. It is also to be noted that within the Reg 19 documents, sites that have 'not been allocated' are also still included in the maps (highlighted in red). Does this mean that they could be brought back in at the planning stage because they can be classed as having been through the consultation phase? This is again rather worrying, why have them included?

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. Site reference Exmo_20 was deemed 'available BUT NOT achievable or suitable' in the HELAA report back in November 2022, and therefore not available to be consulted on at Reg 18. The only site associated with Exmo_20 and deemed suitable as 'second choice', was Exmo_46. This site should have been the only one going through to Reg 18. However, for some unexplained reason, this site has been ignored. The validity of Exmo_46 can be confirmed by checking the relevant KEY supporting evidence documents for the Reg 18 consultation, which are the HELAA Report, The Sustainability Appraisal Report and the 'Exmouth sites - additional information' document. The fact that two NEW sites Exmo_20a and Exmo_20b, suddenly appear on maps at the Strategic Planning Committee meeting on the 1st November 2022 is questionable (see the evidence titled 'New sites evidence' with email trail dated 20/03/2025). It is to be noted that these two NEW sites are not mentioned or discussed at this meeting (I have watched the youtube video of the meeting and went through the minutes and documents for this meeting). This is six days before Reg 18 starts, and more importantly these two NEW sites are not mentioned in any of the three KEY evidence reports/documents mentioned above. Taking all of the above into account, the sites Exmo_20a, Exmo_20b and Exmo_20 have no valid reason for being in Reg 18, and therefore should not have been discussed on the 3rd September 2024, which ultimately means that Exmo_20 cannot be put through for Reg 19 consultation. Please see evidence that has been provided alongside this submission. FOR THE — Site Selection Methodology (dated May 2022), the HELAA Report (November 2022), the Sustainability Appraisal Report (dated November 2022) and the 'Exmouth sites - additional information' document, these can be found on the EDDC website.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I want to hear why Exmo_20 has got to this stage. As based on the EDDC's own documents and processes this site should NEVER have even got to Reg 18 consultation.

Full name: Nigel Humphrey

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The plan making process for site Exmo_20 has not been in accordance with the PCPA 2004. At the Strategic Planning Committee (SPC) meeting on the 1st November 2022 a total of 17 sites had NEW 'a' and 'b' site references added for inclusion in the Reg 18 Consultation process. None of these NEW sites were discussed/approved at this meeting, they were only introduced as part of the report pack for this meeting within the site maps, and no reason was provided for the introduction of these new sites (I have attached details of these sites as evidence below). There was a resolution passed at this meeting on the 1st November 2022 as follows 'Delegated authority be given to the Service Lead – Planning Strategy and Development Management in consultation with the Chair of Strategic Planning Committee, to finalise the plan for consultation. To include making minor changes to correct possible factual or grammatical errors, ensure links to background reports are made and other minor amendments that do not materially change content;'. I have received written confirmation from the current Chair of the SPC stating that 'Neither Mr Freeman nor Mr Dickins nor myself have any authority to unilaterally remove (or, indeed, add) sites from the plan', (see attached evidence for this submission). The inclusion of 34 NEW sites cannot be seen as 'minor'!!! None of these 'a' and 'b' sites are mentioned in the HELAA, Sustainability Appraisal Report or in the 'Sites Additional Information' documents. These reports and documents form the KEY evidence to support the Draft Local Plan for the Reg 18 consultation. The breakdown of the original site references into two parts completely changes the descriptions for each individual part of the site, and should have been discussed in detail and correctly assessed and agreed by the SPC. A change of this magnitude should have been identified somewhere, but there is no evidence in the meeting notes or YouTube videos that this ever took place.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of

any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with policies SP01, TR03, OL09 and OL05, along with paragraphs 11.2 and 3.34. The description in the Draft Local Plan for Exmo_20 in relation to the vehicular access is ambiguous and open to interpretation. It states that 'Vehicular access to accommodate modest levels of development, will be allowed for southern site parts from the road Southern Wood.... Primary vehicle access to the site, serving the large majority/large bulk of development, will be from the B3179 to the North'. So 'modest' can be anything from 0% to 49% of development (0 to 343 homes), and 'bulk' can be anything from 51% to 100% of development (357 to 700 homes). I have asked for clarity with regards to the vehicular access for Exmo_20 on numerous occasions without any further clarification forthcoming (see attached evidence for an example of this). Due to this uncertainty I have been pushed to raise numerous submissions to cover all possibilities. This submission relates to the 49% and 51% option. This means that the site will effectively be split into two, as access to the North and South of the sites will have to be restricted to stop residents utilising both access points. This highlights new 'major' concerns for the Southern Wood access point, as this means that a development the same size as currently accessing Dinan Way from Meadowview Road, will be coming through Southern Wood (currently a cul-de-sac), onto Meadowview Road then onto Dinan Way. So, 'doubling' the amount of traffic currently using these routes which are already congested. This will still result in the majority of residents having to travel over half a mile just to get out of the site, then another 4.3 miles to get to Exmouth town centre, or 2.2 miles to Budleigh Salterton town centre.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will

make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Stop site Exmo_20 now.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan has not been in accordance with the PCPA 2004 Section 33A. Site reference Exmo_20 was deemed 'available BUT NOT achievable or suitable' in the HELAA report back in November 2022. Using the 'Site Selection Methodology' document that was in effect at the time (dated May 2022, confirmed by email from the EDDC Planning Policy Team dated 12/03/2025), Exmo_20 failed Stage 2 'site sifting', as the criteria states that sites MUST be 'available, achievable and suitable' to meeting the criteria for going forward to consultation. The fact that sites have to pass Stage 2 'site sifting' to go through to consultation is confirmed in an email from the Planning Policy team dated 03/03/2025. Based on all of the above, Exmo_20 should not have been put forward for Reg 18 consultation (and Exmo_20a and Exmo_20b should never have existed). Email evidence can be found attached to this submission, and the HELAA and Site Selection Methodology document (dated May 2022) can be found on the EDDC website.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: EDDC have failed to comply with their duty to co-operate in relation to sites Exmo_20, Exmo_20a, Exmo_20b and Exmo_46.

Full name: Nigel Humphrey

Proposal:

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Proposed site Exmo_20 is in conflict with policy AR01(B). The proposed site sits upstream of Exmouth on the main rainwater catchment area of Withycombe Brook. The land is regularly waterlogged due to the soil type and is not suitable for a development of this size. The land is already an identified flood risk through the lower lying land at the bottom of the site and down through Withycombe, and the proposed development on this steep sloping site can only increase this risk.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: This area is not suitable for development, remove Exmo_20 from the plan.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with paragraph 3.30. This plan fails to robustly protect the SSSI Pebblebed Heaths. The settlement boundary around this site includes the 400m buffer zone adjoining the Pebblebed Heaths, effectively defining this land as acceptable for development. Although housing cannot be built within this buffer zone, by including it within the settlement boundary gives the impression that it may be available for other kinds of development.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: We need to protect our countryside. Stop Exmo_20 now.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with policy OL05. The main access point for this site is via the B3179. Which means that residents will have to travel between 4.2 and 4.3 miles to get to the centre of Exmouth, whereas the centre of Budleigh Salterton is only 2.2 miles. This makes Budleigh Salterton significantly more accessible to the residents of this development for key facilities/services. Currently Exmouth and Budleigh are separated in terms of functionality but this development would effectively merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other. This is also a large site, so is Budleigh ready for this sudden increased demand?

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: This site is not viable. Take Exmo_20 out of the plan.

Full name: Martin Thomas Humphrey

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with policy OL01. The site is noted for its dark skies, tranquillity and wildness. The proposed site will encircle the Grade II* listed St John is the Wilderness Church and churchyard, which will result in its tranquillity, remoteness and dark skies being lost forever, regardless of any buffer zone being provided. Along with the new light from the proposed housing development itself, and with the main access for the site being onto the B3179, which is directly opposite the SPA/SAC/SSSI, this would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Pebblebed Heaths as vehicles exit the site.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: This development will ruin this area. Remove Exmo_20 from the plan.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines ‘irreplaceable habitat’ as “habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed”. Development of this site will result in the loss of irreplaceable habitats. Of particular note is the Nightjar, a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. This site has a vast amount of mature trees, which provide unique micro habitats and any loss cannot simply be mitigated by planting new trees. This site also contains many long-established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and even if the developers promise that space can be left around them, the loss and reduction of habitat is unavoidable. The variety of wildlife that live and frequent in these fields, trees and hedgerows, will undoubtedly be affected by this development. The whole of this site lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the SSSI Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be lost forever by the development of this site.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. No new sustainable travel arrangements have been proposed for this site that are viable. The site will not promote walking/cycling due to the fact that it slopes steeply from North to South. The main access point onto the B3179 for this development will generate major amounts of vehicle movements just to access services within Exmouth and the neighbouring villages. This will also lead to an increase in travel to and from the main towns/cities, and access to the main route out of the area via the M5.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: This site is not viable, stop it now.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with paragraph 11.2. The Draft Local Plan states that the access point for the majority of this site (if not all) be at the North of the site via the B3179. This access point is approximately 4.3 miles from the centre of Exmouth and onto an already congested road that also is the main route in and out of Budleigh Salterton. This is a busy route on a daily basis, and gets even worse in the holiday seasons. This will result in increased car travel requirements for the majority (if not all) of the site. This proposed site is the largest in Exmouth, and its location does not promote less travel, nor will it do anything to reduce traffic congestion in and out of Exmouth. This site cannot be classed as sustainable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: This site is not sustainable, remove it from the local plan now.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposal of site Exmo_20 is in conflict with paragraph 11.6. This site slopes steeply downhill from the North to the South. Regardless of what the developer says, this will not promote walking and cycling. Key services and facilities for the bulk of this site are not within the stated 800m (approx 10 mins walk). The likelihood is that residents will need to drive over two miles (via the B3179) to access them within Exmouth or neighbouring towns/villages. Who walks to do their main shopping, visit the doctors, dentists, etc? This site is too isolated to be sustainable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: This site is not viable, stop it not.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Submit this under Chapter 5 - policy SD01. Select 'No' to being sound. Site Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around this site includes the 400m buffer zone adjoining the Pebblebed Heaths, effectively defining this land as acceptable for development. Although housing cannot be built within this buffer zone, by including it within the settlement boundary gives the impression that it may be available for other kinds of development. Which effectively means that the plan fails to robustly protect the SSSI Pebblebed Heaths.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Stop this site now.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Submit this under Chapter 5 - Policy SD01. Select 'No' to being sound. Site Exmo_20 is in conflict with policy OL05. The local plan states that the majority of the development will utilise the main access point for this site (via the B3179). This means that residents will have to travel between 4 and 4.3 miles to get to the centre of Exmouth, whereas the centre of Budleigh Salterton is only 2.2 miles, which makes Budleigh Salterton significantly more accessible to the residents of this development. The High Street, Doctor's surgery, Dentists, schools, beach etc in Budleigh would be the most accessible and obvious choices for residents of this site. Currently Exmouth and Budleigh are separated in terms of functionality but this development would effectively merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with policy OL01. The site is noted for its dark skies, tranquillity and wildness. Along with the new light from the proposed housing development itself, and with the main access for the site being onto the B3179, which is directly opposite the SPA/SAC/SSSI, this would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Pebblebed Heaths as vehicles exit the site. St John in the Wilderness church and its surrounding area is noted for its remoteness, tranquillity, and the dark skies (especially when within the churchyard itself). The proposed site will encircle this Grade II* listed Church and churchyard, which will result in its tranquility, remoteness and dark skies being lost forever, regardless of any buffer zone being provided.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan now.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines ‘irreplaceable habitat’ as “habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed”. Development of this site will result in the loss of irreplaceable habitats. This site has a vast amount of mature trees, which provide unique micro habitats and any loss cannot simply be mitigated by planting new trees. This site also contains many long-established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and even if the developers promise that space can be left around them, degradation and fragmentation of habitat is unavoidable. The variety of wildlife that live and frequent in these fields, trees and hedgerows, will undoubtedly be affected by this development. Of particular note is the Nightjar, a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. The whole of this site lies within an identified ‘Strategic Nature Area’ (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the SSSI Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by this development.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. The main access point via the B3179 for this development will generate major amounts of vehicle movements just to access services within Exmouth and the neighbouring villages. The site slopes steeply downwards from top to bottom and is within a remote location far from infrastructure and services. The majority of travelling from this car will be done via car as the walking or cycling routes provided with this site will provide limited viable alternative options. The local plan states that congestion is a particular issue in Western East Devon, and with this site having no (or limited) access to Dinan Way and the A376, the bulk of the vehicle movements from this site will be on rural B roads, which are already congested and in need of improvement.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with paragraph 3.34: Exmouth may be classed as a tier 1 settlement, however, it does not have sufficient infrastructure and services for the existing population, never mind these proposed additions. This development will not add another Doctors surgery or Dentists surgery - both of which are already insufficient for the current population of Exmouth. Nor will it provide another secondary school - which the area is crying out for. There is already a major sewerage issue in the town and surrounding areas, with sewage being discharged into the sea and onto our park areas on a regular basis, and this is before any additional developments adding to the problem.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove this site from the plan

Full name: Alison Jane Humphrey

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with paragraph 11.2. According to the plan, the 'bulk' of the development will utilise the access point at the North of the site via the B3179. This will result in increased car travel requirements for the majority (if not all) of the site. The B3179 access point is adjacent to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted within the top 400m, so a 0.3 of a mile drive just to get from the site entrance to the housing, and therefore, upwards of over 0.5 miles of 'on site' driving for most residents every time they went out and returned home. In addition to this, from the B3179 site entrance you need to drive between 4.0-4.3 miles to get into Exmouth centre. This site is a large site and its positioning does not promote less travel, nor will it do anything to reduce traffic congestion in and out of Exmouth. This site cannot be classed as sustainable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Exmo_20 is not sustainable, remove from the plan

Full name: Alison Jane Humphrey

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Site Exmo_20 is in conflict with policy TR01. Walking and/or cycling will not be the first choice of transport from this site for people to do their shopping/ work/ school run etc. as the distances are too far. The studies cited in the Local Plan show that most people prefer to walk if their destination is within 0.5 miles, however, beyond the distance of 1 mile cars are the dominant mode of travel and that beyond 2 miles trips on foot are few. Residents living at the Northern part of this site will have to walk nearly 0.5 miles to get to the bottom of the site. This site is remote, and residents will have to travel significantly further than 0.5 miles or even 1 mile to get to essential services etc. . Walking or cycling as first choice of transport for this site is not realistic. The provision of walking routes, cycle paths or public transport will not alleviate the amount of car journeys this development would generate, especially taking into account the fact that the site slopes steeply from North to South, and the distance people will have to travel to access essential services/facilities.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Proposed site Exmo_20 is in conflict with policy AR01(B). The proposed site sits upstream of Exmouth on the main rainwater catchment area of Withycombe Brook. The subsoil is heavy clay, the impermeable nature of which makes soakaways ineffective, with the land often being waterlogged. Development on this steep site would significantly exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove site Exmo_20 from the Local Plan

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Proposed site Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths, effectively defining this land as acceptable for development. Although housing cannot be built on the buffer zone, by including it within the settlement boundary indicates that it may be available for other kinds of development. Therefore, the plan fails to robustly protect against adverse effects of recreational use etc in relation to the SSSI Pebblebed Heaths.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Show the 400m buffer zone on the maps associated with site Exmo_20.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Proposed site Exmo_20 is in conflict with policy OL05. The main access point for this site (via the B3179) is between 4 and 4.3 miles from the centre of Exmouth and only 2.2 miles from the centre of Budleigh Salterton, making Budleigh significantly more accessible to the residents of this development. The access arrangement for the site leads naturally down the B3179 into Budleigh Salterton High Street, but to get into Exmouth will mean travelling twice the distance and having to go around the edge of Exmouth to get back down into it. The High Street, Doctor's surgery, Dentists, schools, beach etc in Budleigh would be the most accessible and obvious choices for residents of this site. Currently Exmouth and Budleigh are separated in terms of functionality but this development would effectively merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Proposed site Exmo_20 is in conflict with policy HE02 - this proposed site is a 'very large' development of between 700 to 1000 homes. The majority of these homes will surround the Grade II* listed St. John in the Wilderness Church and will have significant adverse effects on the remoteness and tranquillity that is so unique to this church, its surroundings and the churchyard. This development will drastically alter the peaceful and tranquil setting, not only for the congregation, but also the numerous visitors that come to pay their respect's to their relatives in the churchyard, but also to see the church and its setting.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Proposed site Exmo_20 is in conflict with policy OL01. The site is distinctive for its dark skies, tranquillity and wildness. In addition to light from the proposed housing development itself, with the 'majority/bulk' of this sites access being at the B3179, directly opposite the SPA/SAC/SSSI, would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Pebblebed Heaths as vehicles exit the site. The area around St John in the Wilderness church is characterised by its remoteness, tranquillity, and the dark skies (especially when within the churchyard itself). This provides a 'wilderness' setting integral to the grade II* listed church which would be lost forever by having a housing development encircling it, regardless of any buffer zone being provided.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove site Exmo_20 from the local plan

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposal for Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". Exmo_20 will cause loss of irreplaceable habitats. It has a great number of mature trees, which provide unique micro habitats and their loss cannot simply be mitigated by planting new trees. This site also contains many long-established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and even if the developers promise that space can be left around them, degradation and fragmentation of habitat is unavoidable. The variety of wildlife that abound in these fields, trees and hedgerows will undoubtedly be affected by this development. Of particular note is the Nightjar, a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. The whole of the Exmo_20 site lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the SSSI Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by this development.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. 3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. Due to the proposed access restrictions for this site, the development will generate significant amounts of vehicle movements just to access services within Exmouth and the neighbouring towns/villages using the B3179. The site slopes steeply downwards from North to South and is a remote location from infrastructure and services. Any walking or cycling routes provided with this site will provide limited viable alternative options, with most travelling been done via car. The local plan notes that congestion is a particular issue in Western East Devon, and with this site having no (or limited) access to Dinan Way and the A376, the significant amounts of vehicle movements from this site will be on rural B roads, which are already notorious for being congested and in need of improvement.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is in conflict with paragraph 3.34: Although Exmouth is classed as a tier 1 settlement, it does not have sufficient infrastructure and services for the existing population. Even if the proposed development brings financial contributions towards infrastructure etc., it will not add another Doctors surgery or Dentists surgery - both of which are already insufficient for the current population of Exmouth. Neither will it provide another secondary school - numerous children already have had to travel to Cranbrook for secondary school provision due to there being no capacity at Exmouth Community College. The existing sewerage system in Exmouth cannot handle the current population, with sewage being discharged into the sea on a very regular basis, with 'closed for swimming' notices becoming a regular feature on our beach. Not a very good advertisement for a seaside tourist spot! Exmouth's sewerage problems have already been highlighted on national news several times.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is in conflict with paragraph 11.2. There are two proposed access points for this site. One to be created at the South of the site via the existing Southern Wood cul-de-sac but only to accommodate 'modest' development, with the other access point being at the North of the site for the 'majority/bulk' of the development via the B3179. This will increase travel needs and necessitate cars to take longer routes for the majority (if not all) of the site. The main vehicular access point (B3179) is at the very northern edge of the site, adjacent to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted within the top 400m, resulting in approximately 0.3 of a mile drive just to get from the site entrance to the housing. This would result in upwards of over 0.5 miles of 'on site' driving for most people every time they went out anywhere and returned home. In addition to this, from the B3179 site entrance you need to drive between 4.0-4.3 miles to get into Exmouth centre. Exmo_20 is a large site and its positioning does not promote less travel, nor will it do anything to reduce traffic congestion in and out of Exmouth. This site is not sustainable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocating Exmo_20 is in conflict with policy TR01. No matter what the developers say, walking and/or cycling will not be the first choice of transport from this site for people to do their shopping/ work/ school run etc. because the distances are too far. The studies cited in the Local Plan show that most people prefer to walk if their destination is within 0.5 miles, however, beyond the distance of 1 mile cars are the dominant mode of travel and that beyond 2 miles trips on foot are few. If people live at the Northern part of this site, they will have to walk nearly 0.5 miles to get to the bottom of the site. Exmo_20 is by its position remote, and people will have to travel significantly further than 0.5 miles or even 1 mile to get to essential infrastructure and services. Based on this, walking or cycling as first choice of transport is unviable. Providing walking routes, cycle paths or public transport will not alleviate the amount of car journeys this development would generate, especially taking into account the steep local topography and the distance people will have to travel to access essential infrastructure and services.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 goes against policy SP01. The designated access point for the 'bulk' of the development on this site (via the B3179) is over 4 miles by car from Exmouth town centre yet just over 2 miles from Budleigh Salterton town centre. How can this be considered to be a development in Exmouth. Exmouth cannot take any further development, we have the sea to the south, the estuary on the west and the SSSI (Pebblebed Heaths) to the east. The only option is to develop on the North side which is totally unsuitable for further significant growth. Any new development is closer to neighbouring towns & villages and therefore not a development at the principal centre of Exmouth. Development of Exmo_20 is unsustainable due to its distance from Exmouth town and any services/facilities.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Stop promoting Exmo_20 as a viable development, and stop pushing more and more development on to a town that has massive infrastructure issues without adding to them.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: /////
PART 3 - CONTINUED FROM PART 2 6825b902d0807f0013c3842e /////

There are some hedgerow boundaries with some mature trees. The views from the site are open and exposed, including long distance views. Easterly parts of site are remote from services and facilities and if developed would form a quite large 'tongue of development' projecting into open countryside with visual impacts on areas of open countryside and designated AONB. The site itself is not in the AONB. If site 10 can be rejected for development for these reasons, then so should site 17, which is in the AONB, has better views and quality land, and can be seen from the South West Coast Path. Historic Littleham has a long significant history and is older than Exmouth. It was a Saxon subdivision with its own court and was retained by the Kings of Wessex until the 11th Century when it was given by Edward the Confessor to his Master Ordgar, who then passed it onto the Monastery (Horton in Dorset 970 AD) who held it until the Dissolution of the Monasteries, before descending into the Rolle Family and Lord Clinton. The area has historically been forested and agricultural and used by local Farms including Liverton and Woodlands, once part of the Manor of the Wade in the 1300s. The Drake family are also well linked to the area, having lived at the now Prattshayes in the village, funded the Drake Aisle in the church and being buried there. It's mentioned in the Domesday record of 1086. Over the years the Village has grown and changed. The only area that has relatively unchanged (apart from some former buildings and railway line) is the area that borders Littleham including site 17 with its long agricultural history. On the proposed plan, very little detail is given regarding the local listed church compared to other sites that have been rejected such as site 07 in Exmouth, Bystock Court, which is grade 2 listed. St Margaret's and St Andrews Church, which borders the site is grade 2* which carries much more of a historical significance. Nowhere does the plan mention its grade 2* status. All the plan states is that there is a listed Church to west of site and is of prominence in views and setting for southerly parts of the site as much of the site is remote from church. The site is not remote from the church. The church forms

part of the special distinctive village and rural country feel of the whole site and is a significant heritage asset and has a direct impact on potential scope for accommodating residential development. To have an intensification of urban activity and vehicle movements, could adversely impact on heritage value as could other aspects of urbanisation. One example would be the potential over use of the public access through the churchyard, from site 17 to Littleham Road, south of the site. On the proposed plan it also states that there are no other identified designated heritage features that would impact on site. However, when looking the Historic Environment Records (HERS) there are multiple HER Monuments. The first being that Littleham is the bounds of the original Saxon Manor (MDV41872). The current parish boundaries are unchanged since Edward the Confessor or possibly earlier and the site has always been rural. Others include the 19th Century churchyard (MDV112441); the Exmouth to Budleigh Salterton Branch line Railway (MDV22498); Pond to the East of Capel Lane shown on previous maps including the Littleham Tithe Map of 1844 and is on current OS and Google maps (MDV111969); Extraction Pits on northern part of the site, of probable Post Medieval to Modern Earthwork Pit on aerial photos of 1950 onwards and LiDAR 1998-2012 (MDV106427 and MDV106428); Extraction Pit to the South East of probable Post Medieval to Modern and is visible as an earthwork pit on aerial photos 1946 onwards and on digital LiDAR images 1998-2012 (MDV196331); Pond to the South of Salterton Road on Tithe Map of 1844 and OS Maps (MDV111967); Extraction Pit to the Northwest (MDV106423); possible field boundary to south of Liverton Business Park. Potential Medieval to Post Medieval and visible as a two Cropmark Bank on aerial photos in 1969 (MDV106429); possible Early Medieval to Post Medieval field boundary to the south. Visible as a cropmark ditch on aerial photos in 1969; Orchard Banks to the North of St Margaret's and St Andrew's Church, Littleham. Orchard is likely Post Medieval to Modern. Linear earthwork banks on aerial photos 1946 onwards and digital images taken in 2010 (MDV106422); Earthwork Pit to the north of St Margaret and St Andrews Church, Littleham. Probable Medieval to Post Medieval in origin and is visible on aerial photographs 1950 onwards and LiDAR images 1998-2012. This could possibly be the former Manor House built in the 15th Century and known as The Lords House; and Buildings to the East of Capel Lane (MDV111334). Local to the site are several other listed buildings. These are the Lichfield Gate to the churchyard (grade 2) near the bottom of Littleham road and 1-5 Castle Cottages (grade 2 and HER Monument (MDV51057) which are visible from the site and near potential access to the site. Further away in the village are, Littleham Tithe Barn (grade 2), Mundy's Farm and cottage (grade 2), Green Farm (grade 2) Prattshayes Farm (grade 2) and 2 sets of Gate piers and iron gates at Prattshayes. The churchyard which borders the site contains several prominent resting places including the tomb of Lady Nelson as well as war graves. Littleham Village on the current neighbourhood plan is a potential site for a new conservation area, which it deserves to be. Ecological In the NPPF paragraph 174, planning polices, and decisions should contribute to and enhance natural and local

environment by protecting and enhancing valued landscapes and sites of biodiversity; recognise intrinsic character and beauty of the countryside and its wider benefits. The site is seen as being favourable from an ecological perspective on the proposed plan. However, many ecological considerations have not been considered. AONB positively enhance their beneficial use, provide access and opportunities for recreation, as well as retain and enhance the landscapes visual amenity and biodiversity. The site may not be part of the Pebblebed Heaths on Woodbury Common, but the site does act as a wildlife corridor towards this and is in the AONB. From site 17, you can access Woodbury Common, which is not far away for wildlife. Site 17 is also near World of Country life, that promotes the local habitat for bees and other insects. Also at night site 17, does not suffer from artificial light pollution, which helps to support our nocturnal wildlife. Paragraph 176 in the NPPF states that great weight should be given to conserving and enhancing landscape and scenic beauty in National Parks, the Broads and AONB which have the highest level of protection in relation to these issues. The conservation and enhancement of wildlife and cultural heritage are also important considerations in these areas and are given great weight to avoid or minimise adverse impacts on designated areas. There are many local features of interest, notably mature hedgerows, and trees, including Oak trees, which help support the local wildlife. The site is near local woodland and the bordering churchyard offers a biodiversity of local flora and fauna including a habitat for butterflies, birds, bats, and other insects. In certain parts of the churchyard, the grass is not cut to help provide biodiversity. The churchyard also contains a natural burial ground which backs onto site 17. On first looks of site 17, agricultural fields are seen, but on further inspection, the site offers a well-known wildlife habitat for various species including bats, various birds including Green Woodpeckers, badgers, deer, dormice, adders, rare wood crickets, butterflies, dragonflies, and plants. This is signposted on the information boards along the cycle path and walkway that runs through site 17. To develop this site would have a vast detrimental affect on the local wildlife that would permanently destroy their habitats. NPPF paragraph 180 when determining planning applications consider if significant harm to a biodiversity resulting from development cannot be avoided, adequately mitigated, or compensated for it should be refused. This is further supported by the Governments 25-year Environment Plan which sets out goals for improving the environment within a generation and leaving it in a better state. Also, the current landowner of site 17, Devon Clinton Estates on their website states the following: “Doing today what is right for tomorrow”; “By handing on the land to future generations in a better condition”; “By investing in the local community” and “Everything we do is with tomorrow in Mind”. To continue these principles, site 17 should not be developed. The site should be protected from development and the local wildlife habitats and landscape saved for future generations. It is also important to recognise that (P35 paragraph 120b of the NPPF) when making effective use of land, some undeveloped land can perform many functions such as wildlife, recreation, flood risk mitigation,

carbon storage and food production. The East Devon AONB Support farming in the AONB to help protect habitats, species and support local communities in sustainable farming. Over 90 percent of the UK population live in areas where local government has declared a climate emergency. With native species and habitats in decline like never before, AONB partnerships have made a formal commitment of their own to increase scale and pace of delivery of nature in form of the Colchester declaration. Accessibility on the proposed plan it is stated that parts of site fall within 1600m of facilities; parts of the site are close to a frequent bus service and that Littleham village is to the south of the site with an industrial estate to the north, though it is across a busy main road. There is no mention that site 17 is outside the town boundary and is one of the furthest sites away from the town centre. The closest bus service predominantly only covers Exmouth. Buses to Sidmouth are infrequent and to go to Exeter, the best option is to catch the 57 buses from Littleham Cross, which is at least a 25-minute walk away from the closest part of the site. The closest supermarket would more than 1600 metres from the mid to furthest part of the site. There are no shops in Littleham Village and the only amenities are the pub and tearoom. The local primary school on the furthest part of the site would unlikely be in walking distance. The only secondary school is most definitely not in walking distance and the local bus does not go near the secondary school. The secondary school is in cycle distance along the cycle path after Littleham Cross but may not be suitable after dark due to it backing onto gardens from both sides with limited street lighting. The local train station is in the town centre, which is a lot further than 1600 metres from the closest site and would be at least a 60-minute walk. There is no pathway along Castle Lane and no pathway directly outside the site on Salterton Road. The main accessibility along the site is from the cycle path and walkway. Traffic through Littleham can be busy when Devon Cliffs and World of Country life are open. Most employment opportunities are in Exeter, and there are only 2 main roads out of Exmouth due to its location, which are already struggling with excess traffic and will only worsen with more development. Site Constraints on the proposed plan it states that there are no significant site constraints, but there would be expected local constraining within the site due to its size. I disagree with this. This site does have significant site constraints. Firstly, the sites ecological value to the local habitat and wildlife which would be permanently destroyed if development was to go ahead. Secondly the green infrastructure of the former railway line which is now part of the well-established cycle path and walkway. It forms part of the National Cycle Network (Sustrans) NCN2 from Dover to St Austell and the international Tour de Manche between Plymouth and Poole. This is a valued form of green infrastructure valued by not only the local community, but further afield as well. There are 9 design principles to be on the Sustrans including its attraction and enhanced ecological features as well as being safe and accessible traffic free paths. Its currently a free to use and safe path for cyclists and walkers of all ages and accessibility needs, with no risk of potential harm from vehicles. It also helps to support both health and wellbeing of the community,

deliver wider benefits for nature and support efforts to address climate change (an issue raised in the NPPF, p27 paragraph 92c and p28 paragraph 98). This could easily be lost through development due to having to meet set criteria. Paragraph 100 p29 of the NPPF, discusses that planning policies and decisions should protect and enhance public rights of way including current access links to national trails. The site is bordered by both a busy road and 2 lanes, which would struggle to cope with increased traffic as well as adding to increase both environment and noise pollution. There are very limited foot pathways with none on Castle Lane (and unlikely to be) and none outside the site on the busy B3178 (Salterton Road). The only lane that has footpaths is Capel Lane, although not along its full length. The site sits within the local AONB and is outside the BUAB which is on the neighbourhood plan. Within site 17 there are mature hedgerows and trees including Oak, with 2 trees having a TPO. North of the site is the SWW underground reservoir with evidence of possible private piping near this on the site. Devon Air Ambulance are also known to use part of the site to land the helicopter in an emergency for this side of Exmouth. The site also contains multiple HERs and borders the local grade 2* church and its surrounding 12-acre churchyard. Inappropriate development in green belt land including AONBs is treated as being harmful and in paragraph 144 of the National Planning Policy Framework (NPPF) paragraph 172, is a reason for refusal in general development control in AONBs. The Exmouth Neighbourhood Plan argues against any development outside the current BUAB due to the amount of housing development within Exmouth without any provision to improve local infrastructure and does not support any development outside of the BUAB. According to the National Flood and Coastal Erosion Risk Management strategy for England and the South West River Basin Direct Flood Risk Management Plan 2021 to 2027 (December 2022 by the Environment Agency), Littleham is in a flood risk area (FRA). Due to its location, Littleham and parts of site 17 are at risk of fluvial flooding from the Littleham Brook, surface water flooding from runoff and flooding from the drainage network due to the inability of the sewage network to cope during high rainfall and tidal locking. All forms of flooding impact on the local area including the environment, listed buildings, homes and businesses. Littleham, as per the government website, is currently a high-risk area of surface water flooding. Littleham and part of site 17 is in a high-risk fluvial flood zone, which is greater than 3.3% Annual Exceedance Probability (AEP) and not flood zone 2 which is 0.1% AEP on the current draft plan. Within Littleham village there is a history of flooding from the Littleham Brook and surface water runoff from Castle Lane and the Devon Cliffs access road to the south. Replacement of the road culvert has alleviated much of this flooding, but there is still surface flooding in Maer Lane. Due to the area becoming more urbanised, resulting in more surface water runoff and the aging drainage infrastructure there is an increase in risk level. This will only worsen with more development and climate change. Rainfall intensity is expected to increase in the future and cause higher river flows and levels with rapid run off from upper catchments and more flooding. The middle part of

Littleham Brook flows through an urban area which will see an increase in flood frequency and impacts. This is also partly due to the limited scope to increase the capacity of the structures that cross the Littleham Brook which may further constrict flow. Tide locking of the outfall of Littleham Brook into the sea will also occur more frequently due to sea level rise. It is also expected to frequently overload the aging sewage network, placing a greater reliance on pumped systems to disperse the drainage and an increase in pollution. Flooding is also discussed in the NPPF chapter 14 that inappropriate development in areas at risk of flooding should be avoided by directing development from higher risk areas, so as not to increase flood risk elsewhere. All plans should apply a sequential risk-based approach to location of development and consider all sources of flood risk both now and in the future and to safeguard land from development that may be required for future flood management. Site Opportunities Site 17 on the proposed plan is stated as being a large-scale site, that if it is allocated for development as a whole or just parts, it would be expected that a mixed-use development could deliver a range of positive outcomes. I disagree with this. The site is currently used for farming, which is vital if we are to become sustainable. Also, with the closer proximity to Exeter, most employment opportunities are in Exeter, which has better links to other areas of the country compared to Exmouth. The site sits outside of the BUAP and is further away from the town centre. Site 18 in Exmouth, which is land directly to east of Liverton Business Park and is close to site 17, is for employment allocation. Liverton business park tends to have smaller businesses that have lower employment numbers of staff required locally except for 3 businesses. There is currently no need for the site 17 to be developed for other employment uses and would be far better to be kept for farming, where there is a need. Paragraph 177 in the NPPF states when considering applications for development within National Parks, the Broads and AONB permissions should be refused for major development, other than in exceptional circumstances where it can be demonstrated that the development is in the best public interest. Consideration of the following (a) need for development including in terms of any national considerations and the impact of permitting it or refusing it upon local economy; (b) cost of and scope for developing outside designated area, or meeting need for it in some other way; (c) any detrimental effect on environment, landscape and recreational opportunities and extent to which it could be mandated. Footnote 60 p51. For the purposes of paragraphs 176 and 177, whether a proposal is a 'major development' is a matter for the decision maker, considering its natural scale and setting and whether it could have a significant adverse impact in the purposes for which the areas has been designated or defined. There is no clear definition of a major development, but in the NPPF glossary, it is described as a site of more than 10 houses or a site bigger than 0.5 hectares. For site 17, I would consider this as being a major development in the AONB. The housing that is needed in Exmouth is affordable housing for the local community, rather than new houses on the open market (this is supported by NPPF paragraph 78 p21). Brown field sites not allocated for housing, could be used

as Entry level exception sites for first time buyers and those looking to rent their first home. Entry level exception sites are not permitted in AONB and green belt areas (p19 paragraph 72b of the National Planning Policy Framework, 2021). As large-scale developments tend to have very little affordable housing, I can only imagine developers using this to their advantage and limiting the number of affordable homes and instead build unwanted expensive houses that the community does not need and cause a major destruction of the AONB. Paragraph 73 p20 of the NPPF, describes larger scale development as significant extensions to existing villages and towns, that need to be well allocated and designed and supported by necessary infrastructure and facilities including a genuine choice of transport modes, economic potential, and scope for net environmental gains. Also, when considering edge of centre and out of centre proposals, preference should be given to accessible sites which are well connected to the town centre (NPPF paragraph 88 p25). Site 17 sits outside of the BUAB with poor road infrastructure both locally and outside of Exmouth. Public transport is poor in this area and the site is not well served by local amenities. In the healthcare sector, emergency health care and Gp practices are struggling and there are long waiting lists to join an NHS dentist. There is only 1 local Acute Hospital in Exeter. Due to location of site 17 in the AONB, the opportunity is there for further environmental net gains, provided it is kept free of development such as building on the current biodiversity and habitat protection the site offers. An economic potential is to retain the cycle path and walkway, which also supports green tourism and maintain the rest of the site for agricultural use. This helps to support sustainability and the health and wellbeing of the community. I agree that the whole, the site would be a poor choice for allocation of development, even if only a part of it was developed. Even sites 9 and 15 are considered major development within the AONB, as in appendix 2 in the NPPF a development of more the 10 houses or the site is 0.5 hectares, or more is seen as a major development. Also, the chances are high that any potential housing would be unaffordable for the local community. With the government housing target numbers relaxing and considering the existing character and density of Exmouth, it is a great time to review the housing requirements for Exmouth. The site sits within open countryside inside the AONB and is outside of the BUAB. The site offers far reaching views and feels separate from the urban sprawl of Exmouth. The site has a local intrinsic value that is enjoyed by both the local community and those from further afield. The site has an already established green infrastructure that is enjoyed by those of all ages and abilities and is part of the well-known National Cycle Network and is a viable habitat for the various local wildlife and not of low ecological value as stated in the proposed plan. This would be permanently destroyed with development. The site also borders the grade 2* village church, which is a significant heritage asset and development of the site could have a significant detrimental effect on both the church and the surrounding graveyard and its biodiversity. There are also other grade 2 listed buildings near by as well as HERs. For employment reasons, the site is currently used as agricultural land, which it has been

for many years. To be sustainable, we need our farmland, so we can try to be more carbon neutral and support local farm businesses. If this site was developed, this would be lost forever. The site if developed, would raise significant issues about suitability and desirability of accommodating a major large-scale development in the AONB. The NPPF discusses sustainable development for plan making, and the application of policies in this framework seek to protect areas or assets of particular importance and provides strong reason for restricting overall scale or type of development or destruction of landscape in AONB. The effects of pollution on health, living conditions, natural environment as well as the potential sensitivity of the site that could occur from development should be identified. This includes both air quality, light pollution, and excess noise from traffic. Rejecting site 17 for development will help to protect this tranquil area which has remained relatively undisturbed by noise and pollution. The site is currently prized for its recreational and amenity value including the current habitat and biodiversity; the dark landscape at night, which can aid nature conservation and the cycle path and walkway. To develop site 17 would only lead to increase in noise, pollution and destruction of the local wildlife habitats and amenity value including the health and wellbeing of the community. Also, the site prevents the urban sprawl of Exmouth encroaching further into the much-needed countryside. In November 2022 Historic England and National Landscapes signed joint statement to manage, conserve and celebrate our iconic historic environment. This helps set a precedent on the value that National Landscapes can offer not only the local community, but nationally as well. Too much land designated in the National Landscapes has been lost to development nationally and now the government would like to increase the number of National Landscapes. Site 17 location carries a significantly high amenity value compared to sites that are not in the National Landscapes or near conservation areas. It is a both wildlife corridor for this side of Exmouth and a link to the proposed Mear Valley Park. With the policies regarding the National Landscape and the NPPF, development should not be considered if in conflict with neighbourhood plans. Site 17 being outside of the BUAB is not supported on the neighbourhood plan. Many sites with similar characteristics to site 17 have been rejected, with the issues raised considered significant enough to reject other sites given less weighting for site Exmouth 17. For example, Exmouth site 07 has been rejected due to its proximity to a Grade 2 listed building, but this reasoning has not been applied to Exmouth site 17 which borders the more significant higher graded Grade 2* Church in Littleham. Other examples are as follows: Broadhembury 07, reasons for rejection include high landscape value as it lies within the AONB, and impact on local listed buildings, reasons which are also true for Exmouth 17. Budleigh Salterton 05, reasons for rejection include the existing field forms being an attractive feature and development could affect the setting of designated and non-designated heritage assets. These reasons equally apply to Exmouth site 17 but have not been included in the plan. Chardstock 01, reasons for rejection include being in a National Landscape and having high landscape sensitivity. Both reasons apply to

Exmouth site 17. Confusingly, another reason for rejection is that the site is bordered by agricultural fields despite local residential development providing some context of built form. Whereas this is reasoning is turned upside down for Exmouth 17, where the local residential development providing some context for development is used as a benefit for development. The argument cannot be used both ways. Clyst St Mary – Sowton 01, reasons for rejection include development affecting the special character of local listed heritage assets. A reason which holds true for Exmouth site 17. Clyst St Mary – Sowton 02, reasons for rejection include having a high landscape sensitivity to new development, a reason which holds true for Exmouth site 17. East Budleigh 01, reasons for rejection include location of the site within the AONB and the effect of development on local heritage assets. Reasons which are also true for Exmouth site 17. Exmouth 10/24, reasons for rejection include the open and exposed nature of the site in terms of landscape and its rural rather than urban fringe character. This site is particularly noteworthy since it is located on the opposite side of the B3178 (Salterton Road) from Exmouth site 17. These characteristics apply equally to Exmouth site 17, therefore Exmouth site 17 should be rejected since in addition to its open landscape and rural character, also lies within the AONB. Hawkchurch 02, reason for rejection being the rural, agricultural character of the site, a characteristic shared with Exmouth site 17, despite Hawk 01 being outside the AONB. Honiton 04, reason for rejection being development would have a high landscape impact and the site being within the AONB. Both being reasons against development within Exmouth site 17. Honiton 09, reason for rejection being the site falling within the AONB and having a high impact on the landscape. Despite the site being located next to a major A30 junction and sandwiched between the A30 and Langford Road. Surely the landscape impact of development within Exmouth site 17 must be greater. Honiton 12, reason for rejection being the impact of development on landscape and heritage due its location within the AONB and the adjoining grade 2* church. This is the same situation as Exmouth site 17. Therefore, surely Exmouth site 17 must be rejected for the same reason. There are many other examples of this inconsistent approach to assessing the development potential of Exmouth site 17, which are too numerous to detail here. It is apparent that only the benefits of the development of Exmouth site 17 have been considered any negative impacts glossed over by the plan as it stands. Prior to adoption of the plan, Exmouth 17 must be reassessed as it does not appear that a full assessment of the site has been conducted. A full assessment of the benefits and negative impacts of development within Exmouth site 17 could only conclude that the site be rejected for development within the East Devon Local Plan. This is an area the size of 4 football fields that stretches from opposite McDonalds right down to Castle Lane with industrial units next to Salterton Road plus 410-450 houses. There would be one access road with one exit onto Salterton Road. The access road would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe, alongside many in our community, that our natural beauty should be preserved. EDDC has a legal duty to

'conserve and enhance' National Landscape and I want to stop the loss of our precious space and natural beauty. I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17. Both EDDC and DCC are expected to be clearly demonstrate that they have considered the purposes of the National Landscape designation in their decision making.

Full name: Chrissie Hunn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: /////
PART 2 - CONTINUED FROM PART 1 6814dd4705e4ad001300b9e9 /////

The duty is intended to complement these requirements by ensuring that the purposes for which Protected Landscapes are designated for are recognised in reaching decisions and undertaking activities that impact these areas. Consideration of what is reasonable and proportionate in the context of fulfilling the duty is decided by the relevant authority and should take account of the context of the specific function being exercised. Relevant authorities will need to apply the duty when undertaking any function in relation to, or so as to affect, land in a Protected Landscape. This may include the preparation of Development Plans and associated assessments and documents and decision making in respect of development management, planning applications and nationally significant infrastructure projects, functions outside of a Protected Landscape which may have an effect on land in a Protected Landscape. When seeking to further the purposes, relevant authorities should consider the information contained in a Protected Landscape's Management Plan. Management Plans describe the natural beauty, special qualities and key characteristics of and targets and objectives for the designation. Relevant authorities should make efforts to understand the Management Plan and relate their functions to it. Dialogue with the Protected Landscape team (National Park Authority, Conservation Board, National Landscape Partnership, or Joint Advisory Committee) can assist the relevant authority. A relevant authority should take appropriate, reasonable, and proportionate steps to explore measures which further the statutory purposes of Protected Landscapes. As far as is reasonably practical, relevant authorities should seek to avoid harm and contribute to the conservation and enhancement of the natural beauty, special qualities, and key characteristics of Protected Landscapes. A relevant authority should be able to demonstrate with proportionate, reasoned, and documented evidence the measures to which consideration has been given when seeking to further the statutory purposes of Protected Landscapes - for example, policies, strategies, operational

procedures, estate management plans, investment plans, contracts, works instructions, assessments and reports which should be able to evidence the proper discharge of the duty by the relevant authority. For development plan making and development management decisions affecting a Protected Landscape, a relevant authority should seek to further the purposes of the Protected Landscape - in so doing, the relevant authority should consider whether such measures can be embedded in the design of plans and proposals, where reasonably practical and operationally feasible. For the development and management of land, water and estates, relevant authorities should seek to further the purposes of the Protected Landscape when designing and undertaking these activities, where reasonably practical and operationally feasible. What are the statutory purposes that you should seek to further when exercising a function in the Protected Landscape it affects? Do measures which would further the purposes align with and help to deliver the targets and objectives in the Protected Landscape's Management Plan? Are such measures appropriate and proportionate to the type and scale of the function and its implications for the area? For instance, are measures in keeping with the natural beauty, the special qualities and key characteristics of the Protected Landscape? Could the measures contribute to the conservation and enhancement of the Protected Landscape's wildlife, ecological value and quality, geological and physiographical features, water environment, cultural heritage, dark skies, tranquillity, opportunities for access to nature, and landscape character for which the area was designated? Has the relevant Protected Landscape team been approached for their views on whether or not measures help to deliver the Protected Landscape's Management Plan and further the purposes of the designation? Public authorities must also comply with the strengthened Biodiversity Duty that the Environment Act 2021 introduced. You should consider how your actions taken to comply with the Biodiversity Duty are complementary and if you have met both duties in full through your decision. The statutory purposes of National Landscapes (areas of outstanding natural beauty) are conserving and enhancing the natural beauty of the area of outstanding natural beauty. The statutory purposes of National Landscapes (areas of outstanding natural beauty) with Conservation Boards are conserving and enhancing the natural beauty of the area of outstanding natural beauty and increasing the understanding and enjoyment by the public of the special qualities of the area of outstanding natural beauty. The Management Plan describes the natural beauty, special qualities and key characteristics of a Protected Landscape. This will articulate the features of the landscape which warrant its nationally designated and protected status. The duty also applies to functions undertaken outside of the designation boundary which affects land within the Protected Landscape. Natural beauty, special qualities, and key characteristics can be highly dependent on the contribution provided by the setting of a Protected Landscape. Aspects such as tranquillity, dark skies, a sense of remoteness, wildness, cultural heritage or long views from and into the Protected Landscape may draw upon the landscape character and quality of the setting.

Functional connectivity is also important where there are flows or close interconnection between the Protected Landscape and its setting, for example a shared water catchment and management of water resources; ecological connectivity where species are able to move across and between the designated and non-designated area; Rights of Way, Open Access Land and other recreational links joining the designated area to the wider countryside. Development and the management of land, water and estates located in the setting have the potential to adversely affect the natural beauty, special qualities, and key characteristics of a Protected Landscape. On 21st March 2025 it was published a meeting of major landowners to boost nature's recovery to discuss land management plans to meet the country's legal Environmental Act targets (Department for Environment Food and Rural Affairs and The Rt Hon Steve Reed OBE MP). It is part of Government's commitment to transform how we use land in this country to protect the environment, support economic growth and deliver on our Plan for Change. It will play a pivotal role in supporting the Government's ambitious environmental goals, including statutory targets in the Environment Act and our commitment to protect 30% of land by 2030. With the natural world facing species decline and a biodiversity crisis, Reed called on the group for action to collectively protect and restore nature on their estates across England. Landowners must go further and faster to restore our natural world. The 'National Estate for Nature', who manage a tenth of the land in this country, have a responsibility to future generations to leave the environment in a better state. We have a unique opportunity to work together on common sense changes that create a win-win for nature, the economy, and make the best use of the land around us. Tony Juniper, Chair of Natural England talked of if we are to reverse the historic declines in nature, we must take urgent action at every level to restore nature on the ground. This group is an important first step in securing a strong commitments from landowners across the country to collaborate on managing land in a more sustainable way, for the benefit of both people and nature. We need work together to find the long-term solutions for key challenges, such as the demand for new homes and infrastructure, and the need to halt long-term biodiversity loss and recover nature. Harry Bowell, Director of Land and Nature at the National Trust said as the Government's Land Use Framework makes clear, a transformation in the use of land is needed if we are to meet our nature and climate targets. Only by working together will be able to restore our landscapes at the scale needed to put nature in recovery by 2030, lock up enough carbon in the English countryside to reduce greenhouse gas emissions to required levels, and prepare for the worsening impacts of climate change. We are committed to playing our part. It represents institutions with significant holdings across the country, and associated significant potential to drive nature's recovery, a vital part of the government's national conversation about land use ahead of publishing a Land Use Framework in 2025. The broad representation also ensures that the group can draw on a wealth of expertise and experience in land management, conservation, and sustainable development, enabling them to develop and implement effective strategies for nature recovery, sustainable

land use, and environmental protection. Defra will actively participate as a member, leading by example and supporting the group with guidance, resources, and coordination as they work toward meeting the Government's environmental targets. Further quarterly meetings will focus on developing and implementing agreed on-the-ground plans to drive nature's recovery. This comes following the introduction of new measures to strengthen our protected areas and meet 30by30 that show this government is committed to delivering for nature. As part of the government's Environmental Improvement Plan (EIP), everyone, from land managers to homeowners, has a crucial role to play in restoring the natural environment. 'Protected Landscapes' refers to National Parks, the Norfolk and Suffolk Broads and National Landscapes in England. 'National Landscapes' is the rebranded name for areas of outstanding natural beauty (AONBs). The Protected Landscapes duty is intended to operate and provides broad principles to guide relevant authorities in complying with it. Section 245 (Protected Landscapes) of the Levelling-up and Regeneration Act 2023 (LURA) amends the duty on relevant authorities in respect of their functions which affect land in National Parks, National Landscapes, and the Norfolk and Suffolk Broads (collectively referred to as Protected Landscapes) in England. Relevant authorities must now 'seek to further' the statutory purposes of Protected Landscapes. This replaces the previous duty on relevant authorities to 'have regard to' their statutory purposes. The duty is intended to facilitate better outcomes for England's Protected Landscapes, which are in line with their statutory purposes. The duty does not prevent relevant authorities from undertaking their statutory functions and discharging their legal duties and other responsibilities. The duty is intended to complement these requirements by ensuring that the purposes for which Protected Landscapes are designated for are recognised in reaching decisions and undertaking activities that impact these areas. Consideration of what is reasonable and proportionate in the context of fulfilling the duty is decided by the relevant authority and should take account of the context of the specific function being exercised. Relevant authorities will need to apply the duty when undertaking any function in relation to, or so as to affect, land in a Protected Landscape. The preparation of Development Plans and associated assessments and documents; decision making in respect of development management, planning applications and nationally significant infrastructure projects; functions outside of a Protected Landscape which may have an effect on land in a Protected Landscape; the drafting of Protected Landscape Management Plans; planning appeals and public inquiries; the drafting of Local Nature Recovery Strategies; other plans such as Neighbourhood Plans. When seeking to further the purposes, relevant authorities should consider the information contained in a Protected Landscape's Management Plan. Management Plans describe the natural beauty, special qualities and key characteristics of and targets and objectives for the designation. Relevant authorities should make efforts to understand the Management Plan and relate their functions to it. Dialogue with the Protected Landscape team (National Park Authority, Conservation Board, National Landscape Partnership, or Joint

Advisory Committee) can assist the relevant authority. Relevant authorities should also refer to the Protected Landscapes Targets and Outcomes Framework. A relevant authority should take appropriate, reasonable, and proportionate steps to explore measures which further the statutory purposes of Protected Landscapes. As far as is reasonably practical, relevant authorities should seek to avoid harm and contribute to the conservation and enhancement of the natural beauty, special qualities, and key characteristics of Protected Landscapes. A relevant authority should be able to demonstrate with proportionate, reasoned, and documented evidence the measures to which consideration has been given when seeking to further the statutory purposes of Protected Landscapes - for example, policies, strategies, operational procedures, estate management plans, investment plans, contracts, works instructions, assessments and reports which should be able to evidence the proper discharge of the duty by the relevant authority. For development plan making and development management decisions affecting a Protected Landscape, a relevant authority should seek to further the purposes of the Protected Landscape - in so doing, the relevant authority should consider whether such measures can be embedded in the design of plans and proposals, where reasonably practical and operationally feasible. For the development and management of land, water and estates, relevant authorities should seek to further the purposes of the Protected Landscape when designing and undertaking these activities, where reasonably practical and operationally feasible. What are the statutory purposes that you should seek to further when exercising a function in the Protected Landscape it affects? Do measures which would further the purposes align with and help to deliver the targets and objectives in the Protected Landscape's Management Plan? Are such measures appropriate and proportionate to the type and scale of the function and its implications for the area? For instance, are measures in keeping with the natural beauty, the special qualities and key characteristics of the Protected Landscape? Could the measures contribute to the conservation and enhancement of the Protected Landscape's wildlife, ecological value and quality, geological and physiographical features, water environment, cultural heritage, dark skies, tranquillity, opportunities for access to nature, and landscape character for which the area was designated? Are there ongoing management needs for these measures? How will the measures be funded and secured? Has the relevant Protected Landscape team been approached for their views on whether or not measures help to deliver the Protected Landscape's Management Plan and further the purposes of the designation? Public authorities must also comply with the strengthened Biodiversity Duty that the Environment Act 2021 introduced. You should consider how your actions taken to comply with the Biodiversity Duty are complementary and if you have met both duties in full through your decisions. The statutory purposes of National Landscapes (areas of outstanding natural beauty) are:

- conserving and enhancing the natural beauty of the area of outstanding natural beauty The statutory purposes of National Landscapes (areas of outstanding natural beauty) with Conservation Boards are:
- conserving and enhancing the natural beauty of the area of outstanding natural beauty
- increasing the understanding and enjoyment by the public of the special qualities of the area of outstanding natural beauty The Management Plan describes the natural beauty, special qualities and key characteristics of a Protected Landscape. This will articulate the features of the landscape which warrant its nationally designated and protected status. The duty also applies to functions undertaken outside of the designation boundary which affects land within the Protected Landscape. Natural beauty, special qualities, and key characteristics can be highly dependent on the contribution provided by the setting of a Protected Landscape. Aspects such as tranquillity, dark skies, a sense of remoteness, wildness, cultural heritage or long views from and into the Protected Landscape may draw upon the landscape character and quality of the setting. Functional connectivity is also important where there are flows or close interconnection between the Protected Landscape and its setting, for example:
 - a shared water catchment and management of water resources
 - ecological connectivity where species are able to move across and between the designated and non-designated area
 - Rights of Way, Open Access Land and other recreational links joining the designated area to the wider countryside Development and the management of land, water and estates located in the setting have the potential to adversely affect the natural beauty, special qualities, and key characteristics of a Protected Landscape.

Response from the National Landscapes Association to the consultation from Ministry of Housing, Communities and Local Government: Proposed reforms to the National Planning Policy Framework and other changes to the planning system September 24

Contact: Ruth Larbey, Policy and Advocacy Manager (ruth.larbey@national-landscapes.org.uk)

The National Landscapes Association (NLA) is a registered charity that supports the mission to conserve and enhance natural beauty in National Landscapes and other protected areas. One of our key aims is to support and develop a network of ambitious National Landscape teams and partnerships that have a strong collective voice and a

positive impact on the places for which they care. This consultation response has been developed by the National Landscapes Association in collaboration with the Planning and Placemaking specialist panel of representatives from across the National Landscapes network.

National Landscapes Association acknowledges the Government's aspiration to build 1.5 million homes over the next five years. Our response to the September 2024 consultation on the National Planning Policy Framework (NPPF) is intended to help ensure that this is done in a way that delivers the right homes in the right places. National Landscapes are areas whose natural beauty is so outstanding that it is in the nation's interest to safeguard them. They are also living and working environments that need to help mitigate and adapt to the impacts of climate change. As such, we recognise that some degree of development may be appropriate in these areas in order to sustain vibrant and thriving local communities and to achieve net zero. This development should be delivered in a way that is compatible with and, ideally, positively contributes to the statutory purpose of conserving and enhancing the natural beauty of these areas.

We support the Government's statement that 'existing protections for land covered by existing designations will be maintained'.¹ However, the proposed reforms would set an expectation for a quantum of housing development, in local authority areas that overlap with National Landscapes, that is likely to result in significant harm to the natural beauty of our National Landscapes. As such, the reforms would conflict with the statutory purpose of conserving and enhancing this natural beauty. The reforms would also conflict with the statutory duty to seek to further this purpose (the 'seek to further' duty).² Therefore, we consider that the proposed reforms would not be legally compliant in this regard.

We believe that the Government's aspiration to build 1.5 million homes over the next five years can be delivered in a way that would be less harmful to the natural beauty of our National Landscapes than would be the case with the proposed reforms. In particular, we recommend that:

- the standard method for calculating housing need should: (i) maintain an urban uplift (with amendments to the current urban uplift calculation); and (ii) reduce the extent to which 'affordability' is factored in (at least compared to the proposed reforms);

- the NPPF should make more explicit reference, including in paragraphs 35(a) and 61, to the fact that there may be circumstances where the protection afforded to areas or assets of particular importance, including National Landscapes, may mean that objectively assessed needs cannot be met in full.

The reduction in the extent to which affordability is factored into the standard method could be balanced by maintaining an urban uplift, thereby still achieving the target of 1.5 million homes over five years (an average of 300,000 homes per annum). The National Landscapes Association supports the national aspirations to achieve ‘net zero’. However, we are concerned about the proposed wording at the start of paragraph 164, which states that ‘local planning authorities should support planning applications for all forms of renewable and low energy development’. This wording could give the impression that all proposals for renewable and low carbon energy should be permitted. This should not be the case, particularly in National Landscapes and their settings, where such proposals, particularly large-scale schemes, could potentially conflict with the statutory purpose of conserving and enhancing natural beauty and with the ‘seek to further’ duty. We recommend that the proposed wording at the start of paragraph 164 should be caveated to make it clear that the impacts of such proposals still need to be addressed as part of the decision-making process, including in the overall planning balance. As indicated above, we support the fact that the Government is maintaining (i.e. not weakening) the protection afforded to land covered by existing designations. However, with regards to National Landscapes, we consider that it would be appropriate to strengthen this protection, rather than just maintaining it. For example, we recommend that paragraphs 182 and 183 of the NPPF should be strengthened to better reflect the ‘seek to further’ duty. We acknowledge that the Government isn’t seeking views on this issue through the current consultation. However, we would like to engage with the Government to discuss how this issue might be addressed in any future NPPF consultations. In the site selection report for Exmouth published in August 2024, Exmo_24, land to the north of Salterton road (opposite this site) and sits just north of the ED national landscape, the site was rejected for allocation as not seen as appropriate due to being quiet open and exposed in landscape terms and large parts have a rural rather than urban fringe character. East parts are remote from services and facilities and if developed would form a quite a large tongue of development projecting into open countryside and designated national landscape. On account of potential adverse impacts the site is not recommended for development, this would have been for 250 houses. Exmo_17 was agreed for allocating despite being a poor choice for development but in context of plan strategy directing large scale development to Exmouth on balance despite site limitation considerations allocation is seen as appropriate. Sensitive in landscape terms with extensive views south, more tranquil and more stark north, but the report fails to mention the wide views you get

from the top of the site. Fields of low ecological value do still provide a habitat for wildlife. Deer have been seen in the fields. There is not a frequent bus service. Littleham village has a pub, a seasonal café but no shops. The neighbourhood plan talks of the built up area boundary (BUAB) to cater for and contain the town and future planned development needs to protect the open countryside. There is a presumption against development in the National Landscape outside of the defined boundary. This is particularly relevant to Exmouth given the very special environment that surrounds it. However, the amount of housing development in Exmouth without the provision of adequate infrastructure argues against any development outside the boundary. The neighbourhood plan will not be allocating sites for housing outside the BUAB. Exmouth should not be a tier 1 site as does not offer potential for accommodating growth and development. Even the EDDC are not based in Exmouth, and instead are based at Honiton. Site Exmo_ 17 is a large, sloped site area of open space that is to the east of the historic Village of Littleham. The entire site is within the National Landscape, formerly Area of Outstanding Natural Beauty (AONB) and sits outside of the built-up area boundary (BUAB). It contains a network of agricultural fields that are currently farmed and a well-established walkway and cycle path, as well as the Littleham Brook and multiple Historic Environment Records (HERS). In the current neighbourhood plan the AONB is a designation that recognises the protection of its special landscape as being of national importance, equal to landscapes of our national parks. It also states that development outside of BUAB will not be supported. According to the draft plan there is no direct infrastructure concerns, but if developed there would be large scale infrastructure needs. The whole site currently does have direct infrastructure concerns. South of the site is Castle Lane, a single narrow country lane with no pavement which is in a high flood zone area (as per the current Environment Agency Flooding Plan) due to proximity to Littleham Brook and surface water run-off. West of the site is Capel Lane, a narrow road, which is sealed off to traffic 1/3 of the way up and is busy already with traffic accessing Littleham Village and the surrounding housing estate. Site 15 would have its access from Capel Lane, and this currently has a tall hedgerow across and is on one of the narrowest parts of the Lane, close to another road junction. Both Capel Lane and Castle Lane join Littleham Road which can be busy with traffic especially when Devon cliffs and World of Country life is open. Access through Littleham Village can be busy due to the bridge access near the Clinton Arms being for single traffic despite being widened in the 1930s. North of the site is B3178 (Salterton Road), a busy main road. The site access that would need to be created is opposite a very busy junction off Liverton Business Park. It is also where the local Ambulance and Fire Station is based. Recently the junction was extended to help ease traffic but has not been effective. Further down (Salterton Road) are traffic lights, but traffic lights here would be ineffective due to the increase in stationary traffic it would cause. There are no public pathways along the site's boundary with Salterton Road and it would be difficult to create a public crossing as Salterton road slopes downwards and vision would be poor for oncoming traffic.

North of the site is next to a very large underground water reservoir and there is evidence of underground piping going southwards through the site, possibly a private network. There is also Littleham ponds which are evidenced on the current OS maps. Littleham Brook runs east to west, south of the site with a pumping station further up. Running east to west through the middle of the site is the former historic Exmouth to Budleigh railway line which is now a well valued cycle path and walkway. It forms part of the National Cycle Network (Sustrans) NCN2 from Dover to St Austell and the international Tour de Manche between Plymouth and Poole. This is a valued form of green infrastructure valued by not only the local community, but further afield as well. There are 9 design principles to be on the Sustrans including its attraction and enhanced ecological features as well as being safe and accessible traffic free paths. Its currently a free to use and safe path for cyclists and walkers of all ages and accessibility needs, with no risk of potential harm from vehicles. It also helps to support both health and wellbeing of the community, deliver wider benefits for nature and support efforts to address climate change (an issue raised in the NPPF, p27 paragraph 92c and p28 paragraph 98). The site sits outside of the BUAB and is further away from local amenities and the town centre. The local historic Littleham village contains a pub, 2 community halls and a seasonal tearoom, but no shops. The closest supermarket and post office from the furthest part of the site would be more than 1600 metres. There is a small Primary School in Littleham but would be some distance from the furthest part of the site. Other primary schools and the only secondary school would not be within walking distance. The bus service is unreliable and the only bus directly to Exeter is now mainly from the town centre (a good hours walk from the closest area of the site). The closest train station is on the outskirts of Exmouth town centre and therefore not local to the site. These issues alone would add to more burdening traffic and an increase in pollution and carbon emission. Site Exmo_17 is protected by the Countryside and Rights Of Way Act 2000 (CROW). It protects the land to conserve and enhance its natural beauty. AONB require good quality scenic landscape that is relative wild due to distance from housing or having few roads, where natural sounds is predominant. It can also include natural heritage features such as habitats and cultural heritage. I agree that site 17 is very sensitive in landscape terms due to its location and visual prominence. The whole site sits within the AONB and sits above the local built-up area. The fields are currently used for agricultural use by the local farms and is rated as good to moderate. The site slopes north to south which offers extensive views into and out of site including from looking into and out of the AONB and the Southwest Coast Path. The whole site is also in the Coastal Preservation Area and borders onto the Jurassic Coastline which is part of the UNESCO World Heritage Site. I disagree that the higher northerly parts are starker, as further north of the site offers some of the best views in Exmouth of the far-reaching views of the AONB, Maer Valley and coastline. The whole site has a particular tranquillity of peace away from traffic and the built-up areas of Exmouth and a distinctive rural countryside feel, that over the years, other areas of

Exmouth has lost to development. The site is also intimate in nature with mature hedgerows and trees, including 2 trees with a TPO. Littleham Brook south of the site, also supports the local natural habitat. The site boarder's local woodland areas, private gardens, and the local churchyard. Currently the churchyard west of the site is an established biodiversity for the local flora and fauna. The whole site offers a habitat as well as a wildlife corridor for local wildlife including Bats, Birds, Hedgehogs, Deer, and Badgers. Looking at the Valley Parks and working draft plan for Exmouth, site 17 is a suggested area of land of local amenity importance due to being outside of the BUAP and in the AONB and could easily join up to the Maer Valley Park, a supposed greenspace for the community to access and enjoy. The site would also make a wonderful Dark Night at Skies protected area due to having very little light pollution facing eastwards and the only light comes from the odd farmhouse. The dark skies also help to support the local nocturnal wildlife. Paragraph 84 of the NPPF supports the need of open space. Exmouth Site 10, land to the North of B3178 (Salterton Road) was rejected for similar reasons that site 17 has. Site 10 consists of improved grassland fields that are open and exposed in landscape terms and large parts have a rural rather than urban fringe character.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Please stop the idea of building on a protected area of the National Landscape on the eastern edge of Exmouth (Exmo_17), which is outside the Exmouth Town Build Up Area Boundary (BUAB), that was agreed in the Neighbourhood plan in 2015. The Plan was to provide the community's vision for the future until 2031 and set out clear planning policies to realise the vision and to sit alongside the East Devon Local Plan (EDLP) at the same time, carrying equal legal weight. The Neighbourhood Plan appears to of been ignored in the new draft version of the EDLP.

As required by the Localism Act, the Neighbourhood Plan is accorded with higher level planning policies. The Plan is concerned with land use and its policies to help inform future planning applications. Site Exmo _17 would never have been considered for development in the Neighbourhood plan and the idea of a large-scale housing development, goes against the views of the local community. Both East Devon County Council (EDDC) councillors and Clinton Devon Estates (the landowner) have not listened to the views of the community and appear to be pushing this development through. To have Bloor Homes , the potential house builder holding public consultations, when the new Local Plan has not been finalised and planning requests for screening opinion and EIA scoping request for the proposed development of up to 450 houses (was initially for 410 houses) on the planning portal demonstrates that the community views are not being listened to. When I attended the Bloor Homes event, the plan is to enhance the public open space, as well as the housing, employment land and a community hub. We already have an amazing space to walk, cycle and enjoy the open countryside. What is planned, will not enhance, but permanently destroy the National Landscape. Formally known as the Area of Outstanding Natural Beauty (AONB), it really is a beautiful area. The views are far reaching of the countryside, with its rural charm and is valued by the community as a place to get away for exercise and health and wellbeing. Exmo_17 is also near to and can be seen from the Southwest Coast Path, which is also part of the National Trail, called the King Charles III England Coast Path. It

is part of a legacy to be enjoyed by walkers. However, the far- and wide-reaching views from the SW coast path, will be ruined by this potential housing development. The National Planning Policy Framework (NPPF) talks of sustainable development which was agreed in the Neighbourhood plan. The BUAB for Exmouth was to contain the town's future planned development needs and to protect the open countryside outside the boundary from development. This is particularly relevant to Exmouth given the very special environment surrounding the town such as the National Landscape, Jurassic coast and the Estuary. Site Exmo_17 provides a much-valued green space of local amenity value. The site has the combined footpath and cycleway with countryside views and tranquillity freely available to the public. By protecting the site, it would also continue to ensure a much-needed wildlife corridor. It is of great importance to protect existing open spaces. Planning authorities have a responsibility to minimise impacts and provide net gains in biodiversity. Green corridors provide for wildlife movement in turn enhancing biodiversity, in effect bringing the joys of the countryside into the town. Site Exmo_17 already provides this and can continue to do this in the future if not developed. National Landscapes: areas legally designated as areas of outstanding natural beauty under the National Parks and Access to the Countryside Act 1949 and Countryside and Rights of Way Act 2000.

In the National Landscapes briefing November 2024 there was discussion of Section 85 of the Countryside and Right of Way Act 2000 (CRoW Act), which was amended by the Levelling-up and Regeneration Act in December 2023. It requires relevant authorities, in exercising or performing any function that affect AONBs in England, to “seek to further the purpose of conserving and enhancing the natural beauty of the Area of Outstanding Natural Beauty.” This is a statutory duty, which has been in force since December 26, 2023. The use of the word ‘duty’ in the legislation means that it is something all relevant authorities must do. The duty is considered to be a strengthening of the previous ‘duty of regard’ and seeks positive outcomes for the natural beauty, such as with National Landscapes. Within the planning context, relevant authorities are the Local Planning Authorities, the Planning Inspectorate and the Secretary of State, along with Parish Councils producing Neighbourhood Plans. The duty applies to all aspects of the development management process and the plan-making process such as planning application decisions, enforcement, and decisions relating to planning policies and site allocations in Local Plans. The duty is considered to require a pro-active approach by the decision-maker; relevant authorities are expected to be able to demonstrate that they have fulfilled the duty, and how compliance with the duty has been embedded in the plan-making and decision-making process. Natural England have advised that relevant authorities must take all reasonable steps to explore how the statutory purposes of the Protected Landscape can be furthered. The duty applies to plan-making and decision-making in relation to, or so as to affect, land in National Landscapes, not

only in considering proposals within a National Landscape, but also for affecting its setting. It is important to ensure that ‘to conserve and enhance’ is a priority in every relevant decision. The statutory duty needs to be considered in tandem with the National Planning Policy Framework (NPPF), in particular paragraphs 11, 182 and 183. Paragraph 182 of the NPPF (2023) sets out that great weight should be given to conserving and enhancing landscape and scenic beauty in national Landscapes, whereas conservation and enhancement of wildlife and cultural heritage are important considerations. However, it is important to remember that natural beauty is not just the look of the landscape, but includes landform and geology, plants and animals, landscape features, and the rich history of human settlement over the centuries. It includes landscape and scenic quality and natural heritage such as species, habitats, geology and physical such as wildness, tranquillity and dark skies, and cultural heritage (including cultural traditions and the historic and other built environment that makes the area unique). (Levelling-up and Regeneration Act 2023 section 245; Countryside and Rights of Way Act 2000 section 85). Natural England (2023) states enhanced duty in relation to Protected Landscapes refers to National Landscapes (AONBs) and National Parks. Natural England’s Planning policies and decisions must also reflect relevant international obligations and statutory requirements. Historic England make clear that the historic environment is fundamental to the distinctive character, sense of place and natural beauty of each National Landscape. It is the conservation and enhancement of all this natural beauty (usually defined in the specific statutory AONB Management Plan) that is the primary purpose of designation, and that Local Planning Authorities must consider in discharging their duty under CRoW Act (2000) s.85. LPAs are advised to ensure internal Local Authority legal teams are aware of the s.85 duty. Use of the relevant AONB Management Plan • The Management Plan, which is a statutory document, which will have been adopted by the Local Authority and which formulates their policy for the management of the area and for the carrying out of their functions in relation to it. It is the key principle for ensuring that the statutory purposes of the National Landscapes are met, and is a material consideration in the planning process. Conserving and enhancing the natural beauty of the specific National Landscape will mean conserving and enhancing the character components or special qualities identified in the Management Plan; supporting the Management Plan Objectives, Policies and/or Principles as set out for each of these; and following any Management Plan actions set out for each. Local Planning Authorities must be able to demonstrate that they have complied with the strengthened duty in any decision or action that impacts or could potentially impact on the National Landscape. To demonstrate that they have sought to further the purpose of designation in making decisions regarding planning policies, site allocations, and development management (including planning enforcement), it is considered LPAs will need to; establish the facts about the natural beauty of the area, especially with reference to the statutory Management Plan for the specific National Landscape; identify what comprises the natural beauty, using

descriptions of natural beauty, including Statements of Significance, description of key characteristics and special qualities, as set out in National Landscape Management Plans; and the natural beauty criteria (Natural England (2017) Areas of outstanding natural beauty: designation and management; Natural England (2021) Guidance for assessing landscapes for designation as National Park or AONB in England). The duty to seek to further the purpose of conserving and enhancing the natural beauty of National Landscapes applies to the full range of aspects of the plan-making process. An LPA will need to be able to demonstrate how it has, throughout all stages of the preparation of the Local Plan, sought to further the purpose of conserving and enhancing the natural beauty of the National Landscape. This includes at examination stage, addressing the s. 85 duty actively in responses to Inspector's Findings and in any proposed modifications to Local Plans including consideration of Neighbourhood Plans and to ensure the overall vision and development strategy would align with the objectives/principles/policies of the relevant National Landscape Management Plan. To identify how much of a district's objectively assessed need can be met without harming the natural beauty of the relevant National Landscape, particularly where meeting the need would require allocations that would not further the purposes of National Landscape designation which may involve setting a lower Local Plan housing requirement figure. If a draft planning policy would not align with the duty to seek to further the applicable legislative purpose (e.g. if it would conflict with any of the Management Plan's objectives/principles/policies), then consider amending the policy such that you could confidently say the decision does seek to further the relevant purpose. For decisions relating to site allocations assess what impact the proposed site allocation would have on the natural beauty of the National Landscape, considering its scale, location and landscape setting with reference to the character components/special qualities set out in the National Landscape Management Plan. (In this regard, consider including a specific criterion regarding 'natural beauty' within the Strategic Housing Land Availability Assessment (SHLAA)/Housing and Economic Land Availability Assessment (HELAA), and within the Sustainability Appraisal). Consider how the natural beauty of the National Landscape might be affected, were the site to be allocated for development. Remember to consider the holistic concept of natural beauty. Consider whether this would cause harm to the natural beauty of the National Landscape. Consider the objectives/principles/policies of the National Landscape Management Plan. Natural England have advised that the strengthened duty underlines the importance of avoiding harm to the statutory purposes of Protected Landscapes. Ensure clear differentiation between any proposed measures that seek to mitigate or compensate for harm (e.g., like-for-like replacement), and those that further the conservation and enhancement of the natural beauty of the National Landscape. Natural England have advised that measures that further the purposes are required in addition to mitigation. If the measures would have a neutral effect, consider what modifications would help further the purpose of conserving and enhancing the natural

beauty. If promoting a site allocation would not align with the duty to seek to further the conservation and enhancement of natural beauty, then consider amending or deleting a site allocation such that you could confidently say the decision does seek to further the statutory purpose. (For example, choosing not to allocate a particular site within or close to the National Landscape boundary could demonstrate compliance, where this results in avoiding harm.) Evidence how the LPA has sought to further the purpose of conserving and enhancing the National Landscape in its decision, with reference to aligning with National Landscape Management Plan objectives/principles/policies. Natural England (2023). The duty to seek to further the purpose of conserving and enhancing the natural beauty of National Landscapes applies to the full range of development management decision-making, including considering applications for outline, full and reserved matters, listed building consent, applications for works to protected trees, and prior notifications, along with enforcement work on planning breaches. An LPA should also ensure that local validation checklists require the submission of sufficient, specific information to enable them to fulfil the s.85 duty in their decision-making. For decisions relating to planning applications, assess what impact the proposal would have on the purpose of designation; consider how the natural beauty of the area might be affected, were the proposal to go ahead how the proposal would align with the National Landscape Management Plan objectives/principles/policies. Consider whether this would cause harm to the natural beauty of the area. Natural England have advised that the strengthened duty underlines the importance of avoiding harm to the statutory purposes of Protected Landscapes. Where harm is identified, enhancements themselves, including biodiversity net gain (BNG) provision, are unlikely to be sufficient to align with the duty, which has the dual consideration of conserving and enhancing natural beauty. Also, ensure that any ‘enhancements’ within the proposal do genuinely align with, and help deliver, the objectives, principles and/or policies and resulting actions of the specific National Landscape Management Plan, by way of scope and location. Natural England have advised that the proposed measures should align with and help to deliver the aims and objectives of the designated landscape’s statutory Management Plan. Ensure a clear differentiation between any proposed measures that seek to mitigate or compensate for harm (e.g. like-for-like replacement), and those that further the conservation and enhancement of the natural beauty of the National Landscape. Natural England have advised that measures that further the purposes are required in addition to mitigation. If the measures would have a neutral effect, consider what amendments would help further the purpose of conserving and enhancing the natural beauty. Could any conditions attached to any permissions help to conserve and enhance the natural beauty? As part of this assessment, consider the degree to which the effect on natural beauty has been articulated by the applicant (e.g. through LVIA’s, heritage statements, ecology and arboriculture assessments, lighting statements and transport assessments); scrutinise the submission against the Management Plan in this regard. If

supporting an application would not align with the duty to seek to further the conservation and enhancement of natural beauty, then consider seeking amendments or refusing permission, such that you could confidently say the decision does seek to further the statutory purpose. Evidence how the LPA has sought to further the purpose of conserving and enhancing the National Landscape in its intended decision, with reference to aligning with the National Landscape Management Plan objectives/principles/policies. It is recommended that this evidence is referenced in officer reports/committee reports. N.B. Consultation on planning applications with the relevant National Landscape team by a Local Planning Authority does not in itself constitute compliance with the strengthened duty. It is the responsibility of relevant authorities themselves to comply with the duty, and to assess and record how they have complied with the duty, in exercising or performing any functions affecting a National Landscape. For applications to make a tree preservation order (TPO), or when assessing applications for works to protected trees (those with a TPO or in a Conservation Area), actively consider the s.85 duty by ensuring the impact on the natural beauty of the National Landscape forms part of the assessment of ‘amenity’ when considering whether to make a TPO; and when making decisions on applications for works to protected trees, ensure the impact on the natural beauty of the National Landscape forms part of the assessment of the amenity value of the tree or woodland and the likely impact of the proposal on the amenity of the area. S.84 of the CRoW Act (2000) sets out that LPAs have power “to take all such action as appears to them expedient for the accomplishment of the purpose of conserving and enhancing the natural beauty of the area of outstanding natural beauty, or so much of it as is included in their area”. Assess if the planning harms the natural beauty of the National Landscape, with regard to the Management Plan Statement of Significance and objectives, principles and/or policies. Consider if any amendments could help further the purpose of conserving and enhancing the natural beauty. Ensure clear differentiation between any proposed measures that seek to mitigate or compensate for harm (e.g., like-for-like replacement), and those that further the purpose of conserving and enhancing the natural beauty of the National Landscape. Natural England have advised that measures that further the purposes are required in addition to mitigation. The housing and economic land availability assessment does not determine whether a site should be allocated for development, but it’s up to the development plan itself to determine which of those sites are the most suitable to meet those requirements. It appears that the EDDC are using our National Landscape to meet housing targets when brownfield sites have been allowed by the planner to build inappropriate housing. Plan-making bodies should consider constraints when assessing the suitability, availability and achievability of sites and broad locations. For example, assessments should reflect the policies in footnote 6 of the National Planning Policy Framework, which sets out the areas where the Framework would provide strong reasons for restricting the overall scale, type or distribution of development in the plan area (such as the Green Belt and other

protected areas). Neighbourhood planning bodies may use the method set out in this guidance to assess sites but any assessment needs to be proportionate to the nature of the plan. Neighbourhood planning bodies may also make use of existing site assessments prepared by the local planning authority as a starting point when identifying sites to allocate. The East Devon planning guidance for National Landscapes states that they are Nationally designated protected landscapes. Receives the highest level of protection under the National Planning policy unique and special area. Development proposals in and affecting the national landscape must have a regard to the conservation and enhancement of its natural beauty. Give great weight to conserving and enhancing the landscape and scenic beauty of the area in order to be in conformity with the national planning policy framework. National landscapes are becoming attractive, profitable places for housing and development. Plan-making bodies should consider constraints when assessing the suitability, availability and achievability of sites and broad locations. For example, assessments should reflect the policies in footnote 6 of the National Planning Policy Framework, which sets out the areas where the Framework would provide strong reasons for restricting the overall scale, type or distribution of development in the plan area (such as the Green Belt and other protected areas). Plan-making bodies should consider constraints when assessing the suitability, availability and achievability of sites and broad locations. For example, assessments should reflect the policies in footnote 6 of the National Planning Policy Framework, which sets out the areas where the Framework would provide strong reasons for restricting the overall scale, type or distribution of development in the plan area (such as the Green Belt and other protected areas). Plan-making bodies should consider constraints when assessing the suitability, availability and achievability of sites and broad locations. For example, assessments should reflect the policies in footnote 6 of the National Planning Policy Framework, which sets out the areas where the Framework would provide strong reasons for restricting the overall scale, type or distribution of development in the plan area (such as the Green Belt and other protected areas). National Planning Policy Framework Plans and decisions should apply a presumption in favour of sustainable development. For plan-making this means that all plans should promote a sustainable pattern of development that seeks to: meet the development needs of their area; align growth and infrastructure; improve the environment; mitigate climate change (including by making effective use of land in urban areas) and adapt to its effects; strategic policies should, as a minimum, provide for objectively assessed needs for housing and other uses, as well as any needs that cannot be met within neighbouring areas, unless the application of policies in this framework that protect areas or assets of particular importance provides a strong reason for restricting the overall scale, type or distribution of development in the plan area or any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole. For decision-taking this means, not approving development proposals in protected

areas of particular importance such as National Landscapes and provides a strong reason for refusing the development proposed; or any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole, having particular regard to key policies for directing development such as housing to sustainable locations, making effective use of land, securing well-designed places and providing affordable homes, individually or in combination. As established through statements of common ground (see paragraph 28) the policies referred to are those in this Framework (rather than those in development plans) relating to: habitats sites (and those sites listed in paragraph 194) and/or designated as Sites of Special Scientific Interest; land designated as Green Belt, Local Green Space, a National Landscape, a National Park or defined as Heritage Coast; irreplaceable habitats; designated heritage assets and areas at risk of flooding or coastal change. Great weight should be given to conserving and enhancing landscape and scenic beauty in National Parks, the Broads and National Landscapes which have the highest status of protection in relation to these issues. The conservation and enhancement of wildlife and cultural heritage are also important considerations in these areas and should be given great weight. The scale and extent of development within all these designated areas should be limited, while development within their setting should be sensitively located and designed to avoid or minimise adverse impacts on the designated areas. When considering applications for development within National Parks, the Broads and National Landscapes, permission should be refused for major development other than in exceptional circumstances, and where it can be demonstrated that the development is in the public interest. Consideration of such applications should include an assessment of: a) the need for the development, including in terms of any national considerations, and the impact of permitting it, or refusing it, upon the local economy; b) the cost of, and scope for, developing outside the designated area, or meeting the need for it in some other way; and c) any detrimental effect on the environment, the landscape and recreational opportunities. Clinton Devon Estates (CDE) wildlife vision to embed wildlife improvement into all business activities and hand onto future generations a countryside more diverse, resilient, functional and ecologically valuable than we have today. CDE Strategy 2030 doing today what is right for tomorrow. Development proactive approach will be taken to identifying appropriate opportunities to provide homes and business premises for local people with sustainability at the forefront of decision making. Net zero carbon emissions by 2030. Agriculture farming models should provide products customers want to buy, enhance our soils and natural environment and provide viable business models which wildlife can flourish. Increase woodland cover. Enhancing soils and natural environment. The Rt hon Steve Reed 16th December 2024 protected landscapes to be strengthened with new legislation and guidance to protect nature. This move comes amid the Government's push to promote access to nature, as part of the wider Plan for Change. New powers are to be granted to the country's iconic National Parks

and National Landscapes to boost nature's recovery and access to the outdoors. New legislation and guidance will give National Parks and National Landscapes a clear mandate to widen the public's access to nature through strengthened purposes and make changes to improve their governance that will allow for greater innovation and collaboration to prepare them for the future. The changes announced will see more trees planted, more peat restored and more habitat created, supporting Protected Landscapes to play a leading role in meeting Net Zero, Environment Act targets and the commitment to protect 30% of land for nature by 2030 as part of our Plan for Change. Covering a quarter of England's land area, improving the state of nature in our National Parks and Landscapes is vital to the health of our ecosystems. Our Protected Landscapes are home to nationally important habitats and our most iconic species – yet many are in a poor condition with the wildlife that lives within their boundaries in steep decline and the waterways that give many of these landscapes their magic now sadly polluted. The measures will include a general power of competence for National Park Authorities, which will clarify their legal framework, removing restrictions which prevent an entrepreneurial approach, and cutting through bureaucracy to remove barriers to achieving more for people and nature. The package will also strengthen the role that public bodies, including water companies, must play in delivering better outcomes for nature, water, climate and access to nature in these special places, through new regulation that will support public bodies and Protected Landscape organisations to work more closely together. Refining the purpose and powers of National Parks and National Landscapes will promote access to nature for the millions of people who visit these iconic landscapes each year, helping them to support a thriving rural economy and enable people to reap the benefits of spending time in greener and wilder places. These changes will empower Protected Landscapes to deliver more for nature and tackle climate change over the next 75 years and beyond. This reflects their vital importance to the nation – from protecting us from flooding, to celebrating our heritage and restoring our health and wellbeing. It's seventy-five years since our National Parks and National Landscapes were created, and they have done incredible work protecting some of our most treasured and beautiful landscapes. But so much of our countryside and wildlife is in decline so we must do more to protect it. To mark this anniversary the Government will introduce new laws to boost protections for the natural world, strengthen our National Parks and National Landscapes and increase opportunities for millions of people to enjoy the great outdoors. As an immediate step, new guidance is being published today that will help public bodies work together to make these special places greener, wilder and more accessible. Natural England Chair Tony Juniper said The 1949 National Parks Act laid the foundations for modern nature conservation, enshrining in law the means to protect dozens of exceptional landscapes and thousands of our best wild places while bringing joy to millions of people across multiple generations. Despite the achievements, however, these legal protections have not been sufficient to prevent Nature's continuing decline. And whereas in decades past

the challenge was about conservation, today we must not only hang on to what is left, but to also invest in Nature's recovery. Our countryside and green spaces are a source of great national pride, and government's commitment to delivering on nature, increasing access, planting three new National Forests, creating nine new National River Walks and empowering communities to create new parks and green spaces in their communities with a new Community Right to Buy. This Government is committed to restoring nature across the country, which is why we have wasted no time in announcing a rapid review of the Environmental Improvement Plan, which thriving Protected Landscapes will be essential to delivering. This will set out pathways to clean up our waterways, reduce waste across the economy, plant millions more trees, improve air quality and halt the decline in species by 2030. A healthy natural environment is crucial to the nation's health and prosperity, which is why nature recovery is an integral part of the Governments Plan for Change to create a decade of national renewal. Protected Landscapes – the collective term for National Parks and National Landscapes – range from lowland landscapes, such as the Cotswolds and the Norfolk Coast, to uplands such as the North Pennines and the Lake District. Protected Landscapes contain half of England's priority habits and Sites of Special Scientific Interest, 60% of deep peat and around 88% of heather and acid grassland habitats. Restoring our Protected Landscapes will be essential to protecting 30% of the UK's land and sea by 2030. Protected Landscapes' refers to National Parks, the Norfolk and Suffolk Broads and National Landscapes in England. National Landscapes' is the rebranded name for areas of outstanding natural beauty (AONBs). This name change is not statutory. The Protected Landscapes duty guidance sets out how the Protected Landscapes duty is intended to operate and provides broad principles to guide relevant authorities in complying with it. Relevant authorities must now 'seek to further' the statutory purposes of Protected Landscapes. This replaces the previous duty on relevant authorities to 'have regard to' their statutory purposes. The duty is intended to facilitate better outcomes for England's Protected Landscapes, which are in line with their statutory purposes. The duty does not prevent relevant authorities from undertaking their statutory functions and discharging their legal duties and other responsibilities.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I writing to raise my concerns that there are major planning and legal issues regarding the inclusion of EXMO_17 site within the local plan and promoting such large scale development within the National Landscape, which also used to be part of the Coastal Presevation Zone. The change to the Coastal Preservation Zone boundary is another example of where the council ride rough shode over public opinion and the wishes of local residents. The inclusion of EXMO_17 within the plan is in direct contradiction of chapter 12 of the plan and in contradiction of the National Planning Policy Framework. The council members have also rejected other sites on landscape and AONB grounds and completely ignored those same grounds when considering EXMO_17. I attach a document I put together for the regulation 18 consultation detailing why EXMO_17 should not be in the local plan.

Full name: Chrissie Hunn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: As required by the Localism Act, the Neighbourhood Plan is accorded with higher level planning policies. The Plan is concerned with land use and its policies to help inform future planning applications. Site Exmo _17 would never have been considered for development in the Neighbourhood plan and the idea of a large-scale housing development, goes against the views of the local community. What is planned, will not enhance, but permanently destroy the National Landscape. Formally known as the Area of Outstanding Natural Beauty (AONB), it really is a beautiful area. The views are far reaching of the countryside, with its rural charm and is valued by the community as a place to get away for exercise and health and wellbeing. Exmo_17 is also near to and can be seen from the Southwest Coast Path, which is also part of the National Trail, called the King Charles III England Coast Path. It is part of a legacy to be enjoyed by walkers. However, the far- and wide-reaching views from the SW coast path, will be ruined by this potential housing development. The National Planning Policy Framework (NPPF) talks of sustainable development which was agreed in the Neighbourhood plan. The BUAB for Exmouth was to contain the town's future planned development needs and to protect the open countryside outside the boundary from development. This is particularly relevant to Exmouth given the very special environment surrounding the town such as the National Landscape, Jurassic coast and the Estuary.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Removal of EXMO_17 from the plan.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The inclusion of EXMO_17 is not sound, it is not justified nor is it consistent with National Policy. National Landscapes: areas legally designated as areas of outstanding natural beauty under the National Parks and Access to the Countryside Act 1949 and Countryside and Rights of Way Act 2000.

In the National Landscapes briefing November 2024 there was discussion of Section 85 of the Countryside and Right of Way Act 2000 (CRoW Act), which was amended by the Levelling-up and Regeneration Act in December 2023. It requires relevant authorities, in exercising or performing any function that affect AONBs in England, to “seek to further the purpose of conserving and enhancing the natural beauty of the Area of Outstanding Natural Beauty.” This is a statutory duty, which has been in force since December 26, 2023.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Removal of EXMO_17 from the plan and future protection of all areas of National Landscapes.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The inclusion of EXMO_17 is contrary to the Exmouth Neighbourhood plan and goes beyond the Built up area boundary (BUAB).

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.: I

believe that the proposed development of site EXMO_17, will mean an extension of Exmouth on the currently undeveloped East Devon National Landscape (formerly AONB) towards Budleigh Salterton. This would open the door that no protected landscape will be safe, despite the increase in protection of National Landscapes which has been outlined by the Mp Steve Reed. Inclusion of EXMO_17 in the EDDC Local Plan fails the consistency with national policy soundness test due to severe conflicts with statutory protections, national planning policy, and local policy obligations.

1. Direct Conflict with National Planning Policy Framework (NPPF) The National Planning Policy Framework (NPPF) provides unequivocal legal protection for National Landscapes: Paragraph 176: The highest level of protection must be given to conserving and enhancing landscape and scenic beauty in National Landscapes. Development should be strictly limited in these areas. The proposed extension fundamentally contradicts this principle, as it represents large-scale urban encroachment into a protected landscape. Paragraph 177: Major development in a National Landscape should be refused unless it passes exceptional circumstances tests and is in the public interest. This proposal fails every test: No overriding need: Housing or economic growth objectives do not constitute exceptional circumstances, particularly when alternative sites exist outside protected areas. Alternative locations exist: Other areas within East Devon can accommodate growth without violating protected land status. Severe environmental and landscape harm: The development irreversibly damages the area's ecological integrity, scenic character, and ecosystem services. Legal Precedent: High Court rulings have consistently upheld AONB/National Landscape protections, ruling

that economic development or housing targets do not override statutory protection. The approval of this proposal would invite an immediate legal challenge.

2. Breach of Statutory Duty Under the Countryside and Rights of Way Act 2000 (CROW Act, Section 85) Section 85 of the CROW Act places a mandatory legal duty on public authorities to conserve and enhance the natural beauty of National Landscapes. Any decision that fails to give great weight to protection is unlawful. By approving this proposal, East Devon District Council would be in breach of this duty, making the plan legally indefensible and subject to judicial review.

3. Direct Contradiction of the East Devon Local Plan and Policy Framework The proposed extension also fails to comply with East Devon's own planning policies, making it internally inconsistent and thus unsound: Strategy 46: Landscape Conservation and Enhancement and AONBs Requires that development must enhance, not harm, the special qualities of National Landscapes. The proposal would cause irreversible harm, violating this policy outright. Policy D1: Design and Local Distinctiveness Development must respect and protect local landscape character. The urban expansion into protected countryside undermines the distinctive rural and coastal identity of Budleigh Salterton and its surroundings. Urban Sprawl Prevention & Settlement Separation The merging of Exmouth and Budleigh Salterton is a serious planning concern. National and local policy explicitly protect the distinctiveness of settlements, ensuring they are not lost to uncontrolled expansion.

4. Environmental Destruction and Irreversible Harm The East Devon National Landscape is one of the most ecologically valuable and visually iconic landscapes in the UK. Development would result in: Biodiversity loss: This area hosts legally protected species and priority habitats under the Wildlife and Countryside Act 1981 and the UK Biodiversity Action Plan. Destruction of irreplaceable ecosystems: The undeveloped land acts as a natural carbon sink, floodplain, and wildlife corridor. Increased climate risk: Removing these natural defences increases flood risk, reduces climate resilience, and worsens ecological degradation.

5. Legal Risk of Judicial Review and Government Intervention This proposal is legally indefensible. If included in the Local Plan: It is highly likely to be legally challenged under the CROW Act and NPPF non-compliance. Past judicial reviews have struck down developments in National Landscapes where local authorities failed to provide a lawful justification. Conclusion: The Local Plan is Unsound and Legally Indefensible This proposal directly contradicts national policy, breaches statutory duties, violates East Devon's own Local Plan, and would likely be overturned in court. To remain legally compliant, policy-consistent, and defensible, East Devon District Council must exclude this proposal from the Local Plan.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: See previous answer

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: If EDDC agree to develop this site, they will be in breach of the statutory legislation that is there to protect National Landscapes from development.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: As a local member of the community I also see myself as a ambassador for the national landscape and would like to be involved in pteirctimg this site Exmo_17 for future generations.

Full name: Lawrence Hunn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The inclusion of EXMO_17 as a potential development site strongly contradicts the outstanding natural landscapes chapter of the plan. The inclusion of EXMO_17 is also against the National Planning Policy Framework paragraph 176 and 177. And can also be viewed as a breach of statutory duty under the CROW Act 2000 section 85.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO_17 as a potential development site from the plan.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The selection of EXMO_17 is not justified, identical arguments that could be used to rule-out EXMO_17 were used to discount other sites but we're not used for EXMO_17 for some reason. Examples are given towards the end of the attached pdf document.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: EDDC Should not

pursue development in EXMO_17 and it should be removed as a development area from the plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Lawrence Hunn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The inclusion of Land to the South of Littleham, (EXMO_17) is not legally compliant. The land highlighted for development is within the National Landscape (Formerly AONB) and therefore is a protected Landscape, both legally and within this very plan.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Removal of EXMO_17 as a future development site.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The selection of EXMO_17 as a development site is not justified. Other potential development sites were rejected due to their potential impact on the landscape. EXMO_10 reasons for rejection included the open and exposed nature of the site in terms of the landscape and its rural rather than urban fringe character. Honiton04 rejected due to its high landscape impact and the site being within the AONB. Honiton12 rejected due to the impacts on landscape, heritage, ANOB and the adjoining grade 2* church. Exactly the same situation as EXMO_17. EXMO_17 is not justified, neither is it consistent with national policies relating to development in the National Landscape.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: EXMO_17 should be removed as a development site from the plan.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The inclusion of EXMO_17 does not demonstrate any thought of corporation, neither does it show any respect for environmental designations.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Stephanie Hunns

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I

strong object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Full name: Caroline Hunt

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. ? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01. ? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9 ? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. ? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02. ? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B. ? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. ? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor’s, school, beach

etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. ? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01. ? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9 ? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. ? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02. ? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B. ? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: We strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

We believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

2(a). If yes, and you wish to support the legal compliance of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.: The policy was lawful

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: I believe that the proposed development of site EXMO_17, which by its very nature will mean an extension of Exmouth eastward on the currently undeveloped East Devon National Landscape (formerly AONB) towards Budleigh Salterton. Inclusion of EXMO_17 in the East Devon District Council Local Plan fundamentally fails the "Consistent with national policy" soundness test due to severe conflicts with statutory protections, national planning policy, and local policy obligations.

1. Direct Conflict with National Planning Policy Framework (NPPF) The National Planning Policy Framework (NPPF) provides unequivocal legal protection for National Landscapes: Paragraph 176: The highest level of protection must be given to conserving and enhancing landscape and scenic beauty in National Landscapes. Development should be strictly limited in these areas. The proposed extension fundamentally contradicts this principle, as it represents large-scale urban encroachment into a protected landscape. Paragraph 177: Major development in a National Landscape should be refused unless it passes exceptional circumstances tests and is in the public interest. This proposal fails every test: No overriding need: Housing or economic growth objectives do not constitute exceptional circumstances, particularly when alternative sites exist outside protected areas. Alternative locations exist: Other areas within East Devon can accommodate growth without violating protected land status. Severe environmental and landscape harm: The development irreversibly damages the area's

ecological integrity, scenic character, and ecosystem services. Legal Precedent: High Court rulings have consistently upheld AONB/National Landscape protections, ruling that "economic development" or "housing targets" do not override statutory protection. The approval of this proposal would invite an immediate legal challenge.

2. Breach of Statutory Duty Under the Countryside and Rights of Way Act 2000 (CROW Act, Section 85) Section 85 of the CROW Act places a mandatory legal duty on public authorities to conserve and enhance the natural beauty of National Landscapes. Any decision that fails to give "great weight" to protection is unlawful. By approving this proposal, East Devon District Council would be in breach of this duty, making the plan legally indefensible and subject to judicial review.

3. Direct Contradiction of the East Devon Local Plan and Policy Framework The proposed extension also fails to comply with East Devon's own planning policies, making it internally inconsistent and thus unsound: Strategy 46: Landscape Conservation and Enhancement and AONBs Requires that development must enhance, not harm, the special qualities of National Landscapes. The proposal would cause irreversible harm, violating this policy outright. Policy D1: Design and Local Distinctiveness Development must respect and protect local landscape character. The urban expansion into protected countryside undermines the distinctive rural and coastal identity of Budleigh Salterton and its surroundings. Urban Sprawl Prevention & Settlement Separation The merging of Exmouth and Budleigh Salterton is a serious planning concern. National and local policy explicitly protect the distinctiveness of settlements, ensuring they are not lost to uncontrolled expansion.

4. Environmental Destruction and Irreversible Harm The East Devon National Landscape is one of the most ecologically valuable and visually iconic landscapes in the UK. Development would result in: Biodiversity loss: This area hosts legally protected species and priority habitats under the Wildlife and Countryside Act 1981 and the UK Biodiversity Action Plan. Destruction of irreplaceable ecosystems: The undeveloped land acts as a natural carbon sink, floodplain, and wildlife corridor. Increased climate risk: Removing these natural defences increases flood risk, reduces climate resilience, and worsens ecological degradation.

5. Legal Risk of Judicial Review and Government Intervention This proposal is legally indefensible. If included in the Local Plan: It is highly likely to be legally challenged under the CROW Act and NPPF non-compliance. Past judicial reviews have struck down developments in National Landscapes where local authorities failed to provide a lawful justification. Conclusion: The Local Plan is Unsound and Legally Indefensible This proposal directly contradicts national policy, breaches statutory duties, violates East Devon's own Local Plan, and would likely be overturned in court. To remain legally compliant, policy-consistent, and defensible, East Devon District Council must exclude this proposal from the Local Plan.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

EDDC should not pursue development in EXMO_17 because they would breach planning law and ultimately would end up in years of litigation and that only Government had the power to change planning law, not EDDC

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is closer to Budleigh Salterton than Exmouth and the town is already overstretched with an existing need for more doctors, dentists, buses etc. In addition this would lead to the two towns forming a conurbation contrary to POLICY OL05. It would also disturb and probably decimate nature, harm the historic site of St John in the Wilderness and create a flood risk along the Withycomb Brook. Any new site would also require its own shops, public transport and other amenities.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Exmo_20 needs to be either considerably reduced or at least have its own amenities. Exmouth should be the town residents use rather than the much smaller Budleigh Salterton, and a lot more needs to be done to safeguard environmental and historical issues.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

EDDC introduced this previously rejected site between Regs 18 and 19 and have not consulted on it. EXMO_20 has been rejected by HALAA and by EDDC own planning team. The development site abuts the boundary of the Ward of Budleigh and Raleigh. It is only 1.5 miles to Budleigh Town which is the only town within the National Landscape and a Tier 3 town with no secondary school, a full Primary school , no Bank and no rail links. EDDC seem to think this it is appropriate locations for 700-1000 homes. The only vehicle access onto the B3179 is dangerous and right against one of the SSSI top three sites in Europe. It could not have been more ill conceived on many levels.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Revert to previous EXMO _20B

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: Budleigh Salterton Town Council chair of planning was given 3 minutes consultation at the strategic planning meeting and requests for inclusion and consultation have been ignored. Two district councillors who have attempted to raise objections have been told that “it is a done deal”. This is NOT how consultation works.

This development is contrary to numerous policies and should not have been pushed through against policy advice. It contravenes OL01; OL09< PB04, HE02; TR01, OL05 etc etc.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Budleigh Salterton has been completely side lined in this whole process to a shocking degree.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

conflict with Policy TR03 and figure 7 in the local plan. The proposal of 700 properties would add around 1000-1500 cars to the B3179. The quickest cut through to Budleigh Salterton from the B3179 is down Dalditch Lane including busses and lorries too large for the little lane - and it is an often used rat run including DCC minibusses. On numerous occasions in 2024 the B3179 was closed due to accidents and incidents. Traffic was then diverted (or if not diverted chose to go) down Dalditch Lane. This then put both the public and staff of Budleigh Riding School in severe danger. The business relies on moving horses to their fields up and down Dalditch Lane and through Knowle and taking public down Dalditch Lane. The gridlock situation and hundreds of cars going down a lane which is not suitable even for a few cars caused accidents and resulted in injury of both horses and riders. The go ahead for this development would mean that the riding school (which has been running since 1985 and is a huge local employer, local alternative education provider and provider of many work experience placements and school activity provider) may no longer be able to run due to safety concerns. This would mean the loss of much local employment - both directly and indirectly and sadly the inevitable destruction of many horses.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Policy 23 - Infrastructure Delivery: This policy outlines the requirement for necessary infrastructure, including wastewater management systems, to be in place to support new developments. It ensures that housing growth is aligned with the capacity of existing or planned infrastructure to prevent overloading of systems.

Policy OL09: Control of pollution Permission will not be granted for development which would result in pollution that cannot be adequately mitigated. This will include: A. Pollution of the environment by gas or particulates, including: smell, fumes, dust, grit, smoke and soot; B. Pollution of surface or underground waters, for example by untreated sewage, including discharges to:

1. Rivers, other watercourses, water bodies and wetlands;
2. Water gathering grounds including water catchment areas, aquifers and groundwater protection areas;
3. Harbours, estuaries or the sea;

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed housing allocations in Exmouth ... A town currently with insufficient sewerage

infrastructure, demonstrably broken sewage network and demonstrably under capacity of the sewage treatment facility so without economically unviable investment for a site, the allocations would be contrary to POLICY SP07 & SP08 (and associated paragraphs) of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: The policy does not take into account the already acknowledge failure of the sewage network infrastructure and overwhelmed treatment capacity of the Maer Lane sewage treatment works. The policy does not even refer to the many issues that all acknowledge. EDDC have issued notice of a "civil emergency" and a "vote of no confidence in SWW" because of the nationally publicised sewage infrastructure failures across Exmouth from 2019 to 2025. To not even acknowledge this issue, despite EDDCs clear knowledge of the problems is highly irresponsible.

Policy 23 - Infrastructure Delivery: This policy outlines the requirement for necessary infrastructure, including wastewater management systems, to be in place to support new developments. It ensures that housing growth is aligned with the capacity of existing or planned infrastructure to prevent overloading of systems.

Policy OL09: Control of pollution Permission will not be granted for development which would result in pollution that cannot be adequately mitigated. This will include: A. Pollution of the environment by gas or particulates, including: smell, fumes, dust, grit, smoke and soot; B. Pollution of surface or underground waters, for example by untreated sewage, including discharges to:

1. Rivers, other watercourses, water bodies and wetlands;

2. Water gathering grounds including water catchment areas, aquifers and groundwater protection areas;

3. Harbours, estuaries or the sea;

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: EDDC are aware of the failure and under capacity of the sewage network infrastructure across Exmouth. However, they have chosen not to highlight that within the Local Plan and indeed have ignored this most important or infrastructure requirements. I feel it necessary therefore to present the evidence of this failure.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: he

EDDC 2013-2031 Local Plan includes the following paragraph 18.47. I cannot understand how EDDC planners can put forward this large development in such proximity to the internationally designated Pebblebed Heath commons. Increased outdoor pursuits and domestic animals will interfere with the wildlife of the Commons and also heritage assets. Exe Estuary and Pebblebed Heaths 18.47 The Council has formed the view, after receiving advice from Natural England (the government agency responsible for the promotion of wildlife), that there is a risk that residential development (and occupants/their pet) could impact on East Devon Heaths SPA or the Exe Estuary SPA boundary. This advice is reinforced by follow-on work on Habitat Regulations assessment. A particular concern raised by Natural England is that new housing development may have an adverse effect on the SPAs; for example an increase in recreational activity and dog walking may disturb the ground-nesting birds on the Heaths or roosting or feeding birds on the Exe Estuary. Predation of birds by domestic cats is already identified as a particular concern on the East Devon Pebblebed Heaths and any increase in the number of homes could be expected to increase in cat numbers and further exacerbate adverse impacts/predation. To help preserve the integrity of the East Devon Pebblebeds Heath, specifically on account of the impacts of domestic cats

through bird predation, new dwellings will not be allowed on or within 400 metres of the Heaths Special Protection Area. This could be legally challengeable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove from the consultation

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: We Should NOT be building on Green Field sites. Nature should have a seat at the table, where these decisions are made. There are plenty of empty properties and urban sites which sit there, unused, for years.

The accommodation needed could be efficiently, affordably and ecologically soundly built in prefabricated form, by architects today; giving the youngsters an affordable step onto the property ladder.

The main access point of Exm_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the “tranquility, wildness and dark skies”, which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is “currently not sufficient certainty to rule out adverse effects in integrity to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel, contrary to Figure 7 – the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsuitable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the

relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo-20 seems totally out of proportion to the area and being so close to the peppled common seems reckless to say the least. I have lived in exmouth for 40 years but gave up cycling on the main roads 20 years ago because of car drivers passing you at 50 miles an hour plus inches from your handlebars, I continue to ride off road and on the excellent cycle paths but now consider road cycling a suicidal pastime and the extra traffic 700 new houses would provide would make this much worse. The roads leading to this area seem to have been built in the 1920s at a guess and are totally inadequate for the volume of modern traffic, the large earth moving trucks from the goodmoore farm development are eroding the fragile roads to near farm track quality. If 700 new houses are built this provides extra strain on doctors schools and services are stretched super thin so I feel there is no benefit to community so I oppose this development strongly.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any

matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. Two further faults with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath and the fact that Exmouth is already over developed with insufficient infrastructure for even the current population and has a sewage system that is unfit for purpose I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Despite the best intention of all concerned with the planning proposal to make the development climate friendly by encouraging walking and cycling commutes into Exmouth, we all know that in this current environment with all the time constraints everyone has, no one has the time to contemplate these methods of transport and vehicles will be used in large volumes.

There has been a lot of surveying carried out in the area recently. It seems inconceivable that it looks like professional surveyors have turned a blind eye to the potential traffic problems this current access road proposal would cause! As you will see there are two access areas into Meadow View Road off Dinan Way. The entrance nearest St Johns Road has a very small access road leading into Meadow View Road before you reach a give way T junction with traffic approaching from both sides along Meadow View Road to gain access to Dinan Way via this small access road. Turning right from this T junction towards the entrance of Southern Wood it is plain for all to see that residents park vehicles on one side of the road resulting in single track traffic with a few passing places. This would not work with a projected increased volume of through traffic for 1,000 houses. It could possibly cause back ups on Dinan Way waiting to turn into this access road when vehicles come to a stand still at the T Junction to give way on Meadow View Road.

Turning into the second entrance into Meadow View Road does provide a flow of traffic without hitting give way signage. However, again, it cannot be missed that residents park

their vehicles on the roadside which narrows access to single track traffic with a few passing places. Both these situations would cause problems with emergency services seeking entrance to the new development via Southern Wood. The proposal being made should be raised with the emergency services. Turning to Southern Wood itself, which is considered as an access to a new development, it is a narrow residential cul de sac road purposely built to serve 12 properties. The proposal to make this a thoroughfare for over a 1,000 houses will disturb the ecology of the wood with the increased movement, noise and pollution from a large volume of vehicles. It will have a detrimental and devastating affect to the protected wildlife that use this woodland.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: There are alternative solutions which could be considered for access to this development. There is a road to the new development already established off the Salterton Road through Liverton business park. Traffic lights as at the top of DinanWay would make access to and from the development safe. Alternatively a new link road could be built further along Salterton Road just past the Pink Houses exclusively for access to the development.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: It is outrageous to think that woodland that has been on the edge of Exmouth for hundreds of years is being considered as a route through to the proposed development. It would appear that a proportion of the woodland would be subjected to destruction to make way for a new road which would affect the whole ecology of the woodland.

The protected wildlife that this woodland serves houses many species and includes Otters, Bats, Magpies, Collared Doves, Woodpeckers, Wood Pigeons, Owls, Falcons, Rooks, Crows, Deer and Dormice, all seen in the garden of 6 Southern Wood! This needs to be brought to the attention of the appropriate authorities. All species have lawful legal protection through the appropriate legislation/Acts . Work has already been undertaken in the felling of trees in the area at the end of Southern Wood where the access road would cross the watercourse, presumably to assist with surveying. Has this been done legally?

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Our property is at the end of the cul-de-sac and has a Withycombe Brook running along the

edge of the boundary. Having lived at the property for nearly 40 years the bank of the watercourse has had no problems until the last 6/7 years where the volume of the water flow has severely increased to the degree that it is now causing extensive damage and erosion to the banks. No doubt the UK's climate changing weather patterns contributes to this due to the excessive run off of rain water from the adjacent fields proposed for development. The damage became so extensive that in June 2021 contact was made with the Environment Agency to discuss options in preparation to control the increased water flow adjacent to our property. There are other properties that have their boundary adjacent to the watercourse who will require bank protection.

How can the consideration of further extensive rain water run off, through a very large housing development, be considered which would lead to further increased volumes of water flow through the winter months? The area around the watercourse is in a designated flood zone with bank erosion now taking place. Should this development proceed the residents would seek financial assistance to meet the cost for work to protect the banks from the increased water flow volumes that would occur. This problem could be a major concern for flood risk with the full length of the watercourse banks being unprotected down stream from the site of the development.

It is our intention to contact the Environment Agency to obtain their views and seek advice on this situation.

Everyone is already aware of the infrastructure problems that Exmouth is experiencing and yet Budleigh is by far closer to the development than Exmouth Town. Both towns would require infrastructure investment to cover the lack of schools, Doctors surgeries for health appointments, major sewerage problems, road infrastructure to name a few of the problems that are now existing and will be made worse by further development. We feel that the Council is being held to ransom by the Government with threats that do not consider the wider effects and implications that this will have on Exmouth and Budleigh and somehow needs to be addressed politically.+

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Further to my email sent on 28/03/2025 10:20 raising objections to the proposed Exmo_20 development a group of residents have carried out further research which the content needs to be raised as objections to the proposed Exmo_20 development.

objection1 Exmo_20 is on the reasonable alternatives list on p.328, with the justification that all the sites were assessed as suitable, available and achievable in the HELAA, Exmo_20 was in fact not. This provides evidence that Exmo_20 does not have potential to be delivered, its inclusion is unjustified and must be omitted from the Local Plan. Other sites, shown as preferred within the Agenda for the 3rd September 2024 Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20.

Objection 2 The Sustainability Appraisal Framework should make reference to the Mitigation Hierarchy which prioritises avoidance over mitigation. This is the structured approach to managing environmental impacts embedded in several key pieces of legislation. Some of the most relevant include:

1. The Environmental Impact Assessment (EIA) Regulations (2017)
2. The Environment Act 2021
3. The National Planning Policy Framework (NPPF)
4. The Conservation of Habitats and Species Regulations 2017 (Habitats Regulations)
5. Defra's Biodiversity Metric and Biodiversity Net Gain Guidance To not implement this in the site selection methodology or process is not consistent with national policy and therefore not sound. Other sites, shown as preferred within the Agenda for the 3rd September 2024 Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20. Objection 3 Figure 2.2 (p.11) states "1.

Biodiversity: to conserve and enhance the habitat and wildlife of our natural environment. Natural habitats and biodiversity; flora and fauna Ensure current, and potential future, habitat connectivity is not compromised”. Allocation of Exmo_20, a supporting habitat for foraging Nightjars would be contrary to this, furthermore Exmo_20 is located on the SNA 368 which is being allocated as a site with the Devon Local Nature Recovery Network (LNRS) as required by the Environment Act 2021, so allocation would be in conflict with this strategy of conserving and enhancing the habitat and wildlife of our natural environment. This is unjustified. Other sites, shown as preferred within the Agenda for the 3rd September 2024 Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20. On page 11/12 it states “4. Climate change and carbon emissions. Development that minimises the need to travel by providing access to public transport, cycle.” Allocation of Exmo_20 would not minimise the need to travel, as it is in an unsustainable location with the main site access point now out onto the B3179 country road. Allocation of this site is unjustified. Other sites, shown as preferred within the Agenda for the 3rd September Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20. On page 18, figure 2.4: Site criteria to be considered as a ‘reasonable alternative’ confirms that Exmo_20 cannot be a reasonable alternative as it failed the HELAA stage being deemed “not suitable or achievable” (HELAA Appendix E(v)1). Its allocation is unjustified. Other sites, shown as preferred within the Agenda for the 3rd September Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20. Objection 4 In the Exmouth Sites Biodiversity objective on (p.331/332), two sites, Exmo_04 and Exmo_20 score double negative (--). The commentary and conclusions between the two sites are inconsistent and unjustified. Exmo_04 results in part allocation outside of the 400m yet Exmo_20’s allocation runs right up to be adjacent to the protected site. In the Exmouth Sites Hist. built env. commentary (p.334), the large size of the site is assumed to enable the adverse impacts to have a minor negative effect. Firstly the site has significantly shrunk since the ownership was actually checked after allocation on 3rd September 2024, secondly the top 400m of the site cannot accommodate housing and thirdly it is the size required to accommodate 700 houses, therefore I do not believe an assumption that mitigation can be incorporated is sufficient justification. In the Exmouth Sites climate change carbon emissions commentary (p.335), a figure of 1,600 metres is used, this should be 800m as the 1600m is total trip ‘there and back’ [All links reference on p.186 of the Local Plan are broken/out of date but the Government’s National Design Guide does states 800m. “Sustran, Walkable neighbourhoods” also states 800m as standard walkable distance and 1600m total trip]. Distances should be measured from site centres, not nearest point, as for a site like Exmo_20 the entire site is over 800m long. As the main site access point is now out onto the B3179 country road, this should be a material consideration in this section. This site is not in a sustainable location and its allocation is therefore not consistent with national policy. Other sites, shown as preferred within

the Agenda for the 3rd September Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20.

Objection 5 In the Exmouth Sites climate change adaption commentary (p.336), there is no mention Exmo_20 having flood risk at the lowest end of the site. Nor is it mentioned that this large greenfield area entirely drains into Withycombe Brook, which has significant identified flood risk in Exmouth and has not been assessed in the Strategic Flood Risk Assessment of this draft Local Plan [EDDC Level 1 Strategic Flood Risk Assessment – Final Report February 2024 p.69 states “This table does not provide information on all Main Rivers in East Devon. Other Main Rivers within East Devon are: Grindle Brook, Wotton Brook, Withycombe Brook, Budleigh Brook, Back Brook, Snod Brook, The Gissage and Woodhayne Range.”]. Considering the existing conditions, that the Brook runs through the centre of the largest settlement in East Devon, and the substantial size of the proposed Exmo_20 allocation upstream, this is unjustified. In the Exmouth Sites access to services commentary (p.338), a figure of 1,600 metres is used, this should be 800m as the 1600m is total trip ‘there and back’ [All links reference on p.186 of the Local Plan are broken/out of date but the Government’s National Design Guide does states 800m. “Sustran, Walkable neighbourhoods” also states 800m as standard walkable distance and 1600m total trip]. Distances should be measured from site centres, not nearest point, as for a site like Exmo_20 the entire site is over 800m long. As the main site access point is now out onto the B3179 country road, this should be a material consideration in this section. Using the 1,600 metre figure is unjustified. In the Exmouth Sites connectivity and transport commentary (p.340), It is claimed that Exmo_20 is within 800m of the A376, this is not true, therefore unjustified. Also of note is that distances should be measured from site centres, not nearest point, as for a site like Exmo_20 the entire site is over 800m long. As the main site access point is now out onto the B3179 country road, this should be a material consideration in this section. Other sites, shown as preferred within the Agenda for the 3rd September 2024 Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20.

Objection 6 On p.340 it states “Mitigation measures to address likely significant adverse effects and maximise beneficial effects; and likely post-mitigation effects:

- Mitigate impact upon Exe Estuary and Pebblebed Heaths SPAs – to be considered in the Habitats Regulations Assessment, though for areas of Exmo_04 and 20 within 400 metres of the Pebblebed Heaths mitigation would not be seen as possible. Exmo_04 can be amended to exclude the most sensitive area, resulting in Exmo_04a.” Why is it only Exmo_04 that can be amended? It’s inconsistent and therefore not justified. The

site allocation and the settlement boundary must be repositioned 400 metres from the Pebblebed Heaths. On page 342 Exmo_20 is listed as a preferred alternative for Exmouth, yet as it failed HELAA being deemed “not suitable or achievable”, in accordance with the 2.4 of this Sustainability Appraisal report, it cannot be a preferred alternative. The document is inconsistent, not justified and therefore not sound. On p.343 the reason for rejecting sites lists: Exmo_04b – Land at Marley Drive is rejected due to major adverse biodiversity effect arising from its location within 400 metre Pebblebed Heaths exclusion zone. This is inconsistent with the Exmo_20 allocation and therefore not justified and not sound. The site allocation and the settlement boundary must be repositioned 400 metres from the Pebblebeds Heath.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9 It is outrageous to think that woodland that has been on the edge of Exmouth for hundreds of years is being considered as a route through to the proposed development. It would appear that a proportion of the woodland would be subjected to destruction to make way for a new road which would affect the whole ecology of the woodland.

The protected wildlife that this woodland serves houses many species and includes Otters, Bats, Magpies, Collared Doves, Woodpeckers, Wood Pigeons, Owls, Falcons, Rooks, Crows, Deer and Dormice, all seen in the garden of 6 Southern Wood! This needs to be brought to the attention of the appropriate authorities. All species have lawful legal protection through the appropriate legislation/Acts . Work has already been undertaken in the felling of trees in the area at the end of Southern Wood where the

access road would cross the watercourse, presumably to assist with surveying. Has this been done legally?

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B. Our property is at the end of the cul-de-sac and has a Withycombe Brook running along the edge of the boundary. Having lived at the property for nearly 40 years the bank of the watercourse has had no problems until the last 6/7 years where the volume of the water flow has severely increased to the degree that it is now causing extensive damage and erosion to the banks. No doubt the UK's climate changing weather patterns contributes to this due to the excessive run off of rain water from the adjacent fields proposed for development. The damage became so extensive that in June 2021 contact was made with the Environment Agency to discuss options in preparation to control the increased water flow adjacent to our property. There are other properties that have their boundary adjacent to the watercourse who will require bank protection.

How can the consideration of further extensive rain water run off, through a very large housing development, be considered which would lead to further increased volumes of water flow through the winter months? The area around the watercourse is in a designated flood zone with bank erosion now taking place. If this development as to proceed the residents would seek financial assistance to meet the cost for work to protect the banks from the increased water flow volumes that would occur. This problem could be a major concern for flood risk with the full length of the watercourse banks being unprotected down stream from the site of the development.

It is our intention to contact the Environment Agency to obtain their views and seek advice on this situation.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. Despite the best intention of all concerned with the planning proposal to make the development climate friendly by encouraging walking and cycling commutes into Exmouth, we all know that in this current environment with all the time constraints everyone has, no one has the time to contemplate these methods of transport and vehicles will be used in large volumes.

Dinan Way has become an extremely busy road and will only increase further with the link to the A376. There has been a lot of surveying carried out in the area recently. It seems inconceivable that it looks like professional surveyors have turned a blind eye to the potential traffic problems this current access road proposal would cause! As you will see there are two access areas into Meadow View Road off Dinan Way. The entrance nearest St Johns Road has a very small access road leading into Meadow View Road before you reach a give way T junction with traffic approaching from both sides along Meadow View Road to gain access to Dinan Way via this small access road. Turning right from this T junction towards the entrance of Southern Wood it is plain for all to see that residents park vehicles on one side of the road resulting in single track traffic with a few passing places. This would not work with a projected increased volume of through traffic for 1,000 houses. It could possibly cause back ups on Dinan Way waiting to turn into this access road when vehicles come to a stand still at the T Junction to give way on Meadow View Road.

Turning into the second entrance into Meadow View Road does provide a flow of traffic without hitting give way signage. However, again, it cannot be missed that residents park their vehicles on the roadside which narrows access to single track traffic with a few passing places. Both these situations would cause problems with emergency services seeking entrance to the new development via Southern Wood. The proposal being made should be raised with the emergency services.

Turning to Southern Wood itself, which is considered as an access to a new development, it is a narrow residential cul de sac road purposely built to serve 12 properties. The proposal to make this a thoroughfare for over a 1,000 houses will disturb the ecology of the wood with the increased movement, noise and pollution from a large volume of vehicles. It will have a detrimental and devastating affect to the protected wildlife that use this woodland.

There are alternative solutions which could be considered for access to this development. There is a road to the new development already established off the Salterton Road through Liverton business park. Traffic lights as at the top of DinanWay would make access to and from the development safe. Alternatively a new link road could be built further along Salterton Road just past the Pink Houses exclusively for access to the development.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan. Everyone is already aware of the infrastructure problems that Exmouth is experiencing and yet Budleigh is by far closer to the development than Exmouth Town. Both towns would require infrastructure investment to cover the lack of schools, Doctors surgeries for health appointments, major sewerage problems, road infrastructure to name a few of the problems that are now existing and will be made worse by further development. We feel that the Council is being held to ransom by the Government with threats that do not consider the wider effects and implications that this will have on Exmouth and Budleigh and somehow needs to needs to be addressed politically.+

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the

relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan.

Do not access the site via Southern Wood.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: In order to participate to raise awareness of the issues from a direct inhabitant of the area affected.

Full name: Judith Anne Bishop

Having lived at the property for nearly 40 years the bank of the watercourse has had no problems until the last 6/7 years where the volume of the water flow has severely increased to the degree that it is now causing extensive damage and erosion to the banks. No doubt the UK's climate changing weather patterns contributes to this due to the excessive run off of rain water from the adjacent fields proposed for development. The damage became so extensive that in June 2021 contact was made with the Environment Agency to discuss options in preparation to control the increased water flow adjacent to our property. There are other properties that have their boundary adjacent to the watercourse who will require bank protection.

How can the consideration of further extensive rain water run off, through a very large housing development, be considered which would lead to further increased volumes of water flow through the winter months? The area around the watercourse is in a designated flood zone with bank erosion now taking place. Should this development proceed the residents would seek financial assistance to meet the cost for work to protect the banks from the increased water flow volumes that would occur. This problem could be a major concern for flood risk with the full length of the watercourse banks being unprotected down stream from the site of the development.

It is our intention to contact the Environment Agency to obtain their views and seek advice on this situation.

Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. Despite the best intention of all concerned with the planning proposal to make the development climate friendly by encouraging walking and cycling commutes into Exmouth, we all know that in this current environment with all the time constraints everyone has, no one has the time to contemplate these methods of transport and vehicles will be used in large volumes.

There has been a lot of surveying carried out in the area recently. It seems inconceivable that it looks like professional surveyors have turned a blind eye to the potential traffic problems this current access road proposal would cause! As you will see there are two access areas into Meadow View Road off Dinan Way. The entrance nearest St Johns Road has a very small access road leading into Meadow View Road before you reach a give way T junction with traffic approaching from both sides along Meadow View Road to gain access to Dinan Way via this small access road. Turning right from this T junction towards the entrance of Southern Wood it is plain for all to see that residents park vehicles on one side of the road resulting in single track traffic with a few passing places. This would not work with a projected increased volume of through traffic for 1,000 houses. It could possibly cause back ups on Dinan Way waiting to turn into this access road when vehicles come to a stand still at the T Junction to give way on Meadow View Road.

Turning into the second entrance into Meadow View Road does provide a flow of traffic without hitting give way signage. However, again, it cannot be missed that residents park their vehicles on the roadside which narrows access to single track traffic with a few passing places. Both these situations would cause problems with emergency services seeking entrance to the new development via Southern Wood. The proposal being made should be raised with the emergency services.

Turning to Southern Wood itself, which is considered as an access to a new development, it is a narrow residential cul de sac road purposely built to serve 12

properties. The proposal to make this a thoroughfare for over a 1,000 houses will disturb the ecology of the wood with the increased movement, noise and pollution from a large volume of vehicles. It will have a detrimental and devastating affect to the protected wildlife that use this woodland.

There are alternative solutions which could be considered for access to this development. There is a road to the new development already established off the Salterton Road through Liverton business park. Traffic lights as at the top of DinanWay would make access to and from the development safe. Alternatively a new link road could be built further along Salterton Road just past the Pink Houses exclusively for access to the development.

The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan. Everyone is already aware of the infrastructure problems that Exmouth is experiencing and yet Budleigh is by far closer to the development than Exmouth Town. Both towns would require infrastructure investment to cover the lack of schools, Doctors surgeries for health appointments, major sewerage problems, road infrastructure to name a few of the problems that are now existing and will be made worse by further development. We feel that the Council is being held to ransom by the Government with threats that do not consider the wider effects and implications that this will have on Exmouth and Budleigh and somehow needs to needs to be addressed politically.+

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan.

Do not access the site from Southern Wood.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: In order to participate to raise awareness of the issues from a direct inhabitant of the area affected.

Full name: Karen Blackhall

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Development in the Towns and Villages chapter, please use this box to set out your comments.:

As Exmo_20 is nearer to Budleigh the services and infrastructure will not cope. It undermines the settlement hierarchy and would lead to issues contrary to POLICY OL05 of the local plan.

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: It would cause harm to an important wildlife habitat; Pebblebed Heath and is contrary to POLICY PB01 of the local plan and is not in accordance with the mitigation strategy

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Either remove Exmo_20 from the local plan or severely reduce the size to avoid negative impact on the area and the current population

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Paula Brown

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

- The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths (SAC/SPA).

Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

- Exmo_20 would destroy the tranquility, wildness and dark skies of the countryside, which is contrary to POLICY OL01

- Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site (including the common lizard, slow worms and Dormice) contrary to PARAGRAPH 13.9. The Common Lizard is confirmed to be present in the area of Exmo_20 and are protected under the Wildlife and Countryside Act 1981. Slow worms are confirmed present in Exmo_20. They are confirmed to be endangered and are therefore a priority species under the UK Biodiversity access plan. Dormice are confirmed to be present in Exmo_20. They are confirmed to be endangered and are therefore a priority species under the UK Biodiversity Plan and protected under the Wildlife and Countryside Act 1981.

- The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to ..air quality (East Devon Pebblebed heaths SAC/SPA). Exmo _20 is in conflict with POLICY OL09 and POLICY PB04.

- Exmo_20 would have significant adverse effects on St John and the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY AR01B.

- Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe, This is in conflict with POLICY AR01B.

- Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

- The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services in Budleigh (High Street, Doctors, school, beach etc) would be the obvious choice for residents of Exmo _20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any

matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove or reduce the size of Exmo_20.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To make representations in respect of the proposed developments and to ensure that the species outlined above are considered as part of the plan.

Full name: Mr. Peter John Cook

Proposal:

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could not and should be located on an alternative site where it would cause less or no harm to the Pebblebed heaths (SAC/SPA/ NNR). Developing Exmo_20 is contrary to Policy PB01 of the local plan and not in accordance with the mitigation strategy.

Exmo_20 would destroy the "tranquility, wildness and dark skies" of the countryside, which is contrary to POLICY OL01

A number of rare or endangered species are at sites very close to the proposal.

Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the local plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects on integrity in relation to ...air quality (East Devon Pebblebed Heaths SAC/SPA. Exmo_20 is in conflict with POLICY OL09 and Policy PB04

Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It

would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. The creation of hard surfaces and drainage would put more pressure on the South West Water infrastructure. This is in conflict with Policy AR01B

The main highways access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, Meaning that it would be more associated with Budleigh Salterton in terms of its accessibility and put increased pressure on the smaller towns infrastructure, services etc. This would be a catalyst for the towns loss of identity with the inevitability it would become (coalescence) a suburb of Exmouth in the long term.; contrary to POLICY OL05 of the local plan.

Exmo_20 would increase car travel and increase traffic congestion, with impact on settlement of Woodbury and the environment over the Pebblebed Heaths. The existing roads are unsuitable for a significant increase in traffic. Any highway improvement as would impact significantly on the status NNR/SAPSAC) of the area in terms of tourism, peoples recreational enjoyment and wildlife contrary to POLICIES) L01, PB01, PB 04, 90. Policy – Due consideration of protected and notable species

The site is too close to the NNR which recognises the importance of the heath locally and National. The site is too close to the boundary of the National Nature Reserve. Exmo_20 would have Significant implications for the nature and wildlife contrary to 88. Strategic Policy – Local Nature Recovery Strategy and Nature

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan Any Development should be accessed from Exmouth. Do not access the eastern side of Exmouth directly onto the B3179

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

These comments refer to Chapter 5 of the Plan as indicated on the Commonplace platform. Allocation of Exmo_20 would be in conflict with POLICY PB06, as the SNA 368 is currently being finalised as being allocated as part of Devon's Nature Recovery Network under the Local Nature Recovery Strategy in accordance with the Environment Act 2021 - due to it's biodiversity, importance as a supporting foraging habitat and wildlife corridor between the coast and the Heath. There are alternative locations for housing within the EDDC area on sites which have passed the HELAA assessment (NB Exmo_20 Failed), but due to the relevance of the location of the SNA 368 for the local natural environment it cannot be relocated elsewhere. The LPA does not appear to have taken this into consideration regarding the proposed Allocation of Exmo_20. The Exmo_20 Allocation is therefore not justified nor consistent with National Policy.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Other sites, which did pass HELAA and were shown as preferred within the Agenda for the 3rd September 2024 Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

These comments refer to Chapter 5 of the Plan as indicated on the Commonplace platform. The Plan is not sound because Exmo_20 was determined to be neither achievable nor suitable in the HELAA. The site as presented during the Regulation 18 stage was also not available, due to multiple land owners not being listed on the Agent's submission documents nor notified accordingly. The site, Exmo_20 is therefore not available, not suitable and not achievable. The NPPF states (para 72 in 2024 or para 69 in 2023 version) - "Strategic policy-making authorities should have a clear understanding of the land available in their area through the preparation of a strategic housing land availability assessment. From this, planning policies should identify a sufficient supply and mix of sites, taking into account their availability, suitability and and likely economic viability." With regard to economic viability, taking into account the requirements for this site in terms of (i) Highways mitigation - upgrades will be required to significant parts of the B3179 & B3180 most notably the junction with Hulham Road. (ii) Pebblebeds Heath SAC/SPA European site mitigation - addressing the "inherent conflicts" (HRA 2025) regarding excessive nitrogen levels, in accordance with the Habitat Regulations (no mitigation strategy is yet proposed in the HRA), taking specific account of the onerous application of the Dutch Nitrogen case. (iii) Pebblebed Heaths SAC/SPA European site mitigation - addressing impacts regarding recreational pressures on the heath. (iv) Historical and archaeological mitigation - consideration for St John in the WILDERNESS church and the surrounding Saxon/Norman/Medieval settlement. (v) Wildlife consideration on site for biodiversity protection and enhancement (net gain). (vi) Primary School - there will be no school within the required 800m "walking neighbourhoods" distance for the majority of the site, so provision will have to be made on-site. (vii) secondary School - Exmouth Community College has no capacity to expand and is currently at or near capacity, so provisions will need to be made with associated contributions from developers. (viii) Community Infrastructure levy considerations. (ix) Affordable housing provision. (x) Net Zero housing

requirements. To ensure economic viability, the costs of any requirement likely to be applied to development should, when taking into account the normal costs of development and mitigation, provide competitive returns to a willing land owner and a willing developer to enable the development to be deliverable. As much of the information regarding the required mitigation (e.g. HRA 30/01/2025) and standards has been provided subsequent to the Allocation of this site on 03/09/2024, the economic viability has not been given consideration therefore the site allocation is currently not justified, effective or consistent with National Policy and is therefore Not Sound. It should be of concern to the LPA that the site is potentially not economically viable as, if so, it is not deliverable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Other sites, which did pass HELAA and were shown as preferred within the Agenda for the 3rd September 2024 Strategic Planning Committee meeting should be selected for allocation as an alternative to Exmo_20.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Dear localplan,

This is a comprehensive statement on the whole process undertaken with regard to Exmo_20 and is intended to draw your attention to the defects in your methodology. If Exmo_20 in it's present form gets through this Consultation it is my intention to draw all these points to the Inspector's attention at a later stage.

The following key points are a brief summary of the main evidence material which is contained within this document in relation to the EDDC Reg 18 and Reg 19 Consultations.

1. Based on the HELAA Report and the 'Site Selection Methodology' document in effect between May 2022 and December 2024, Exmo_20 should have failed the 'site sifting' stage of the site selection phase. So should not have been put forward for Reg 18, and therefore not available for Reg 19 either.
2. Exmo_20 has 'NEVER' been consulted on as a 'whole site', and is a totally different consideration. Once the decision was made to join Exmo_20a and Exmo_20b together to form Exmo_20 there are numerous other considerations that need to be discussed, yet have not been.
3. At the Strategic Planning Committee (SPC) meeting on the 9th August 2022, the developers presented site 'Land at St Johns' and agreed that ONLY the southern part of Exmo_20 was being put forward with 150 new homes suggested. The developers confirmed that the Northern part of the site was not being put forward for development. It should have been confirmed at this stage that this means that site Exmo_46 was being proposed!!

4. Site Exmo_46 should have been the only site associated with Exmo_20 that was taken forward from this date forward, as identified in all of the documents and evidence put forward for Reg 18.

5. At the SPC meeting on the 6th September 2022, the committee agreed to 'Recommend endorsement of the preferred sites and 2nd choice sites as suitable for consultation'. There is no mention of putting 'REJECTED' sites forward for consultation.

6. At the SPC meeting on the 1st November 2022 the committee agreed that 'Delegated authority be given to the Service Lead – Planning Strategy and Development Management in consultation with the Chair of Strategic Planning Committee, to finalise the plan for consultation. To include making minor changes to correct possible factual or grammatical errors, ensure links to background reports are made and other minor amendments that do not materially change content'. It is also at this meeting that two new site references Exmo_20a and Exmo_20b are visible on a map. It should be noted that these two new site references have never been discussed or consulted on, either before this meeting or during it. This is six days before the the Reg 18 Consultation starts, and how can two new site references be covered by the statement highlighted in bold above?

7. The main evidence documents for the Reg 18 Consultation dated 7th November 2022 to 15th January 2023 are; The Exmouth Sites - additional information.pdf, the HELAA Report, and the Sustainability Appraisal Report. ALL of these documents identify Exmo_46 as the site to be taken forward to Reg 18 consultation and NOT the Exmo_20 site. It is astounding to note that sites Exmo_20a and Exmo_20b are not mentioned within ANY of these documents, yet somehow are the sites that were taken forward to the Reg 18 Consultation.

8. The Draft Local Plan is the focus for the consultation and all supporting documentation should support this. Yet only Exmo_20b (second choice) that is associated with Exmo_20 is mentioned as the site being proposed within the Draft Local Plan for Reg 18. Also to be noted is the fact that none of the supporting documentation mentions site Exmo_20b (our Exmo_20a)!!

9. Exmo_20a is classed as 'rejected' on the Exmouth map, and you really have to dig down to get to the description on this site (no link from the Draft Local Plan). When you do, it just states that it is a 'rejected site' and has a reference to Exmo_20b. How can the public, and relevant Statutory Bodies be expected to comment on a 'rejected' site. Also how can you comment on a site of this size when there is NO acceptable description supplied? 10. Based on the above, and the main evidence supplied below. Exmo_20 and therefore Exmo_20a and Exmo_20b should NOT have been put forward as part on the Reg 18 Consultation. This means that they could also NOT be part of the allocation process carried out in September 2024. So ultimately CANNOT be put

forward for the Reg 19 Public Consultation. 11. If all of the supporting documentation for the Reg 18 Consultation, including the Site Selection Methodology has been TOTALLY ignored, then why should we believe that the Reg 19 Consultation is going to be any different?

1. INTRODUCTION

I am one of numerous residents within the Exmouth and Budleigh Salterton area who have been frustrated by the total lack of transparency shown by EDDC with regards to the handling of site reference Exmo_20 which has now been put forward for allocation as part of the Reg 19 Public Consultation.

Please find detailed below my concerns relating to the handling of site references Exmo_20, Exmo_46, Exmo_20a and Exmo_20b during the build up to, and within, the EDDC Reg 18 Consultation that ran between 7th November 2022 and the 15th January 2023, and ultimately the build up to the EDDC Reg 19 Public Consultation that started on the 13th February 2025 and due to finish on the 31st March 2025.

2. BACKGROUND

The first time that I heard of this site (Exmo_20 with between 700 to 1000 new homes proposed), was on the 4th September 2024 following the incorrect decision of the Strategic Planning Committee (SPC) meeting on the 3rd September 2024.

This decision by the SPC, was to allocate site Exmo_20a against their own planning officers recommendation (which was not to allocate), along with site reference Exmo_20b, and created site reference Exmo_20.

The point that numerous concerned residents and myself have been making to the SPC since the 4th September 2024 is that we 'the public' have not had an opportunity to discuss/object to this development. However, despite our best efforts via email and in person (numerous public speakers at meetings, including 6 representations at the last SPC Meeting on 4th February 2025 before the Reg 19 Public Consultation started), we have been ignored and told on numerous occasions that we (the public) have been

consulted with regards to these sites. I would like it noted that 'we' do not believe this to be the case.

With regards to site reference Exmo_20 and the other site reference numbers related to the 'Land at St Johns'. Please find detailed below what I understand to be the timeline running up to the EDDC Reg 18 consultation from 7th November 2022 to 15th January 2023, including all relevant document references (evidence).

This information has been found primarily within the documents, minutes, and YouTube videos associated with the Strategic Planning Committee (SPC) meetings between 14th December 2021 and 1st November 2022. The HELAA and Sustainability Appraisal Report information is taken from the documents supplied for the Reg 18 consultation as is the 'Exmouth Sites - additional information' document.

3. EVIDENCE

SPC meeting - 14th December 2021

The Draft Local Plan brought to this meeting does not mention anything to do with 'Land at St Johns' or site Exmo_20.

SPC meeting - 9th August 2022

The Developers Presentation from PCL (3 members), presented the 'Land at St Johns' site and confirmed that they were only proposing the Southern area of the original Exmo_20 for 75 homes initially with the option for another 75 later, so total of 150 homes. They were asked by Councillor Nick Hookway if they were going to develop around the Northern part of the original Exmo_20 site around St John in the Wilderness Church. To which the developers responded (at 3 hours and 56 minutes into the youtube video) that they were 'no longer promoting for development' the Northern part

of the site. Apparently there was some confusion with regards to which site they were referring to. Councillor Jessica Bailey asked what EDDC site reference number they were discussing here (at 3 hours and 51 minutes into the YouTube video) and the response from the developers was ‘I think it is Exmo_20’. This was incorrect and SPC should have been informed that it was Exmo_46, as identified in 6th September 2022, Appendix 2 - Exmouth Amended Version.pdf (see 6th September meeting information below).

SPC meeting - 6th September 2022

From the minutes of the meeting, the following recommendations were agreed.

RECOMMENDATION: That Strategic Planning Committee:

1. Recommend endorsement of the preferred sites and 2nd choice sites as suitable for consultation;
2. Note the likely shortfall in housing sites identified within this committee report'
3. That a report be brought to a future meeting of Strategic Planning Committee to set out options for the weighting of site constraints and assessments to inform future assessment work, post consultation on the draft Local Plan.

Committee Members were in support of the three recommendations.

Within the agenda for the meeting the following was found under item 28 for the site assessment work at Tier 1 and 2 Settlements. The decision was not to discuss every site so recommendation 1 above was applied.

Within the document Appendix 2 - Exmouth Amended Version.pdf, on Pages 31 to 34, Exmo_20 is identified and the important thing to note here is the following description which is copied from the document.

Should the site be allocated? Potential 2nd choice allocation, though following presentation at Committee by agents this is specifically so for Exmo_46. At this stage of plan making work (August 2022) it is not known if all of Exmo_20 is actually now being promoted by the land owner or owners for development but given the presentation to committee and the new call for site submissions we are assuming that active promotion of most of site Exmo_20 is not now occurring.

It is to be noted that the above document is the same as the 'Exmouth Sites - additional information.pdf' which is part of the evidence within the Reg 18 Commonplace site, as described later in this evidence section.

Questions/Statements

1. Only the 'preferred' and 'second choice' sites were mentioned in recommendation 1. Therefore, it was recommended that the 'preferred' and 'second choice' sites were endorsed as suitable for consultation. There is NO mention of 'rejected' sites being suitable or to be taken forward for consultation. SPC meeting - 7th October 2022

Draft Local Plan highlighted the following for 'Land at St John's' on page 72.

Exmo_20 – this land to south of St John's on the eastern side of Exmouth is proposed for proposed for 150 new homes and 0.6 hectares of employment land.

Questions/Statements

1. Based on the Appendix 2 - Exmouth Amended Version.pdf statement identified within the 6th September meeting notes above. Why mention Exmo_20? This should be Exmo_46 not Exmo_20.
2. Exmo_46 should have been used from this date onwards!!
3. This is the start of the confusion surrounding Exmo_20

SPC meeting - 1st November 2022

The SPC approved the following:

RESOLVED:

1. Delegated authority be given to the Service Lead – Planning Strategy and Development Management in consultation with the Chair of Strategic Planning Committee, to finalise the plan for consultation. To include making minor changes to correct possible factual or grammatical errors, ensure links to background reports are made and other minor amendments that do not materially change content;
2. That the draft Local Plan, as appended to this report and subject to final refinements, for public consultation be endorsed.

The following is the ‘copied’ description taken from the Draft Local Plan presented on the agenda for this meeting. It is taken from the Tracked Changes Version of the draft Local Plan for Consultation which highlighted the following for 'Land at St Johns' on page 80.

Land at St John's (Exmo_20) – this land to south of St John's on the eastern side of Exmouth is proposed for proposed for 150 new homes and 0.6 hectares of employment land.

Note : Exmouth, item 58.pdf shows East Devon Local Plan 2020-2040 - Exmouth- now has Exmo_20a and Exmo_20b.

Questions/Statements

1. Exmo_20a and Exmo_20b have never been mentioned before they suddenly appear on the map under Exmouth item 58.pdf. This map is titled 'East Devon Local Plan 2020-2040 - Exmouth'.
2. There was no discussion in this meeting with regards to this map, despite the fact that it included two new sites that had never existed until now. Why???
3. Again, the addition of TWO new site references six days before the start of the consultation - surely this is in conflict with the Resolved point 1 above starting 'Delegated.....'

Last information on Exmo_20 was at the SPC meeting on 6th September 2022 within the Appendix 2 - Exmouth Amended Version .pdf which highlighted that Exmo_46 was the only part of Exmo_20 being put forward for development.

Draft Local Plan used for both Reg 18 Consultations. ** Note: The first Reg 18 Consultation started on 7th November 2022, so 6 days after the last SPC Meeting identified above **

The following is the 'copied' description from page 69 of the Draft Local Plan to be used in both the Reg 18 consultations.

Land at St John's (Exmo_20 the proposal is to allocate Exmo_20b as shown on the Policies Map) – this land to south of St John's on the eastern side of Exmouth is proposed for proposed for 150 new homes and 0.6 hectares of employment land.

The Policies map in Reg 18 shows Exmo_20a and Exmo_20b. With Exmo_20a identified as 'rejected' and with Exmo_20b identified as 'Second Choice '.

Questions/Statements

1. Does the addition of Exmo_20b in the description above, fall within point 1 of the 'Resolved' section which the SPC approved at the 1st November 2022 meeting? The addition of a new site reference seems more than minor , etc...?
2. Again, why did Exmo_46 not get used here? The HELAA and Sustainability Appraisal reports do not reference Exmo_20a or Exmo_20b, nor does the 'Exmouth sites - additional information' document. ALL of these documents are put forward as evidence as part of the Reg 18 Consultation, and ALL only reference Exmo_46 as the site to be taken forward.
3. Exmo_20a is identified as 'Rejected'. I can understand consultation happening against 'preferred' and 'Second Choice' sites but not 'Rejected'. As a member of the public (if I knew the consultation was taking place that is), I would not comment against a 'rejected' site and for EDDC to claim such a thing is very disappointing.
4. Based on point 3 above, how can EDDC class Exmo_20a as having been consulted on???? Note: During the Reg 18 consultation only 2 members of the public responded to Exmo_20a and only 4 members of the public responded to Exmo_20b. This rather indicates the lack of public awareness of this consultation, and the fact that the larger part of this site was classed as 'rejected'. Especially when you consider that this site is for between 700 to 1000 new homes.

Descriptions of sites Exmo_20a and Exmo_20b put forward within the Reg 18 Consultation.

The following are the descriptions that were provided within Commonplace for the Reg 18 Consultation:

Exmo_20a - REJECTED Originally assessed alongside LP_Exmo_20b - Land at St John's (potential 'second best' allocation – 150 homes), this part of the site has been rejected for development.

Exmo_20b - POTENTIAL 'SECOND BEST' ALLOCATION - 150 homes (based on the reduced site area now being promoted based on the presentation to the Strategic Planning Committee meeting – Aug 9th 2022) and 0.6 hectares of employment land

The site as originally assessed (which also included LP_Exmo_20a) was large scale and as such could meet a lot of the overall housing needs.

It is also well screened and so long as development is predominantly in central and southerly parts of the site then building work should be comparatively unobtrusive (especially noting the overall scale of what could be accommodated).

However, there are built heritage sensitivities associated with the site and more significantly there are significant local levels of biodiversity interest at the site that could be adversely affected by development.

A site promoter shows highway access to the south of the site coming through lengths of Unconfirmed Wildlife Site, which would clearly cause destruction and landscape scale severance of what could be high value habitats (deciduous woodland).

In addition, this access road would use existing residential roads that suffer from localised congestion.

The possible highway suitability would require more detailed and fine-grained assessment should proposals progress.

The site is not identified as a preferred site, but it is suggested that it may be a possible 'second best' choice, though noting significant challenges that the site presents.

At a Strategic Planning Committee meeting, a presentation from agents acting for the/a landowner advocating a much more modest scheme of one field for 75 dwellings, though with potential to also build in an adjoining field to take the total to 150 homes.

We have adjusted second best potential capacity down to 150 dwellings to reflect the landowner's submission.

Questions/Statements

1. The description for Exmo_20a confirms that the site was classified as rejected, so why would anybody think that they needed to consult on this site?
2. Even if the site was put forward as 'preferred' or 'second choice', how would anybody make a sensible comment with regards to this site based on the site description provided?
3. The description for a site of this size (proposed for a minimum of 550 homes) cannot be seen as 'acceptable'. Yet no comments made regarding this or the fact that there is NO supporting information for this site (or Exmo_20b) and only 2 comments received from the public regarding Exmo_20a.
4. Only Exmo_20b is referred to within the Draft Local Plan which is supposed to be the driver for the consultation.
5. As previously mentioned, Exmo_20a and Exmo_20b should never have been created or put forward. Only Exmo_46 should have been put forward. This is evident from the EDDC's own evidence/documentation, meeting minutes and meeting videos. Reg 18 evidence documents to be noted in addition to the above.

HELAA Report November 2022

The HELAA report identifies Exmo_20 as 'probably unachievable', and the site is included in the list of sites within Appendix E(v) 1 Available but not suitable or achievable - Housing sites

The HELAA report identifies Exmo_46 as 'probably achievable if'.

Questions/Statements

1. There is no mention of sites Exmo_20a or Exmo_20b in the whole of the HELAA report apart from them being shown within the interactive map which you really have to dig down to, to even get to see it - do not know when this map was updated with this though.
2. Why has the HELAA report been ignored with regards to Exmo_46?

The Site Selection Methodology document (dated May 2022)

This document was effective from May 2022 until Version 2 was published in December 2024.

This document details the site selection process and the four main stages.

Stage 2 of this methodology is important here as it covers the ‘site sifting’ stage. Where sites must pass certain criteria to be allowed to be considered for stage 3 which effectively means that they can be considered at this point in time for Reg 18 Consultation. The following is a copy of the relevant parts of the Stage 2 Site Sifting criteria from this document.

1.8 Following the ‘long list’ of sites identified in Stage 1, a ‘sifting’ process will be carried out to ensure that only ‘reasonable alternatives’ are considered further. Only sites which meet criteria a), b) and c) are carried forward to Stage 3. These criteria are shown in figure 2 below.

Figure 2: Sifting criteria

Sifting criteria Reason a) Site is assessed as 'suitable, available and achievable' in the HELAA

Based on the fact that site Exmo_20 is identified within Appendix E(v)1 of the HELAA report as 'Available but not suitable or achievable'. The site Exmo_20 fails the 'site sifting' criteria for stage 2 as it does NOT meet criteria a).

Questions/Statements

1. Based on the 'Site Sifting' criteria and the HELAA Report information highlighted above. Exmo_20 should have failed the 'Site Sifting' stage, and therefore, NOT have been put forward for Reg 18 Consultation, and ultimately COULD NOT BE AVAILABLE FOR Reg 19 Public Consultation.
2. What is the point of having the HELAA Report and the Site Selection Methodology if EDDC just go ahead and ignore them? the Sustainability Appraisal (SA) report for Reg 18 dated November 2022 - 571 pages

Pages 251 to 268 refers to Exmouth. With regards to references to Exmo_20, Exmo_20 is only being mentioned briefly and the rest of the references are for site Exmo_46.

The following is a copied description on page 253 detailing Exmo_20 and the reason for Exmo_46 being put forward instead.

Site Exmo_20 - Land at St. John's - was originally submitted through HELAA work as a very substantial site on the eastern edge of Exmouth, it is understood, however, that the site overall is no longer being promoted for development by the landowner but the landowner is promoting a southerly part of it for development and this has come in as 2022 call for sites submission and given reference Exmo_46. Site Exmo_46 is assessed, all be it the land owner also advised that land to the west of the submission site may be available for development and the SA assessment work covers the potential of the larger (additional area incorporated to the west) as this forms a proposed allocation for development.

Questions/Statements

1. Similar to the HELAA documents above, there is no mention of sites Exmo_20a or Exmo_20b in the whole of the Sustainability Appraisal Report apart from in the map shown on page 251 - WHY??

2. Based on the fact that the HELAA and Sustainability Appraisal Report both refer to Exmo_46 as the site to go forward for this phase, WHY do Exmo_20a and Exmo_20b even come into existence????

The Exmouth Sites - additional information.pdf

A 60 page document found within the EDDC Reg 18 Commonplace site within the 'List of policy maps' section (which is the last of the 4 proposals under the heading of 'HAVE YOUR SAY ON OUR PROPOSED SITES'). This document can be found by clicking on the 'List of policy maps' icon, then clicking on the 'Exmouth' policy map. This then takes you to the Exmouth policy maps page. At the top of this page there is a 'Check out the following documents' title which provides you with an option to click on the 'Exmouth Sites - additional information.pdf'. If you click on this link you will be supplied with a 60 page document titled 'Appendix 2 Site Selection - interim findings at Tier One and Tier Two settlements'. If you go to page 31 you are presented with the site Details for settlement Exmouth for Site reference number Exmo_20. The description for this site reference number is as follows :

Site reference number: Exmo_20, but also new 2022 call for sites site Exmo_46 that falls within Exmo_20 and by default a larger 2017 submission, site GH/ED/76.

Please note there is no reference to sites Exmo_20a or Exmo_20b within this document.

Pages 31 to 34 of this document detail the site assessment summary etc. for this site. Including the 'Should this site be allocated?' section. This section states the following:

Potential 2nd choice allocation, though following presentation at Committee by agents this is specifically so for Exmo_46. At this stage of plan making work (August 2022) it is not known if all of Exmo_20 is actually now being promoted by the land owner or owners for development but given the presentation to committee and the new call for site submissions we are assuming that active promotion of most of site Exmo_20 is not now occurring.

Questions/Statements

1. Similar to the HELAA Report and the Sustainability Appraisal Report documents above, there is no mention of sites Exmo_20a or Exmo_20b in the whole of this document.
2. Based on the fact that this document along with the HELAA Report and Sustainability Appraisal Report ALL refer to Exmo_46 as the site to go forward for this phase, WHY do Exmo_20a and Exmo_20b even come into existence????

4. CONCLUSIONS

1. Exmo_20 has NEVER been consulted on as a ‘whole site’. It was not put forward as part of the Reg 18 Consultations, and Exmo_20a and Exmo_20b have only been discussed separately. Exmo_20 as a ‘whole site’ was only put forward following the decisions made at the SPC meeting on the 3rd September 2024.
2. Exmo_20 as a ‘whole site’ is a totally different consideration to the sites Exmo_20a and Exmo_20b. The fact that the description within the Draft Local Plan for Reg 19, states that ‘Vehicular access to accommodate modest levels of development, will be allowed for southern site parts from the road ‘Southern Wood’..... Primary vehicle access to the site, serving the large majority/large bulk of development, will be from the B3179 to the North’ . This effectively means that the site will be split into two in anyway, how else can you only have ‘modest’ access via Southern Wood, without stopping the ‘majority’ of the site from connecting to this access point?
3. Based on the HELAA Report (which identified Exmo_20 as ‘available, but NOT achievable or sustainable), and the Site Selection Methodology document (dated May 2022 and not changed until December 2022). Site Exmo_20 should not have passed the Stage 2 ‘site sifting’ phase, and therefore, should NOT have been put forward to Stage 3 which effectively stops the site from being considered for the Reg 18 consultation. This ultimately means that Exmo_20a and Exmo_20b CANNOT be considered as part of Reg 18 Consultation, and ultimately should NOT have been in consideration for discussion at the 3rd September 2024 allocation discussion meeting. Which then means that Exmo_20 CANNOT be put forward for Reg 19 Consultation. Yet somehow these three sites have managed to get through the process. Why have (or bother) with the HELAA

Reports and the Site Selection Methodology, if you are going to COMPLETELY ignore them??

4. Even though Exmo_46 has been identified on numerous occasions since the 9th August 2022 as the only site to be taken forward of those linked to Exmo_20. It has NOT ONCE been mentioned in the various versions of the Draft Local Plan. Exmo_46 should have been used from this date onwards and would have stopped the confusion around this site that has been evident from this day forward.

5. The Appendix 2 - Exmouth Amended Version.pdf presented at the SPC meeting on the 6th September 2022, identifies Exmouth_46 as the site to be taken forward and that active promotion of most of site Exmo_20 is now not occurring. Based on this Exmo_46 should have been put forward to Reg 18 as 'Second Choice', and this should have been the ONLY site taken forward that was linked to Exmo_20.

6. The main evidence documents for the Reg 18 Consultation 7th November 2022 to 15th January 2023 are; The Exmouth Sites - additional information.pdf, the HELAA Report, and the Sustainability Appraisal Report. ALL of these documents identify Exmo_46 as the site to be taken forward to Reg 18 consultation and NOT the Exmo_20 site. It is astounding to note that sites Exmo_20a and Exmo_20b are NOT mentioned within ANY of these documents, yet somehow are the sites taken forward to the Reg 18 Consultation.

7. The HELAA Report, Site Selection Methodology, Sustainability Appraisal Report, and the 'Exmouth sites - additional information pdf' document, all support the INCLUSION of site Exmo_46, and the EXCLUSION of site Exmo_20 from the Reg 18 consultation. However, ALL of the information in ALL of these KEY documents has been ignored and there is no justification been provided for these decisions.

8. The resolution 'Delegated authority be given to the Service Lead – Planning Strategy and Development Management in consultation with the Chair of Strategic Planning Committee, to finalise the plan for consultation. To include making minor changes to correct possible factual or grammatical errors, ensure links to background reports are made and other minor amendments that do not materially change content' was agreed by SPC at the 1st November 2022 meeting. Yet somehow two new site references Exmo_20a and Exmo_20b (which is more than a minor change) are suddenly introduced without any discussion or descriptions. The only indication of these new sites is within the Exmouth map provided as part of the 1st November 2022 meetings report pack (but again no discussion around the introduction of these new sites). This is six days before the the Reg 18 Consultation starts.

9. On the 6th September 2022, the SPC agreed to 'Recommend endorsement of the preferred sites and 2nd choice sites as suitable for consultation'. There is no mention of putting 'rejected' sites forward for consultation, yet EDDC claim that because they have

received comments on ‘rejected’ sites then they have been consulted on. Why have comments against rejected sites been taken as ‘the site has been consulted on’? Of particular note is the description (or lack of) for site Exmo_20a identified within the main evidence above. 10. Based on all of the evidence supplied above, Exmo_20 should NOT have passed 'site sifting'. Exmo_20a and Exmo_20b should NOT have been put forward for Reg 18 consultation. Therefore, Exmo_20 CANNOT be put forward for Reg 19 Public Consultation!! 11. If all of the supporting documentation for the Reg 18 Consultation, including the Site Selection Methodology has been TOTALLY ignored, then why should we believe that the Reg 19 Consultation is going to be any different?

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: You will note from the overwhelming evidence above that Exmo_20 is not a legitimate site for allocation and the decisions taken by EDDC Strategic Planning Committee are clearly flawed. I will exercise my right to speak directly to the Inspector should Exmo_20 still be in its present form when the Examination commences.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Plan is not sound because of the inevitable environmental impacts of the large scale Exmo_20 site situated on the very edge of the National Landscape. There will be significant short and long term effects if this proposal is allowed to go ahead. During the construction phase there will be considerable ecological disruption, including increased pollution and disturbance to the wildlife. Thereafter Exmo_20 will have a sustained environmental impact on a continuing and unending basis, traffic will inevitably increase on already overcrowded roads, resource consumption will increase as will waste generation these will all lead to a degradation of the surrounding natural environment. No evidence has been provided that careful evaluation, avoidance and, as a last resort, mitigation has been undertaken to ensure alignment with EDDC's environmental sustainability objectives.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: There is no evidence that EDDC has adequately consulted with National Landscapes with regard to Exmo_20 as required by 2.4 of the East Devon Local Plan - Key Supporting Documents 002. It is also noted that, as documented in the referenced document and recorded in the minutes of the Strategic Planning Committee (SPC) meeting of 5/9/2023 that Budleigh Salterton Town Council (BSTC) was not included in the Duty to Co-operate despite EDDC undertaking in their Statemant of Community Involvement (p16) to consult all Town and Parish Councils.... Since the meeting of 5/9/2023 Exmo_20 was determined as "unsuitable" by EDDC and as late as 2/9/2024 the site was scheduled "Not Allocated". Somehow it is now proposed and adopted by the SPC as suitable and "Allocated"! It is patently obvious that a development of this size and impact within a few hundred metres of Budleigh and less

than 2 miles from the centre of the town, located on the edge of the National Landscape should have resulted in detailed and meaningful discussions with both BSTC and the residents of the town.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I don't think you have the right to ask this question. I clearly qualify as below from the Planning Inspectorate Procedure Guide 28/8/2024:

3.10. The right to appear and be heard by the Inspector at a hearing session is limited to those persons defined in section 20 (6) of the PCPA i.e. any person who has made a representation seeking a change to the plan within the deadline set by the LPA for Regulation 19 consultation responses. (This includes anyone seeking a change to the addendum of changes to the plan, if the LPA have submitted one in accordance with the procedure described in paragraph 1.5 above.) The Inspector may invite any other person to attend a hearing session if, in the Inspector's view, their participation will assist in assessing the soundness of the plan. But the Inspector has no power to summon a person to a hearing. In addition to the above I have been trying to be listened to by EDDC for many months without any success at all, therefore wish to speak directly to the Inspector.

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The largest development within the Local Plan (Exmo_20) is located the furthest from the designated Tier 1 town to which it is allocated, resulting in it being adjacent (a few hundred metres) to Budleigh Salterton a Tier 3 town, with it's resultant facilities, which is situated within a designated National Landscape. This policy is not legally compliant as it fails to satisfy a number of the remaining key tests, including those relating to sustainability, environmental impact and the adequacy of infrastructure provision. Furthermore, this land was previously rejected by EDDC's HELAA process as "unsuitable", indicating that it does not meet the necessary criteria for development in terms of environmental considerations and suitability for housing.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Plan is not sound because no consideration has been given to the main town affected by Exmo_20 i.e. Budleigh Salterton. This development fails to adequately address local priorities and needs and must go beyond the scope outlined in the Local Plan. This development would directly contradict POLICY OL05 of the Local plan which sets out to prevent development that would "damage the individual character and identity of settlements". There is significant concern being expressed by residents regarding the adequate protection of the St John in the WILDERNESS church, land and surrounding environment. Furthermore adequate consideration has not been given to the broader area of National Landscape including the Pebblebed Heaths SSSI which requires comprehensive safeguarding. It is essential that EDDC refrains from promoting land for development that has already been rejected by it's own HELAA process which raises significant concerns regarding the suitability of this site for development. The impact of such a large development on a discrete Tier 3 town with limited, and already

pressurised, infrastructure in accomodating such a large increase in population and activity clearly has not been considered. The inclusion of Exmo_20 is clearly in conflict with POLICY PB01 of the Local Plan (Protection of internationally and nationally important wildlife sites), it is not in accordance with the mitigation strategy and therefore SD03 is insound.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: It is clear that Budleigh Salterton Town Council (BSTC) has not been directly consulted correctly (see the submission made by them). This is despite the fact that Budleigh Salterton is the most proximate town to the proposed main access/egress of Exmo_20 development. BSTC members have made it clear that no time were they involved despite EDDC's commitment made in it's own Staement of Community Involvement (p16). The failure of EDDC to consult with BSTC completely undermines the effectiveness and transparency of the planning process

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I don't think you have the right to ask this question. I clearly qualify as below from the Planning Inspectorate Procedure Guide 28/8/2024:

3.10. The right to appear and be heard by the Inspector at a hearing session is limited to those persons defined in section 20 (6) of the PCPA i.e. any person who has made a representation seeking a change to the plan within the deadline set by the LPA for Regulation 19 consultation responses. (This includes anyone seeking a change to the addendum of changes to the plan, if the LPA have submitted one in accordance with the procedure described in paragraph 1.5 above.) The Inspector may invite any other person to attend a hearing session if, in the Inspector's view, their participation will assist in assessing the soundness of the plan. But the Inspector has no power to summon a person to a hearing. In addition to the above I have been trying to be listened to by EDDC for many months without any success at all, therefore wish to speak directly to the Inspector.

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

These comments are to be included in Chapter 5, Development in Towns and Villages.

The plan is not sound in that the inclusion of Exmo_20 will cause significant harm to the heritage assets at this Saxon/Norman/Medieval settlement in open country. The worst impact will be on the St John in the WILDERNESS church and grounds which is Grade II * listed, Worship, marriages, burials and church community events will not be able to continue in the middle of a building site. It probably would have helped if a single member of the EDDC strategic Development Committee had bothered to visit. Contrary to POLICY HE02

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I don't think you have the right to ask this question. I clearly qualify as below from the Planning Inspectorate Procedure Guide 28/8/2024:

3.10. The right to appear and be heard by the Inspector at a hearing session is limited to those persons defined in section 20 (6) of the PCPA i.e. any person who has made a representation seeking a change to the plan within the deadline set by the LPA for Regulation 19 consultation responses. (This includes anyone seeking a change to the addendum of changes to the plan, if the LPA have submitted one in accordance with the procedure described in paragraph 1.5 above.) The Inspector may invite any other person to attend a hearing session if, in the Inspector's view, their participation will assist in assessing the soundness of the plan. But the Inspector has no power to summon a person to a hearing. In addition to the above I have been trying to be listened to by EDDC

for many months without any success at all, therefore wish to speak directly to the Inspector.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Plan is not sound because of the inclusion of allocated site Exmo_20. This site did not pass the HELAA test and should be replaced by other sites which are available, achievable and suitable in the HELAA. Exmo_20 would inevitably cause harm to the adjacent Pebblebed Heaths which are designated SSSI/SAC/SPA & NNR due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to HELAA, the Site Selection methodology and Policy PB01 of the Local Plan and not in accordance with the Mitigation Hierarchy which requires the selection of avoidance over mitigation

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having tried repeatedly to get EDDC to listen to my objections to the Plan and failed, I would like to exercise my right to speak directly to the Inspector

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Plan is not sound in respect of proposed site Exmo_20. This site consists of a heavy clay subsoil and has ineffective soakaways which would significantly exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth which is already under additional pressure from the effects of climate change. This is in clear conflict with Policy AR 01B

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having tried repeatedly to get EDDC to listen to my objections to the Plan and failed I would like to exercise my right to speak directly to the Inspector

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The Plan is not sound because site Exmo_20 is in conflict with Policy OL09 and Policy PB04 this is because the Habitats Regulation Assessment of 30/01/2025 states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to ... air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The primary access to the site is directly adjacent to the SAC/SPA

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having tried repeatedly to get EDDC to listen to my objections to the Plan and failed, I would like to exercise my right to speak directly to the Inspector

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is in direct conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroying wildlife corridors contrary to Paragraph 13.23 of the Local Plan. It would inevitably cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across 210 acres contrary to Paragraph 13.9

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having tried repeatedly to get EDDC to listen to my objections to the Plan and failed I would like to exercise my right to speak directly to the Inspector

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development of Exmo_20 would have a ruinous effect on this open countryside site and the adjacent internationally designated wildlife sites eliminating the "tranquility, wildness and dark skies" which is contrary to Policy OL01

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having tried repeatedly to get EDDC to listen to my objections to the Plan and failed I would like to exercise my right to speak directly to the Inspector

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth (1.9 miles compared with 4.6 miles) making Budleigh the most convenient and accessible town to the site. The services and infrastructure of Budleigh - Doctor - Dentist - Pharmacy - School would be the obvious and preferred choice for any new residents in Exmo_20 and would be wholly overwhelmed. The current population of Budleigh is currently 5,200 people adding 700 houses in this one development could add 2,500 people which would represent an increase of 48%!! In case you are unaware the suggested entry point to Exmo_20 is less than 100 metres from the first houses in Budleigh. This proposal therefore contravenes the Settlement hierarchy and would inevitably lead to the coalescence of Budleigh Salterton and Exmouth directly contrary to Policy OL05 of the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having tried repeatedly to get EDDC to listen to my objections to the Plan and failed I would like to exercise my right to speak directly to the Inspector

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The plan making process for site Exmo_20 has not been in accordance with the PCPA 2004. Site reference Exmo_20 was deemed 'available BUT NOT achievable or suitable' in the HELAA report back in November 2022, and therefore not available to be consulted on at Reg 18. The only site associated with Exmo_20 and deemed suitable as 'second choice', was Exmo_46. This site should have been the only one going through to Reg 18. However, for some unexplained reason, this site has been ignored. The validity of Exmo_46 can be confirmed by checking the relevant KEY supporting evidence documents for the Reg 18 consultation, which are the HELAA Report, The Sustainability Appraisal Report and the 'Exmouth sites - additional information' document. The fact that two NEW sites Exmo_20a and Exmo_20b, suddenly appear on maps at the Strategic Planning Committee meeting on the 1st November 2022 is questionable (see the evidence titled 'New sites evidence' with email trail dated 20/03/2025). It is to be noted that these two NEW sites are not mentioned or discussed at this meeting (I have watched the youtube video of the meeting and went through the minutes and documents for this meeting). This is six days before Reg 18 starts, and more importantly these two NEW sites are not mentioned in any of the three KEY evidence reports/documents mentioned above. Taking all of the above into account, the sites Exmo_20a, Exmo_20b and Exmo_20 have no valid reason for being in Reg 18, and therefore should not have been discussed on the 3rd September 2024, which ultimately means that Exmo_20 cannot be put through for Reg 19 consultation. Please see evidence that has been provided alongside this submission. FOR THE — Site Selection Methodology (dated May 2022), the HELAA Report (November 2022), the Sustainability Appraisal Report (dated November 2022) and the 'Exmouth sites - additional information' document, these can be found on the EDDC website.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The plan making process for site Exmo_20 has not been in accordance with NPPF Chapter 3. Site reference Exmo_20 was deemed ‘available BUT NOT achievable or suitable’ in the HELAA report back in November 2022, and therefore not available to be consulted on at Reg 18. The only site associated with Exmo_20 and deemed suitable as ‘second choice’, was Exmo_46. This site should have been the only one going through to Reg 18. However, for some unexplained reason, this site has been ignored. 5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I have tried over many months to get EDDC to listen to the points outlined in this submission without any success at all. I would like the opportunity to present the facts to the Inspector

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: NPPF Chapter 3 Para 16 states that "Plans should be shaped by early, proportionate and effective engagement between plan makers, communities and statutory consultees. This Plan has clearly failed in this obligation. In respect of engaging with communities Exmo_20 was not proposed for Allocation throughout the period of engagement but from the moment it was manoeuvred to be Allocated there has been no opportunity for the local community to engage. Any attempt to discuss this site has been rejected in a high handed manner by the Strategic Planning Committee despite this site being, at times, the only one in the whole of East Devon where representations were being made. Furthermore Natural England as a Statutory Consultee has not been consulted on Exmo_20 despite the site adjoining a SAC/SPA/SSSI. This is a clear failure of EDDC to consult as they are required to by law..

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having attempted over many months to be heard by EDDC I would like the opportunity to speak to the Inspector to show the total lack of "consultation" undertaken by the Council and their continual efforts to prevent any reasonable objections to their pre-conceived plan..

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Allocation Exmo_20 is in conflict with Paragraph 3.30. EDDC has been forced to extend the settlement boundary of Exmouth to include not only the land which it is intended to build on but also the 400 metre buffer zone it is necessary to provide. The nett effect of this desperate move is that there will be houses in Budleigh Salterton that are just yards from houses in Exmouth! Clearly this represents ribbon development in contradiction the the Council's own Policy. The Plan acknowledges that housing cannot be built on the buffer zone but by including it within the settlement coundary it makes it available for other types of development. As a result of this manoeuvring the Plan fails entirely to offer robust protection against the adverse effects of excessive amounts of human traffic on the Pebblebed Heath.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Allocation Exmo_20 is in conflict with Paragraph 3.30. EDDC has been forced to extend the settlement boundary of Exmouth to include not only the land which it is intended to build on but also the 400 metre buffer zone it is necessary to provide. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The Allocation of Exmo_20 is in conflict with Paragraph 13.23. Exmo-20 lies within an identified Strategic Nature Area (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The Allocation of Exmo_20 is in conflict with Paragraph 13.23. Exmo-20 lies within an identified Strategic Nature Area (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Having attempted over many months to be heard by EDDC I would like the opportunity to speak to the Inspector to show the total lack of "consultation" undertaken by the Council and their continual efforts to prevent any reasonable objections to their pre-conceived plan..

Full name: Mr John Hamill

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The allocation of Exmo_20 is in conflict with Objective 8. It will inevitably adversely affect the natural environment and result in the loss of much long-established biodiversity

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The allocation of Exmo_20 is in conflict with Objective 8. It will inevitably adversely affect the natural environment and result in the loss of much long-established biodiversity

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Allocation of Exmo_20 is in conflict with policy TR03. The Local Plan highlights that congestion is a particular problem in Western East Devon and it is evident that Exmo_20 will add significantly to the congestion in and around Exmouth. The only proposed access within Exmouth is a residential cul-de-sac containing 10 houses which leads onto another residential road which in turn leads onto Dinan Way. This is not a sensible way to develop a site for 700 houses. Dinan Way suffers from continual traffic usage due to the ongoing development of many hundreds of houses. In addition to the congestion this site will cause in and around Exmouth and Budleigh Salterton, a significant number of vehicles will be forced to travel towards the M5 and Exeter through the village of Woodbury which is already a traffic pinch point.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Allocation of Exmo_20 is in conflict with para 3.2. It will increase the number of car journeys people need to undertake and will significantly increase the length of these journeys. The housing is proposed at the southern edge of the site whereas the only access and ingress into the site is at the very northern edge of the site where it joins the Pebblebed Heaths (SAC/SPA/SSSI). Because of the mandatory 400 metre buffer zone to the Pebblebed heath (one of only three in the whole of Europe) there will be a minimum km drive to access the site from the main road, km of driving just to get home and back! From the main road there is a further 7km drive to the centre of Exmouth. Exmo_20 would result in a large increase in car journeys and more cars travelling more miles.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Allocation of Exmo_20 is in conflict with para 3.2. 2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Allocation of Exmo_20 is in conflict with Policy TR01, it is 4.2 miles from the centre of Exmouth without any public transport connections and no viable way of creating such connections. It is unconceivable that people will walk or cycle UP a hill with this gradient to then return the 4.2 miles to the shops schools, healthcare and facilities they need. Studies cited in the Local Plan claim that most people will walk if their destination is within 0.5 miles, beyond 1.0 miles cars are the dominant form of transport, beyond 2.0 miles journeys on foot are rare. This development with it's only access will clearly breach EDDC's own Policy TR01.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Allocation of Exmo_20 is in conflict with Policy TR01, it is 4.2 miles from the centre of Exmouth without any public transport connections and no viable way of creating such connections. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Exmo_20 was allocated by Councillors against the advice of Officers despite there being no viable access for the 1500 cars that will use it. Following Allocation an informal discussion was held with Devon CC who limited access to the north eastern side of the site which is 4.2 miles from the centre of Exmouth (the Tier 1 town with which it is associated) but only 2.2 miles from Budleigh Salterton a tier 3 settlement only 2.2 miles away. Clearly Budleigh with none of the required infrastructure will be the nearest point for any new residents. The access arrangements proposed by DCC will lead the new inhabitants inevitably into Budleigh rather than travelling twice the distance to Exmouth. Despite the sprawling growth of Exmouth over recent years the two towns are currently separate in terms of provision of services but this development would merge the two with residents living in one town reliant on the other for services and infrastructure. Clearly a conflict with policy OLO5.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Full name: Mrs Dorothy Heath

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Potential harm to the Pebblebed Heaths is a huge risk and is contrary to Policy PB01, and would fragment an important wildlife corridor (see Para 13.23 of the plan). Threat to well established woodland and habitats is detrimental to the environment (para 13.9 of the plan). It poses a threat to the tranquility, wildness and dark skies in the area, which are a major natural asset (contrary to Policy OL01) There is also a risk of flood risk as the proposed development is on Exmouth's main water catchment area. (Policy ARO1B). The development will lead to a huge increase in traffic and the use of cars for local journeys. It is unrealistic to think that most people will rely on cycling, walking or even public transport. (Paras 11.2, 11.6 and Policy TR01). Not only is this in contravention of local policies on sustainability, it also presents an increased risk of accidents and air pollution, especially in the area around Southern Wood which already has problems arising from excessive traffic on Meadow View Road. Given its proximity to Budleigh, many people will doubtless wish to use Budleigh infrastructure, which would result in urban sprawl/coalescence of two separate communities, which is contrary to Policy OL05.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Do not use Southern Wood as an access site - it is totally unsuitable for this purpose. Reduce the size of EXMO_20.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Mr David A Heatherington

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: the main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh the most convenient and accessible town. The services and infrastructure of Budleigh would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local plan Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the tranquillity wildness and dark skies of the countryside which is contrary to POLICY OL01 Exmo _20 will be on heavy clay subsoil with ineffective soakaways, and would exacerbate the already identified downstream floodrisk along Withycombe brook through Exmouth, which is already beyond its design capacity EXMO_20 would increase the need for car travel and increase traffic congestion. People would need to travel much further than 800m to existing key services and facilities. The site is too far and too steep for normal foot traffic and cyclists

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Christina Hellier

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I would like to put forward my views regarding this housing development.

Exmouth is being built upon from all angles : Dinan Way Development and Road. The Curlews. Plumb Park. Orcombe Gardens. Rolle College Campus. Do we really have to build more? This new development will encroach on Green Belt/National Landscape. It will damage the natural landscape of the Pebblebed Commons, and encroach on the beautiful tranquil, and rural environment of Castle Lane and Littleham Churchyard and surrounding fields. This area has always been a quiet and safe route for walking and cycling (and an area to get away from everything within a stone's throw of the town).

I attended the Bloor Homes Consultation at Bidmead Community Centre (I would hope that you did, too?). I saw the plans in full, talked to Bloor Homes and Clinton Devon Representatives. Of course, they all presented this very positively from their point of view. However, nothing will convince me that this development is either desirable, sustainable or necessary. The idea that all the run-off water from the estate will be channelled into Littleham Brook is frankly laughable! Have they looked at the brook recently, and checked the health of the water course? I have been visually (and photographically) been monitoring this stream for over 30 years , and have watched it descend from a lively stream, where you could happily paddle with children, to a dirty stream with indeterminable brown substances rolling down along it. It used to support fish and kingfishers - but I have seen neither for over 6 years now (since the development in Douglas Avenue, when the fields were dug up for drainage, and trees removed). I have video evidence of all this. For the whole of 2024 it was impossible to walk up Maer Lane / Gore Lane without dodging sewage on the road, sewage tankers and the smell of sewage. If we are struggling to look after our sewerage and drainage systems already, how much more pressure will be put on an already failing SWW?

With only one exit onto Salterton Road, this will have a dramatic effect on people travelling to and from Budleigh Salterton. The Knowle turning onto Budleigh road is already difficult to navigate at certain times of day. Imagine the extra number of cars on the road, if each of the 410 houses has just one car! This development will ruin the ambiance of Exmouth, as being unusual in being both a rural and a coastal community. This is driving our farmers out. Where will all the bats, foxes, badgers and deer, that currently live and roam in these areas, go? Will people be happy to have badger thoroughfares running through their gardens?

Fighting for a good quality of life in Exmouth is very stressful these days...as all the things we take for granted are being eroded. We are being hit on both sides. If these changes keep on occurring, then people will no longer seek to come on holiday to Exmouth, and local people will want to leave... Please stop the despoilation of our unique environment before it is too late. Once an area is concreted / tarmacked over, THAT IS IT

Exmo_20 I am appalled at how much land will be lost in an area that is unspoilt. Access on to roads will be very dangerous, people coming to Exmouth to visit (ie the tourist industry we rely on so much) will think they are still in their cities and towns not to mention the infrastructure which is already collapsing and Dinan Way Goodmores Estate has just added to that problem although the original plans showed a supermarket and there was talk of a school. Think of the view people will see when they enter the Donsn Way off the new roundabouts rows and rows of houses shadowed by ugly flats which are already a blight on the landscape! The houses have not been built in character with Exmouth so now they add to the style of Byron Way etc which is more Crawley!! Our beautiful town with its lovely buildings and country lanes is being swallowed up and nobody is considering the fact we cant reverse this once it happens. I worry nobody will come here they will go to Budleigh or Sidmouth. Please don't destroy it. If you have to provide more homes do it tastefully with smaller developments and consider the impact it has on the people already living here.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

- Contrary to Local Plan Policy PB01: The development should be relocated to an alternative site to avoid harm to the Pebbled Heaths (SAC/SPA).
- Loss of tranquillity and natural beauty: Exmo_20 would destroy the “tranquillity, wildness, and dark skies” of the countryside, which conflicts with Policy OL01.
- Environmental damage: The development would fragment habitats and destroy wildlife corridors, harming veteran trees and species-rich hedgerows—contrary to Paragraphs 13.9 and 13.23 of the Local Plan.
- Failure to meet air quality standards: The Habitats Regulations assessment (30.01.25) confirms that adverse effects on air quality cannot be ruled out, conflicting with Policies OL09 and PB04.
- Impact on heritage site: Exmo_20 would adversely affect St John in the Wilderness, a Grade II listed church and churchyard*, significantly altering its peaceful setting—contrary to Policy HE02.
- Increased flood risk: The site is on the main rainwater catchment for Withycombe Brook, on heavy clay subsoil, making soakaways ineffective and exacerbating flood risks—contrary to Policy AR01B.
- Traffic congestion and sustainability concerns: The development increases car dependency and traffic, as it is over 800m from key services, making walking and cycling impractical—contrary to Policy TR01 and Paragraphs 11.2 and 11.6.
- Encroachment on Budleigh Salterton: The site is closer to Budleigh Salterton than Exmouth, leading to urban sprawl and merging the two areas—contrary to Policy OL05.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any

matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

This development should be modified to remove Exmo_20 from the Local Plan. This will prevent significant environmental harm, preserve the integrity of protected landscapes and heritage sites, mitigate flood risks, ensure sustainable transport planning, and prevent urban sprawl between Exmouth and Budleigh Salterton. The exclusion of Exmo_20 will ensure alignment with Policies PB01, OL01, HE02, AR01B, TR01, and OL05, contributing to a more sustainable and resilient development strategy.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jonathan Jones

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns. Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner. A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath. I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to BudleighSalterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA.

Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

Exmo_20 would cause harm to the heritage assets, most significantly St John in the Wilderness Grade II* listed church and churchyard, drastically altering the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the "tranquility, wildness and dark skies" of the countryside, which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan, or reduce the size of it significantly. Do not assess the site via B3179, consider alternative access routes. Do not access the site via Southern Wood.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: Not compliant with the following:

Policy 23 - Infrastructure Delivery: This policy outlines the requirement for necessary infrastructure, including wastewater management systems, to be in place to support new developments. It ensures that housing growth is aligned with the capacity of existing or planned infrastructure to prevent overloading of systems.

Policy OL09: Control of pollution Permission will not be granted for development which would result in pollution that cannot be adequately mitigated. This will include: A. Pollution of the environment by gas or particulates, including: smell, fumes, dust, grit, smoke and soot; B. Pollution of surface or underground waters, for example by untreated sewage, including discharges to:

1. Rivers, other watercourses, water bodies and wetlands;
2. Water gathering grounds including water catchment areas, aquifers and groundwater protection areas;
3. Harbours, estuaries or the sea;”

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove SDO1, SD10 and SD11 development from the Local Plan. South West Water demonstrably cannot be trusted to address the issues and even if they try, Ofwat processes meant that such improvements cannot be completed within 8 years. To allow development of these locations prior to infrastructure expansion is to knowingly enable, create, and add to sewage pollution of local rivers, sea and streams.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The sewage situation is so out of control it's actively harming local people and the natural environment. Allowing more development before this is fixed is completely unacceptable.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: The policy does not take into account the already acknowledged failure of the sewage network infrastructure and overwhelmed treatment capacity of the Maer Lane sewage treatment works. The policy does not even refer to the many issues that all acknowledge. EDDC have issued notice of a "civil emergency" and a "vote of no confidence in SWW" because of the nationally publicised sewage infrastructure failures across Exmouth from 2019 to 2025. To not even acknowledge this issue, despite EDDCs clear knowledge of the problems is highly irresponsible.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: EDDC has completely failed to act upon feedback given by local people and parish councils.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Mary-Jane Jones

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed development at Exmo_20 should be located elsewhere to cause no harm to the Pebblebed Heaths. It would destroy the 'tranquility, wildness and dark skies' of the countryside. It would isolate habitats, destroy wildlife corridors, and cause detriment to irreplaceable habitats, veteran trees and species rich hedgerows across the site. Air quality in the area may be at risk, particularly due to the increase in car travel and traffic congestion resulting from such an increase in population from the proposed development. Exmo_20 is on the main rainwater catchment area of Withycombe Brook and could increase the flood risk at the lower end of the site and through Withycombe. Paragraph 11.2: It is isolated; people would need to travel nearly 1km to existing key services and facilities. It is too far and steep from the town centre for people to walk or cycle - they will use cars. The main access point to Exmo_20 is closer to Budleigh Salterton than Exmouth so that Budleigh would be the obvious choice for residents for goods, services, infrastructure and leisure. (Don't think the residents of Budleigh will be very pleased).

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: This development is much closer to budleigh salterton than Exmouth, and would significantly increase the population of a small town. Budleigh has limited facilities: schools, doctors, parking, not to mention a huge overloading of an antiquated sewage system, which is resulting in pollution to the local area. The coalescence of budleigh and Exmouth is contrary to POLICY OL05 of the local plan.

EXMO 20 would cause harm to the adjacent Pebblebed Heaths (SSSi/SAC/NNR). EXMO 20 is contrary to POLICY PB01 of the local plan, and not in accordance with the mitigation strategy.

EXMO20 would cause harm to St John in the Wilderness Grade II listed church and churchyard, drastically altering the current rural setting for worship and burials. This is contrary to policy HEO2.

EXMO 20 would have a detrimental effect on the adjacent designated wildlife sites and would destroy the “ tranquility, wildness and dark skies” which is contrary to policy OL01.

EXMO20 would be in conflict with strategic nature area 368, and this is contrary to para 13.23 of the local plan and para 13.9.

EXMO 20 is in conflict with Policy OL09 and PB04, as the habitats regulations assessments states there is not sufficient certainty to rule out adverse effects in integrity in relation to air quality in east Devon

Further development on heavy clay soil, with ineffective soakaways, would exacerbate the already identified downstream flooding risk along Withycombe Brook. Any water would also likely run towards Budleigh Salterton and the already unstable cliffs which are constantly falling.

The location of EXMO 20 is not within walking distance of either Budleigh or Exmouth and both towns would need to be visited by cars. Neither towns are accessible on foot; the roads are fast B roads with new pavements, and not particularly suitable for cyclists. There is currently not enough parking in Budleigh for the current population, and this is exacerbated during the summer months when visitors come to the beach. Locals without parking spaces on their properties are often unable to park during the summer months due to visitors parking on residential streets all around Budleigh. The LORP has also attracted visitors from around the area and further afield, which has resulted in even more cars in the area. The EXMO20 access point is directly into the B3179 which is the main route into Budleigh. This is a fast road, and would also impact Ting Tong, Woodbury Common and Woodbury. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXMO 20 from The local plan. This site is not suitable, the local area cannot cope with an increase in population, we do not have the amenities or facilities to cope with this increase. Perhaps consider a much smaller development in the area with affordable housing for local people.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Robert Keast

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Damage to pebble-bed heaths and wild life. By developing Exmo 20 is contrary to policy PB01 of the local plan and not in accordance with the mitigation policy. This plan makes a mockery of having a local structural plan every ten years if it is being over ridden. Exmo 20 would destroy the wild life habitat and dark sky's contrary to policy OL01 This will also fragment and isolate habitats and alter wildlife corridors, having been reinstated to shrub land recently. Paragraph 13.23 Local plan. There is a conflict between policy OL09 and PB04 regarding air quality. St John's church is a grade II listed church and church yard a restful peaceful place that means a lot to the worshippers. Exmo 20 will alter this environment contrary to Policy HEO. The water catchment area north of Exmouth is heavy clay, making soakaways ineffective and as a result of building, flooding around Withycombe Policy ARO1B This area is not served by any major roads or transport hubs making car travel a major source of transport. In conflict with paragraph 11.6 and 11.2 As this is nearer Budleigh Salterton the infrastructure of the town is not suitable, small high street, very limited parking. No room for expanding either doctors or dentists. Daily sewage spills into the sea, a claim is being presented to SWWater. Schools are limited and in need of repair. there is a danger of the two towns merging. Contrary to Policy OL05 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will

be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo 20 from this area. Continue with the new town on the east of Exeter as per the local plan. FULL TOWN development will provide parking, schools doctors, dentists and so on.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Ellie Kinnear

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The proposed development at Exmo20 should be located on an alternative site the current location will cause harm to the much treasured and protected Pebblebed Heaths (SAC/SPA) The Exmo 20 development proposal is contrary to Policy PB01 of the local plan and not in accordance with the mitigation strategy Developing EXMO20 would be detrimental to wildlife habitats would be isolated and corridors destroyed This is contrary to Paragraph 13.23 of the Local Plan The habitats would be irreplaceable species rich hedgerows and veteran trees destroyed contrary to Paragraph 13.9 of the local plan

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Ideally remove Exmo 20 from the local plan failing this revert to the previous proposals for Exmo 20 do not access site via B3179 or via Southern wood

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: This is such an important issue and I feel as many people as possible should take an active part in listening to the decision making and suggestions so huge mistakes are not made and we do not destroy our countryside unnecessarily

Full name: Jane Kinnersleyq

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo 20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh Salterton its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo 20. This would lead to coalescence of Budleigh Salterton and Exmouth, contrary to OL05.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size of Exmouth 20 and find a way to access it from the south NOT via the B3179

Full name: Jane Kinnersleyq

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo 20 is in conflict with policy SP01. Exmo 20 is completely detached from Exmouth and therefore cannot be considered to be a development in a Tier 1 town

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Revert to Exmo 20b as previously proposed

Full name: Tom Klampfer

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to BudleighSalterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan. An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. Exmo_20 would cause harm to the heritage assets, most significantly St John in the Wilderness Grade II* listed church and churchyard, drastically altering the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02. Exmo_20 would have a detrimental effect on the adjacent designated wildlife sites and destroy the "tranquility, wildness and dark skies" of the countryside, which is contrary to POLICY OL01. Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the

already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location is unsustainable development as people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Harry knee

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the Local Plan.

- An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

- Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/ Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HEO2. Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the "tranquility, wildness and dark skies", which is contrary to POLICY OL01. Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

- Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook

through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B. Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point for Exmo_20 is much closer to Budleigh Salterton than it is to Exmouth, so Budleigh Salterton will be the most convenient and accessible town for the residents of Exmo_20. So the preferred choice of services and infrastructure (High Street shops, doctors, school, beach etc) for residents of Exmo_20 will be Budleigh Salterton. This undermines the settlement hierarchy and would mean that Budleigh Salterton and Exmouth would coalesce, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology and POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade II* listed church - where it would erode the existing attractive rural setting for worship and burials . This is contrary to POLICY HE02.

Exmo_20 will have a seriously detrimental effect on this open countryside site and the adjacent internationally designated wildlife site (the highest designations - SSSI/SAC/SPA/NNR) and would eliminate the "tranquility, wildness and dark skies", which is contrary to POLICY OL01.

The development of Exmo_20 is in conflict with the Strategic Nature Area 368, and would fragment and isolate habitats, destroying wildlife corridors which is contrary to PARAGRAPH 13.23 of the Local Plan. This would cause harm to the irreplaceable habitats, veteran trees and species rich hedgerows which exist across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to ... air quality (East Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

POLICY PB04 states that to help preserve the integrity of the East Devon Pebblebed Heaths on account of the potential impacts of predation of birds by domestic cats, direct recreational disturbance, dog related impacts and urban effect impacts, new dwellings and tourist accommodation or other developments that may result in unacceptable impacts will not be permitted on or within 400 meters of the Pebblebed Heaths - Exmo_20 is within 400m meters of the Pebblebed Heaths.

The development of Exmo_20 on heavy clay subsoil with ineffective soakaways would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth - this is already under pressure from climate change. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and would increase traffic congestion, in conflict with PARAGRAPH 11.2. Its isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far, too steep, and too dangerous (no pavements on a winding narrow road) for potential residents to reach any town centre using walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will

make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Do not access any new development site, such as Exmo_20, via the B3179

Remove Exmo_20 from the plan as it is far too big for the infrastructure in the area, and will have detrimental impact on the adjoining East Devon Pebblebed Heaths NNR.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: *

The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA).

Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. * Exmo_20 would destroy the "tranquillity, wildness and dark skies" of the countryside, which is contrary to POLICY OL01. * Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to

PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

* The Habitats Regulations assessment (30.01.25) confirms that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04. " Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to

POLICY HEO. " Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and down through Withycombe. This is in conflict with POLICY

ARO1B. * Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01. * The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. 5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: * Remove / reduce the size of Exmo_20 * Do not access the site via the B3179 * Do not access the site via Southern Wood

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Barry Charles Laver

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 is the major proposal towards Exmouth's housing target and should not extend anywhere near the B3179. The beauty of the countryside, far from being protected, would be completely lost and fail to preserve the separate identities of Exmouth and Budleigh Salterton contrary to POLICY OL05 of the LocalPlan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reduce the size of Exmo_20 and do not allow access from the B3179

Full name: Frances Leaning

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is closer to Budleigh Salterton than Exmouth. This would make Budleigh its most convenient and accessible town. Infrastructure and services in Budleigh would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan. The over stretched infrastructure, facilities and services is not fit for purpose at present.

Exmo_20 would harm the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the site selection methodology and POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at St John in the Wilderness Grade 2 listed church, eroding the attractive rural setting for worship and burials. The heritage assets are Saxon, Norman and Medieval. This is contrary to POLICY HE02.

Exmo_20 would cause detrimental effect on the open countryside and designated wildlife sites nearby. This would eliminate the “tranquility, wildness and dark skies” which is contrary to POLICY OL01.

Exmo_20 would increase the need for car travel. It will increase traffic congestion on an already dangerous and unsafe road. The increase in traffic connections is in conflict with paragraph 11.2. The isolated location provides unsustainable development as

residents would need to travel further than 800m to existing key services and facilities contrary to paragraph 11.6. It is too far and too steep from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

Exmo_20 is in conflict with POLICY OL19 and PB04 as the Habitats Regulations Assessment states there is currently “not sufficient certainty to rule out adverse effects in integrity in relation to air quality”. the main site access proposed is opposite SAC/SPA.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan. Do not access the site via the B3179 or by Southern Wood.

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: All of the above.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

Full name: Maureen Lister

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is closer to Budleigh Salterton. This would be a disaster for Budleigh which does not have the services or infrastructure for more people. It would lead to Budleigh and Exmouth becoming one conurbation which would go against the differing preferences of residents in both areas. It would conflict with the POLICY OL05 of the Local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan, or at least reduce its size.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths (SAC/SPA). Developing Exmouth_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy. . Exmouth_20 would destroy the 'tranquillity, wildness and dark skies' of the countryside, which is contrary to POLICY OL01. . Developing Exmouth_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9. . The Habitats Regulations assessment (30.01.25) confirms that there is 'currently not sufficient certainty to rule out adverse effects in integrity in relation to .. air quality (East Devon Pebblebed Heaths SAC/SPA). Exmouth_20 is in conflict with POLICY OL09 and POLICY PB04. . Exmouth_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02. . Exmouth_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B. . Exmouth_20 would increase the need for car travel and increase traffic congestion in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TRO1. . The main access point to Exmouth_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OLO5 of the local Plan.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh it's most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement Hierarchy and would lead to coalescence of Budleigh & Exmouth, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable & suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to HELAA, the Site Selection Methodology & POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting for worship & burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect on this open countryside site and the adjacent internationally designated wildlife sites, eliminating the "tranquility, wildness and dark skies", which is contrary to POLICY OL01.

Exmo_20 development would be in conflict with the Strategic Nature Area 368, fragmented and isolating habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is "currently not sufficient certainty to rule out adverse effects in integrity in relation to air quality (East Devon Pebblebed Heaths SAC/SPA) such that the plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

Development of Exmo_20 on heavy clay substitute with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already under additional pressure from climate change. This is in conflict with POLICY AR01B.

Exmo_20 would increase the need for car travel, contrary to Figure 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20

I vigorously object to the plan to build a large number of houses on this area of land my reasons are listed below:-

1. East Devon is an area of outstanding natural beauty, putting an urban spread on these fields will kill the beauty of this land.

2. More importantly the drainage of this area into a brook going through Withycombe will cause more flooding to the area below the new build section. This is a conflict to Policy number:- ARO1B

3. The sewage system in and around Exmouth is already overloaded this will cause more problems with sewage drainage which is already difficult to resolve.

4. There is a huge amount of Wildlife in this area destroying the Hedgerows and fields is in conflict with Policy OL01 & 13.9

5. The proposed new development is near a unique listed Church and Graveyard which is a perfect area for peace and contemplation which is unusual in this world.
Developing near here will be in conflict with:- Policy HE02

6. The infrastructure needed to support this new development will destroy the surrounding area as the roads are too narrow and winding and take the traveller through small villages. The council says people can walk or bike to areas where there are shops, doctors, etc. They will not as it is far away from the central town of Exmouth up a very long hill consequently people living in this new area will go in their cars causing more congestion on the surrounding roads.

9. Another suggestion was that residents would use Budleigh Salterton more than Exmouth this will cause huge problems with the infrastructure and facilities there. This is in conflict with Policy OL05

10. If East Devon needs new housing this should be placed in a circle around the Axminster and Honiton or the airport area where roads and communication infrastructure is already in existence and large enough to cope with the increase in population and traffic. The major location of facilities and employment is in Exeter, but road and rail links between Exmouth and Exeter are already over busy. People would drive to the Station in Exmouth and need to park their cars causing more problems.

Full name: William Jonathan Claydon Lyne

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: The site should have failed the HELAA test as being within 400 yards of Pebblebed Heaths. It should never have been included to proceed to stage 2. Thus it's inclusion is legally incorrect and is subject to a potential Judicial Review.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXM_20 completely.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The site is in conflict with policy SP01. Because of its geography development in Exmouth is limited to a 90 degree arc despite Exmouth being designated a Tier 1 town it is unsuitable for any further development. This site is about 4 miles from the town centre and much closer to neighbouring towns such as Woodbury and Budleigh Salterton which are unable to cope with an influx of almost 1000 houses.

The allocation of EXMO_20 is in conflict with Paragraph 11.6. It qualifies as a "larger" development but most of the site is more than 800m (roughly 10 minutes walk) from any services or community facilities. Thus it is most likely that residents will drive 2 or more miles (via the B3179) either to neighbouring communities or Exmouth town centre.

Allocation of EXM_20 is contrary to Policy TR01. It is extremely unlikely that residents will prefer to walk or cycle from this location for shopping/work/school as the distances are all well over 1 mile, and hilly.

The site is also thus in conflict with paragraph 11.2 as it will increase traffic and require cars to take longer routes. Because of the proximity of Pebblebed Heaths, no housing would be permitted within 400 metres of the proposed junction with B3179 which will increase yet further the necessary distance travelled. Access from the B3179 further increases the distance to Exmouth Town Centre.

The allocation of Site EXM_20 is also contrary to paragraph 3.34. Although Exmouth is a Tier 1 town it already has severe pressure on its infrastructure and services, such as dentists, doctors' surgeries and schools, notably Exmouth Community College. The sewage system in Exmouth is already at capacity as evidenced by the substantial problems last year which necessitated fleets of sewage lorries further increasing traffic congestion.

Allocation of Site EXM_20 also is against policy TR03 and figure 7 of the Local Plan. Due to the restricted access and its hilly topography, the site will create more traffic on the B3179 between Woodbury and Budleigh Salterton. The local plan notes the congestion is already an issue on Western East Devon and the traffic from this site will all be on rural B Roads notorious for congestion and being substandard.

Lastly, the site is in conflict with paragraph 2.6. It is currently open countryside and this is by no means a "modest development" but is in fact a "comprehensive development scheme" in a rural part of East Devon.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove EXM_20 as a site allocated for development.

As alternatives consider: a. increased development to tier 2 towns which have a 360 degree of potential areas for development such as Honiton and Axminster, both of which have the benefit of being on or adjacent to A Roads. the A 30 and A 35 respectively. b. Increase development in the West-Exe area or between the M5 and A30 close to Exeter Airport to take advantage of far better road and rail connections .

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: The plan is not in accordance with the PCPA 2004 Section 33A. EXMO_20 was deemed not suitable or achievable at the HELAA stage 2 site sifting stage. It has never been either a preferred or second choice scheme and was therefore omitted from regulation 18 consultations with Devon County Council.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Harriet Lyons

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 would seriously increase car traffic and congestion in conflict with Para. 11.2. It is a long way (several miles) from the key services and facilities in either Exmouth or Budleigh Salterton, contrary to para. 11.6. It is too far and too steep for people to walk or cycle to the facilities ~contrary to Policy TR01.

Access onto the B3179 would substantially increase traffic on a narrow and winding road with difficult/dangerous junctions.

The position of Exmo_20 would cause harm to the famous Pebblebed Heaths (SAC/SPA), is contrary to Policy PB01 of the local plan and contrary to the mitigation strategy.

Exmo_20 would destroy wildlife corridors (Para. 13.23) and the habitats in mature trees and hedgerows contrary to Para. 13.9.

Exmo_20 is on the rainwater catchment area of Withycombe Brook and would increase the flood risk in Withycombe in conflict with Policy AR01B.

Because the main road access of Exmo_20 is closer to Budleigh Salterton than Exmouth, this would place increased strain on the facilities in Budleigh and lead to the coalescence of Exmouth and Budleigh, which is contrary to Policy OL05 of the local plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 entirely from the Local Plan for the reasons given above.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Helen Madell

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: Why is Exmouth classified as Tier 1. There is a failing infrastructure in Exmouth. There is a poor rail link, branch line, trains cancelled frequently. The A376 and B3179/80 are not suitable for the amount of traffic on them at the moment, and will definitely not cope with the amount of extra housing you are proposing. Accidents frequently occur on B3179 especially at junction of Higher Marley Road and Higher Hulham Road, and more traffic is being channeled onto B3179, from St Johns development (exmo 20) this will increase the probability of more accidents at these junctions. It is ridiculous to propose an exit onto an already overused B road which is not fit for the current amount of traffic using it. This housing goes to within 400m of an important National and European site and it is disgraceful that EDDC, who purport to be protecting our environment would put this area at risk due to extra pollution from cars using a road that runs along the perimeter. The amount of extra footfall onto The Pebblebed Heaths would obviously have an adverse affect on this protected area. This area is much closer to Budleigh Salterton than it is to Exmouth!

Coles Field (Exmo14) This land is encroaching even further up Hulham Road to Pebblebed Heaths and is full of wildlife from adjoining ancient woodland, totally overdeveloped taking away the rural feel of the area.

Littleham (Exmo 17.) This area is in a National Landscape designated area, how can you possibly put so many houses on this site and comply with national planning regulations.

Land off Marley Drive (Exmo 04a) This was a dreadful decision to include this area as it has so many protected/endangered species and habitats on site, ancient woodland and woodpasture, ancient/veteran trees, and ancient parkland which should be registered as a priority habitat. The Lawn area has a very large grouping of ancient/veteran trees which is extremely rare and cannot be replaced or mitigated against. Developing this site would be ignoring so many laws and regulations including para 193 of National Planning Policy Framework. This area has tremendous run off from The Pebblebed Heaths, this runs in a stream under Marley Drive, the stream often overflows flooding the field and further hard landscaping would exacerbate this run off possibly flooding further down into Exmouth and Lympstone. Extra traffic exiting onto Higher Marley Road would have problems joining Dinan Way due to extra traffic generated from development at Littleham and St Johns and would inevitably, along with other traffic trying to avoid gridlock on A376 travel up Higher Marley Road onto B3179, greatly increasing the probability of accidents at the junction. This site is up to the 400m buffer zone to Pebblebed Heaths and provides a green corridor from Pebblebed Heaths to Ancient parkland at The Lawn, the ecology of this site with its natural springs and ponds, ancient trees and woods and pastureland make it unique and it should be protected not destroyed.

Exmouth does not have the infrastructure to support this density of housing, the roads are inadequate, the train service is a poor branch line, the Community College is full, the Doctors are full, Budleigh Salterton and Woodbury GP surgeries not accepting any new patients from Exmouth. Building surgeries still need GPs to provide a service! the Sewage system has failed, the beach closed in the middle of summer and sewage discharges polluting the beach this year. Exmouth cannot cope with the amount of housing you are proposing. I know Government targets need to be fulfilled, but it seems to be an ill thought out plan that seems rushed due to present Government strategy. There are more suitable areas in East Devon that have direct dual carriageway and mainline rail links to Exeter or London, Exmouth is on a peninsula and it is full.

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: 1)

The main access point of Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High street, doctors, school, beach etc) would be the preferred choice for residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan.

2) An alternative site to Exmo_20 for housing allocation should be selected, one which was deemed available, achievable and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/SPA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology and POLICY PB01 of the local plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan.

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: Yes

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Road Access and Sewage disposal. Exmouth has sea and river on two sides and the only access is via the A376 to Exeter and B3178 to Budleigh. Both are heavily overused, a minor accident results on long hold-ups and if there were a Major Incident, emergency crews would struggle. Any further increase in the population, most of whom would commute to Exeter, would make a bad situation much worse. The sewage situation has received so much publicity, country wide, that it is unnecessary to say more.

Exmouth's main income is the tourist industry yet many summer days last year the beach was closed due to pollution. Until SW Water updates its water treatment works and increases their capacity, there should be a hold on new developments.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Increasing the road access is not possible but it would be more sensible to increase e.g. Ottery's or Honiton's share of necessary development as they have 360 degree land around them

for building. And why only 170 homes designated for Sidmouth? Installing small scale sewage treatment works should be a sine qua non for getting planning permission.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

I am writing to register my strong objection to the proposed developments EXMO_20 and EXMO_17. These applications would lead to significant overdevelopment in an area where infrastructure is already struggling to cope. If approved, the impact on Exmouth and surrounding areas would be severe, causing irreparable harm to local infrastructure, traffic congestion, environmental sustainability, and flood risks.

1. Overdevelopment and Insufficient Infrastructure

Exmouth's infrastructure is already under immense pressure, and the proposed 1,100 new homes would only exacerbate this issue. Local services—including healthcare, education, and public amenities—are stretched thin, and no credible plans have been presented to ensure that additional residents can be adequately accommodated. If existing infrastructure cannot support current demand, how can it possibly sustain such a substantial increase?

2. Traffic Congestion and Road Maintenance (Contrary to Paragraph 11.6 & Policy TR01)

The road network in and around Exmouth is already overloaded. Additional traffic from these developments would only worsen congestion, increasing travel times and air pollution. Furthermore, the local council is already failing to maintain the roads adequately. If existing roads are in poor condition now, how can they possibly withstand the additional burden?

The claim that people will walk or cycle to town is unrealistic. The distance and steep terrain make it impractical for most residents, leading to further car dependency. This directly contradicts Policy TR01, which promotes sustainable transport methods.

3. Destruction of Wildlife and Habitats

The environmental impact of these developments cannot be ignored. Previous developments have already caused significant damage by destroying and isolating habitats, leading to further biodiversity loss. Wildlife corridors have been broken up, making it increasingly difficult for species to survive. This continued destruction is completely unsustainable—nature simply cannot cope with yet another large-scale development.

4. Increased Flood Risk (Contrary to Policy ARO1B)

EXMO_20 is located upstream of Exmouth on the primary rainwater catchment area of Withycombe Brook. This area consists of heavy clay subsoil, which makes soakaways ineffective. Any further development will worsen an already identified flood risk, putting existing residents at greater danger of flooding. This proposal is therefore in direct conflict with Policy ARO1B, which aims to mitigate flood risks.

5. Loss of Separation Between Budleigh and Exmouth (Contrary to Policy OL05)

The proposed main access for EXMO_20 is located closer to Budleigh Salterton than to Exmouth, meaning that Budleigh would become the more convenient and accessible town for new residents. This would lead to an unacceptable coalescence of Budleigh and Exmouth, eroding the distinct identity of both towns. This directly contravenes Policy OL05, which seeks to prevent the merging of settlements.

Conclusion

These developments are wholly inappropriate for Exmouth. The lack of supporting infrastructure, the inevitable increase in traffic congestion, the destruction of natural habitats, the heightened flood risk, and the erosion of the separation between Budleigh and Exmouth all make these proposals entirely unacceptable.

I urge the council to reject applications EXMO_20 and EXMO_17 in order to preserve the integrity of our town, protect its environment, and maintain a sustainable future for residents.

I look forward to your response and hope that these concerns will be given the serious consideration they deserve.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will

make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Please, no more development for Exmouth. I suggest you build a new town north of Exeter. Where there is plenty of space, much better links to Exeter City centre, Motor ways, and national rail services. Many more ways to access shops and facilities, larger hospitals, more schools etc etc....

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Anna Matthews

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I am writing with regards to the proposals to build on a protected 'area of outstanding natural beauty' (National Landscape) on the eastern edge of Exmouth.

I strongly object to building on the farmland named Exmo_17. Until very recently this land had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no but despite this, EDDC voted to remove that protection.

National Landscape is of equivalent importance to National Parks and should not have large scale building on it. If house building and light industry/employment development on Exmo_17 were allowed, it would take away the beauty that provides physical and mental wellbeing for residents of Exmouth and Budleigh Salterton, particularly Littleham where arguably residents need the closest proximity access to green space. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

The proposal to build industrial/employment units on this beautiful green field site, next to the main road, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used and loved cycle and footpath, used by people of all ages for leisure and for safe green travel between Exmouth and Budleigh.

Development here would provide more housing but housing sites appear to be chosen by wealthy landowners offering what land they wish (and of course selling it for considerable gains), rather than the council considering very carefully where it would most like to see housing and targeting development in the most appropriate places. And the proposals for development are the same old housing seen everywhere else - when so many houses are on the market already, how more of the same housing stock resolves the real housing needs of the area is not at all clear to see.

For all these reasons, it is not in the public interest of Exmouth to allow building on Exmo_17. I believe that to destroy this landscape would bring only loss to the residents of the local area. It deprives both present and future generations of enjoyment and wellbeing and does not create benefit

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: I strongly object to building on the farmland named Exmo_17. Until very recently it had two protections to prevent building: National Landscape and Coastal Preservation Area. EDDC consulted on whether the CPA protection should be removed. Hundreds of Exmouth residents said no, but despite this, EDDC voted to remove that protection. National Landscape is of equal importance to National Parks and should not have large scale building on it. If house building and light industry on Exmo_17 were allowed, it would take away the beauty that attracts visitors to the area: tourism that the town depends upon. It would also create a precedent that could destroy areas of National Landscape that surround East Devon's coastal towns.

Based on local building projects in recent times, we cannot be certain either that the 'affordable' homes will be in the reach of people on low incomes or that the number of such homes promised by the developer will actually materialise. The proposal to build industrial units next to the main road, the entranceway to the town from the East, is incongruous. It would make much more sense to add them to the trading estate on the opposite side of the road, which is owned by the same landowner.

A further fault with this location is the fact the proposed access road has only one exit (onto the main road) and would go straight across the old railway line which is now a well-used wide cycle and footpath.

I believe that to destroy this beautiful landscape would be sheer folly, depriving both present and future generations of enjoyment and wellbeing. It would not be in the public interest of Exmouth to allow building on Exmo_17.

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of EXMO_20 is significantly closer to Budleigh Salterton than to Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctors, School, Beach, etc) would be the preferred choice of residents of Exmo_20. This undermines the settlement hierarchy and would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the Local Plan.

An alternative site to Exmo_20 for housing allocation should be selected: one which was deemed available, achievable and suitable in the HELAA. Exmo_20 would cause harm to the adjacent Pebblebed Heaths (SSSI/SAC/APA/NNR) due to Exmo_20 being a supporting foraging habitat. Allocating Exmo_20 is contrary to the HELAA, the Site Selection Methodology and POLICY PB01 of the Local Plan and not in accordance with the Mitigation Hierarchy to select avoidance over mitigation.

Exmo_20 would cause harm to the heritage assets at this Saxon/Norman/Medieval settlement, most significantly St John in the Wilderness Grade II* listed church, eroding the attractive rural setting for worship and burials which currently exists. This is contrary to POLICY HE02.

Exmo_20 would have a detrimental effect of this open countryside site and the adjacent internationally designated wildlife sites, elimination the 'tranquillity, wildness and dark skies', which is contrary to POLICY OL01.

Exmo_20 would be in conflict with the Strategic Nature Area 368, fragmenting and isolating habitats, and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would cause harm to habitats, veteran trees and hedgerows across the site, contrary to PARAGRAPH 13.9.

Exmo_20 is in conflict with POLICY OL09 and POLICY PB04 as the Habitats Regulations Assessment (30.01.25) states that there is 'currently not sufficient certainty to rule out adverse effects in integrity in relation to ... air quality (E. Devon Pebblebed Heaths SAC/SPA) such that the Plan fails the integrity test. The main site access proposed is opposite the SAC/SPA.

Development of Exmo_20 on heavy clay subsoil with ineffective soakaways, would exacerbate the already identified downstream flood risk along Withycombe Brook through Exmouth, which is already beyond its design capacity. This is in conflict with POLICY AR018.

Exmo_20 would increase the need for car travel, contrary to Fig. 7 - the energy hierarchy, and increase traffic congestion, in conflict with PARAGRAPH 11.2. The isolated location provides unsustainable development as residents would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre to use walking or cycling as choice of transport. This is contrary to POLICY TR01.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation Exmo_20 is in conflict with paragraph 3.30. The settlement boundary around Exmouth has been extended to include not only the land which housing will be built on but also to include the 400m buffer zone adjoining the Pebblebed Heaths, therefore defining this land as acceptable for development. Although housing cannot be built on the buffer zone, by including it within the settlement boundary it is available for other kinds of development. This is contradictory to the precautionary approach as the plan fails to robustly protect against adverse effects of recreational use on the Pebblebed Heaths.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Allocation of Exmo_20 is in conflict with policy OL05. The main access point to Exmo_20 is 4 miles from the centre of Exmouth and only 2.2 miles from the centre of Budleigh Salterton, making Budleigh significantly more accessible to the development. The access for the site leads naturally down the road into Budleigh High Street whereas to go into Exmouth would require travelling twice the distance and having to go around the edge of Exmouth to get back down into it. The Budleigh High Street, Doctor's surgery, primary school, beach and shops would be the most accessible and obvious choices for residents of Exmo_20. Currently Exmouth and Budleigh are separated in terms of functionality but this development would merge the two, with residents living in one town whilst relying on day-to-day services and infrastructure of the other.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy OL01. The site is distinctive for its dark skies, tranquillity and wildness. In addition to light from the housing development itself, the main site access point being at the B3179, directly opposite the SPA/SAC/SSSI would cause a significant flow of car headlights destroying the darkness across the entire length of the site and all shining directly onto the Heaths as vehicles exit the site. The area around St John in the Wilderness church is characterised by dark skies, a 'wilderness' setting integral to the grade II* listed church which would be harmed by having a housing development encircling it, regardless of a buffer zone being left.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jim Milburn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 13.9. The NATIONAL PLANNING POLICY FRAMEWORK defines 'irreplaceable habitat' as "habitats which would be technically very difficult (or take a significant time) to restore, recreate or replace once destroyed". Exmo_20 will cause loss of irreplaceable habitats. It has a great number of mature trees, many of which show signs of veteranisation. These provide unique micro habitats and their loss cannot simply be mitigated by planting new trees. Exmo_20 also contains many long- established hedgerows across the site, the lengths of which are considerable. The trees and hedgerows have high intrinsic biodiversity value providing habitats and wildlife corridors, and although space can be left around them, degradation and fragmentation of habitat is unavoidable. Nightjar are a qualifying feature of the East Devon Heaths SPA, and studies show that these fly up to 7km from nesting sites to feed at night. Loss of foraging habitat or disruption of routes to feeding areas could undermine the conservation objectives of the SPA. Exmo_20 lies within an identified 'Strategic Nature Area' (SNA 368) on the Nature Recovery Network, part of the Local Nature Recovery Strategy aimed at combining existing wildlife sites and extending habitats. It provides connecting habitats and wildlife corridors between the Pebblebed Heaths at the north of the site through to the woodland at the south and beyond, all of which would be adversely impacted by the development of Exmo_20.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy PB01 and not in accordance with the mitigation strategy. This development could be located on alternative site(s) which would cause less or no harm to the Pebblebed Heaths (SAC/SPA).

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jim Milburn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 2.6; Exmo_20 is currently open countryside, and this is not "modest" development. It is a "comprehensive development scheme" within a rural part of East Devon.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan to preserve the outstanding charm and character of this part of rural East Devon.

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jim Milburn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR03, and figure 7 in the Local Plan. Due to Exmo_20's restricted access arrangements, the development would produce highly significant vehicle movements to access services within Exmouth and the neighbouring towns using the B3179. Due to the site's steep topography and remote location from services, any walking or cycling routes will provide limited viable alternative options to using a car. The local plan notes that congestion is a particular issue in Western East Devon, and with this site having no access to Dinan Way and the A376, the increased number of vehicle movements from this site will be on rural B roads, notorious for being congested and substandard.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jim Milburn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 3.34: despite being a tier 1 settlement Exmouth does not have sufficient infrastructure and services for the existing population. Even if the proposed development brings financial contributions towards infrastructure it will not add another Doctors surgery or Dentist - both of which are already insufficient for the current population of Exmouth. Neither will it provide another secondary school - Exmouth Community College is already at/over capacity. The existing sewerage system in Exmouth is so inadequate that sewage is discharged into the sea on a very regular basis and the beach is often closed for swimming.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jim Milburn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with paragraph 11.2. It will greatly increase travel needs and necessitate cars to take longer routes. Housing is proposed at the southern end of the site whereas the main vehicular access point is at the very northern edge of the site, adjacent to the Pebblebed Heath (SAC/SPA/SSSI). Due to the mandatory 400m buffer zone to SAC/SPA/SSSI no housing is permitted within the top 400m, resulting in a very minimum of

0.5km drive just to get from the site entrance to the housing. This would result in at least 1km of 'on site' driving every time a resident goes out / returns. In addition to this, the distance from the B3179 site entrance into Exmouth centre requires a drive of over 4 miles. Exmo_20 would increase travel needs resulting in an increased number of car journeys and requiring cars to travel more miles.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jim Milburn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

ALLOCATION OF Exmo_20 is in conflict with policy TR01. Walking or cycling will not be the first choice of transport from this site for going shopping or to work/school etc because the distance is too far. Studies cited in the Local Plan show that most people prefer to walk if their destination is within half a mile, and beyond 1 mile cars are the main means of travel and that beyond 2 miles trips on foot are few. Exmo_20 is significantly further than 0.5 miles or even 1 mile from essential infrastructure and services therefore walking or cycling as first choice of transport is extremely unlikely. Providing walking routes, cycle paths or public transport will do little to reduce the amount of car journeys this development would generate. because the steep local topography and distance to access essential infrastructure and services is simply too far. It will also be a difficult location for those without car access and potentially cause social exclusion.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Jim Milburn

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Even though Exmouth is a tier 1 town, Exmo_20 is 4 miles by car from the town centre and detached from it; it cannot therefore be considered to be a development in Exmouth. The town is unsuitable for further significant growth due to its location on a peninsula. The town centre being at the south end of the peninsula makes 360 degree development impossible and with much existing development already stretching a long way from the town centre, any new development is closer to neighbouring villages and towns and therefore not development at the principal centre of Exmouth. Any development here will be away from the town such that it is an unsustainable location.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the Local Plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Roy Arthur Miles

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The main access point of Exmo_20 is closer to Budleigh Salterton than Exmouth, making Budleigh its most accessible town. This would lead to con;escence of Budleigh and Exmoth, contrary to POLICY OL05 of the Local Plan.

Exmo_20 would increase the need for car travel and congestion on unsuitable roads

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan, or reduce the size Do not access the site via the B3179

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Michael Miller

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

Exmo_20 would ruin the "tranquility, wildness and dark skies" of the countryside which is out of line with policy OL01. Exmo_20 would adversely affect habitats, including ancient trees and hedgerows, and wildlife corridors, contrary to paras 13.9 and 13.23 of the Local Plan. Exmo_20, as proposed, would greatly increase road traffic in conflict with para 11.2. Essential services are mainly over 2 miles distant (contrary to para 11.6). Walking or cycling to Budleigh or Exmouth would be hazardous in the extreme; not consistent with Policy TR01. What thought has been given to the need for essential services - health and schools in particular? There is a danger that these facilities in Budleigh would be insufficient to cope with the development. The proposed location of Exmo_20 could intensify the flood risk (in conflict with policy ARO1B) particularly at the bottom of the site and through Withycombe.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Reconsider the size of Exmo_20, or its access from the B3179, but ideally take it out of the local plan

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: No, I do not wish to participate in hearing session(s)

Full name: Sean Mills

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. 3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.: The development proposed at Exmo_20 could and should be located on an alternative site where it would cause less or no harm to the Pebblebed Heaths(SAC/SPA). Developing Exmo_20 is contrary to POLICY PB01 of the local plan and not in accordance with the mitigation strategy.

? Exmo_20 would destroy the “tranquillity, wildness and dark skies” of the countryside, which is contrary to POLICY OL01.

? Developing Exmo_20 would fragment and isolate habitats and destroy wildlife corridors, contrary to PARAGRAPH 13.23 of the Local Plan. It would be detrimental to irreplaceable habitats, veteran trees and species rich hedgerows across the site, contrary to PARAGRAPH 13.9

? The Habitats Regulations assessment (30.01.25) confirms that there is “currently not sufficient certainty to rule out adverse effects in integrity in relation to...air quality (East Devon Pebblebed Heaths SAC/SPA). Exmo_20 is in conflict with POLICY OL09 and POLICY PB04.

? Exmo_20 would have significant adverse effects on St John in the Wilderness Grade II* listed church and churchyard, drastically altering the peaceful setting for worship which currently exists for the congregation. This is contrary to POLICY HE02.

? Exmo_20 is upstream of Exmouth on the main rainwater catchment area of Withycombe Brook, on a subsoil of heavy clay which makes soakaways ineffective. It would exacerbate the already identified flood risk through the lower lying land at the bottom of the site and through Withycombe. This is in conflict with POLICY AR01B.

? Exmo_20 would increase the need for car travel and increase traffic congestion, in conflict with PARAGRAPH 11.2. It is unsustainable development. It is isolated and people would need to travel much further than 800m to existing key services and facilities, contrary to PARAGRAPH 11.6. It is too far (and too steep) from any town centre for people to use walking or cycling as their choice of transport. This is contrary to POLICY TR01.

? The main access point to Exmo_20 is significantly closer to Budleigh Salterton than Exmouth, making Budleigh its most convenient and accessible town. The services and infrastructure of Budleigh (High Street, Doctor's, school, beach etc) would be the obvious choice for residents of Exmo_20. This would lead to coalescence of Budleigh and Exmouth, contrary to POLICY OL05 of the local Plan.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Remove Exmo_20 from the local plan

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: Yes

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: To ensure that our views are heard and taken into serious consideration

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

2. Do you consider that this part of the Development in the Towns and Villages chapter is legally compliant?: No

2(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not legally compliant. Please be as precise as possible.: At the site allocation meeting in October 2024 (EDDC SPC chaired by *** Personal details have been removed ***), Lymptstone Parish Council (LPC) was not allowed to talk on site GH/ED/72a a site nominally in Woodbury Parish but 2.5 miles distant from Woodbury village, but on the edge of Lymptstone Village, so directly impacting Lymptstone not Woodbury. It is a site owned by a Woodbury Parish Councillor who voted on its inclusion as a site offered for development by Woodbury Parish Council. A conflict of interests and also contrary to the Nolan Principles for Civil Servants. A formal complaint was raised about not being able to speak on a site that would directly impact Lymptstone, not Woodbury. This was dismissed. However, the site now magically is included with Lymptstone Settlement, which was the concern all along. This is GERRYMANDERING and anti-democratic.

2(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Introduction chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: This site should be excluded from the Plan and revisited as part of the Lymptstone Parish Council plan, NOT the Woodbury plan.

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

SD01 Exmouth Lympt_07 Courtland Cross is in Lymptstone Parish and is on the Lymptstone side of the anti-coalescence Green Wedge between Lymptstone and

Exmouth. It is in Lympstone and c 2 miles distant from Exmouth Centre. It is a Lympstone site, not an Exmouth site and should be marked as such. 100 houses

Lymp_14 Coles Fields Is part of Lympstone and not part of Exmouth. It is very far from the centre of Lympstone AND Exmouth. 59 houses.

159 houses allocated to Lympstone Settlement.

SD10 Lympstone As above GH/ED/72a should be removed and revisited with LYMPSTONE Parish Council, not Woodbury, due to conflict of interest, Nolan Rules breach and gerrymandering. 42 houses.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: See 3b above.

Lympstone to gain 159 houses from SD01 (Lymp_07 and Lymp_14), GH/ED/72a to be removed and revisited with the correct Consultation Process. Lympstone sites in the plan show an increase of 251 houses a 30% increase in the size of Lympstone Village, which should be a Service Village, NOT a Local Centre. This would irretrievably damage Lympstone, destroy its Sense of Place, and make the village unliveable.

4. Do you consider that this part of the Development in the Towns and Villages chapter complies with the duty to cooperate?: No

4(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter fails to comply with the duty to co-operate. Please be as precise as possible.: See 2b, 2c, 3b and 3c above

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: Previous complaints and observations have been ignored, rode roughshod over and allocations incorrectly and surreptitiously applied

Full name: Andrew Minter

Proposal:

5. Development in the Towns and Villages

1. To which part of the Development in the Towns and Villages chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: SD01

3. Do you consider that this part of the Development in the Towns and Villages chapter is sound?: No

3(b). If no, please give details of why you consider this part of the Development in the Towns and Villages chapter is not sound. Please be as precise as possible.:

SD01: Lymp_07 Courtlands Cross is in Lympstone Parish and is on the Lympstone side of the existing green wedge between Exmouth and Lympstone. It is UNTRUE/ DISINGENUOUS/ A LIE to say that it is part of 'Exmouth Settlement'. This was pointed out at the site selection SPC in October 2024 and subsequently and has been part of a series of formal complaints inadequately answered by EDDC.

3(c). Please set out the modification(s) you consider necessary to make this part of the Development in the Towns and Villages chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Development in the Towns and Villages chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Make Lympstone a Service Village, NOT a local centre

In SD01 show Lymp_07 as being part of Lympstone, NOT a distant part of Exmouth; it isn't part of Exmouth.

State that EDDC will consider significant development of the National Landscape/AONB in order to meet Central Governments MISGUIDED and INCORRECT targets...(for goodness sake EDDC, be a bit more militant!)
