Subject: Planning objection

Categories: Reg.18 consultation

I object to the planning application for more houses to be built in the North East of Exmouth.

The secondary school is at capacity, with children having to go to schools out of the area. I've recently moved back to Exmouth and found primary school spaces limited for some schools and year groups.

The area is home to wildlife, we can't continue to build houses and leave nowhere for wildlife to go.

There are other areas close by to Exmouth where housing sites can be accelerated but this isn't one them.
