I was surprised and stunned to be told that ANOTHER 258 new homes were to be built at the top of HULHAM ROAD north of the development already in progress. I am a resident of HULHAM ROAD and I know that the traffic has got busier and busier with over 6000 vehicles including lorries vans cars motorbikes tractors speeding down our road every day. This will only get worse when the 300 odd properties being built now are occupied.

I cannot believe that this further development is being considered BEFORE any infrastructure has been built. Where is this so called extension from Dinan Way through to Exeter Road that has been approved every year for the last 10 years or so.

Surely this must be built before more properties. What is going on ???

I look forward to receiving an explanation of these actions that can justify the huge council tax bills that we are all paying supposedly for Exmouth to be a great place to live !!!!

Yours

Jill Richards

Resident of HULHAM ROAD.
