Ward Profile:  
An Economic, Social and Environmental Summary Profile of  
Sidmouth Town, East Devon

## About Place Profiles

Place Profiles are computer generated reports that provide a high-level analysis of an area, telling a 'story of place'. The reports can be created at a range of different spatial levels and on a number of different topics, with Summary Place Profiles providing an overall assessment of economic, social and environmental conditions. Place Profiles set an area within its wider context, comparing performance with neighbouring areas, as well as regional and national averages. They are illustrated with maps and charts and include all supporting data. Using the very latest data at the time of creation, Place Profiles have a wide range of research and policy applications.

More information about the profiles and how to purchase further copies is available at the end of this report.

## About the Local Futures Group

Established in 1997, Local Futures is a research and strategy consultancy that provides a geographical perspective on economic, social and environmental change. We introduce this perspective into public policy and corporate strategies, both in the UK and internationally.

We provide research and consultancy services, but also offer a range of online services. These include our Local Knowledge and Customer Knowledge subscription services, together with computer generated Place Profiles - reports that tell a compelling 'story of place'.

To find out more about our services or to arrange an online demonstration please telephone 020 7440 7360 or email [info@localfutures.com](mailto:info@localfutures.com).

## Summary Profile Introduction

The summary report assesses at the performance of Sidmouth Town, according to how well the ward scores on a range of selected benchmark indicators of economic, social and environmental well being. An important context for the analysis is the shift towards a more knowledge based economy in Britain. This concept, which is the Government's vision for spreading economic prosperity throughout the UK and for competing in the global economy, is reflected in regional economic strategies and local economic development strategies. One of the aims of this report is to relate thinking on the knowledge economy to wider social and environmental considerations; relating economic competitiveness to sustainable development and quality of life issues.

This summary profile can be used to inform policy development and to act as a framework for monitoring and evaluating progress towards a district's various policy goals. The report can also be used as an evidence base to inform Total Place and the wider place shaping agenda. More detailed Place Profiles for each topic area are also available.

## Economy Introduction

This summary report assesses the present state of the local economy in Sidmouth Town in terms of its competitiveness at district, sub-regional, regional and national levels. Strong economic foundations are critical to the future success of areas, creating quality employment opportunities for local people. This profile examines four aspects of economic development that need to be 'joined-up' in the context of strategy, partnership and practical initiatives:

- Industrial Structure
- Business and Enterprise
- Skills and Qualifications
- Labour Market

The report starts by presenting the data for the main composite measures for each aspect of the economy in Sidmouth Town. Each one of these topics is then dealt with in turn. Finally, the composite measures form the basis of the spider chart analysis which sets out how Sidmouth Town rates against the national median for the scores. The spider chart also forms the basis of the list of statistical nearest neighbours (those areas in the country with the most similar profiles on this combination of composite measures). Finally, a summary report card for each aspect of economic development is presented. This is based on the quintile where the district falls on each of the measures ('A' representing the strongest performance, ranging to 'E' representing the weakest).

## Industrial Structure

Throughout the global economy, the critical structural trend is the growth of the knowledge economy. Our industrial structure profile assesses Sidmouth Town from this knowledge economy perspective. We distinguish between knowledge-based production (aerospace, electrical machinery manufacture, printing and publishing, and chemicals and energy), and knowledge-based services (telecommunications, computing, R & D, finance and business services, and recreational and cultural services). These industrial groupings are based on European Commission and OECD definitions, where individual industries are classified as knowledge-based if graduates make up at least 25 percent of their workforce.

Sidmouth Town is ranked 6582 out of 7677 wards on our industrial structure score, indicating a knowledge economy that performs in the bottom 20% of wards nationally.

The map shows the performance of wards within East Devon. The areas with very dark shading score highly and those with very light shading score poorly.

With a score of 26.14, Sidmouth Town is in the bottom 20% of wards and is in the district that is in the bottom 40% of districts nationally.

Source: Business Register and Employment Survey

Looking in more detail at Sidmouth Town's industrial structure we find that:

- Knowledge intensive sectors in Sidmouth Town accounted for 5.87% of total employment in 2011. By comparison the East Devon figure was 13.69% the Devon & Cornwall figure was 14.62% and the national figure was 21.74%.
- Employment in knowledge-driven production is around the national median, with the ward ranking in the middle 20% of wards. It has 0.71% of employment in this sector. This compares with 1.54% in East Devon and 2.89% nationally.
- Employment in knowledge-driven services is well below the national median, with the ward ranking in the bottom 20% of wards. It has 5.16% of employment in this sector. This compares with 12.14% in East Devon and 18.85% nationally.
- Sidmouth Town has an average public sector, with 31.59% of employment in this sector. This compares with 26.45% in East Devon and 27.86% nationally.

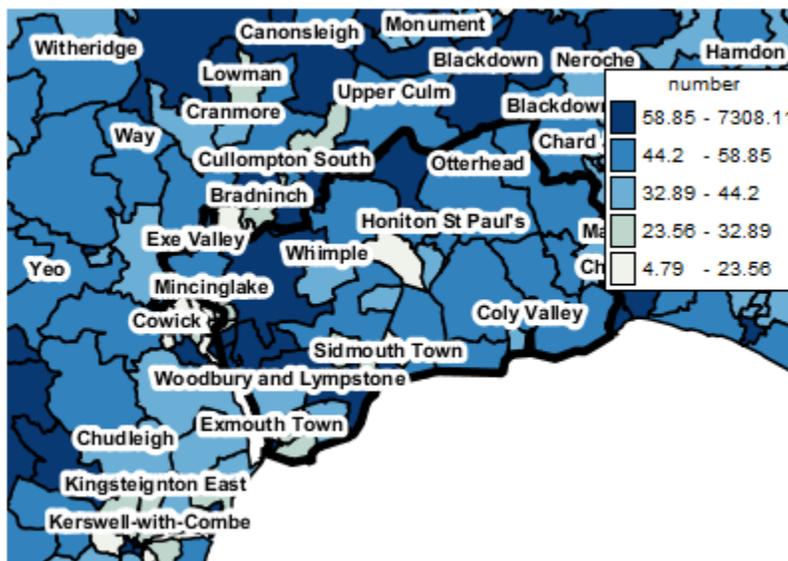

## Business and Enterprise

A dynamic local enterprise culture is vital for the long-term competitiveness and overall success of any local economy. This profile uses the number of businesses per head of population to assess the extent of an enterprise culture in Sidmouth Town. It also references measures of business size and self-employment.

Sidmouth Town is ranked 904 out of 7679 wards on the number of business per 1,000 head of pop, indicating an enterprise culture that performs in the top 20% of wards nationally.

The map shows the performance of wards within East Devon on the number of businesses per 000 population. The areas with very dark shading score highly and those with very light shading score poorly.

At 69.01 business per 1,000 pop, Sidmouth Town is in the top 20% of wards and is in the district (East Devon) that is in the top 40% of districts nationally.

Source: Annual Business Enquiry

Looking in more detail at Sidmouth Town's business and enterprise we find that:

- The business density of Sidmouth Town is very high by national standards, with 69.01 businesses per 1000 head of population. By comparison the national figure is 42.01.
- The self-employment rate in Sidmouth Town is very high, by national standards, with the ward ranking in the top 20% of wards nationally. In 2011, the self-employment rate was 21.75%, compared with 18.92% in East Devon and 11.54% nationally.
- The average business size in Sidmouth Town was high by national standards, with the ward ranking in the top 40% of wards nationally. In 2008, the average number of employees per business was 8.79, compared with 6.21 in East Devon and 10.61 employees nationally.
- The proportion of employees who worked for large businesses in Sidmouth Town was average, by national standards, with the ward ranking in the middle 20% of wards nationally. In 2008, the proportion of employees who worked for large businesses was 17.49%, compared with 0.28% in East Devon and 31.4% nationally.
- The proportion of employees who worked for Small-Medium Enterprises in Sidmouth Town was average, by national standards, with the ward ranking in the middle 20% of wards nationally. In 2008, the proportion of employees who worked for Small-Medium Enterprises was 49.84%, compared with 50.89% in East Devon and 47.34% nationally.
- The proportion of employees who worked for micro-businesses in Sidmouth Town was average, by national standards, with the ward ranking in the middle 20% of wards nationally. In 2008, the

proportion of employees who worked for micro-businesses was 32.67%, compared with 33.94% in East Devon and 21.26% nationally.

## Skills and Qualifications

Human capital is a prerequisite of a successful knowledge economy. The resident workforce should ideally be characterised by a good blend of academic and vocational skills. In our overall assessment of skills and qualifications in Sidmouth Town, we have used a composite measure based on each of the four NVQ levels, with greater weighting attached to the higher levels. We also provide GCSE rates, as a precursor to the future potential workforce and a measure of the quality of local schools.

Sidmouth Town is ranked 3454 out of 8570 wards on our skills and qualifications score, indicating a resident workforce that performs in the middle 20% wards by national standards, in terms of human capital.

The map shows the performance of wards within East Devon on our skills and qualifications score. The areas with very dark shading score highly and those with very light shading score poorly.

With a score of 104.52, Sidmouth Town is in the middle 20% of wards and is in the district that is in the top 40% of districts nationally.

Source: Annual Population Survey

Looking in more detail at Sidmouth Town's skills and qualification's performance we find that:

- The proportion of the working age resident population qualified below NVQ level 2 was low, with the area ranking in the bottom 40% of wards nationally. In 2011, 29.25% of working age residents held GCSE's at grades D-G, compared with 34.15% in East Devon and 35.95% nationally.
- The proportion of the working age resident population qualified to NVQ level 2 in Sidmouth Town is low, with the area ranking in the bottom 40% of wards nationally. In 2011, 15.72% of the working age population held 5 GCSE's A\* - C, or equivalent, compared with 16.97% in East Devon and 15.25% nationally.
- The proportion of the working age resident population qualified to NVQ level 3 in Sidmouth Town is very low, with the area ranking in the bottom 20% of wards nationally. In 2011, 9.76% of the working age population held 2 A-Levels, or equivalent, compared with 11.35% in East Devon and 12.35% nationally.
- The proportion of the working age resident population qualified to NVQ level 4 and above in Sidmouth Town is high, with the area ranking in the top 40% of wards nationally. In 2011, 35.76% held a degree, or equivalent compared with 29.08% in East Devon and 27.22% nationally.

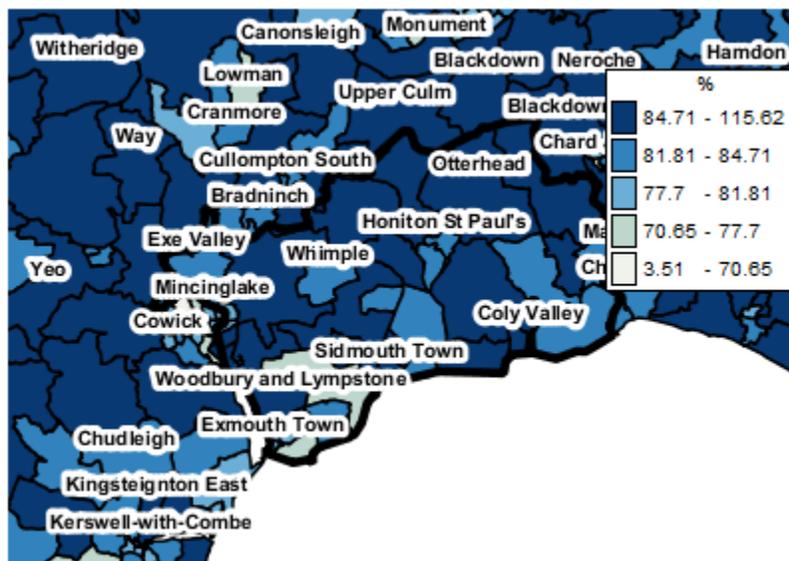

## Labour Market

In this profile we use the employment rate as an overall measure of labour market performance in Sidmouth Town, but also present a range of other measures, such as unemployment, youth unemployment and long-term unemployment rates to provide a fuller analysis of labour market conditions.

Sidmouth Town is ranked 1106 out of 8570 wards on the proportion of the resident workforce in employment, indicating participation rates that are in the top 20% of wards nationally.

The map shows the performance of wards within East Devon. The areas with very dark shading score highly and those with very light shading score poorly.

With 85.85% of the resident working population in employment, Sidmouth Town is in the top 20% of wards and is in the district that is in the top 20% of districts nationally.

Source: Census 2011

Looking in more detail at Sidmouth Town's labour market performance we find that:

- The proportion of the resident working age population who are in employment is very high, with the area ranking in the top 20% of wards nationally. In Sidmouth Town, 85.85% of the resident working age population were in employment, compared with 84.23% in East Devon and 73.65% nationally.
- The proportion of the working age population who are unemployed in Sidmouth Town is very low, with the ward ranking in the bottom 20% of wards nationally. In Sidmouth Town, 0.67% of people were claiming job seekers allowance in 2013, compared with 1.1% in East Devon and 3.3% nationally.
- The proportion of the working age population who are in long-term unemployment in Sidmouth Town is very low, with the ward ranking in the bottom 20% of wards nationally. In Sidmouth Town, 0% of people who are unemployed have been claiming job seekers allowance for at least 12 months, compared with 21.82% in East Devon and 29.97% nationally.
- The proportion of employees who work full-time in Sidmouth Town is average, with the ward ranking in the middle 20% of wards nationally. In Sidmouth Town, 56.93% of those in employment work full-time (at least 31 hours a week), compared with 57.06% in East Devon and 54.43% nationally.
- The proportion of employees who work part-time in Sidmouth Town is very high, with the ward ranking in the top 20% of wards nationally. In Sidmouth Town, 31.88% of those in employment work part-time (at least 31 hours a week), compared with 29.83% in East Devon and 22.34% nationally.

## Economic Summary Indicators

The spider chart is a way of showing how Sidmouth Town rates against the national median on the summary economic indicators. Data for every district in Great Britain is converted into a percentile score, with the top ranking area scoring 100 and the bottom zero. The national median is shown by the 50th percentile.

## Nearest Neighbours

For the indicators in the spider chart shown above, the areas in the country with the most similar profiles are shown opposite. These are statistically the nearest neighbours to Sidmouth Town, with Ashover in North East Derbyshire being the most similar on the summary economic indicators.

Rank	Ward Name	District
1	Ashover	North East Derbyshire
2	Risbygate	St Edmundsbury
3	Middleton Tyas	Richmondshire
4	Cranmore, Doultling and Nunney	Mendip
5	Stanton	Derbyshire Dales
6	Eastington and Standish	Stroud
7	Askham	Eden
8	Ethandune	Wiltshire
9	Great Eccleston	Wyre
10	Churcham and Huntley	Forest of Dean

## Economic Scorecard

The economic 'scorecard', showing how Sidmouth Town stands nationally, within its district, sub-region, and region. The 'scorecard' assesses the state of Sidmouth Town in terms of the composite economic development measures. The scores represent the quintile where the ward falls on each of the measures ('A' representing the strongest performance, ranging to 'E' representing the weakest).

Composite measure	District score	Sub-region score	Region score	National Score	Summary
<b>Industrial Structure</b>  An 'A' Represents areas with the highest proportion of knowledge intensive employment	E	D	E	E	Sidmouth Town is ranked 6582 out of 7677 wards on our industrial structure score, indicating a knowledge economy that performs in the bottom 20% of wards nationally.
<b>Business density</b>  An 'A' Represents areas with the highest business density	A	A	A	A	Sidmouth Town is ranked 904 out of 7679 wards on the number of business per 1,000 head of pop, indicating an enterprise culture that performs in the top 20% of wards nationally.
<b>Skills &amp; qualifications</b>  An 'A' Represents areas with the most skilled population	C	C	C	C	Sidmouth Town is ranked 3454 out of 8570 wards on our skills and qualifications score, indicating a resident workforce that performs in the middle 20% wards by national standards, in terms of human capital.
<b>Labour market</b>  An 'A' Represents areas with the highest employment rates	B	A	B	A	Sidmouth Town is ranked 1106 out of 8570 wards on the proportion of the resident workforce in employment, indicating participation rates that are in the top 20% of wards nationally.

## Glossary of terms

Businesses per 000 population	The number of enterprises registered for VAT per 1000 population.
Industrial structure score	This workplace based figure provides an index of the proportion of all employed persons working in the following Knowledge-driven sector.
Labour market score	This residence based indicator provides the proportion of people aged 16-59/64 (men/women) in employment indexed to the national average to provide a comparable figure in relation to the national trend.
Skills and qualifications score	This composite presents an index of the qualifications of an area's workforce, relative to the GB value. A higher score indicates a high level of local area qualifications amongst the labour market.

## Data Sources and Definitions

Businesses per 000 population	Total number of businesses as a proportion of 1000 population aged 16 and over. Derived from annual workplace estimates based on the Inter Departmental Business Register (IDBR).
Industrial structure score	Knowledge-driven sectors can be defined as: Aerospace (30.3), Electric machinery and optical equipment (28.23, 2620, 26.3, 32.5, 26.52, 26.70), Printing, publishing, recorded media (58.11-58.14, 59.20, 58.19, 18.11, 18.12), Chemicals (20), & Energy (06, 09.1, 19, 35, 36), Telecomms, computer & related services, R&D (61, 53.20, 62, 72), Finance, business services (64, 66, 69.10, 69.20, 73.20, 70.22, 64.20, 71.1, 71.2, 73.1, 78.1-78.3, 80.30, 80.10, 74.20, 82.11, 82.19, 74.30, 82.20), Air transport services (51), & Recreational & cultural services (90, 93, 91). All figures in brackets are 2007 Standard Industrial Classification (SIC) codes.
Labour market score	This score is the proportion of people of working age (16-59 for women and 16-64 for men) in employment (Employed, Self-employed and Unpaid family workers) as a proportion of all of those of working age, indexed the to the national average.
Skills and qualifications score	Skills and qualifications scores are generated from summing the weighted percentages of an area's workforce qualified below NVQ2, at NVQ2, NVQ3 and NVQ4 and above, with each indicator indexed to the national value. The sum of these indices are then divided by 4 to gain an overall composite.

## Society Introduction

This summary report provides a social profile of Sidmouth Town in terms of the demographic characteristics of its local communities and the issues which affect them most. The report examines nine aspects of Sidmouth Town's social profile:

- Age, Ethnicity, and Households
- Occupational Structure
- Prosperity
- Deprivation
- Health

The report starts by presenting the data for the main composite measures for each aspect of the social profile of Sidmouth Town. Each one of these topics is then dealt with in turn. Finally, the composite measures form the basis of the spider chart analysis which sets out how Sidmouth Town rates against the national median for the scores. The spider chart also forms the basis of the list of statistical nearest neighbours (those areas in the country with the most similar profiles on this combination of composite measures). Finally, a summary report card for each aspect of economic development is presented. This is based on the quintile where the district falls on each of the measures ('A' representing the strongest performance, ranging to 'E' representing the weakest).

## Age

Demographic characteristics have a fundamental influence on the social and economic development of an area. This profile shows the age distribution of residents Sidmouth Town, based on data from the 2011 Census and modelled population estimates. The age structure of an area has implications for long-term economic activity rates and spending power (with a younger profile) or current and future social care resourcing (with an older or aging population).

Sidmouth Town is ranked 7 out of 8570 wards on the average age of residents, indicating an average age in the highest 20% of wards nationally.

The map shows the average age of residents in wards within East Devon. The areas with very dark shading have higher average ages and those with very light shading have lower average ages.

With an average age of 56.3 years, Sidmouth Town is in the highest 20% of wards nationally and is in a district that has an average age in the highest 20% of districts nationally.

Source: Census 2011

Looking in more detail at Sidmouth Town's age profile we find that:

- The proportion of the resident population aged 0-14 was 9.31%, which is very low by national standards, with Sidmouth Town ranking in the bottom 20% of wards. By comparison, the East Devon figure was 14.29% and the national figure was 17.64%.
- The proportion of the resident population aged 15-24 was 6.76%, which is very low by national standards, with Sidmouth Town ranking in the bottom 20% of wards. By comparison, the East Devon figure was 9.69% and the national figure was 13.1%.
- The proportion of the resident population aged 25-44 was 12.59%, which is very low by national standards, with Sidmouth Town ranking in the bottom 20% of wards. By comparison, the East Devon figure was 19.44% and the national figure was 27.38%.
- The proportion of the resident population aged 45-64 was 26.03%, which is low by national standards, with Sidmouth Town ranking in the bottom 40% of wards. By comparison, the East Devon figure was 28.38% and the national figure was 25.44%.
- The proportion of the resident population of 65 and over was 45.31%, which is very high by national standards, with Sidmouth Town ranking in the top 20% of wards. By comparison, the East Devon figure was 29.89% and the national figure was 16.45%.

## Ethnicity

Understanding the extent of ethnic diversity is important both for being able to target policies at different communities and for the impact on community cohesion and involvement. This ethnicity profile assesses Sidmouth Town according to the proportions of different ethnic groups.

Sidmouth Town is ranked 4720 out of 8570 wards on the proportion of its population classified as Non-White, placing the area in the middle 20% of wards nationally.

The map shows the proportion of the population classified as Non-White in wards within East Devon. The areas with very dark shading have higher levels of Non-White residents and those with lighter shadings have lower levels.

With 2.68% of its residents classified as Non-White, Sidmouth Town is in the middle 20% of wards and is in a district that is in the bottom 20% of districts nationally on the proportion of the population that is Non-White.

Source: Census 2011

Looking in more detail at Sidmouth Town's ethnicity profile we find that:

- The proportion of the population classified as White was 97.32%, which is average by national standards, with Sidmouth Town ranking in the middle 20% of wards. By comparison, the East Devon average was 98.41% and the national figure was 85.97%.
- The proportion of the population classified as from a Mixed background was 0.93%, which is average by national standards, with Sidmouth Town ranking in the middle 20% of wards. By comparison, the East Devon average was 0.68% and the national figure was 2.18%.
- The proportion of the population classified as Asian or British Asian was 0.97%, which is average by national standards, with Sidmouth Town ranking in the middle 20% of wards. By comparison, the East Devon average was 0.54% and the national figure was 6.81%.
- The proportion of the population classified as Black or Black British was 0.12%, which is low by national standards, with Sidmouth Town ranking in the bottom 40% of wards. By comparison, the East Devon average was 0.11% and the national figure was 3.33%.
- The proportion of the population classified as Chinese or any other ethnic background was 1.35%, which is high by national standards, with Sidmouth Town ranking in the top 40% of wards. By comparison, the East Devon average was 0.26% and the national figure was 1.71%.

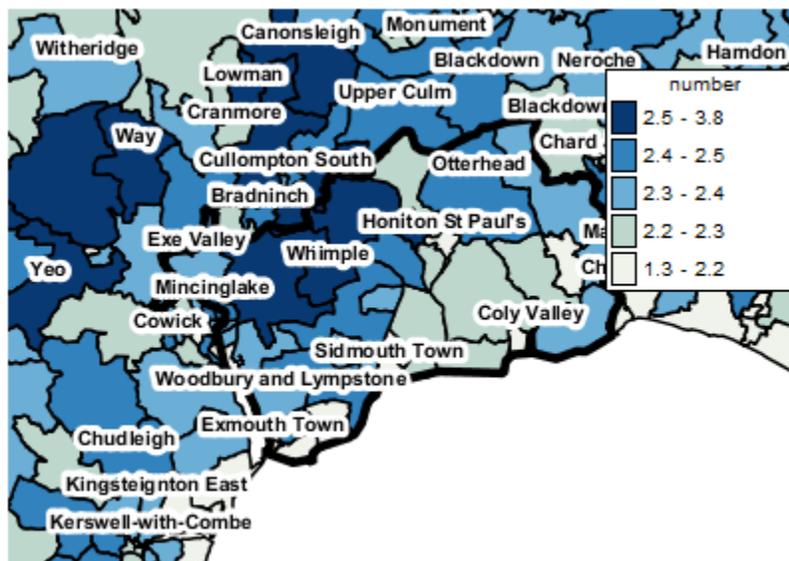

## Household Structure

The size and structure of households has implications for planning, housing demand and entitlement to benefits. This household structure profile assesses Sidmouth Town according to household composition and overall average household size.

Sidmouth Town is ranked 8393 out of 8570 wards on the average household size, placing the area in the lowest 20% of wards nationally.

The map shows the average household size in wards within East Devon. The areas with very dark shading have higher averages and those with very light shading have lower averages.

With an average household size of 1.9 people, Sidmouth Town is in the lowest 20% of wards and is in a district that has an average household size in the lowest 20% of districts nationally.

Source: Census 2011

Looking in more detail at Sidmouth Town's household profile we find that:

- The proportion of one person households was 40.64% in 2011, which is very high by national standards, with Sidmouth Town ranking in the top 20% of wards. By comparison, the East Devon average was 30.93% and the national figure was 30.25%.
- The proportion of households with married couples but no dependent children was 15.81% in 2011, which is low by national standards, with Sidmouth Town ranking in the bottom 40% of wards. By comparison, the East Devon average was 24.84% and the national figure was 23.75%.
- The proportion of households with married couples and dependent children was 12.78% in 2011, which is very low by national standards, with Sidmouth Town ranking in the bottom 20% of wards. By comparison, the East Devon average was 16.49% and the national figure was 19.29%.
- The proportion of lone parent households was 4.68% in 2011, which is very low by national standards, with Sidmouth Town ranking in the bottom 20% of wards. By comparison, the East Devon average was 7.36% and the national figure was 10.65%.

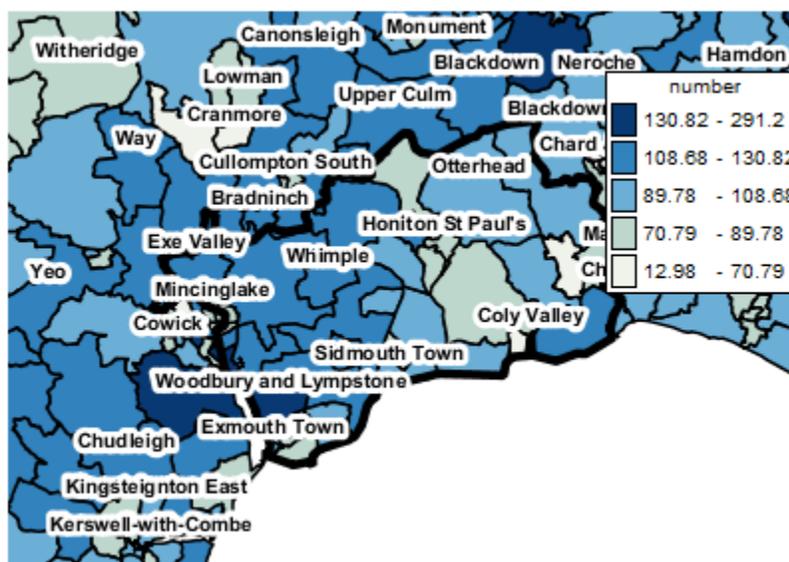

## Occupations

The occupational structure of an area gives a useful indication of the progress being made towards developing a diverse, prosperous, knowledge-based economy. Knowledge-driven activities generate increased demand for 'higher end' occupations including managerial, professional and technical workers. In our assessment of the occupational profile of Sidmouth Town we have considered the proportion of the working population employed in the four main NVQ-linked occupational groups (based on the standardised competences and skills requirements of each occupation). Our overall score, however, is based on the number of professional managerial and technical workers - or 'knowledge workers'.

Sidmouth Town is ranked 4807 out of 8570 wards on our knowledge worker score, indicating a resident workforce that performs in the middle 20% of wards nationally.

The map shows the performance of wards within East Devon on our knowledge worker score. The areas with very dark shading score highly and those with very light shading score poorly.

With a score of 93.5, Sidmouth Town is in the middle 20% of wards and is in the district that is in the middle 20% of districts nationally.

Source: Census 2011

Looking in more detail at Sidmouth Town's occupational profile we find that:

- The proportion of the working population who are in elementary occupations in Sidmouth Town is high by national standards, with 12.22% in Level 1 Occupations. By comparison, the East Devon figure is 9.05% and the national figure is 9.19%.
- The proportion of the working population who are in lower skilled occupations in Sidmouth Town is low by national standards, with 32.9% in Level 2 Occupations. By comparison, the East Devon figure is 44.29% and the national figure is 47.62%.
- The proportion of the working population who are in skilled occupations in Sidmouth Town is low by national standards, with 23.46% in Level 3 Occupations. By comparison, the East Devon figure is 23.36% and the national figure is 19.93%.
- The proportion of the working population who are in managerial occupations in Sidmouth Town is high by national standards, with 31.42% in Level 4 Occupations. By comparison, the East Devon figure is 23.3% and the national figure is 23.26%.

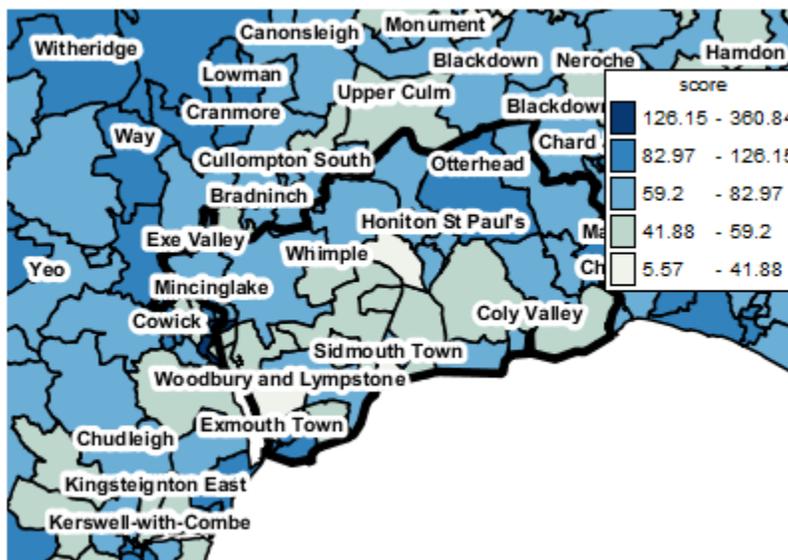

## Deprivation

The Government's standard measure of deprivation and inequality in England is the Index of Multiple Deprivation (IMD). Our deprivation profile assesses conditions within Sidmouth Town according to a number of aspects of deprivation, including disadvantage in education; income; employment; health; and housing. The Local Futures inequality indicator is designed to highlight any large differences in deprivation; this can illuminate pockets of deprivation at the small area level within the wider area. The inequality indicator is measured as the difference between the highest and lowest ranking super output area (SOA) at each geographical level.

Sidmouth Town is ranked 6474 out of 7679 wards on our deprivation score, putting it in the 20% least deprived wards nationally.

The map shows the performance of wards within East Devon. The areas with very dark shading have higher levels of deprivation and those with very light shading have lower levels.

With a score of 37.43, Sidmouth Town is in the 20% least deprived of wards and in a district that is in the 40% least deprived of districts nationally.

Source: LA Summaries ID 2007

Looking in more detail at Sidmouth Town's deprivation profile we find that:

- For the health domain score, Sidmouth Town is ranked in the 40% least deprived wards. A higher score indicates higher levels of health deprivation.
- The employment domain score is low by national standards, with the ward ranking in the 40% least deprived wards.
- The education domain score is low by national standards, with the ward ranking in the 40% least deprived wards.
- For the income domain score, Sidmouth Town is ranked in the 40% least deprived wards.
- The housing domain score is average by national standards, with the ward ranking in the middle 20% of wards.
- The crime domain score is low by national standards, with the ward ranking in the 40% least deprived wards. A higher score indicates higher levels of crime deprivation.
- The inequality score highlights pockets of deprivation by calculating the difference between the highest and lowest scoring SOAs within the ward. A higher score indicates higher levels of inequality. The inequality score for Sidmouth Town is average by national standards, with the ward ranking in the middle 20% of of wards on inequality.

## Health

Nationally, there have been major improvements in public health over the course of the last century, with big increases in life expectancy. However, this overall picture masks significant geographical variations and health inequality. Our health profile assesses Sidmouth Town according to a number of health indicators, including life expectancy, expected prevalence of smoking and obesity, infant mortality and standardised mortality ratios.

Sidmouth Town is ranked 5350 out of 8570 wards on our health score, indicating standards of health that are in the bottom 40% of wards nationally.

The map shows the performance of wards within East Devon on our health score (life expectancy indexed to the national average). The areas with very dark shading score highly and those with very light shading score poorly.

With a score of 98.88, Sidmouth Town is in the bottom 40% of wards and is in the district that is in the middle 20% of districts nationally.

Source: Life expectancy at birth

Looking in more detail at Sidmouth Town's health profile we find that:

- At 35.73 %, the proportion of the population in very good health in Sidmouth Town is very low, with the area ranking in the bottom 20% of wards nationally. By comparison, the East Devon figure is 43.79 % and the national figure is 47.14%.
- At 113.2%, the proportion of the population in good health in Sidmouth Town is estimated to be very high, with the area ranking in the top 20% of wards nationally. By comparison, the East Devon figure is 79.81% and the national figure is 81.19%.
- At 13.2%, the proportion of the population in bad health in Sidmouth Town is estimated to be very high, with the area ranking in the top 20% of wards nationally. By comparison, the East Devon figure is 11.68% and the national figure is 11.9%.
- At 1.26%, the proportion of the population in very bad health in Sidmouth Town is estimated to be average, with the area ranking in the middle 20% of wards nationally. By comparison, the East Devon figure is 1.13% and the national figure is 1.28%.
- At 11.92%, the proportion of the population whose day to day activities are limited a lot in Sidmouth Town is estimated to be very high, with the area ranking in the top 20% of wards nationally. By comparison, the East Devon figure is 8.92% and the national figure is 8.51%.

## Society Summary Indicators

The spider chart is a way of showing how Sidmouth Town rates against the national median on the summary social indicators. Data for every district in Great Britain is converted into a percentile score, with the top ranking area scoring 100 and the bottom zero. The national median is shown by the 50th percentile.

## Nearest Neighbours

For the indicators in the spider chart shown above, the areas in the country with the most similar profiles area shown opposite. These are statistically the nearest neighbours to Sidmouth Town, with St Marks in Rother being the most similar on the summary social indicators.

Rank	Ward Name	District
1	St Marks	Rother
2	Ferndown Central	East Dorset
3	Willingdon	Wealden
4	Garstang	Wyre
5	Tenterden North	Ashford
6	Woodhall Spa	East Lindsey
7	Seaford West	Lewes
8	Cherry Willingham	West Lindsey
9	Bourton-on-the-Water	Cotswold
10	Collington	Rother

## Society Scorecard

The society 'scorecard', showing how Sidmouth Town stands nationally, within its district, sub-region, and region. The 'scorecard' assesses the state of Sidmouth Town in terms of the composite social measures. The scores represent the quintile where the ward falls on each of the measures ('A' representing the strongest performance, ranging to 'E' representing the weakest). For demographic data a score has not been included but the overall ranking on the main composite measure is known.

Composite measure	District	Sub-region score	Region score	National Score	Summary
<b>Age</b>			-		Sidmouth Town is ranked 7 out of 8570 wards on the average age of residents, indicating an average age in the highest 20% of wards nationally.
<b>Ethnicity</b>			-		Sidmouth Town is ranked 4720 out of 8570 wards on the proportion of its population classified as Non-White, placing the area in the middle 20% of wards nationally.
<b>Average household size</b>			-		Sidmouth Town is ranked 8393 out of 8570 wards on the average household size, placing the area in the lowest 20% of wards nationally.

## Glossary of terms

Average age	The mean average age of the resident population.
Average household size	The mean average number of people living within a household.
Proportion of population classified as Non-White	The number of people classified as Non-White (Mixed Ethnic Group (White and Black Caribbean, White and Black African, White and Asian, Other Mixed), Caribbean, African, Other Black, Indian, Pakistani, Bangladeshi, Other Asian, Chinese or Other Ethnic Group). Classifications are based on Census ethnic groupings.
Knowledge worker score	This residence based figure provides an index of the proportion of the working age population who are employed in knowledge occupations.
Index of Multiple Deprivation Average Score	The Index of Multiple Deprivation; average SOA score provides a weighted average figure for the levels of deprivation in a given area. The IMD consists of 7 separate weighted 'domain' indices (Education 13.5%, Employment 22.5%, Crime 9.3%, Health 13.5%, Housing 9.3% & Income 22.5% Living Environment 9.3%). The higher the rank figure, the higher the deprivation level.
Health score	The health score provides an index of the average life expectancy at birth, of all residents in relation to the national average.

## Data Sources and Definitions

Average age	The mean average age of the resident population, Census 2011.
Average household size	The mean average number of people living within a household, Census 2011.
Proportion of population classified as Non-White	The number of people classified as Non-White (Mixed Ethnic Group (White and Black Caribbean, White and Black African, White and Asian, Other Mixed), Caribbean, African, Other Black, Indian, Pakistani, Bangladeshi, Other Asian, Chinese or Other Ethnic Group). Classifications are based on Census 2011 ethnic groupings.
Knowledge worker score	The proportion of knowledge workers occupations as a proportion of the working age population, indexed to the national average. Based on Standard Occupational Classification 2000 (SOC) groups (1) Managers and Senior Officials; (2) Professional occupations; (3) Associate Professional and Technical occupations, based on place of residence, Census 2011.
Index of Multiple Deprivation Average Score	Index of Multiple Deprivation Score
Health score	A higher score suggests greater levels of self-reported health. This score has been indexed to the national figure.

## Environment Introduction

This summary report looks at a number of aspects of the environment and quality of life in Sidmouth Town. In this profile, we consider the environment in terms of:

- Housing
- Transport and connectivity
- Access to Services

The report starts by presenting the data for the main composite measures for each aspect of Sidmouth Town's environment. Each one of these topics is then dealt with in turn. Finally, the composite measures form the basis of the spider chart analysis which sets out how Sidmouth Town rates against the national median for the scores. The spider chart also forms the basis of the list of statistical nearest neighbours (those areas in the country with the most similar profiles on this combination of composite measures). Finally, a summary report card for each aspect of economic development is presented. This is based on the quintile where the district falls on each of the measures ('A' representing the strongest performance, ranging to 'E' representing the weakest).

## Housing

While housing affordability is a national problem, its impacts are not evenly spread. While the previous boom in house prices in London and the South East is well documented, some areas in the North and Midlands continued to suffer from persistent low demand. Within this housing profile, housing is considered in terms of tenure, central heating and overcrowding.

Sidmouth Town is ranked 1456 out of 8570 wards on the proportion of households in owner-occupied properties, indicating that the area is in the top 20% of wards nationally in terms of owner-occupation.

The map shows the proportion of households living in owner-occupied properties for wards within East Devon. The areas with very dark shadings have a high proportion of households living in owner-occupied properties and those with very light shading have a low proportion living in owner-occupied properties.

With a score of 80.89, Sidmouth Town is in the top 20% of wards and in a district that is in the top 20% of districts nationally.

Source: Census 2011

Looking in more detail at Sidmouth Town's housing profile we find that:

- The proportion of dwellings that were detached within Sidmouth Town was 31.26% in 2011. This places Sidmouth Town in the middle 20% of wards nationally. By comparison, the East Devon figure was 38.41%, the Devon & Cornwall figure was 31.39%, and the national figure was 22.56%.
- The proportion of households that were rented within Sidmouth Town was 16.92% in 2011. This places Sidmouth Town in the bottom 20% of wards nationally. By comparison, the East Devon figure was 22.95%, the Devon & Cornwall figure was 30.03, and the national figure was 34.32%.
- The proportion of households that were socially rented in Sidmouth Town was 4.41% in 2011. This places Sidmouth Town in the bottom 20% of wards nationally. By comparison, the East Devon figure was 9.34%, the Devon & Cornwall figure was 12.42% and the national average was 17.63%.
- The proportion of households that had no central heating was 2.42% in 2011. This places Sidmouth Town in the middle 20% of wards nationally. By comparison, the East Devon figure was 3.87%, the Devon & Cornwall figure was 5.76% and the national average was 2.67%.
- The proportion of households that were overcrowded was 3.03% in 2011. This places Sidmouth Town in the bottom 40% of wards nationally. By comparison, the East Devon figure was 3.63%, the Devon & Cornwall figure was 6% and the national average was 8.54%.

Source: Census 2011

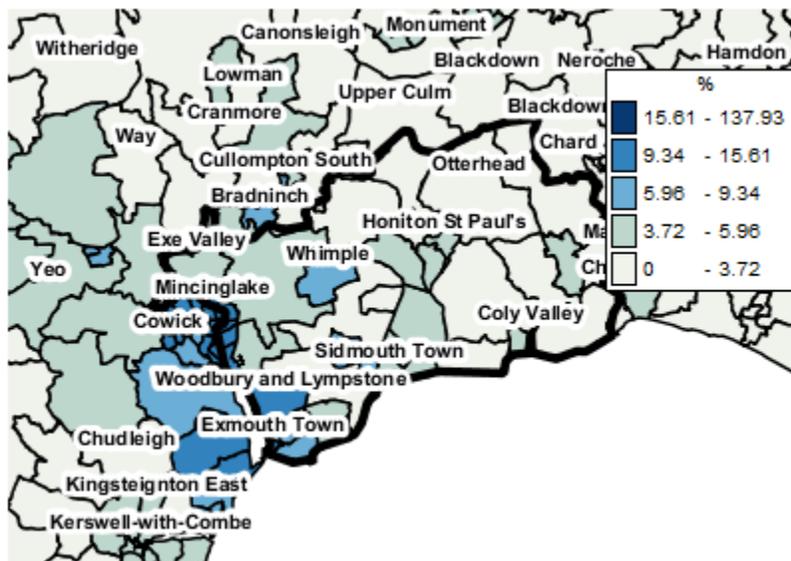

## Transport and Connectivity

Accessibility and connectivity have a major influence on an area's ability to attract business and investment. The transport and connectivity profile assesses Sidmouth Town transport use by referencing a range of indicators, including the level of public transport use by residents travelling to work.

Sidmouth Town is ranked 6613 out of 8569 wards on the use of public transport by those travelling to work, indicating an area that performs in the bottom 40% of wards nationally.

The map shows the performance of wards within East Devon. The areas with very dark shading score highly and those with very light shading score poorly.

With a score of 4.01, Sidmouth Town is in the bottom 40% of wards and in a district that is in the bottom 40% of districts nationally.

Source: Census 2011

Looking in more detail at Sidmouth Town's transport and connectivity profile we find that:

- The national average for the proportion of people who travel to work by car was 62.66% in 2011. By comparison the ward figure of 49.94% places the area in the bottom 20% of wards nationally.
- The proportion of residents who travel to work within Sidmouth Town by foot or bicycle was 35.72% in 2011. This is very high, placing it in the top 20% of wards nationally. By comparison the national figure is 13.61%.
- The proportion of residents who travel to work within Sidmouth Town by motorcycle or scooter was 0.06% in 2011. This is very low, placing it in the bottom 20% of wards nationally. By comparison the national figure is 0.81%.
- The national average for the proportion of people who travel to work by taxi was 0.52% in 2011. By comparison the ward figure of 1.41% places the area in the bottom 40% of wards nationally.
- The proportion of people who work from home in Sidmouth Town is very high, with the area ranking in the top 20% of wards nationally. The proportion of home-workers was 12.25% compared with 9.74% East Devon and 5.36% nationally.
- The national average for the proportion of people who travel to work by public transport was 16.4% in 2011. By comparison the ward figure of 4.01% places the area in the bottom 40% of wards nationally.

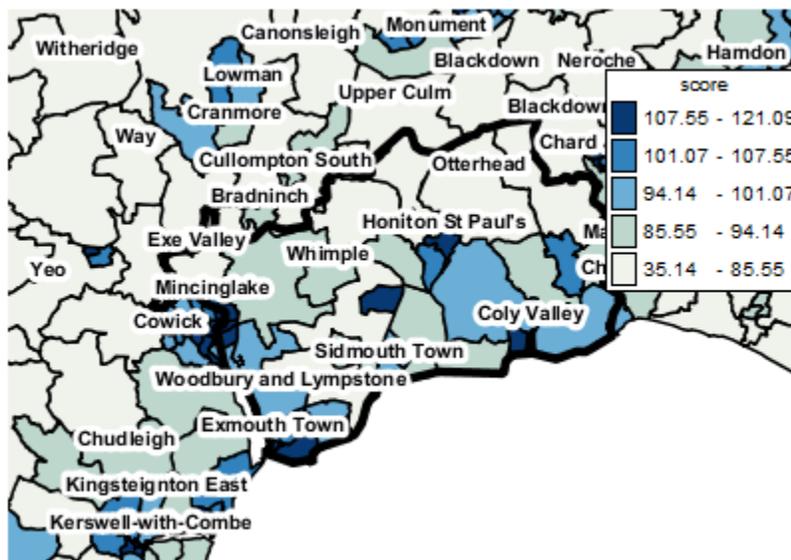

## Access to Services

This profile assesses service accessibility in Sidmouth Town by measuring the proportion of users who have access to services within a reasonable time. This is calculated as a figure relative to the national average. Travel times by mode of transport (car/public transport/walk/cycle) is taken into account. The higher the figure the greater the ease of access to the service, relative to the rest of England. Access to services measures the proportion of users who have access to the following services within a reasonable time: primary schools; secondary schools; further education; hospitals; GPs; food stores; and employment centres.

Sidmouth Town is ranked 4014 out of 7675 wards on our Access to Services score, indicating that access to services is in the middle 20% of wards nationally.

The map shows the Access to Services score for wards within East Devon. The areas with darker shading have better access to services and those with lighter shading have comparatively poor access.

With an Access to Services score of 96.97, Sidmouth Town is in the middle 20% of wards and is in the district that is in the middle 20% of districts nationally.

Source: DFT Accessibility statistics

Looking in more detail at Sidmouth Town's prosperity profile we find that:

- At 103.1, the Access to GP's score is above the national median, with the area ranking in the top 40% of wards nationally. By comparison, the East Devon figure is 94.35 and the national figure is 100.
- At 103.67, the Access to Primary School score is above the national median, with the area ranking in the top 40% of wards nationally. By comparison, the East Devon figure is 96.01 and the national figure is 100.
- At 97.98, the Access to Secondary School score is above the national median, with the area ranking in the middle 20% of wards nationally. By comparison, the East Devon figure is 88.08 and the national figure is 100.
- At 116.78, the Access to Further Education score is above the national median, with the area ranking in the top 20% of wards nationally. By comparison, the East Devon figure is 98.2 and the national figure is 100.
- At 53.17, the Access to Hospital score is above the national median, with the area ranking in the bottom 40% of wards nationally. By comparison, the East Devon figure is 116.51 and the national figure is 100.

- At 102.63, the Access to Food Store score is above the national median, with the area ranking in the top 40% of wards nationally. By comparison, the East Devon figure is 96.62 and the national figure is 100.

## Environmental Summary Indicators

The spider chart is a way of showing how Sidmouth Town rates against the national median on the summary environmental indicators. Data for every district in Great Britain is converted into a percentile score, with the top ranking area scoring 100 and the bottom zero. The national median is shown by the 50th percentile.

## Nearest Neighbours

For the indicators in the spider chart shown above, the areas in the country with the most similar profiles area shown opposite. These are statistically the nearest neighbours to Sidmouth Town, with Helmshore in Rossendale being the most similar on the summary environmental indicators.

Rank	Ward Name	District
1	Helmshore	Rossendale
2	Coly Valley	East Devon
3	Whitfield	Dover
4	Nettleham	West Lindsey
5	Belmont	South Kesteven
6	Chase Terrace	Lichfield
7	Shawbirch	Telford and Wrekin
8	Chipping Sodbury	South Gloucestershire
9	Portishead West	North Somerset
10	Heighington and Coniscliffe	Darlington

## Environment Scorecard

The environment 'scorecard', showing how Sidmouth Town stands nationally, within its district, sub-region, and region. The 'scorecard' assesses the state of Sidmouth Town in terms of the composite environmental and quality of life measures. The scores represent the quintile where the ward falls on each of the measures ('A' representing the strongest performance, ranging to 'E' representing the weakest).

Composite measure	District	Sub-region score	Region score	National Score	Summary
<b>Housing</b> An 'A' Represents areas with the most owner occupied properties	A	A	B	A	Sidmouth Town is ranked 1456 out of 8570 wards on the proportion of households in owner-occupied properties, indicating that the area is in the top 20% of wards nationally in terms of owner-occupation.
<b>Work Travel</b> An 'A' Represents areas with the greatest use of public transport	C	C	C	D	Sidmouth Town is ranked 6613 out of 8569 wards on the use of public transport by those travelling to work, indicating an area that performs in the bottom 40% of wards nationally.
<b>Access to Services</b> An 'A' Represents areas with the highest access to services	C	C	B	C	Sidmouth Town is ranked 4014 out of 7675 wards on our Access to Services score, indicating that access to services is in the middle 20% of wards nationally.

## Glossary of terms

Proportion of households in owner-occupied properties	The proportion of owner-occupied households (owned outright and/or owned with a mortgage or loan)
Proportion of people who travel to work by public transport	The proportion of the resident population aged between 16 and 74 who travel to work by using the Underground, (metro, light rail or tram), train, bus, mini-bus or coach.
Access to services (time): score	This indicator is a composite based on the indexes of the proportion of service users who have access to the following services within a reasonable time (which is calculated as a figure relative to the English average, so will be different depending on the service in question): primary schools; secondary schools; further education; hospitals; GPs; food stores; and employment centres.

## Data Sources and Definitions

Proportion of households in owner-occupied properties	Households in owner-occupied properties as a proportion of all households, Census 2011.
Proportion of people who travel to work by public transport	Number of persons travelling to work by public transport as a proportion of all persons travelling to work. This data is based on place of residence from the 2011 Census.
Access to services (time): score	Congestion is taken into account, using 'Trafficmaster' and factored in to the score. The higher the figure, the greater the ease of accessibility to the service, relative to the rest of the England. Please note: LSOA 2003 figures are converted into Ward 2011 figures using a 'best fit' methodology.
