Subject: Re: Local Plan Consultation

Dear Mr. Freeman,
Unfortunately I am unable to attend the consultation meetings but I would like to put my point across to say that Upottery in my opinion is sustainable with the following advantages. School, church, village hall, public house with shop carrying essentials, petrol station, car sales, A303 restaurant, post office one day week, bus service to Taunton and Honiton.
Surely this makes the village sustainable with all these which have more than Broadhembury which is supposed to be sustainable.
I hope a positive decision can be made on Upottery as we need further low cost houses for local young families.
Kind regards
Cllr. David Key. Dunkeswell and Otterhead Ward.
