Subject: Objection to sites north east of Exmouth

Categories: Reg.18 consultation

Hello,

I strongly object to the following sites North East of Exmouth (Exmo_04a, Lymp_09, Lymp_10, Lymp_14) in the local plan. I feel strongly that we don't have the infrastructure to support further residents in place and that the location (no bus routes, cycle path mean a huge increase in the volume of traffic on the road.

Our sewage system regularly overflows into the sea at Exmouth beach when raining. The nearest local a&e and hospital (rd&e) is regularly on highest alert for being full to capacity. Mental health services have huge waiting lists with people unable to access support when needed. People are having to send their children elsewhere as Exmouth community college is full. And lastly the environmental impact increased flooding risk and impact on wildlife in area.

We need affordable houses being built for local people who want to continue to live and work in our town and own their own property. There are other sites nearer to the town centre that would be more appropriate such as the EDDC camperdown terrace depot.

We have already had plumb park and goodmores development in Exmouth and we object to more other sites need to be found.

Rebecca Kempster
