**Subject:** Upottery unsustainable

Dear Mr Freeman in regard to eddc recommendation to classify Upottery as unsustainable I wish to register my objection to this classification on several grounds one of which is the fact you are doing this without any direct consultation with the people of Upottery parish and giving very short notice 7th-11-22 to 31st-12-22 now extended to 15-1-23 very neatly through a very busy period (Christmas) Upottery has been a very sustainable community mainly due to the resort fullness of our own community with a very successful school and a host of thriving clubs and activities with basically no input from eddc I seriously think you should reconsider your faceless intentions  
Regards Andrew Curtis A resident of UPOTTERY for the last 70years ish
