Subject: Honi01 (community objections) draft local plan

Dear East Devon District Council planning policy team and Strategic Planning Committee.

Please find attached a 67 completed community survey forms and report on the inclusion of site Honi_01 in your new local draft plan. (hardcopies will be handed in tomorrow Friday to the Planning team at Blackdown House).

These survey forms are from a community open day on the 16th December held by the Heathfield Community Action Group with regards to your inclusion of the site Honi_01, which lies within an Area Of Outstanding Natural Beauty, just south of the Heathfield Estate in Honiton.

We would like the planning team to please include these objections to the above mentioned site and we have listed the many reasons for doing so in the attached report and would encourage the SPC to read through to see the depth of feeling by the community towards including this beautiful location for development yet again so soon after being rejected twice before by yourselves in 2014/15.

The majority of residents on these survey forms are the ones who have been disenfranchised by the process, as they either have no access or technical ability to object on the Commonplace website and therefore came to our open day for help and assistance.

We would be grateful to the planning team if the full number of letters and emails also received for this site will be reported to the SPC in due course when your discussions begin in Feb/March.

Many thanks for your time and consideration.

Kind regards

Ray Levy and Robert Fowles

Heathfield Community Action Group
