**Categories:** Reg.18 consultation

I oppose this planned development on a range of areas from road flooding, schools access and over subscription, doctor surgery capacity, traffic flow and volume which has already exceeded the capacity for the village. Any additional development will push the area to breaking point. We see this with our wonderful NHS presently. Your planners need to visit Broadclyst at these times to appreciate the lack of cared for infrastructure, so to propose further development is unacceptable if not criminal. I expect you to abandon your plans. Yours Barry Wilding-Webb
