Categories: Reg.18 consultation

I Wish to register my complaints about the EDDC Local plan regarding Exmouth proposed new housing
The SWW sewage system is not able to cope with the housing we have already have There are hundreds of illegal pollution incidents every year
SWW sewage system is not fit for purpose
There's Little or no provision for affordable housing
A Lack of new Health Provision
Bearing in mind the Government climbdown on the implementation of the extra housing,
The Proposed Local plan will not be Compliant with the new legislation

This is my personal opinion
KIND REGARDS BRIAN BAILEY
