

22.12.22,

Mr G. Potter

Dear Sirs,

I am writing to let you know of my great disappointment, of plans to build a housing estate to the rear of my property

The main reason I purchased my property was open fields and views of countryside to the rear of me, I have had much enjoyment of seeing the many birds that frequent this area, Buzzards, Star Tits, Green Woodpeckers, Fieldfare, Redwings, Coal Tits and many more, which this will soon all now disappear,

My retirement to this property has now turned into a nightmare, and has given me many sleepless nights, also the traffic trying to join A35, already gets gridlocked trying to access main roads, unbelievable.

Yours sincerely
