Subject: Proposed New Housing Sites

Categories: Reg.18 consultation

I wish to register my objection to the sites to the North East of Exmouth, (Exmouth 04a, and Lymp 09, 10 and 14) in the Local Plan which aren't sustainable. Instead I strongly feel plans for Hill Barton , (North) should go ahead with urgency, and also more sites nearer to Exmouth town centre explored.

I live just around the corner from the Goodmores development, which is already becoming a monstrosity and will cause much more traffic on what is an already very busy stretch of road.. Whoever gave this the nod through with an already over busy doctors surgery at Pines Road, and no proper infrastructure in place to cope with things such as sewage, schools, traffic chaos, etc, in my opinion shows a complete lack of foresight.

I fear this is going to happen again and again. Those who make these decisions don't have to live in these (becoming overcrowded) areas.
