Dear planning dept

As a resident of Lympstone parish,I am very concerned about the plans for another 500 new homes to be built.

The present infrastructure of schools, doctors and the already clogged A376 would be deeply compromised if this goes ahead. Things are pretty stretched already.

The loss of green space , for wildlife would be detrimental,especially as the area is boasted as an area of outstanding beauty.

Please can you consider my objections.

Yours sincerely

Tina Bissett
