Subject: EDDC consultation re housing development at Courtlands Cross

Categories: Reg.18 consultation

Dear Sir/Madam

I wish to object to the proposed housing development at Courtlands Cross. Such a development would significantly impact on the "green wedge" and current infrastructure. We have lately seen increased traffic in the lane and are experiencing larger and larger service vans and lorries destroying banks, eroding hedges and causing traffic chaos. This can only lead to more flooding, sewage and drainage problems. As well as further demands being made on schools, GPs and local services

Yours faithfully,
Sandra Leathlean
