To Strategic Planning,

Re: Honi - 01

I most strongly object to the proposed building site at Honi 01.

Why?

- 1) Damage to wildlife, this is a designated area of outstanding natural beauty, please don't allow even more countryside to be grabbed and destroyed.
- 2) There will be a worry and risk of flooding due to extra properties, with surface run off, and, climate change causing more rain.
- 3) An already overloaded sewage and drainage system, will this be taken into account should it go ahead, reassurances please? This will affect all properties even those lower down.
- 4) Yet more people and children putting pressure on doctors, dentists and schools. Will more

Surgeries and schools be provided to cope with the extra influx --- I doubt it.?

2) Peoples privacy and quiet living environment will disappear due to extra properties and heavier traffic. The constant access up & down Honeysuckle Drive could well devalue homes. Many people especially older folk chose their homes with peace and quiet in mind, did they ask for this, is that right, I think you know the answer?

But of course, we all know many people stand to make a lot of money out of this, and natural greed often wins. I really hope this isn't the case and common sense will prevail. Please be a council that will stand up for its original residents and one that we can rely on and be proud of.

Yours faithfully,
