Subject: Green Wedge Protection

Categories: Reg.18 consultation

Hi there,

I am writing to express my concern over the planning of building houses near my home.

*We have bats in the area. Their homes have already been encroached on by the Rowan Drive extension.

*I asked before moving in if there were plans for the field at the back of my house. I was told "no".

*I suffer with extreme anxiety and depression. Any building noise is likely to make me VERY ill and depressed.

*Many residents have cats. Noise and building chaos is likely to upset them.

*Building dust can cause cancer.

*The Green Wedge is a dearly loved area for locals. We don't want it to be built on.

PLEASE RECONSIDER!

Thanks,

Kate Jones
