**We strongly object to the inclusion of the sites to the North East of Exmouth (Exmo\_04a, Lymp\_09, Lymp\_10, Lymp\_14) in the Local Plan which are not sustainable. Instead plans to build a new community in the area north of Hill Barton should be accelerated and to find more town centre sites in Exmouth. The current levels of traffic are already appalling and, especially with no sign of the link between Dinan Way and the A376 being built anytime soon, this development will add further to the problem. Also, where are the affordable homes and why are any new developments not being made to conform to the highest environmental standards?**
