Dear Planning Personnel,

I agree with the with eight reasons for the Gittisham Parish Council's objections to future local developments.

In particular the detrimental impact more development will have on the village of Gittisham and it's conservation area.

Additional traffic accessing Hayne Lane and the existing Hayne Farm new estate would be unavoidable - some roads are extremely narrow and others overloaded with the parking of large domestic vehicles.

more and more people will put even further strain on the overstretched health-centre and hospital in Honiton.

In addition, main roads, sewers, sewage treatment and flood water infrastructure are already at capacity.

yours sincerely
