Subject: Sustainability

Hello Ed,

I have always been curious about the question of sustainable or unsustainable.

I have lived in this village for 47 years and have always taken it as sustainable.

We have the following facilities: Church, Pub with small shop, Vibrant School, Village Hall, Child's play area, Football Cricket and Tennis courts, Allotments, Bus service(Honiton to Taunton) Post Office once a week, Petrol filling station with shop, Garage and vehicle sales and MOT testing.

I am sure this is sufficient to make an area sustainable and would like it to be seriously considered as there is no other village in the area with the same kind of facilities.

Kind regards

Cllr. David Key. Dunkeswell & Otterhead.
