ABOUT *Beautiful* CONNAUGHT GARDENS

Heritage architecture overlooking views of Sidmouth's Jurassic Coast

THE FORMAL USE of this land dates back to around 1820 when Emmanuel Lousada, owner of nearby Peak House, started the construction of a detached marina villa called Cliff Cottage.

Once it was bought by the council, the main lawn was modified slightly and remains the focus today of activities in the gardens. The high walls were considered essential to provide shelter and the old entrance drive was also retained. It is these features that still survive today and provide the main backbone to the structure of the garden and areas such as the jungle remain much as they were then. The gardens now contain a fine range of plants that thrive in the temperate climate including a new herbaceous bed by the main lawn.

The beautiful shaded Pergola Walk in Connaught Gardens

The gardens were named after His Grace, The Duke of Connaught, Queen Victoria's third son. Although the duke's first visit to Sidmouth was not until 1931, the royal link with Sidmouth goes back even further when the young Princess Victoria, aged six months, with her parents, stayed in what is now the Royal Glen Hotel.

It was the duke himself who formally opened the gardens on 3 November 1934 at the age of 84. The plaque marking the grand opening is still clearly visible within the gardens overlooking the main lawn.
