7. Adapting to Climate Change

1. To which part of the Adapting to Climate Change chapter does your representation relate?: Policy

1(a). Please write down the paragraph, policy or figure number that your representation relates to.: AR03

2. Do you consider that this part of the Adapting to Climate Change chapter is legally compliant?:

2(b). If no, please give details of why you consider this part of the Adapting to Climate Change chapter is not legally compliant. Please be as precise as possible.:

CCMA is a totally unjustified oppression of the Property owners who would be affected. I will definitely be joining in a submission to the European Court of Human Rights . Quote: 'Under Article 1 of Protocol 1 to the European Convention on Human Rights (ECHR), everyone has the right to the peaceful enjoyment of their possessions, and no one shall be deprived of their possessions except in the public interest and under conditions provided by law and general principles of international law.' There is no public interest .

2(c). Please set out the modification(s) you consider necessary to make this part of the Adapting to Climate Change chapter legally compliant, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Adapting to Climate Change chapter legally compliant. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: None . It is totally unjustified

3. Do you consider that this part of the Adapting to Climate Change chapter is sound?: No

3(a). If yes, and you wish to support the soundness of this part of the Adapting to Climate Change chapter, please use this box to set out your comments.:

-

3(b). If no, please give details of why you consider this part of the Adapting to Climate Change chapter is not sound. Please be as precise as possible.: I believe the forecast changes to the coastline were produced to allow this bureaucratic measure and ignored the historical knowledge of residents. The view of most local residents is that the measures to protect the town in 1995 are responsible for the loss of shingle on East Beach and it's reinstatement by the Beach defences now planned for 2027 will halt erosion even if better solutions are not acted upon.

3(c). Please set out the modification(s) you consider necessary to make this part of the Adapting to Climate Change chapter sound, in respect of any matters you have identified above. You will need to say why each modification will make this part of the Adapting to Climate Change chapter sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.: Stop kow-towing to unrepresentative National bodies and stand up for the people of Sidmouth. That's what you were elected to do ,not to waste time and effort on Bureaucracy

4. Do you consider that this part of the Adapting to Climate Change chapter complies with the duty to cooperate?: No

4(a). If yes, and you wish to support this part of the Adapting to Climate Change chapter's compliance with the duty to co-operate, please use this box to set out your comments.:

-

4(b). If no, please give details of why you consider this part of the Adapting to Climate Change chapter fails to comply with the duty to co-operate. Please be as precise as possible.:

This measure does not 'cross boundaries' other than that caused by you passing our East Beach Defence Scheme ,and presumably it's funding , over to BCP Council. This will allow it to be 'kicked down the road' and the funding dissipated on more Consultants and prevarication. What is the point of a Local Council if it does not take direct responsibility for it's area?

5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?: Yes, I wish to participate in hearing session(s)

6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary.: I want to see and hear the small-minded eco-vandals who will vote to destroy Sidmouth's unique and precious East view. They will not be forgiven.
